The *National HIV Serosurveillance Summary* is published by the Division of HIV/AIDS Prevention, National Center for Prevention Services, Centers for Disease Control and Prevention, Atlanta, Georgia 30333. All data contained in the Summary are provisional.

This publication updates and supplements information published in the *National HIV Serosurveillance Summary: Results through 1992*, Vol. 3, and should be used in conjunction with that document for a more complete description of the surveys, including their objectives and methods. Figure and table numbers referenced in this update correspond with those used in the Summary and therefore may not be sequential.

Centers for Disease Control and Prevention
