Transmittal Letter No. 644

Volume I

To: Heads of Government Departments, Agencies, and Others Concerned

1. Purpose

This transmittal letter releases revised I TFM 2-4700, Agency Reporting Requirements for the *Financial Report of the United States Government*. This chapter describes how agencies provide data for the *Financial Report of the United States Government* using the Governmentwide Financial Report System and the Federal Agencies' Centralized Trial-Balance System. It also includes the Financial Management Service's fiscal 2008 Closing Package methodology, the Federal intragovernmental transactions process, and requirements for electronically submitting preclosing adjusted trial-balance(s).

Part 2—Chapter 4700

AGENCY REPORTING REQUIREMENTS FOR THE FINANCIAL REPORT OF THE UNITED STATES GOVERNMENT

This chapter describes how agencies provide data for the *Financial Report of the United States Government* (FR) using the Governmentwide Financial Report System (GFRS) and the Federal Agencies' Centralized Trial-Balance System (FACTS I). It also includes the Financial Management Service's (FMS's) fiscal 2008 Closing Package methodology, the Federal intragovernmental transactions process, and requirements for electronically submitting preclosing adjusted trial-balances (ATBs).

Section 4701—Scope and Applicability

All agencies must provide FMS with required fiscal yearend data that will be used to prepare the FR. All verifying agencies (see Figure 1) must submit their financial data using the Closing Package process via GFRS and FACTS I. All nonverifying agencies must submit FACTS I ATB data and must complete GFRS Notes and Other FR Data.

GFRS uses a Closing Package methodology that has been developed to:

- Capture each agency's Closing Package information and link the agencies' comparative, audited consolidated, department-level financial statements to the FR;

AND

- Resolve material weaknesses identified by the Government Accountability Office (GAO).

The Chief Financial Officer (CFO) of each verifying agency must prepare and submit the Closing Package data for fiscal 2008 and fiscal 2007 via GFRS at the department level and must verify its consistency with the comparative, audited consolidated, department-level financial statements. The Inspector General (IG) of

each verifying agency, except those agencies with a yearend other than September 30, must opine on the Closing Package data, entered by the CFO into GFRS, as to its consistency with the comparative, audited consolidated, department-level financial statements.

All agencies (verifying and non-verifying) must submit preclosing ATBs via the FACTS I Internet application on the Government On-Line Accounting Link System (GOALS) II. Agencies must submit their ATBs at the Treasury appropriation/fund group level using proprietary U.S. Standard General Ledger (USSGL) accounts (see Appendix 11). The ATB data from verifying agencies is a tool used to facilitate the Closing Package and is not used to prepare the FR.

GFRS compiles the information from the FACTS I submissions for nonverifying agencies into a set of "generic" financial statements that are included in the consolidated FR. Nonverifying agencies must prepare and submit note data based on the amounts from the "generic" financial statements compiled in GFRS.

Reporting requirements in this chapter are grouped as follows:

- Section 4705 includes Closing Package requirements;

- Section 4706 includes intragovernmental requirements;

AND

- Section 4707 includes FACTS I requirements.

Section 4702—Authority

Section 405 of the Government Management Reform Act of 1994 [31 U.S.C. 331(e)(1)] requires that the Secretary of the Treasury annually prepare and submit to the President and the Congress an audited financial statement for the preceding fiscal year. This statement must cover all accounts and associated activities of the executive branch of the Federal Government. Section 114 of the Budget and Accounting Procedures Act of 1950 (31 U.S.C. 3513a) requires each executive branch agency to furnish financial and operational information as the Secretary of the Treasury may stipulate.

These mandates do not apply to the legislative and judicial branches of the Federal Government. However, Treasury does encourage these entities to submit ATBs, GFRS Notes, and Other FR Data, as applicable.

Section 4703—Definition of Terms

Adjusted Trial-Balance (ATB)—This is a list of USSGL accounts with attributes and preclosing adjusted balances prepared at a specified date (yearend). Agencies submit ATBs by fund group and must include USSGL accounts listed in numeric order. The USSGL account balances should reflect preclosing adjusting entries. The total sum of the debit balances must equal the total sum of the credit balances in the ATB. Agencies must include the required attributes with the appropriate USSGL accounts (see Appendix 11).

Allocation Transfer—This is the amount of budget authority transferred from one agency, bureau, or account that is set aside in a transfer appropriation account to carry out the purposes of the parent appropriation or fund.

ATB Code—This is a code that consists of a department, a bureau, and a four-digit Treasury appropriation/fund group. This is a unique identifier code for a record in the Master Appropriation File (MAF).

Attribute—This is a modifier that further describes a USSGL account to meet a specific reporting requirement. Agencies capture this information at the transaction level. The following are attributes included in Appendix 11 to further modify a USSGL account:

A—This is an attribute of a USSGL account balance that indicates the amount is not reported on the Statement of Custodial Activity or custodial footnote.

F—This is an attribute of a USSGL account balance that results from transactions between Federal Government entities included in the FR. These often are referred to as “intragovernmental transactions.” The USSGL account reported on an ATB with attribute “F” must have a two-digit partner code (see the department codes in Appendix 5) that identifies the trading partner at the department level.

N—This is an attribute of a USSGL account balance that results from

transactions **not** with a Federal Government entity included in the FR.

S—This is an attribute of a USSGL account balance that indicates the activity is related to the Statement of Custodial Activity or custodial footnote.

T—This is an attribute of a USSGL account balance that indicates the balance being reported is nonexchange revenue. Nonexchange revenue arises primarily from exercise of the Government’s power to demand payments from the public (for example, taxes, duties, fines, and penalties) but also includes voluntary donations and other inflows of resources.

X—This is an attribute of a USSGL account balance that indicates the balance being reported is exchange revenue. Exchange revenue arises when a Federal entity provides goods and services to the public or to another Federal entity for a price. Exchange revenue includes most user charges other than taxes. Another term for exchange revenue is “earned revenue.”

Budget Functional Classification—This system classifies budget resources by function and subfunction. It groups budget authority and outlays of budget and off-budget Federal entities in terms of the national needs being addressed.

Each three-digit budget subfunction (BSF) code contained in the MAF represents a subfunction grouped under one of 19 functions. The Office of Management and Budget (OMB) groups each of the 19 functions under the 5 superfunctions presented in the *Budget of the United States Government*. Each ATB is associated with a single BSF identified in the MAF record. (See Appendix 9 for a list of valid BSFs.)

Closing Package—This is a methodology designed to link agencies’ comparative, audited consolidated, department-level financial statements to the FR. The Closing Package is the data submitted by each verifying agency for inclusion in the FR.

Deposit Fund Accounts—Agencies use these accounts to hold the following:

- Money the Government has withheld from payment for goods or services provided;
- Deposits received from outside sources in cases where the Government acts solely as a banker, fiscal agent, or custodian;

AND

- Money the Government has withheld awaiting distribution based on a legal determination or an investigation.

Financial Statement Template—This template is a format defined by each agency based on its comparative, audited consolidated, department-level financial statement line items and USSGL crosswalks.

General Fund Receipt Account—This is a receipt account credited with all collections that are not earmarked by law for another account for a specific purpose. These collections are presented in the President’s *Budget of the United States Government* as either governmental (budget) receipts or offsetting receipts. These include taxes, customs duties, and miscellaneous receipts (GAO, A Glossary of Terms Used in the Federal Budget Process, September 2005, GAO-05-734SP). There are numerous General Fund receipt accounts that are described in the *Federal Account Symbols and Titles (FAST) Book*. See the FAST Book Web site at <http://www.fms.treas.gov/fastbook>.

Interdepartmental Balance—This USSGL account balance results from a transaction between trading partners included in the FR that are not in the same department.

Intradepartmental Balance—This USSGL account balance results from a transaction between trading partners in the same department.

Intragovernmental—These transactions and/or balances result from business

activities conducted by two different Federal Government entities included in the FR. Interdepartmental and intradepartmental are subsets of intragovernmental.

Nonverifying Agencies—Agencies not included in Figure 1.

Probable Likelihood of Loss—This term implies that the future event or events are more likely than not to occur, with the exception of pending or threatened litigation and unasserted claims. For the pending or threatened litigation and unasserted claims, the future confirming event or events are likely to occur. If a negative outcome is probable, the agency must record a liability on its books for the estimated amount of loss. The estimated liability may be a specific amount or a range of amounts. If some amount within the range is a better estimate than any other amount within the range, then the agency should recognize that amount as a liability and should disclose the range of possible loss as well as the nature of the contingency in its notes to the financial statements. If no amount within the range is a better estimate than any other amount, then the agency should recognize the minimum amount in the range as a liability and should disclose the range and

a description of the nature of the contingency in its notes to the financial statements. See Federal Accounting Standards Advisory Board (FASAB) Statements of Federal Financial Accounting Standards (SFFAS) No. 5 and No. 12.

Reasonably Possible Likelihood of Loss—This term implies that the chance of the future event or events occurring is more than remote but less than probable. If it is reasonably possible that the agency will incur a loss, the agency must disclose the nature of the contingency and an estimate of the possible liability, an estimate of the range of the possible liability, or a statement that such an estimate cannot be made. See FASAB SFFAS No. 5 and No. 12.

Reciprocal Category (RC)—This is a set of Closing Package financial statement Federal line items that will be used to perform eliminations at the Governmentwide level (see Appendix 6).

Reclassified Financial Statement—This is a “generic” agency financial statement format used across the Government. Agencies “reclassify” or move amounts from their comparative, audited consolidated, department-level financial

statement line items to the Closing Package reclassified financial statement line items. For nonverifying agencies, these statements are system-generated using FACTS I ATB data.

Remote Likelihood of Loss—This term implies that the chance of the future event or events occurring is slight. If only a remote chance of loss is possible, the agency need not record a liability nor disclose a note. See FASAB SFFAS No. 5 and No. 12.

Special Fund Receipt Accounts—Agencies use these accounts for collections earmarked by law for a specific purpose.

Suspense Accounts—Agencies use these accounts to temporarily hold collections and, in certain suspense accounts, disbursements. They use these accounts pending clearance to the applicable receipt or expenditure account in the budget. A fiscal year “F” preceding the last four digits of the fund symbol identifies a suspense account.

Treasury Appropriation/Fund Group—This four-digit identifier corresponds to the Treasury account symbol found in the FAST Book. Agencies report most

ATBs at the Treasury appropriation/fund group (for exceptions, see subsection 4707.20c). The Treasury appropriation/fund group combines all fiscal years reported for each agency appropriation or fund account symbol.

Treasury Appropriation Fund Symbol (TAFS)—This combination of numbers denotes the responsible agency, period of availability, and fund classification according to a prescribed system of account classification and identification.

United States Standard General Ledger (USSGL) Data—This is FACTS I ATB data that can be viewed in GFRS to assist agencies in completing their Closing Packages, and for nonverifying agencies to complete notes and other FR data. The financial data in the Closing Packages are based on the agencies’ comparative, audited consolidated, department-level financial statements. See the USSGL Web site at <http://www.fms.treas.gov/ussgl>.

Verifying Agencies—These agencies consist of the 24 major CFO Act agencies and 11 other agencies material to the FR.

See Figure 1 for the list of verifying agencies.

Section 4704—FR Processing Key Dates

See Figure 2, FR Processing Key Dates, for submission and reporting dates.

Section 4705—Closing Package Requirements

Verifying agencies must:

- Reclassify all line items and amounts on their comparative, audited consolidated, department-level Balance Sheet, Statement of Net Cost, Statement of Changes in Net Position/Income Statement, and Statement or Note on Custodial Activity (if

applicable) to the Closing Package reclassified financial statement formats (see Appendix 2). Statement of Social Insurance information will be reported in GFRS Module GF006, FR Notes. Refer to subsection 4705.20c for details.

Note: The Statement of Social Insurance is one of the basic financial statements to which the IG of the verifying agency, if applicable, must opine as to its consistency with the comparative, audited consolidated, department-level financial statement.

- List Closing Package line item amounts identified as Federal (items to be eliminated in the Governmentwide consolidation) by trading partner and amount (see Appendix 6).
- Report Notes dependent upon the Reclassified Balance Sheet line items and other Notes

required in the FR (see Appendix 3).

- Disclose other information not contained in the primary FR financial statements and Notes required to meet the FASAB standards (see Appendix 4).
- Provide explanations for any data that has changed by the FMS established threshold or more between fiscal 2007 and fiscal 2008 as required by GFRS.
- Provide to FMS an electronic copy of the draft financial statements when the copy is provided to OMB.
- Contact FMS, or be contacted by FMS, to determine reporting procedures for any adjustments to their Closing Package data after November 17, 2008.

4705.10—GFRS System Access

The GFRS Internet application on GOALS II requires a user ID and password. The address for the GFRS Internet application on GOALS II is <https://fmsapps.treas.gov/ias>.

Agencies can apply for a user ID and password by submitting a GOALS II Enterprise System Access Request (ESAAS) Form. Contact the GWA Customer Assistance Group for information at 202-874-8270.

4705.15—GFRS Reportable Data

4705.15a—Preparation of Financial Statement Template

Verifying agencies must update, via GFRS Module GF001, Financial Statement Template, the USSGL crosswalk logic to the comparative,

audited consolidated, department-level Balance Sheet, Statement of Changes in Net Position, Statement of Net Cost/Income Statement, and Statement or Note on Custodial Activity (if applicable).

Note: The Statement of Social Insurance is contained in the Notes Module.

4705.15b—The Closing Package

Figure 3 depicts the Closing Package process. FMS will use the agencies' Closing Packages to prepare the FR.

CFOs of the verifying agencies and nonverifying agencies must submit all Closing Package data via the GFRS Internet application on GOALS II to FMS by 6 p.m. EST on November 15, 2008, for fiscal 2008 reporting. See Figure 2.

4705.20—Reclassification of Verifying Agencies' Financial Statements

Verifying agencies must enter and reclassify their comparative, audited consolidated, department-level Balance Sheet, Statement of Net Cost, Statement of Changes in Net Position/Income Statement, and Statement or Note on Custodial Activity (if applicable) to the formats in the three Closing Package statements presented in Appendix 1, Reclassified Financial Statements and Line Item Descriptions. Appendix 1 describes the Closing Package financial statement line items. Appendix 2 includes examples of how to reclassify agency line items to the Closing Package format. These descriptions provide guidance when reclassifying amounts from agency line items to Closing Package line items. FMS requires that agencies include two line items on the Statement of Net Cost or the Income Statement to facilitate the reclassification of this statement, "Total Gross Cost" and "Total Earned Revenue." These lines are the sum of all program lines for "Gross Cost" and "Earned Revenue" reported on the Net Cost Statement.

GFRS uses a normal balance concept. The normal balance is the regular balance of a line item and is either a debit or credit as determined by the account type selected. All numbers must be entered as positive in GFRS unless the balance of that line is abnormal. The normal balance attribute is used to determine the appropriate stored value of manually entered amounts.

Verifying agencies report the line items on their financial statements based on what is most material and useful to them. These line items may not match line items on the FR for several reasons. For example, the FR line items may not apply to the agency, the amounts could be immaterial at the agency level, or the agency may find it useful to include more detail than the FR reports.

4705.20a—Custodial Activity

SFFAS No. 7, paragraph 353, states:

Disposition of revenue to other entities: custodial transfers.—Revenue, primarily nonexchange revenue, may be collected by an entity acting on behalf of the General Fund or another entity within the Government on whose behalf it was collected. The collecting entity accounts for the disposition of revenue as part of its custodial activity. These custodial transfers, by definition, do not affect the collecting entity's net cost of operations or operating results, nor are they part of the reconciliation between its obligations and net cost of operations. (The receiving entity recognizes the revenue as nonexchange or exchange revenue depending on its nature, according to the applicable revenue standards.)

For exchange revenue with virtually no cost, see SFFAS No. 7, paragraph 140. The custodial revenue is reported by the collecting agency on the Statement of Custodial Activity or on the Custodial Activity Note.

However, for exchange revenue collected for others with related cost incurred, agencies should follow the guidance from SFFAS No. 7. Paragraph 137, states:

As a general rule, exchange revenue transferred to others must be offset against the collecting entity's gross cost to determine its net cost of operations. Exchange revenue reduces the net cost of operations incurred by the entity in producing outputs, regardless of whether the entity keeps the exchange revenue for its own use or transfers it to another operating entity or the General Fund. Likewise, exchange revenue reduces the net cost of the entity's operations to the taxpayer regardless of its disposition. Therefore, all exchange revenue related to the cost of operations must be deducted from gross cost to determine the net cost of operations for the entity.

Furthermore, SFFAS No. 7, paragraph 138, states:

Any exchange revenue that is transferred to others, however, does not affect the collecting entity's net position. Therefore, as required by the standards for other financing sources, such exchange revenue is recognized as a transfer-out in calculating the entity's operating results.

At the Governmentwide level, these collections are recognized as revenue.

Verifying agencies that report a Statement or Note on Custodial Activity in their comparative, audited consolidated, department-level financial statements will reclassify exchange revenue without associated costs (virtually no cost) and nonexchange revenue from the Statement or Note on Custodial Activity to the Closing Package line items on the Statement of Changes in Net Position. From the Sources of Collections section of the Custodial Statement or Note, reclassify all nonexchange revenue lines to "Other taxes and receipts" and exchange lines to

“Miscellaneous earned revenue” (with the exception of customs duties, and taxes collected by the Department of the Treasury, the Department of Labor, and the Department of Homeland Security). From the Disposition of Collections section, reclassify all Federal lines to “Other financing sources” and non-Federal lines to “Other taxes and receipts.”

Agencies must report the custodial revenue as non-Federal, “N,” at the time of collection from the public (that is, the Sources of Collection section). The disposition of the custodial revenue to other Federal agencies must be reported as Federal “F” in the reclassified Statement of Net Cost or Statement of Changes in Net Position when reporting in GFRS. Any Federal agency receiving custodial revenue from the collecting agency must report this revenue as Federal “F” in its reclassified Statement of Net Cost or Statement of Changes in Net Position when reporting in GFRS. If the collecting agency retains a portion of the custodial revenue, the agency also must report this revenue as Federal “F” in its reclassified Statement of Net Cost or Statement of Changes in Net Position when reporting in GFRS and must use its own trading partner code.

Agencies that have collections that do not meet Statement of Custodial Activity or custodial footnote reporting requirements should refer to the General Fund Receipt Account Guide on the USSGL Web site (<http://www.fms.treas.gov/ussgl/index.html>) for further guidance.

4705.20b—Earmarked Funds

Earmarked funds are financed by specifically identified revenues, often supplemented by other financing sources, which remain available over time. These specifically identified revenues and other financing sources are required by statute to be used for designated activities, benefits, or purposes and must be accounted for separately from the Government’s general revenues in accordance with SFFAS No. 27.

At the Governmentwide level, the U.S. Government Balance Sheet will show separately the portion of the net position attributable to earmarked funds. The standard further requires the disclosure of condensed information on assets, liabilities, and net cost for all earmarked funds.

Verifying agencies will reclassify earmarked fund activity from the agency’s Balance Sheet to the Closing Package line items designated for earmarked funds on the Balance Sheet. Additional note disclosure information on earmarked funds also is required in the Closing Package, Appendix 3, Note 22, to be completed by both verifying and nonverifying entities with earmarked fund activity. Agencies should report each earmarked fund with a net position exceeding \$5 billion separately.

4705.20c—Social Insurance

The Statement of Social Insurance is required by SFFAS Nos. 25, 26, and 28 to be presented as a basic financial statement. Agencies will provide the Statement of Social Insurance data in GFRS Module GF006, FR Notes. The information related to the Statement of Social Insurance and the underlying significant assumptions will be included in GFRS Module GF006, FR Notes. All remaining social insurance information will be contained in GFRS Module GF007, Other FR Data.

Note: The information related to the Statement of Social Insurance appears in GFRS Module GF006, FR Notes, because GFRS was not designed with a separate financial statement module for the Statement of Social Insurance. The information related to the Statement of Social Insurance cannot be entered into a separate financial statement module. Since the Statement of Social Insurance is one of the basic financial statements to which the IG of the verifying agency, if applicable, must opine as to its consistency with the comparative, audited consolidated, department-level financial statement, the information related to the Statement of Social Insurance must be entered into GFRS Module GF006, FR Notes.

The Social Insurance Program reporting agencies are required to report the Statement of Social Insurance and the related notes in the FR Notes, and in Other FR Data in the Closing Package. The Social Insurance Program reporting agencies are the Social Security Administration (SSA), the Department of Health and Human Services (HHS), the Railroad Retirement Board (RRB), and the Department of Labor (DOL).

Most of the social insurance information pertaining to Social Security and Medicare can be obtained from SSA (the 2008 Annual Report of the Board of Trustees of the Federal Old-Age and Survivors Insurance and Disability Insurance Trust Funds) and from HHS (the 2008 Annual Report of the Boards of the Trustees of the Federal Hospital Insurance and the Federal Supplementary Medical Insurance Trust Funds). SSA, HHS, RRB, and DOL are required to report the draft data of Social Insurance in the GFRS Closing Package no later than September 24, 2008.

4705.20d—Reporting of Government Account Series (GAS) Investments With the Bureau of the Public Debt Purchased by Agencies Using Deposit Fund Monies

Verifying agencies that use deposit fund monies to invest in GAS investments, and, if the Bureau of the Public Debt records these GAS securities as public, must reclassify:

- The deposit fund investments in GAS to the Closing Package Federal line titled, “Federal Investments.” Identify this amount using trading partner code “9900” in the Federal Trading Partner Note (Module GF004).
- The liability with the public related to GAS investments by deposit funds to the Closing Package Federal line titled, “Other liabilities (without

reciprocals).” Identify this amount using trading partner code “9900” in the Federal Trading Partner Note (Module GF004).

- The revenue from earnings on deposit fund investments in GAS that the Federal Government is authorized to keep to the Closing Package Federal line titled, “Federal securities interest revenue.” Identify this amount using trading partner code “2000” in the Federal Trading Partner Note (Module GF004).

4705.25—Special Basis of Accounting

Verifying agencies that use another comprehensive basis of accounting (OCBOA), other than FASAB standards, as the basis for their audited financial statement data, or that do not have a fiscal yearend of September 30, also are collectively referred to as OCBOA agencies in GFRS. OCBOA agencies must perform an additional step in GFRS before reclassifying their financial statement line items to the Closing Package line items. OCBOA agencies must restate their latest set of audited financial statements to a 12-month set of financial statements using the FASAB standards and a September 30 ending date. This restated data is referred to as OCBOA data for GFRS purposes. OCBOA agencies will reclassify the OCBOA data to the Closing Package line items instead of the data from their latest audited financial statements. Agencies must subject all of the above-mentioned adjustments to their Closing Packages to the audit coverage described in subsection 4705.55.

Verifying agencies that may need to perform this additional step, as described above, are:

- (1) Verifying agencies with comparative, audited financial statements not based on FASAB standards:

- Federal Deposit Insurance Corporation;
- National Credit Union Administration;
- Pension Benefit Guaranty Corporation;
- Smithsonian Institution;
- Tennessee Valley Authority;
- U.S. Postal Service;

AND

- Farm Credit System Insurance Corporation.

- (2) Verifying agencies with a yearend other than September 30:

- Farm Credit System Insurance Corporation;
- Federal Deposit Insurance Corporation;

AND

- National Credit Union Administration.

4705.30—Federal Trading Partner Note

Verifying agencies must identify the Federal trading partners and amounts for each Federal Closing Package line item reported after reclassifying the agency’s comparative, audited consolidated, department-level financial statements into the Closing Package formats. Amounts identified as Federal should be net of intradepartmental eliminations with the exception of custodial revenues retained by the collecting department. Identifying the trading partner enables analysis and elimination of Federal activity based on reciprocal categories at the Governmentwide level. See Appendix 5 for a complete list of Federal trading partner department codes.

4705.30a—Parent/Child Reporting

The parent agency (transferor of the appropriation) must report all activity of the child in its financial statements, whether material to the child agency (recipient of the transfer) or not, unless one of the three exceptions (detailed below) applies. The parent agency must use its two-digit trading partner code for all activities and balances with the child agency. This will result in intragovernmental activity between the parent and the child being eliminated and not reported in the parent agency’s financial statements and GFRS. Other agencies that have activity with the child (see exceptions below) must use the Federal trading partner department code of the child’s parent agency when reporting their balances and transactions with the child in GFRS.

The three exceptions to the requirement for parent/child reporting (from OMB Circular No. A-136, revised) are:

- Federal trust funds managed by the Bureau of the Public Debt (commonly known as Treasury Managed Trust Funds) for which the recipients are allocation accounts.
- The parent is the Executive Office of the President.
- Funds transferred from the Judiciary to the Department of Justice U.S. Marshals Services for court security.

In these cases, the receiving agency (child) is responsible for reporting all proprietary activity in its financial statements and GFRS. The child must use its two-digit trading partner code for all activities and balances with the parent agency. This will result in intragovernmental activity between the child and the parent being eliminated and not reported in the child agency’s financial statements and GFRS. Agencies that have activity with the child listed in the three exceptions must use the Federal trading

partner code of the child in reporting their balances and transactions with the child in GFRS.

4705.35—Reciprocal Categories

A reciprocal category is comprised of a set of Federal Closing Package line items that are the reciprocal of each other (for example, accounts payable/accounts receivable). These categories assist in the elimination of Federal activity at the Governmentwide level to prepare the FR. Additionally, these reciprocal categories facilitate the reconciliation of Federal activities between Federal agencies. All reciprocal categories currently contain a set of Federal line items except for category 29, which contains all line items for which no reciprocal line items exist. The reciprocal categories crosswalk to the Closing Package reclassified financial statements only (Balance Sheet, Statement of Changes in Net Position, and Statement of Net Cost). See Appendix 6 for a complete list of reciprocal categories and the financial statements to which they relate.

Reciprocal categories 07, Appropriation of Unavailable Special or Trust Receipts Transfers In/Out; 08, Nonexpenditure Transfers In/Out of Unexpended Appropriations and Financing Source; and 09, Expenditure Transfers In/Out of Financing Source, are used for the initial Treasury Central Accounting data that will soon represent authoritative data that agencies should have in their accounting systems and should be reporting in the GFRS/Intragovernmental Reporting and Analysis System (IRAS). These data and categories are being created for agencies to use when comparing to their current reporting in GFRS/IRAS and identifying differences/issues that need to be resolved. In the future, agencies will be required to reconcile their GFRS/IRAS data reporting to this authoritative data instead of reconciling with their trading partners. Further guidance will be issued in the *Federal Intragovernmental Transactions Accounting Policies Guide*, to be updated for fiscal 2008. To access this

document, see the FMS Web site at <http://www.fms.treas.gov/factsi>.

4705.40—GFRS Notes

Both verifying and nonverifying agencies must submit Notes data through GFRS.

Nonverifying agencies submit Notes data based on the amounts from the “generic” financial statements, compiled in GFRS, to FMS by November 15, 2008, no later than 6 p.m. EST. The generic financial statements are based on the USSGL crosswalk to the FR statements and populated by FACTS IATB data. See Appendix 3 for the format of the GFRS Notes.

Verifying and nonverifying agencies submit Notes data based on the following:

- Amounts on selected Closing Package line items.
- The source of the data being reported for each note on the “Agency Notes” line. The agency must reference the source of the data for traceability to the Notes source (that is, the particular location in the Consolidated Audited Financial Statement, specific worksheet, etc.). This should be detailed enough to provide an adequate audit trail. See Appendices 3 and 4.

AND

- Amounts of items based on disclosure standards (for example, dedicated collections, earmarked funds, commitments, and contingencies). See Appendix 3 for the GFRS Notes requirements.

4705.45—Other FR Data

Verifying agencies and nonverifying agencies must disclose information relating to “Other FR Data” as it applies to the agency. “Other FR Data” can include stewardship information, social insurance disclosures, and supplemental information,

such as deferred maintenance. See Appendix 4 for the format of Other FR Data.

4705.50—CFO Closing Package Data Verification

Verifying agency CFOs must certify the accuracy of the data in the Closing Package for the IG to opine upon no later than 6 p.m. EST on November 15, 2008.

4705.55—Audit Requirements for the Closing Package

An audit opinion is required for fiscal 2008 and 2007 data that were entered in GFRS through the Closing Package process, including the Federal Trading Partner Note, no later than 6 p.m. EST on November 17, 2008. The IG will provide the audit opinion and its text of the audit opinion, regardless of whether the IG or an independent public accountant (IPA) conducted the audit. For guidance, refer to OMB Bulletin No. 07-04, as amended and as it relates to special-purpose financial statements (Closing Package). Verifying agencies with a yearend other than September 30 are subject to all requirements of this Treasury Financial Manual (TFM) except for audit of their GFRS data.

The intragovernmental activity and balances contained in the Closing Package in GFRS Module GF004, Federal Trading Partner Note, are included within the scope of the opinion on the special-purpose financial statements (Closing Package). Verifying and nonverifying agencies should review thoroughly information provided as Other FR Data (subsection 4705.45) in the Closing Package, which is not subject to audit coverage, to assure consistency with the applicable data.

Each applicable verifying agency must provide the following documents to the IG/IPA to facilitate the Closing Package audit process: (1) reclassified financial statements (include GFRS Note 23 for the Statement of Social Insurance); (2) GF004F Trading Partner Summary Note Report; (3) GF003G Closing

Package Line Reclassification Summary Report; (4) GF006 FR Notes Report; (5) GF007 Other FR Data Report; and (6) Management Representation Letter on the Closing Package, including Summary of Uncorrected Misstatements (including misstatements identified in the agency's Financial Statement Management Representation Letter). Each IG must package a copy of the aforementioned documents in addition to the Closing Package auditors' report and must e-mail them in Portable Data File (PDF) to GAO, FMS, and OMB by 6 p.m. EST on November 17, 2008.

4705.60—Closing Package Schedule of Uncorrected Misstatements Process

Verifying agencies must submit a Closing Package Schedule of Uncorrected Misstatements (SUM) as a part of their Management Representation Letter on the Closing Package as stated in subsection 4705.55, Audit Requirements for the Closing Package. The SUM must be submitted to FMS no later than November 17, 2008. Agencies that are not required to submit a Closing Package audit (verifying agencies with a yearend other than September 30) do not have to provide a SUM. The SUM is for agencies' current year Balance Sheet, Statement of Net Cost, Statement of Changes in Net Position, Income Statement, and Statement of Social Insurance (if applicable). The schedule should contain the following:

- The effect of the current year's uncorrected misstatements and the carry-forward effect of the prior year's uncorrected misstatements.
- Standard General Ledger account number and account description.
- Federal (F) or non-Federal (N) account indicator for each USSGL account affected.

- A reference to an adjustment number or documentation reference.
- An indication as to whether or not management has agreed to record the adjustment in its financial statements.
- A statement as to whether the uncorrected misstatement is either known or likely.
- A description of the adjustment.
- The amount of the debit or credit.
- The line items affected in the entity's financial statements.

AND

- Uncorrected misstatements identified in the audited Financial Statement SUM and any additional uncorrected misstatements identified in the Closing Package. Explanations must be provided for any difference between the two SUMs to facilitate the consolidation of the FR.

In addition, the adjusting entries to correct the misstatements should also be provided. If there are no such uncorrected misstatements, a representation to this effect should be included in the management representation letter. Refer to the Financial Audit Manual (FAM), Section 595, for a sample schedule of uncorrected misstatements and adjusting entries.

For additional guidance, see OMB Bulletin No. 07-04, as amended, and OMB Circular No. A-136, revised, on the OMB Web site at <http://www.whitehouse.gov/omb> and GAO/President's Council on Integrity and Efficiency FAM, Section 595C, on the GAO Web site at <http://www.gao.gov>.

4705.65—Legal Representation Letter Process

Verifying agencies must submit an interim and final legal representation letter prepared by the agency General Counsel summarizing and evaluating legal actions against the agency. Agencies must submit the interim legal representation letter and management schedules to FMS, DOJ, and GAO no later than August 29, 2008. They must submit the final legal representation letter and management schedules to FMS, DOJ, and GAO no later than November 17, 2008. All files sent by e-mail must be in PDF format (zipped files will not be accepted). The agency's legal representation letter must contain a table prepared by management that summarizes the content of the legal representation letter as disclosed in the agency's financial statements. For guidance, refer to OMB Bulletin No. 07-04, as amended, as it relates to legal representation letters. Legal action, depending on the possibility of a negative outcome for the agency, can create a contingent liability that must be recognized in the agency's financial statements or, in certain cases, disclosed in the financial statement notes. All cases, including cases to be paid from the Judgment Fund, are to be categorized in the table as either having a probable, reasonably possible, or a remote chance of a negative outcome for the agency.

Verifying agency IGs also must provide FMS information about subsequent events that occurred after the effective date of their final legal representation letter through December 1, 2008, and that resulted in a change of likelihood or an amount of loss. Send this information via e-mail to FMS no later than December 2, 2008.

Subsequent event information will be based on the agency's materiality threshold. For additional guidance, see OMB Bulletin No. 07-04, as amended, and OMB Circular No. A-136, revised, on the OMB Web site at <http://www.whitehouse.gov/omb>.

4705.70—Other Required Information

Verifying agency CFOs also must provide FMS information about subsequent events that changed, or did not change, the financial statements and occurred between the issuance date of the agencies' audited financial statements and prior to December 1, 2008. Send this information via e-mail to FMS no later than December 2, 2008. If there are "no changes," send an e-mail to FMS no later than December 2, 2008, and indicate that there are no changes to the financial statements due to subsequent events.

Subsequent event information will be based on the agency's materiality threshold. Do not include legal contingencies or items submitted in Note 1 in GFRS.

4705.75—Yearend Intra-governmental Reconciliation Process Related to Closing Package Reporting

Verifying agencies will use the Closing Package intragovernmental data (submitted as part of the Closing Package) to generate reports.

On November 21, 2008, verifying agencies will generate the following IRAS reports using the Discoverer application in GFRS. These reports show agencies their reciprocal balances, as reported in the Closing Package, for each of their trading partner agencies':

- *Intragovernmental Closing Package Activity Detail Report;*
- *Intragovernmental Closing Package Activity Summary Report;*
- *Intragovernmental Closing Package Reciprocal Category Detail Report;*
- *Intragovernmental Closing Package Reciprocal Category Summary Report;*

- *Intragovernmental General Fund Detail Report;*

AND

- *Intragovernmental Closing Package Material Differences/ Status of Disposition Certification Report.*

Agencies should use these reports to work with their trading partners to reconcile reciprocal Closing Package differences. Any significant changes that are reconciled should form the basis for adjusting journal entries affecting intragovernmental activity and balances at the FR level. Agencies' adjustments and supporting documentation should be submitted to their FMS contact person via e-mail and electronically to the following e-mail address: financial.reports@fms.treas.gov. On November 28, 2008, verifying agencies will generate the *Intragovernmental Comparative Closing Package Explanations of Differences Report* via the Discoverer application.

4705.80—CFO Procedures for Intragovernmental Activity/ Balances

Verifying agencies must comply with the following instructions using the comparative, audited consolidated, department-level financial statements:

- Provide responses to the representations outlined in the detailed "CFO Representation" instructions for each intragovernmental issue;

AND

- Ensure the data in the *Intragovernmental Closing Package Material Differences/ Status of Disposition Certification Report* is consistent with the information reported in the Federal program agency's financial statements.

FMS will provide the CFO Representation for Federal Intra-governmental Activity and Balances form

to use when completing the CFO representations (see Appendix 8). FMS will post this form on its Web site at <http://www.fms.treas.gov/factsi>. The representations relating to whether the reconciliation was completed for each item of Section I (General Intragovernmental Reporting Results) and Section II (Explanation of Closing Package Differences) must be completed in their entirety.

4705.80a—Detailed CFO Representation Instructions

Verifying agencies must provide responses to the following intra-governmental items.

4705.80b—Section I: General Intragovernmental Reporting Results

- Is consistency maintained between the agency intragovernmental reporting entered in GFRS Module GF004 Trading Partner Note (by line item and trading partner) and the agency source documents? If "no," provide an explanation. (Refer to the *Intragovernmental Closing Package Line Item Reports* and the *Trading Partner Identification Reports* from GFRS Module GF004). Agency source documents include manual and electronic records, original documents, and accounting records generated by the agency's official accounting system.
- Identify policies/procedures that pertain to the agency's ability to record, process, summarize, and report intragovernmental activity/balances by trading partner. Describe the basis of accounting used/policy followed for buy/sell related (for example, accrual), fiduciary (for example, straight-line, TFM), and transfer (for example, OMB

Circular No. A-136) intragovernmental transactions.

- Review the agency's activity reported under trading partner "00." Indicate the dollar amount or percentage of this activity that relates to business conducted with highly classified agencies, the U.S. Senate, or the House of Representatives.
- Did all trading partners report Closing Package intragovernmental activity/balances? If "no," list those Federal program agencies that did not report Closing Package intragovernmental activity/balances. (Refer to the Discoverer-generated *Intragovernmental Closing Package Activity Summary Report*.)
- Review the Discoverer-generated *Intragovernmental Closing Package Material Differences/Status of Disposition Certification Report*. List those Federal program agencies that were not contacted or pursued concerning material differences.
- Did the independent auditors propose any adjustments related to intragovernmental balances reported in the Closing Package? If "yes," list the auditor's intragovernmental adjustments waived by management.
- For all responses to the above intragovernmental issues, describe the area and the extent of any noncompliance with the requirements in a written response on the standard form described above, or an attachment if necessary.

4705.80c—Section II: Explanation of Closing Package Differences

Explain the differences indicated on the *Intragovernmental Closing Package Material Differences/Status of Disposition*

Certification Report in terms of the following categories: (1) Confirmed Reporting, (2) Accounting Methodology Difference, (3) Accounting/Reporting Error, (4) Timing Difference – CY, (5) Unknown, and (6) Timing Difference – PY. For each explanation, documented support **must** be included, in detail, on the supplemental attachment provided by FMS. (Refer to subsections 4706.30f, Detailed Quarterly Status of Disposition Certification Instructions, and 4706.30g, Reporting Agency's Explanation of Reporting, for further detail regarding the explanation of differences).

Provide an electronic file of the CFO's Representations for Federal Intragovernmental Activity and Balances along with the completed *Intragovernmental Closing Package Material Differences/Status of Disposition Certification Report* to FMS and GAO by November 25, 2008.

Section 4706—Intragovernmental Requirements

4706.10—Intragovernmental Activity/Balances Reconciliation Requirements Authority

The intragovernmental transactions reconciliation requirements are stated in the following:

- OMB Circular No. A-136, revised;
- OMB Memorandum M-07-03, *Business Rules for Intragovernmental Transactions*;

AND

- TFM Volume I, Bulletin No. 2007-03, *Intragovernmental Business Rules*.

Agencies may obtain copies of OMB Circular No. A-136, revised, and the business rules from the OMB Web site at <http://www.whitehouse.gov/omb>. TFM Volume I, Bulletin No. 2007-03, is available on the TFM Web site at <http://www.fms.treas.gov/tfm>.

4706.15—Federal Intragovernmental Transactions Accounting Policies Guide

FMS provides detailed guidance on accounting and reconciling intragovernmental balances in the *Federal Intragovernmental Transactions Accounting Policies Guide*, to be updated for fiscal 2008. To access this document, see the FMS Web site at <http://www.fms.treas.gov/factsi>.

The *Federal Intragovernmental Transactions Accounting Policies Guide* provides Federal agencies with Governmentwide accounting policies relative to fiduciary and nonfiduciary intragovernmental transactions. It also provides Federal agencies with the tools to facilitate the reconciliation process and gives examples of accounting and reporting for various types of transactions. In addition, the *Federal Intragovernmental Transactions Accounting Policies Guide* addresses policies and procedures for the confirmation process. Confirmations certify that the activities and balances in the USSGL intragovernmental accounts are accurate, complete, and reconcile to the partner agency accounts. These USSGL intragovernmental accounts are included in the guide. Agencies must use these reciprocal account groupings for intragovernmental balances. See Appendix 7 for a list of each reciprocal category grouping.

Finally, the *Federal Intragovernmental Transactions Accounting Policies Guide* lists the reciprocal account categories (two-digit codes representing groupings of similar reciprocal transaction types). Agencies should use these categories to reconcile balances with their trading partners. The reciprocal account categories cover both intragovernmental fiduciary and nonfiduciary categories.

4706.20—Intragovernmental Fiduciary Confirmation System (IFCS)

The IFCS, an Internet-based application for reconciling fiduciary transactions, is the official confirmation system for all Federal departments and agencies that engage in fiduciary intragovernmental transactions.

Specifically, OMB Circular No. A-136 requires reporting agencies to reconcile/confirm intragovernmental activity and balances quarterly for the following reciprocal groupings:

- Investments—Including interest payables and receivables, interest income and expense, and amortization of premiums and discounts with the Bureau of the Public Debt (BPD).
- Borrowings—Including interest payables and receivables, and interest income and expense from BPD or the Federal Financing Bank (FFB).
- Federal Employees' Compensation Act (FECA) transactions with DOL—Including routine payments and accruals for FECA liabilities. Note that amounts relating to unemployment compensation are not included. Therefore, agencies need to exclude these amounts before posting expenses (USSGL account 6400) in IFCS.
- Employee Benefit Program transactions with the Office of Personnel Management (OPM)—Including routine payments and postretirement benefits related to the Federal Employees Retirement System (FERS), the Civil Service Retirement System (CSRS), the Federal Employees' Group Life Insurance Program (FEGLI), and the Federal Employees' Health Benefits Program (FEHB).

For third quarter fiscal 2008, IFCS will open on July 8, 2008, and will close on July 24, 2008. For fourth quarter fiscal 2008, IFCS will open on October 7, 2008, and will close on October 17, 2008.

4706.20a—IFCS System Access

To access and confirm fiduciary balances in the IFCS, agency users should access the Internet Web site at <https://fmsapps.treas.gov/ias>. To gain access to IFCS, all agency users and backup personnel must submit a GOALS II ESAAS Form by fax to the IFCS administrator at 202-874-9907. All agencies must designate agency user backups for all roles. After the ESAAS form is processed, the IFCS administrator will make the agency assignment. Then, the agency department administrator will assign the designee to his or her specific agency fund symbols for the borrowings and investments categories and agency code for OPM and DOL categories. The designee will receive the user ID and password by mail. Contact the GWA Customer Assistance Group for information at 202-874-8270.

4706.20b—IFCS Reporting Reconciliation Requirements

Agencies must ensure that fiduciary intragovernmental balances are confirmed using the IFCS. Similarly, other intragovernmental balances should be confirmed using IRAS reports. Intragovernmental balances confirmed through IFCS and IRAS should agree to the Closing Package reporting and the agency's financial statements. Reconciliation should occur prior to submitting the Closing Package data.

4706.25—Nonfiduciary Transactions

For nonfiduciary transactions, OMB requires reporting agencies to reconcile/confirm intragovernmental activity and balances quarterly for the following reciprocal groupings:

- Services provided and reimbursables—Such as legal, consulting, investigative, financial management, grants management, technology, reimbursables, and other similar services.
- Cost of products sold—Such as supplies, manufactured items, inventory, office space, and equipment/vehicle rentals.
- Transfers, appropriations used, and collections for others, and unusual assets and liabilities related to appropriations—Including transfers between agencies based on agreements or legislative authority, expended appropriations, taxes and fees collected, collections for others, receivables from appropriations, transfers payable, and custodial revenue.

4706.25a—Related to Capitalized Purchases

Agencies that purchase capitalized assets from other Federal entities must record the purchase to the following USSGL memo accounts:

- 8801F, "Offset for Purchases of Assets";
- 8802F, "Purchases of Property, Plant, and Equipment";
- 8803F, "Purchases of Inventory and Related Property";

AND

- 8804F, "Purchases of Assets – Other."

Agencies also must record the purchase to the appropriate USSGL asset account in the Closing Package.

The above memo USSGL accounts are not crosswalked in the Closing Package but are included in the quarterly reciprocal category reports and must, therefore, be reported in quarterly agency submissions.

4706.30—Quarterly Intragovernmental Transactions Reconciliation Process

Agencies should use two-digit trading partner codes for all intragovernmental transactions. When agencies report “appropriations transfers” within their departments, they should use their two-digit trading partner code rather than “00.” Trading partner code “00” is limited to the House of Representatives, Senate, classified transactions, or any truly unidentifiable activity/balances.

4706.30a—Department Code Reporting for Treasury General Fund Activities

Agencies will use trading partner code “99” strictly for recording transactions with the Treasury General Fund. Agencies should not confuse the Treasury General Fund with the Department of the Treasury, the agency. They are not synonymous and great care should be taken to distinguish one from the other when designating an appropriate partner code. Some examples of the Treasury General Fund are:

- Custodial activity, such as tax revenue—USSGL accounts applicable to this activity include but are not limited to USSGL accounts 2980F, 5800F, 5801F, 5990F, and 5991F.
- Other collections collected or accrued for the Treasury General Fund.
- Employer Federal Insurance Contributions Act (FICA) contributions collected by the Internal Revenue Service.
- Governmentwide entity/custodial accounts that consist primarily of interest revenue and seigniorage, for Treasury Bureaus FMS and BPD only.
- Liquidating fund assets in excess of liabilities.

- Receivable from appropriations (USSGL account 1921F, for Treasury only).
- Rescissions that are permanently canceled by law.
- Other asset/liability activities associated with the Treasury General Fund (for example, USSGL accounts 1325F and 2400F).

Agencies engaged in accounting activity with the Department of the Treasury as a trading partner regarding all other intragovernmental activities, such as Judgment Fund transactions, investments, borrowings, transfers, appropriations, and buy/sell activity, will use department code “20.” Agencies should contact the Director, Financial Reports Division, via e-mail at financial.reports@fms.treas.gov, if they are unsure about the applicability of department code “99” to particular transactions.

4706.30b—Agency “F” Transactions Submission

In support of the quarterly reconciliation process, verifying agencies must submit intragovernmental balances (only transactions with the “F” attribute) for all proprietary USSGL accounts to FMS no later than July 24, 2008, for third quarter fiscal 2008, and October 17, 2008, for fourth quarter fiscal 2008. Agencies should derive these submissions directly from departmental trial balances that are used as the basis for constructing quarterly unaudited financial statements for OMB (see Appendix 10 for the data file format).

The format for verifying agencies (Excel or text file format) must contain the following elements:

- Department code (two digit)—Treasury department code associated with the ATB fund group; should be consistent with the ATB code (required).
- Bureau or subagency code (two digit)—Bureau code associated

with the ATB fund group; should be consistent with the ATB code (required).

- Fund group (four digit)—MAF fund group (required).
- USSGL account (four digit; required).
- “F” attribute (Federal)—Should be “F” only.
- Trading partner (Federal) (two digit)—Federal trading partner codes.
- Dollar amount—Should indicate the last two positions in decimal form or rounded to the nearest dollar.
- Normal balances reporting method—All amounts with normal balances must be positive, and amounts with abnormal balances must be negative (required).

OR

Standard balances reporting method—All debits are displayed as positive amounts and all credits are displayed as negative amounts.

- Exchange (X) or nonexchange (T) attribute.
- Duplicate Partner Code Identifier (DPCI)—This required field is a single-digit code to be applied only to trading partners that share a two-digit department code with another department. The DPCI field should be blank for all other trading partners. The *Federal Intragovernmental Transactions Accounting Policies Guide* on the FMS Web site at <http://www.fms.treas.gov/factsi> contains guidelines for using the DPCI identifier.

For format requirements and accompanying documentation, refer to Appendix 10.

Verifying agencies should send their completed submissions to their FMS contact person via e-mail and electronically to the e-mail address at financial.reports@fms.treas.gov. Agencies also should provide the completed *Agency Quarterly Intragovernmental Data File Submission Checklist* via e-mail (financial.reports@fms.treas.gov) or via fax to 202-874-9907.

4706.30c—Agency “F” Transactions Submission – Parent/Child Reporting

The parent agency (transferor of the appropriation) must report and code activity and balances between the parent and the child using the parent’s two-digit trading partner code on its “F” transactions file submission to properly eliminate parent/child activity and balances, unless one of the three exceptions applies (see subsection 4705.30a for exceptions). Agencies having activity with the child must use the parent’s two-digit trading partner code to report their balances and transactions with the child in the “F” file. For example, agencies having activity with the account “AA BB 1234” will use the “BB” trading partner code, in which “BB” represents the parent’s two-digit trading partner code.

For the three exceptions, listed in subsection 4705.30a, the child agency must report and code activity and balances between the parent and the child with the child’s two-digit trading partner code on its “F” transactions file submission to properly eliminate parent/child activity and balances. Agencies having activity with the child, for the three exceptions, must use the child’s two-digit trading partner code to report their balances and transactions with the child in the “F” file. For example, agencies having activity with the account “AA BB 1234” will use the “AA” trading partner code, in which “AA” represents the child’s two-digit trading partner code.

4706.30d—FMS Intragovernmental Activity Reports

Within approximately 4 business days of agencies’ submissions of the quarterly “F” transaction data files, FMS will consolidate agency quarterly financial data. Reporting agencies will use the Discoverer application through GFRS to generate the following eight reports:

- *Intragovernmental Activity Detail Report by Trading Partner;*
- *Intragovernmental Activity Summary Report by Trading Partner;*
- *Intragovernmental Reciprocal Category Summary Report;*
- *Intragovernmental Reciprocal Category Detail Report;*
- *Intragovernmental General Fund Detail Report;*
- *Fiduciary Quarterly Data vs. IFCS Agency Benefits Report;*
- *Fiduciary Quarterly Data vs. IFCS Comparison Report;*

AND

- *Intragovernmental Material Differences/Status of Disposition Certification Report.*

To gain access to the Discoverer application through GFRS, all agency users and backup personnel must submit a GOALS II ESAAS Form. Contact the GWA Customer Assistance Group for information at 202-874-8270.

4706.30e—Agency Quarterly Status of Disposition Certification

Each verifying agency will generate a *Material Differences/Status of Disposition Certification Report* from the Discoverer application in GFRS containing comparative reporting between the agency and its trading partners by reciprocal category. FMS will provide a blank form that agencies

will use to explain in detail their reporting on records showing material differences. FMS will post this form on the FACTS I Web site at <http://www.fms.treas.gov/factsi/reports.html>.

The *Material Differences/Status of Disposition Certification Report* will allow agencies to identify differences with trading partners, excluding “99,” by reciprocal categories (excluding RC 25) that are greater than or equal to a respective reconciliation assurance level. This level will be systematically established in IRAS using four functions for fiscal 2008:

- Obtaining sufficient explanation of out-of-balance condition coverage for GAO assurance;
- Obtaining assurance that agencies are performing quarterly intragovernmental reconciliation in accordance with OMB Circular No. A-136, revised;
- Ensuring agencies are mutually completing Status of Disposition Certification for the same trading partner/reciprocal category material difference instances;

AND

- Minimizing the number of differences subject to certification through a sampling process.

Verifying agencies should provide an explanation of the reporting on the Status of Disposition Certification form by identifying their reporting justification by explanation number (refer to subsection 4706.30f) and should submit it to the agency’s respective FMS contact person via fax to 202-874-9907. This report is due no later than August 6, 2008, for third quarter fiscal 2008 and is not required for fourth quarter fiscal 2008.

Note: Agencies that have recurring differences with a trading partner will continue to receive a *Material Differences Report* that must be explained and certified.

4706.30f—Detailed Quarterly Status of Disposition Certification Instructions

For fiscal 2008, verifying agencies are required to provide an explanation of their reporting based on each identified difference in terms of the following categories: (1) Confirmed Reporting, (2) Accounting Methodology Difference, (3) Accounting/Reporting Error (4) Timing Difference – CY, (5) Unknown, and (6) Timing Difference – PY. Documented support must be included in detail for each explanation on the supplemental attachment provided by FMS via the FACTS I Web site. (Refer to the *Federal Intragovernmental Transactions Accounting Policies Guide* for further detail regarding the explanation of differences.)

4706.30g—Reporting Agency’s Explanation of Reporting

- Confirmed reporting is intended to indicate that an agency has verified its reported amounts and that the agency’s documents are in agreement with its quarterly source documentation. It should also indicate that the agency has reconciled this amount with its trading partner and knows why the difference, if any, exists, so that the appropriate agency can adjust its amount. Provide a detailed explanation to support the confirmation of reporting. **When the confirmed reporting column is selected, there should be no other column marked.**
- Accounting Methodology Difference occurs when the reporting agency uses a different method to account for activity than the trading partner. The method of accounting **must** be identified and explained.
- Accounting/Reporting Error occurs when the reporting agency has incorrectly reported

activity either by reciprocal category or amount. The total of these amounts **must** be identified and explained. If your agency is in error, then provide the corrective action (journal entry, etc.) to be taken and when.

- Current-Year Timing Difference occurs when the reporting agency has reported activity in a subsequent quarter other than the trading partner. The total of these amounts **must** be identified. Explain whether an adjustment should be made.
- Prior-Year Timing Difference occurs when the reporting agency has reported activity in a prior fiscal year other than the trading partner. The total of these amounts **must** be identified. Explain whether an adjustment should be made.
- Unknown Reporting occurs when the reporting agency cannot validate the amount it submitted. The total of Unknown Reporting amounts **must** be identified and explained.

When differences have been identified and adjustments are needed, agencies must make adjustments in the subsequent periods and provide corrective actions to FMS.

Verifying agencies will generate a *Comparative Status of Disposition Report* (via the Discoverer Web viewer). This report compares amounts and explanations of material differences reported between each reporting agency and its trading partner. FMS will make this report available to agencies no later than August 11, 2008, for third quarter fiscal 2008.

CFOs will use this report to address and resolve inconsistencies in amounts and explanations between the agency and its trading partners, no later than the subsequent reporting period. Specifically, in instances where an agency’s and its trading partner’s explanations for

differences are both “confirmed reporting,” agencies are required to contact their trading partners to obtain resolution of the disputed differences. Material differences that were explained as “confirmed reporting” by both the reporting agency and its trading partner must be resolved by the next reporting period. If the reporting differences have not been reconciled by the end of third quarter fiscal 2008, then the CFOs from each respective agency will be required to provide FMS with a “plan of action” to address unresolved material “confirmed reporting” differences.

In addition, for fiscal 2008, agencies will be required to provide a basis for their “unknown reporting” explanation. Material differences that were explained as “unknown” by the reporting agency must be resolved by the next reporting period. If the reporting differences cannot be validated or resolved by the end of the third quarter fiscal 2008, then the CFOs from each respective agency will be required to provide FMS with a “plan of action” to address unresolved material “unknown reporting” differences.

A letter outlining the required information to be included in the “plan of action” and a due date for plan submission will be provided with the third-quarter fiscal 2008 *Comparative Status of Disposition Report*.

Section 4707—FACTS I Requirements

4707.10—Collection of ATB Data

FMS will continue to collect ATB data to aid in its analytical process. ATB data should link directly to the agency’s comparative, audited consolidated, department-level financial statements. Agencies may view ATB data in GFRS. ATB data are tools to facilitate the Closing Package and are not subject to coverage in the audit requirements of the Closing Package.

4707.15—FACTS I System Access

The FACTS I Internet application on GOALS II requires a user ID and password. The address for the FACTS I Internet application on GOALS II is <https://fmsapps.treas.gov/ias>.

Agencies can apply for a user ID and password by submitting a GOALS II ESAAS Form. Contact the GWA Customer Assistance Group for information at 202-874-8270.

4707.20—FACTS I Reportable Data

GFRS compiles the data from the FACTS I submissions for nonverifying agencies into a set of “generic” financial statements that are included in the consolidated FR. Nonverifying agencies must prepare and submit notes to the FR using the amounts from the “generic” financial statements compiled in GFRS. Agencies must submit all changes to the “generic” statements through FACTS I.

4707.20a—Master Appropriation File (MAF)

FMS uses the MAF as a control tool during the ATB submission process. The MAF consists of records (one record for each Treasury appropriation/fund group), uniquely identified by an eight-digit code. The eight-digit code combines a two-digit department code, a two-digit bureau code, and a four-digit fund group code. In FACTS I, it is referred to as the ATB code. Each MAF record also contains the following:

- A BSF ID that represents the budget subfunction of the ATB.
- A fund type ID. The fund type for MAF is not necessarily the fund type used in the FAST Book.
- Other codes and identifiers FMS uses for internal purposes.

Verifying and nonverifying agencies must maintain the MAF on the FACTS I

database and submit changes to the MAF data through the FACTS I Internet application. The MAF window opens August 28, 2008. For fiscal 2008 reporting, agencies must review and update individual components of MAFs electronically by September 19, 2008. After agencies review, update, and submit the MAF, FMS will review and approve the MAF by September 29, 2008.

4707.20b—Adjusted Trial-Balance (ATB)

Agencies must prepare and submit preclosing ATBs at the Treasury appropriation/fund group level using USSGL accounts and attributes. Agencies that have not installed the USSGL must crosswalk their general ledger accounts to the USSGL accounts before transmission.

The reporting deadline for fiscal 2008 ATBs is as follows:

- **Nonverifying agencies**—November 15, 2008;
- **Verifying agencies**—December 1, 2008.

Verifying and nonverifying agencies can submit ATBs as early as October 1, 2008. The ATBs must include USSGL accounts in numerical order with the required attributes, and USSGL account balances must reflect the preclosing adjusting entries needed to produce financial statements. The total sum of the debit balances must equal the total sum of the credit balances in the ATBs. Report amounts in whole dollars and cents.

A variety of edits enable FACTS I to verify that the submitted USSGL accounts with associated attributes are valid and have equal debit and credit balances. Treasury will reject ATBs that do not meet these criteria.

Verifying and nonverifying agencies must use the same USSGL data on the ATBs that they use to prepare the fiscal 2008 audited agency consolidated financial statements due to OMB. Agencies also must use the following required attributes:

- “F” or “N” to identify a USSGL account balance as Federal (F) or non-Federal (N). Report the two-digit department code (see Appendix 5) of the trading partner when using attribute “F.”
- “S” or “A” to identify a USSGL account balance as custodial (S) or noncustodial (A).
- “X” or “T” to identify a USSGL account balance as exchange (X) or nonexchange (T) revenue.

More than one attribute may be valid for a USSGL account. See Appendix 11 for a list of the USSGL accounts with their valid attributes.

4707.20c—Special Accounts

Verifying and nonverifying agencies may submit a single ATB for all fund groups in each of the following categories:

- Clearing/Suspense (F) accounts (use default 3800 for the fund group).
- Deposit fund accounts (use default 6000 for the fund group).
- Unavailable receipt accounts—Treasury General Fund (use default 5555 for the fund group).
- Unavailable receipt accounts—Special and trust fund (use default 5000 for the fund group).

Treasury appropriation/fund symbol ranges for receipt accounts include the following:

- Unavailable General Fund receipt accounts range from 0100 through 3799.
- Clearing/Suspense accounts range from 3800 through 3899.
- Special fund receipt accounts range from 5000 through 5999.
- Trust fund receipt accounts range from 8000 through 8999.

Agencies must determine whether the collections made under the receipt account

Figure 4: Treasury Managed Trust Funds

Treasury Managed Trust Fund	Agency/Department
Federal Supplementary Medical Insurance	Department of Health and Human Services (HHS)
Federal Hospital Insurance	HHS
Vaccine Injury Compensation	HHS
Federal Old-Age and Survivors Insurance	Social Security Administration (SSA)
Federal Disability Insurance	SSA
Airport and Airway	Department of Transportation (DOT)
Aquatic Resources	Department of Interior
Oil Spill Liability	Department of Homeland Security
Highway	DOT
Black Lung Disability	Department of Labor (DOL)
Unemployment	DOL
Hazardous Substance Superfund	Environmental Protection Agency (EPA)
Leaking Underground Storage Tank	EPA
Inland Waterways	Corps of Engineers
Harbor Maintenance	Corps of Engineers

symbols are “available” receipts or “unavailable” receipts. “Available” receipts, for which the appropriation fund symbols only can be in the 5000s and the 8000s, constitute budget authority. Agencies should report ATBs for available receipt accounts individually under their Treasury appropriation fund symbol.

“Unavailable” receipts do not constitute budget authority. “Unavailable” receipts with account fund symbols from 0100 to 3799 represent Treasury General Fund receipts. GAO defines a General Fund receipt account as:

A receipt account credited with all collections that are not earmarked by law for another account for a specific purpose. These collections are presented in the President’s budget as either governmental (budget) receipts or offsetting receipts. These include taxes, customs duties, and miscellaneous receipts.

Agencies that classify amounts on their Statement of Transactions (that is, FMS 224) in General Fund receipt account symbols using their two-digit agency department code also must submit

an ATB and must prepare agency financial statements that include the General Fund receipt activity.

“Unavailable” receipts with account fund symbols from 5000 to 5999 (5000s) or 8000 to 8999 (8000s) represent receipts of the collecting agency. Agencies that deposit receipts into these fund symbols must submit ATBs and should ensure the receipts appear on their financial statements. However, these receipts do not constitute budget authority until subsequent legislation appropriates the receipts.

4707.20d—Treasury Managed Trust Fund Accounts

BPD’s Trust Fund Management Branch will provide to the lead program agency an ATB for the Treasury managed trust fund activity located at BPD for each of the Treasury managed trust funds listed in Figure 4. For fiscal 2008, agencies will receive these ATBs no later than October 31, 2008.

BPD will use USSGL accounts from Appendix 11 with the proper attributes. The lead program agencies identified in Figure 4 must include the Treasury

managed trust fund data in their ATBs. Direct any questions regarding the ATB data received from BPD to Matthew Hansell at 304-480-5120.

4707.20e—Parent/Child Reporting

Report in FACTS I similar to the reporting for the “F” file submissions. Refer to subsection 4706.30c for reporting in the FACTS I ATBs.

4707.20f—ATB Reports Transmission Methods

Each ATB preparer can submit the ATB data using the online entry method or bulk file transfer method on the GOALS II FACTS I Internet application. The bulk file transfer requires that agencies build American Standard Code for Information Interchange (ASCII) files using the prescribed record layout for FACTS I posted on the FACTS I Web site at <http://www.fms.treas.gov/factsi>.

Agencies may submit ATBs for multiple fund groups in a single bulk file transfer.

4707.20g—Proprietary Balances in Canceled Accounts

There are two valid types of proprietary account balances in a canceled TAFS. They are fixed assets and canceled payables.

Agencies must maintain and report “canceled payable” balances in their original TAFS.

Agencies with fixed asset balances in a canceled TAFS may report those balances in either of three ways:

- Report in the Treasury appropriation/fund group from which the funds were originally appropriated;
- Transfer asset balances without reimbursement to an open TAFS

and report in that open Treasury appropriation/fund group.

OR

- Agencies can use a default fund group to report the balances of fixed assets that cannot be identified to an original Treasury appropriation/fund group.

All Dates

July 8, 2008	For third quarter, IFCS will open.
July 24, 2008	For third quarter, IFCS will close.
July 24, 2008	Verifying agencies must submit intergovernmental balances for all proprietary USSGL accounts to FMS for third quarter.
August 6, 2008	Verifying agencies must submit an explanation of the reporting on the status of Disposition Certification form for third quarter.
August 11, 2008	FMS will make the <i>Comparative Status of Disposition Report</i> available to the agencies by this date, for the third quarter.
August 28, 2008	FACTS I MAF window opens.
August 29, 2008	Verifying agencies must submit interim legal representation letter and management schedules to FMS, DOJ, and GAO.
September 8, 2008	For verifying and nonverifying agencies, window opens for Closing Package data submission in GFRS for Modules GF001 to GF008, as applicable.
September 19, 2008	Agencies already must have reviewed and updated individual components of MAFs electronically.
September 24, 2008	SSA, HHS, RRB, and DOL already must have reported the draft data of Social Insurance in the GFRS Closing Package.
September 29, 2008	After the agencies review, update, and submit the MAF, FMS will review and approve the MAF by this date.
October 1, 2008	Window opens for FACTS I ATB submissions.
October 7, 2008	For fourth quarter, IFCS will open.
October 17, 2008	For fourth quarter, IFCS will close.
October 17, 2008	Verifying agencies must submit intragovernmental balances for all proprietary USSGL accounts to FMS for fourth quarter.
October 31, 2008	Lead program agencies will receive an ATB for the trust fund activity located at BPD. (Refer to subsection 4707.20d.)
November 15, 2008	<ol style="list-style-type: none"> 1. GFRS notes and other FR data submissions are due for nonverifying agencies at 6 p.m. EST. 2. CFOs of verifying agencies must submit their approval of the Closing Package data by 6 p.m. EST. 3. Window closes for FACTS I ATB submissions to FMS for nonverifying agencies at 6 p.m. EST.
November 17, 2008	<ol style="list-style-type: none"> 1. Agencies must get updates from FMS about any adjustments made on reporting procedures for the Closing Package data after this date. 2. IG is required to provide opinion on the Closing Packages for verifying agencies by 6 p.m. EST. 3. IG must submit copies of documents listed under subsection 4705.55 and the Closing Package auditors' report to GAO, FMS, and OMB. 4. Verifying agencies must submit the SUM to FMS. 5. Verifying agencies must submit the final legal representation letter and management schedules to FMS, DOJ, and GAO.
November 21, 2008	Verifying agencies will generate <i>Intergovernmental Reporting and Analysis (IRAS)</i> reports based on the Closing Package data using the Discoverer application in GFRS.
November 25, 2008	CFOs certify the <i>Closing Package Material Differences/Status of Disposition Certification Report</i> and provide the CFO Representations for Federal Intragovernmental Activities and Balances to FMS and GAO.
November 28, 2008	Agencies will generate an <i>Intragovernmental Comparative Closing Package Explanations of Differences Report</i> for fiscal 2008 using the Discoverer application in GFRS and will distribute the report to their CFOs and IGs.
December 1, 2008	Window closes for FACTS I ATB submissions to FMS for verifying agencies at 6 p.m. EST.
December 2, 2008	Verifying agency IGs must provide FMS information about subsequent events that occurred after the effective date of their final representation letter through December 1, 2008, and that resulted in a change of likelihood or an amount of loss. Send this information via e-mail to FMS.
December 2, 2008	Verifying agency CFOs must inform FMS and disclose any changes or indicate "no changes" to the financial statement due to subsequent events that occurred between the date of the issuance of the agencies' audited financial statements and prior to December 1, 2008. Send this information via e-mail to FMS.

Reclassified Financial Statement Line Item Descriptions

(Crosswalks mapping the USSGL accounts to each Closing Package line item are located on the USSGL Web site at <http://www.fms.treas.gov/ussgl>.)

Balance Sheet:

1. Assets - Title

2. Non-Federal - Title

2.1 Cash and Other Monetary Assets

The line item, cash and other monetary assets, is the sum of:

- Treasury operating cash—The sum of Central Summary Accounts 20A1009, “Tax and Loan Note Accounts,” 20A1010, “Federal Reserve Account,” 20A1008, “Term Investment Account,” and 20A1007, “Repurchase Agreement (Repo).”
- Other cash—The sum of collections on hand, not yet deposited within the same accounting period; authorized cash held by agency cashiers at personal risk; funds held by the public that OMB has determined will be included in the budget; cash seized by law enforcement activity and deposited to Treasury in banks or other financial institutions pending forfeiture judgment; and cash holdings not otherwise classified above.
- International monetary assets—The reserve position in the International Monetary Fund (IMF); and Special Drawing Rights (SDR).
- Gold—The statutory value of gold.
- Domestic monetary assets—The value of all other monetary assets not otherwise listed above.
- Foreign currency- The sum of the U.S. dollar equivalent of foreign government currency

2.2 Accounts and Taxes Receivable

The line item, accounts and taxes receivable, consists of:

- Claims to cash or other assets based on performance of a service, sale of goods, or court-ordered assessments.
- Amounts of taxes due to agencies that are identifiable, measurable, and legally enforceable. This includes claims to cash or other assets through established assessment processes.
- Related interest receivable.
- Related fines, penalties, and administrative fees receivable.
- An allowance for estimated losses due to uncollectible amounts when it is more likely than not that the receivable will not be totally collected.

The balance of the accounts receivable should be reconciled with the amounts reported on the Treasury report on receivables with an explanation of any material differences.

2.3 Loans Receivable

The line item, loans receivable, consists of:

- The face value of loans outstanding.
- The long-term cost of loans outstanding (including foreclosed property, interest and penalties, and allowance for subsidy cost).

2.4 Inventory and Related Property

The line item, inventory and related property, is the sum of:

- Inventory purchases for resale – Cost or value of tangible personal property purchased by an agency for resale.
- Inventory held in reserve for future sale – Inventory expected to be sold in the normal course of operations that includes inventory held for future sale, excess inventory, obsolete inventory, and unserviceable inventory.
- Inventory held for repair – Cost or value of damaged tangible personal property held as inventory that is more economical to repair than to dispose of it.
- Operating materials and supplies – Tangible personal property to be consumed in normal operations that includes operating materials and supplies held for future use, excess operating materials and supplies, obsolete operating materials and supplies, and unserviceable operating materials and supplies.

- Stockpile materials – Strategic and critical materials held for use in national defense, conservation, or national emergencies due to statutory requirements; for example, nuclear materials and oil.
- Stockpile materials held for sale – The value of strategic and critical materials held because of statutory requirements or for the use in national defense, conservation, or national emergencies that are authorized to be sold.
- Forfeited property – forfeited property acquired through forfeiture proceedings to satisfy a tax liability or unclaimed and abandoned merchandise.
- Other related property – Consists of commodities including items of commerce or trade that have an exchange value used to stabilize or support market prices; seized monetary instruments awaiting judgment to determine ownership; and other property not classified above.
- An allowance for the estimated cost to repair damaged inventory and the estimated gain or loss on the value of inventory because of unrealized holding gains or losses.

2.5 Property, Plant, and Equipment

The line item, property, plant, and equipment, is the sum of the net value of:

- Buildings, structures, and facilities (including improvements to land).
- Furniture, fixtures, and equipment (including aircraft, ships, vessels, small boats, and vehicles).
- Construction in progress.

Financial Report (FR) Notes and Instructions

Agencies are required to submit FR Notes based on amounts shown in the reclassified non-Federal line items on the Closing Package Balance Sheet. Additional notes are required based on disclosure standards (for example, dedicated collections, commitments, and contingencies). Requirements of generally accepted accounting principles (GAAP) are referenced in this document. This is not a substitute for reading the literature that created the requirements.

This appendix is arranged in the same general format as the Governmentwide Financial Report System (GFRS). Data has been marked to agree with the GFRS tab that agencies will use to access information to assist them in completing the Notes module. **Agencies must enter an explanation for any changes between current and prior-year amounts that are greater than a Treasury predetermined threshold on the “Threshold” tab of the notes module. The information entered on the “Threshold” tab does not require audit coverage; thus, each question is marked “unaudited” in GFRS.**

The FR Notes are directly linked to the amounts that have been reclassified and not necessarily to the notes in the agencies’ audited financial statements. Thus, agencies must enter a reference to their agency financial statement notes. This reference should be at the level of detail that would be necessary to crosswalk from the specific line items and other key information in the Notes module to the notes in the agencies’ financial statements (for example, note number, page number, and/or agency worksheet).

The “Line Item Notes” tab ties the data back to an individual Closing Package line item. The “Other Notes Info” tab may have several sections for agencies to complete. A tab/section/line is inactive when it is not applicable to a note or to an agency. Each FR Note can have up to four tabs that require data input:

- Tab 1 title, “Line Item Notes” – Amount directly linked to a reclassified Balance Sheet line.
- Tab 2 title, “Other Notes Info” – Numerical information related to the note.
- Tab 3 title, “Text Data” – Textual information related to the note.
- Tab 4 title, “Threshold” – Explanation for amounts greater than a defined amount.

Some notes contain hard-coded program or category names while others allow or require the entry of program or category names. Some of these notes contain a line titled, “All other.” Use the line titled, “All other,” when appropriate and do not create an additional line titled, “Other,” or “All other.”

Instructions for completing the FR Notes also are included in this appendix following these descriptions.

Note 1. Federal Reserve Earnings, Subsequent Events, and Other Pertinent Information

Provide the following information as it relates to Treasury securities.

“Other Notes Info” Tab (to be completed only by the Department of the Treasury (Treasury))

Note 18. Contingencies

Contingencies are uncertain losses that do not meet the requirement for liability recognition on the Balance Sheet. If the contingency is reasonably possible, then disclose the possible liability and the nature of the case. If the contingency is probable with a range of amounts, then the minimum amount in the range should be recognized and the range should be disclosed along with the nature of the case. If amounts do meet liability recognition, report them in the related liability account in the Balance Sheet. Contingencies that are accrued often require note disclosure so that the financial statements are not misleading; disclose the amount of probable losses along with the nature of the case. Amounts disclosed for litigation, claims, and assessments must be consistent with the agency’s legal representation letter.

Overview of the FR Notes Layout

The FR Notes are directly linked to the amounts that have been reclassified in the Closing Package and not necessarily to the notes in the agencies' audited financial statements. Thus, agencies must enter a reference to their agency financial statement notes in the "Agency Notes" field. This reference should be at the level of detail that would be necessary to crosswalk from the specific line items and other key information in the Notes Module to the notes in the agencies' financial statements (for example, note number, page number, and/or agency worksheet).

The "Line Item Notes" tab ties the data back to an individual Closing Package line item. The "Other Notes Info" tab may have several sections for agencies to complete. A tab/section/line is inactive when it is not applicable to a note or to an agency. Each FR Note has four tabs:

- Tab 1 title, "Line Item Notes" – Amount directly linked to a reclassified Balance Sheet line.
- Tab 2 title, "Other Notes Info" – Numerical information related to the note.
- Tab 3 title, "Text Data" – Textual information related to the note.
- Tab 4 title, "Threshold" – Explanation for amounts greater than a defined amount.

Governmentwide Financial Report System (GFRS) Data Entry Instructions

Complete each note by entering the required information in each tab and then marking each note "Complete." Do not enter zeros if the answer is not applicable. Mark the "No Data" box in each section of the "Line Item Notes," "Other Notes Info," and "Text Data" tabs, when no data is applicable.

Enter the data as a positive number if the data represents the normal balance. The normal balance of each line and/or column is displayed in GFRS for tabs 2 and 3. The normal balance for tab 1 is the same as the related Balance Sheet line identified in the header of the note.

Enter the reporting method, where instructed, for the few notes that are not tied to an identified reporting method. The reporting method for the majority of the notes is determined by the reporting method used in the agency's audited financial statements in GFRS Module GF002.

Answer the applicable threshold questions in the "Threshold" tab in free-form text. Agencies must enter an explanation for any changes between current- and prior-year amounts greater than a predetermined threshold on the "Threshold" tab of the Notes module. The information entered on the threshold tab does not require audit coverage; thus, each question is marked "unaudited" in GFRS.

Some notes contain hard-coded program or category names, while others allow or require the entry of program or category names. Some notes contain a line titled, "All other." Use the line titled, "All other," when appropriate and do not create an additional line titled, "Other," or "All other."

Note 22. Earmarked Funds

“Agency Note” – Enter a reference to where the data entered in this note can be found in the agency’s audited financial statements or describe from where the entered data is derived (for example, note number, page number, and/or agency worksheet).

Input amounts in the columns of Sections A through G (procedures for entering data are described below) on the line that corresponds to the appropriate fund line.

Note: Information for funds not presented individually must be aggregated. As much as possible, funds with ending net position amounts greater than \$5 billion (in absolute value) should be presented individually in lines 21 through 25. The total ending net position for the earmarked funds reported in this note must agree with the portion of the net position attributable to earmarked funds as reported on the Closing Package Balance Sheet.

Amounts entered, for each line, should be in agreement with amounts presented on the agency’s audited financial statements for the funds reported. Additionally, amounts entered represent condensed Balance Sheet and condensed

net position data for the programs entered. Therefore, the total assets should equal the total liabilities and ending net position for each program entered.

Lines 1 through 20 are for specific earmarked funds. Enter the amounts for these funds as indicated.

Lines 21 through 25 are to be used for other large earmarked funds not specifically listed on lines 1 through 20.

Line 26 is to be used to aggregate all other smaller earmarked funds not separately listed on lines 1 through 25.

Line 27 is to be used for all intra-agency earmarked funds elimination amounts

Line 4—Enter the amount in units, for life expectancy at birth (female) used in year 2008 in the first column, in year 2010 in the second column, in year 2020 in the third column, in year 2030 in the fourth column, in year 2040 in the fifth column, in year 2050 in the sixth column, in year 2060 in the seventh column, in year 2070 in the eighth column, and in year 2080 in the ninth column.

Line 5—Enter the amount in units, for net immigration (persons) used in year 2008 in the first column, in year 2010 in the second column, in year 2020 in the third column, in year 2030 in the fourth column, in year 2040 in the fifth column, in year 2050 in the sixth column, in year 2060 in the seventh column, in year 2070 in the eighth column, and in year 2080 in the ninth column.

Section C—Social Security Economic Assumptions (SFFAS No. 17, par. 25) (to be completed only by SSA)

Line 1—Enter the percentage for real wage differential (percent) used in year 2008 in the first column, in year 2010 in the second column, in year 2020 in the third column, in year 2030 in the fourth column, in year 2040 in the fifth column, in year 2050 in the sixth column, in year 2060 in the seventh column, in year 2070 in the eighth column, and in year 2080 in the ninth column.

Line 2—Enter the percentage change for average annual wage in covered employment (percent change) used in year 2008 in the first column, in year 2010 in the second column, in year 2020 in the third column, in year 2030 in the fourth column, in year 2040 in the fifth column, in year 2050 in the sixth column, in year 2060 in the seventh column, in year 2070 in the eighth column, and in year 2080 in the ninth column.

Line 3—Enter the percentage change for the Consumer Price Index (percent change) used in year 2008 in the first column, in year 2010 in the second column, in year 2020 in the third column, in year 2030 in the fourth column, in year 2040 in the fifth column, in year 2050 in the sixth column, in year 2060 in the seventh column, in year 2070 in the eighth column, and in year 2080 in the ninth column.

Line 4—Enter the percentage change for total employment (percent change) used in year 2008 in the first column, in year 2010 in the second column, in year 2020 in the third column, in year 2030 in the fourth column, in year 2040 in the fifth column, in year 2050 in the sixth column, in year 2060 in the seventh column, in year 2070 in the eighth column, and in year 2080 in the ninth column.

Line 5—Enter the percentage change for real gross domestic product (percent change) used in year 2008 in the first column, in year 2010 in the second column, in year 2020 in the third column, in year 2030 in the fourth column, in year 2040 in the fifth column, in year 2050 in the sixth column, in year 2060 in the seventh column, in year 2070 in the eighth column, and in year 2080 in the ninth column.

Line 6—Enter the percentage for the average annual interest rate (percent) used. The average interest rate is the average of the nominal interest rates for special issue debt obligations issuable to the Old Age Survivors Insurance and Disability Insurance Trust Funds in each of the 12 months of the year. Enter the percent used in year 2008 in the first column, in year 2010 in the second column, in year 2020 in the third column, in year 2030 in the fourth column, in year 2040 in the fifth column, in year 2050 in the sixth column, in year 2060 in the seventh column, in year 2070 in the eighth column, and in year 2080 in the ninth column.

Section D—Medicare Demographic Assumptions (SFFAS No. 17, par. 25) (to be completed only by HHS)

Line 1—Enter the rate, in units, for the total fertility rate used in year 2008 in the first column, in year 2010 in the second column, in year 2020 in the third column, in year 2030 in the fourth column, in year 2040 in the fifth column, in year 2050 in the sixth column, in year 2060 in the seventh column, in year 2070 in the eighth column, and in year 2080 in the ninth column.

Line 2—Enter the rate, in units, for the age-sex adjusted death rate used in year 2008 in the first column, in year 2010 in the second column, in year 2020 in the third column, in year 2030 in the fourth column, in year 2040 in the fifth column, in year 2050 in the sixth column, in year 2060 in the seventh column, in year 2070 in the eighth column, and in year 2080 in the ninth column.

Line 3—Enter the amount, in units, for net immigration (persons) used in year 2008 in the first column, in year 2010 in the second column, in year 2020 in the third column, in year 2030 in the fourth column, in year 2040 in the fifth column, in year 2050 in the sixth column, in year 2060 in the seventh column, in year 2070 in the eighth column, and in year 2080 in the ninth column.

Section E—Medicare Economic Assumptions (SFFAS No. 17, par. 25) (to be completed only by HHS)

Line 1—Enter the percentage for real wage differential (percent) used in year 2008 in the first column, in year 2010 in the second column, in year 2020 in the third column, in year 2030 in the fourth column, in year 2040 in the fifth column, in year 2050 in the sixth column, in year 2060 in the seventh column, in year 2070 in the eighth column, and in year 2080 in the ninth column.

Line 2—Enter the percentage change for average annual wage in covered employment (percent change) used in year 2008 in the first column, in year 2010 in the second column, in year 2020 in the third column, in year 2030 in the fourth column, in year 2040 in the fifth column, in year 2050 in the sixth column, in year 2060 in the seventh column, in year 2070 in the eighth column, and in year 2080 in the ninth column.

Line 3—Enter the percentage change for the Consumer Price Index (percent change) used in year 2008 in the first column, in year 2010 in the second column, in year 2020 in the third column, in year 2030 in the fourth column, in year 2040 in the fifth column, in year 2050 in the sixth column, in year 2060 in the seventh column, in year 2070 in the eighth column, and in year 2080 in the ninth column.

Line 4—Enter the percentage change for real gross domestic product (percent change) used in year 2008 in the first column, in year 2010 in the second column, in year 2020 in the third column, in year 2030 in the fourth column, in year 2040 in the fifth column, in year 2050 in the sixth column, in year 2060 in the seventh column, in year 2070 in the eighth column, and in year 2080 in the ninth column.

Line 5—Enter the percentage change for per beneficiary cost-HI (percent change) used in year 2008 in the first column, in year 2010 in the second column, in year 2020 in the third column, in year 2030 in the fourth column, in year 2040 in the fifth column, in year 2050 in the sixth column, in year 2060 in the seventh column, in year 2070 in the eighth column, and in year 2080 in the ninth column.

Line 6—Enter the percentage change for per beneficiary cost-SMI Part B (percent change) used in year 2008 in the first column, in year 2010 in the second column, in year 2020 in the third column, in year 2030 in the fourth column, in year 2040 in the fifth column, in year 2050 in the sixth column, in year 2060 in the seventh column, in year 2070 in the eighth column, and in year 2080 in the ninth column.

Line 7—Enter the percentage change for per beneficiary cost-SMI Part D (percent change) used in year 2008 in the first column, in year 2010 in the second column, in year 2020 in the third column, in year 2030 in the fourth column, in year 2040 in the fifth column, in year 2050 in the sixth column, in year 2060 in the seventh column, in year 2070 in the eighth column, and in year 2080 in the ninth column.

Line 8—Enter the percentage for the real average annual interest rate (percent) used in year 2008 in the first column, in year 2010 in the second column, in year 2020 in the third column, in year 2030 in the fourth column, in year 2040 in the fifth column, in year 2050 in the sixth column, in year 2060 in the seventh column, in year 2070 in the eighth column, and in year 2080 in the ninth column.

Section F—Railroad Retirement Economic Assumptions (SFFAS No. 17, par. 25) (to be completed only by the Railroad Retirement Board (RRB))

Line 1—Enter the percentage cost-of-living increase (decrease), based on the Railroad Retirement economic assumption, used in year 2008 in the first column, in year 2009 in the second column, in year 2010 in the third column, in year 2020 in the fourth column, and in year 2030+ in the fifth column.

Line 2—Enter the percentage interest rate, based on the Railroad Retirement economic assumption, used in year 2008 in the first column, in year 2009 in the second column, in year 2010 in the third column, in year 2020 in the fourth column, and in year 2030+ in the fifth column.

Line 3—Enter the percentage wage increase (decrease), based on the Railroad Retirement economic assumption, used in year 2008 in the first column, in year 2009 in the second column, in year 2010 in the third column, in year 2020 in the fourth column, and in year 2030+ in the fifth column.

Section G—Other Railroad Retirement Assumptions Information

Line 1—Enter the estimated average railroad employment in 2008, based on the Railroad Retirement employment assumption, in the first column.

Section H—Information Related to National Railroad Retirement Investment Trust (NRRIT) (to be completed only by NRRIT)

Line 1—Enter the amount of money NRRIT has received from RRB since NRRIT's inception in the first column.

Line 2—Enter the amount of money NRRIT has returned to RRB since NRRIT's inception in the first column.

Line 3—Enter the amount of net transfers NRRIT made to RRB to pay retirement benefits during fiscal 2008 in the first column.

Note 25. Stewardship Land

“Agency Note” – Enter a reference to where the data entered in this note can be found in the agency’s audited financial statements or describe from where the entered data is derived (for example, note number, page number, and/or agency worksheet).

“Text Data” Tab

1. Provide a brief statement explaining how the stewardship land relates to the mission of the agency (SFFAS 29, par. 40a).
2. Provide a brief description of the agency’s stewardship policies for stewardship land (SFFAS 29, par. 40b).
3. Provide any other relevant information pertaining to this note.

Note 26. Heritage Assets

“Agency Note” – Enter a reference to where the data entered in this note can be found in the agency’s audited financial statements or describe from where the entered data is derived (for example, note number, page number, and/or agency worksheet).

“Text Data” Tab

1. Provide a brief statement explaining how heritage assets relate to the mission of the agency (SFFAS 29, par. 25a).
2. Provide a brief description of the agency’s stewardship policies for each major category of the heritage assets (SFFAS 29, par. 25b).
3. Provide any other relevant information pertaining to this note.

Other Financial Report (FR) Notes Data and Instructions

Other FR Notes Data includes stewardship information, supplemental information, and all other disclosures required for the FR not collected in the FR Notes. In the Governmentwide Financial Report System (GFRS) the information in Other FR Notes Data will be collected in a similar manner to the FR Notes. The information in Other Data does not tie directly to any financial statement amounts. The disclosures required for the FR are based on FASAB standards (referenced in this document whenever possible).

This appendix is arranged in the same general format as GFRS. Data has been marked to agree with the GFRS tab that agencies will use to access information to assist in completing the Other FR Notes Data module. Agencies are required to enter an explanation for any changes from prior-year "Other FR Notes Data" information on the "Threshold" tab of the Other FR Notes Data module. Agencies also must explain any changes between the current- and prior-year amounts greater than a predetermined threshold amount. They enter the explanation on the "Threshold" tab. **The information entered on the threshold tab does not require audit coverage; thus, each question is marked "unaudited" in GFRS.** The "Other Data Info" and "Other Text Data" tabs may have more than one section to complete. A tab/section/line is inactive when it is not applicable to a particular note or agency. Each Other FR Notes Data note has three tabs:

- Tab 1 title, "Other Data Info" – Used to collect numerical information.
- Tab 2 title, "Other Text Data" – Used to collect textual information related to the "Other Data Info."
- Tab 3 title, "Threshold" – Used to collect explanations for amounts exceeding a Treasury-defined threshold.

Agencies must enter a reference to their agency financial statement notes. This reference should be at the level of detail that would be necessary to crosswalk from the specific line items and other key information in the FR Notes Data Module to the notes in the agencies' financial statements (for example, note number, page number, and/or agency worksheet).

Some notes contain hard-coded program or category names while others allow or require the entry of program or category names. Some notes contain a line titled "Other." Use the line titled "Other" when appropriate and do not create an additional line titled "Other" or "All other."

Overview of the Other FR Notes Layout

The Other FR Notes Data are necessary for capturing additional information to the footnotes in the agencies audited financial statements. Agencies must enter a reference to their agency financial statement notes in the “Agency Notes” field. This reference should be at the level of detail that would be necessary to crosswalk from the information entered and other key information in the Other FR Notes Module to the notes in the agencies’ financial statements (for example, note number, page number, and/or agency worksheet).

The “Other FR Notes Data Information” tab may have several sections for agencies to complete. A tab/section/line is inactive when it is not applicable to a footnote or to an agency. Each FR Data Note has three tabs:

- Tab 1 title, “Other Data Info” – Numerical information related to the note.
- Tab 2 title, “Other Text Data” – Textual information related to the note.
- Tab 3 title, “Threshold” – Explanation for amounts greater than a defined amount.

Governmentwide Financial Report System (GFRS) Data Entry Instructions:

Complete each note by entering the required information in each tab and then marking each note “Complete.” Do not enter zeros if the answer is zero or not applicable. Mark the “No Data” box in each section of the “Other Data Info” tab and the “Other Text Data” tab, when the data is zero or not applicable.

Enter the data as a positive number if the data represents the normal balance. The normal balance of each line is displayed in GFRS.

Enter the reporting method where needed for the notes that are not tied to the identified reporting method in the financial statements. The reporting method for some of the Other FR Notes Data notes is determined by the reporting method used in the agency’s audited financial statements in GFRS Module GF002.

Note: For agencies that choose “billions” as the reporting method, the figures should have at least one digit following the decimal point.

Answer the applicable threshold questions in the “Threshold” tab in free-form text. Agencies will be required to enter an explanation for any changes from the prior-year’s “Other Data Info” on the “Threshold” tab of the Notes module. An explanation also will be required for any changes between current- and prior-year amounts greater than a predetermined threshold amount. **The information entered on the threshold tab does not require audit coverage; thus, each question is marked “unaudited” in GFRS.**

Some notes contain hard-coded program or category names while others allow or require the entry of program or category names. Some notes contain a line titled “Other.” Use the line titled “Other” when appropriate and do not create an additional line titled “Other” or “All other.”

Line 4—Enter the present value amount of the low cost of CPI change in the first column, intermediate cost in the second column, and high cost in the third column for the years 2008-2082.

Line 5—Enter the present value amount of the low cost of net immigration in the first column, intermediate cost in the second column, and high cost in the third column for the years 2008-2082.

Line 6—Enter the present value amount of the low cost of real interest rate in the first column, intermediate cost in the second column, and high cost in the third column for the years 2008-2082.

Section I—Assumption Used (Excluding Net Immigration) (SFFAS No. 17, par. 32 (4))

Line 1—Enter the value of assumption used as low cost of average annual growth in health costs in the first column, intermediate cost in the second column, and high cost in the third column for the years 2008-2082.

Line 2—Enter the value of assumption used as low cost of total fertility rate in the first column, intermediate cost in the second column, and high cost in the third column for the years 2008-2082.

Line 3—Enter the value of assumption used as low cost of real wage differential in the first column, intermediate cost in the second column, and high cost in the third column for the years 2008-2082.

Line 4—Enter the value of assumption used as low cost of CPI change in the first column, intermediate cost in the second column, and high cost in the third column for the years 2008-2082.

Line 5—Enter the value of assumption used as low cost of real interest rate in the first column, intermediate cost in the second column, and high cost in the third column for the years 2008-2082.

Section J—Assumption Used for Net Immigration (SFFAS No. 17, par. 32 (4))

Line 1—Enter the value of assumption used as low cost of net immigration in the first column, intermediate cost in the second column, and high cost in the third column for the years 2008-2082.

Section K—Present Values of Estimated Medicare Part B Expenditures in Excess of Income Under Various Health Care Costs Growth Assumptions (SFFAS No. 17, par. 32 (4))

Line 1—Enter the amount of low cost average annual growth in health costs in the first column, intermediate cost in the second column, and high cost in the third column for the years 2008-2082.

Line 2—Enter the amount of low cost total fertility rates in the first column, intermediate cost in the second column, and high cost in the third column for the years 2008-2082.

Line 3—Enter the amount of low cost real wage differential in the first column, intermediate cost in the second column, and high cost in the third column for the years 2008-2082.

Line 4—Enter the amount of low cost CPI change in the first column, intermediate cost in the second column, and high cost in the third column for the years 2008-2082.

Line 5—Enter the amount of low cost net immigration in the first column, intermediate cost in the second column, and high cost in the third column for the years 2008-2082.

Line 6—Enter the amount of low cost real interest rate in the first column, intermediate cost in the second column, and high cost in the third column for the years 2008-2082.

Section L—Assumption Used (Excluding Net Immigration) (SFFAS No. 17, par. 32 (4))

Line 1—Enter the value of assumption used as low cost of average annual growth in health costs in the first column, intermediate cost in the second column, and high cost in the third column for the years 2008-2082.

Line 2—Enter the value of assumption used as low cost of total fertility rate in the first column, intermediate cost in the second column, and high cost in the third column for the years 2008-2082.

Line 3—Enter the value of assumption used as low cost of real wage differential in the first column, intermediate cost in the second column, and high cost in the third column for the years 2008-2082.

Line 4—Enter the value of assumption used as low cost of CPI change in the first column, intermediate cost in the second column, and high cost in the third column for the years 2008-2082.

Line 5—Enter the value of assumption used as low cost of real interest rate in the first column, intermediate cost in the second column, and high cost in the third column for the years 2008-2082.

Section M—Assumption Used for Net Immigration

Line 1—Enter the values of the assumptions used in the scenarios in Section K for net immigration (SFFAS No. 17, par. 32.4).

Section N—Present Values of Estimated Medicare Part D Expenditures in Excess of Income Under Various Health Care Costs Growth Assumptions (SFFAS No. 17, par. 32 (4))

Line 1—Enter the amount of low cost average annual growth in health costs in the first column, intermediate cost in the second column, and high cost in the third column for the years 2008-2082.

Line 2—Enter the amount of low cost total fertility rates in the first column, intermediate cost in the second column, and high cost in the third column for the years 2008-2082.

Line 3—Enter the amount of low cost real wage differential in the first column, intermediate cost in the second column, and high cost in the third column for the years 2008-2082.

Line 4—Enter the amount of low cost CPI change in the first column, intermediate cost in the second column, and high cost in the third column for the years 2008-2082.

Line 5—Enter the amount of low cost net immigration in the first column, intermediate cost in the second column, and high cost in the third column for the years 2008-2082.

Line 6—Enter the amount of low cost real interest rate in the first column, intermediate cost in the second column, and high cost in the third column for the years 2008-2082.

Section O—Assumption Used (Excluding Net Immigration) (SFFAS No. 17, par. 32 (4))

Line 1—Enter the value of assumption used as low cost of average annual growth in health costs in the first column, intermediate cost in the second column, and high cost in the third column for the years 2008-2082.

Line 2—Enter the value of assumption used as low cost of total fertility rate in the first column, intermediate cost in the second column, and high cost in the third column for the years 2008-2082.

Line 3—Enter the value of assumption used as low cost of real wage differential in the first column, intermediate cost in the second column, and high cost in the third column for the years 2008-2082.

Line 4—Enter the value of assumption used as low cost of CPI change in the first column, intermediate cost in the second column, and high cost in the third column for the years 2008-2082.

Line 5—Enter the value of assumption used as low cost of real interest rate in the first column, intermediate cost in the second column, and high cost in the third column for the years 2008-2082.

Section P—Assumption Used for Net Immigration

Line 1—Enter the values of the assumptions used in the scenarios in Section N for net immigration (SFFAS No. 17, par. 32.4).

Section Q—Present Values of Revenues and Cost of HI and Medicare Part B and Part D as of January 1, 2008

Line 1—Enter the amount of taxes revenue from the public for 75-year open group obligations for HI as of January 1, 2008, in the first column, Medicare Part B in the second column, and Medicare Part D in the third column.

Line 2—Enter the amount of premiums and State transfers for 75-year open group obligations for HI as of January 1, 2008, in the first column, Medicare Part B in the second column, and Medicare Part D in the third column.

Line 3—Enter the amount of total costs to the public for 75-year open group obligations for HI as of January 1, 2008, in the first column, Medicare Part B in the second column, and Medicare Part D in the third column.

Reciprocal Categories Crosswalk to Financial Statements

The chart below lists the reciprocal categories agencies use to prepare the Closing Package financial statements in the Governmentwide Financial Report System (GFRS). The financial statement line items contained in the Closing Package financial statements are shown by reciprocal category number. The first column, titled "Financial Statement," refers to the Closing Package financial statement to which the category relates. These categories assist agencies in reclassifying the Federal line items to the proper Closing Package line items. Additionally, these categories facilitate eliminations and analysis of all reciprocal category data in GFRS at the Governmentwide level. Category 29 contains all line items for which reciprocal line items do not exist. These line items are eliminated against "Unreconciled transactions affecting the change in Net Position" at the Governmentwide level.

BS = Balance Sheet; SONC = Statement of Net Cost; SOCNP = Statement of Changes in Net Position

Section I. General Intragovernmental Reporting Results			
A. Is consistency maintained between the agency intragovernmental reporting entered in the Governmentwide Financial Report System (GFRS) Module GF004 (by line item and trading partner) and the agency source documents? If "no," provide an explanation. (Refer to the <i>Intragovernmental Closing Package Line Item Reports</i> and the <i>Trading Partner Identification Reports</i> from GFRS Module GF004.)			
B. Does the agency have policies/procedures to record, process, summarize, and report intragovernmental activity/balances by trading partner? If "yes" identify those policies/procedures. Describe the basis of accounting used/policy followed for buy/sell related (for example, accrual), fiduciary (for example, straight-line, TFM), and transfer (for example, OMB Circular No. A-136) intragovernmental transactions.			
C. Review the agency's activity reported under trading partner "00". Does this activity relate to business conducted with highly classified agencies, the U.S. Senate, or the House of Representatives? If "yes" indicate the dollar amount or percentage of this activity.			
D. Did all trading partners report Closing Package intragovernmental activity/balances? If "no," list those Federal program agencies that did not report Closing Package intragovernmental activity/balances. (Refer to the Discoverer-generated <i>Intragovernmental Closing Package Activity Summary Report</i> .)			
E. Review the Discoverer-generated <i>Intragovernmental Closing Package Material Differences/Status of Disposition Certification Report</i> . Were all Federal program agencies contacted or pursued concerning material differences? If "no," list those agencies that were not contacted or pursued and provide an explanation.			
F. Did the independent auditors propose any adjustments related to intragovernmental balances reported in the Closing Package? If "yes," list the auditor's intragovernmental adjustments waived by management.

Quarterly “F” Data File Submission - Description and Formats

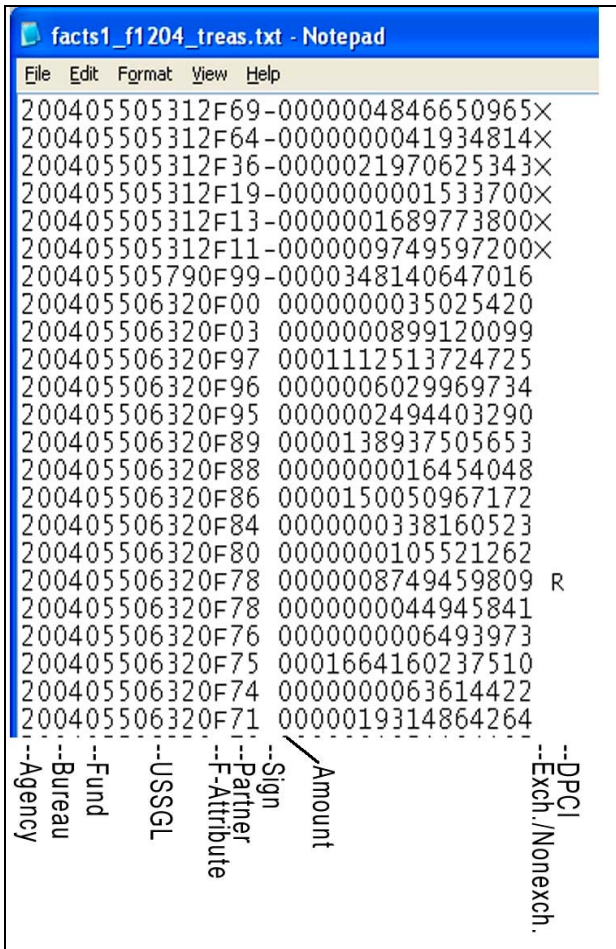

In an effort to streamline FMS quarterly intragovernmental reporting while granting agencies flexibility, FMS will accept either of two formats for submission of quarterly intragovernmental data for fiscal 2008.

The two formats are:

- Text file format: Submissions in this format are usually downloads from the agency’s automated accounting systems. All text files should be sent using the Windows Notepad application, with a “.txt” filename extension (see Illustration 1).
- Excel file format: Excel submissions are more convenient for some agencies that need to modify particular records.

For fiscal 2009, agencies will be required to use unified standard text format for submitting intragovernmental balances.

Illustration 1: Example of a Text File Submission (Headings would appear in a separate attachment.)

Regardless of which format is used, all of the elements in the table below entitled, “Quarterly ‘F’ Data File Submission – File Format (Input),” must be included except where indicated. In addition, all columns (that is, fields) should be labeled either in the heading or in a separate accompanying file with the column position numbers.

The following table is an example of an agency’s data file layout. The table outlines nine required columns for text files and eight required columns for Excel files.

Quarterly “F” Data File Submission – File Format (Input)

Field Name	Length	Type	Choices	Description
<u>Department Code</u>	2	Text		Treasury Department code associated with the adjusted trial-balance fund group and consistent with the ATB Code
<u>Bureau Code</u>	2	Text		Bureau code associated with the adjusted trial-balance fund group and consistent with the ATB code (required). Use “00” if the agency does not have any subdivisions.
<u>Fund Group</u>	4	Text		MAF fund group
<u>USSGL Account</u>	4	Text		USSGL account number
<u>Federal/Non-Federal Attribute</u>	1	Text	F	Federal/Non-Federal Indicator (use only “F”)
<u>Federal Trading Partner</u>	2	Text		Two-digit Federal Trading Partner codes
<u>Sign Indicator</u> (Required Only for Text Files)	1	Text	“-“ or “D” & “C”	Standard letter/symbol to indicate debit or credit. Note: for Excel files, a negative sign is considered part of the Amount field.
<u>Dollar Amount</u> Agencies must indicate in the e-mail whether amounts are presented as Normal or Standard balances (see Notes on Dollar Amounts, below).	17	Numeric	Numeric	Text files: Leading zeros required. Last two positions assumed decimal. Excel files: Amounts must be presented in a numeric or currency format without leading zeros and with the negative sign as applicable. If no decimal point is displayed the amount is considered to be rounded to the nearest dollar.
	(Length requirement for Text files only)			
<u>Exchange/Nonexchange Attribute</u>	1	Text	X or T (where applicable)	Exchange/nonexchange attribute
<u>Duplicate Partner Code Identifier (DPCI)</u>	1	Text	“R” (where applicable)	Attribute for certain reporting entities that use duplicate two-digit department codes.

Other Required Information to Accompany Agency Submission

The following information, discussed elsewhere in this document, must accompany the quarterly data file submission. This information is to be provided in a standard checklist that FMS will send to the agencies before the due date for file submission:

- Include column/field heading titles, if not provided in the file itself (for text files it may not be practical to place them within the file).
- State whether the amounts are provided as Normal or Standard (debits as positive, credits as negative) balances.
- State the total number of data records contained in the file.
- Provide a point of contact for any technical problems with the data file.

Processing Notes

Note: Federal agencies use a variety of accounting systems and database applications. The following guidelines will assist agencies in developing the database structure. Unlike the previous FACTS I process, agencies will not upload bulk files via GOALS II or any other FMS on-line systems. Rather, the verifying agencies must use standard e-mail for sending the quarterly data files. The Intragovernmental Reporting and Analysis System (IRAS) will then upload each agency’s individual data file.

- The data file can contain multiple departments, bureaus, and fund groups.

- The record file format is defined based upon currently designated attributes. Additional attributes may be added at a future date. For agencies that submit text files, they may wish to add filler at the end of the record and increase the record length to provide for future attributes. FMS can accept files with longer records if the defined fields conform exactly to the specified format.
- Decentralized agencies should consolidate all submissions from subagencies, departments, or bureaus. Also, the resulting consolidated file format and data layout must be consistent.
- Descriptions and definitions of USSGL account attributes and the domain values of the attributes are published in the USSGL TFM release (available to readers on the Internet Web site at <http://www.fms.treas.gov/ussgl>).
- Edits for duplicate records are conducted based on a key consisting of department code, bureau code, fund group, USSGL account, Federal/Non-Federal attribute, Federal trading partner, and exchange/nonexchange attribute. Additional validations also are conducted. FMS will return any exceptions via e-mail to the agency for correction. **The agency must return corrected entries within 1 business day.**
- Indicate in the transmission e-mail the total number of records in the agency's data file, whether the dollar amounts are presented as Normal or Standard balances, and whether the last two positions are cents (see Notes on Dollar Amounts, below).

Notes on Dollar Amounts

As noted above, verifying agencies must indicate whether the dollar amounts are presented as Normal or Standard balances. Also, as noted, leading zeros are required for text files but are not to be used for Excel files. For text files, both the Sign field and the Amount field are combined when considering Normal and Standard balances. These terms are defined as follows:

- Normal balance: All amounts that are reported as their normal balance are to be shown with a **positive** sign. All abnormal balances are to be shown with a **negative** sign. The only exceptions are for accounts that do not have a normal balance, such as amortization of discount and premium.
- Standard balance (previously referred to as "trial-balance"): All balances, whether normal or abnormal, are shown with their respective sign, similar to how they would appear in a standard trial-balance report.

The following table demonstrates several examples between the two methods.

Note: In the examples, the Sign field and the Amount field are combined.

USSGL Account	Normal or Abnormal	Amount	IRAS Presentation	
			Normal Method	Standard Method
2110 (Accounts Payable)	Normal	\$100	\$100	-\$100
2110 (Accounts Payable)	Abnormal	\$100	-\$100	\$100

Notes for Excel File Submissions

Data formatting: All data, with the exception of the Amount column, must be in text format. For example, without text formatting, fund code "0990" will appear as "990." To achieve text formatting, perform the following procedure **before** entering data in the Excel worksheet:

1. Select the entire column(s) with the mouse (for example, column "F" or columns "A-G")
2. Click "Format" from the menu bar.
3. Select "Cells" from the "Format" submenu.
4. Under "Category" select "Text."
5. Click "OK."

Homogeneous rows: An Excel file submission must be in the form of a data table. Therefore, all rows, after the header row, must contain the same type of information with no breaks (that is, no empty rows). For example, there should be no totals, subtotals, or subheadings in the data file. Additionally, after the last row of data and after the last column of data in each record, there should not be any entries in the Excel worksheet. See Illustration 2, below for an example of a properly prepared Excel file submission.

Duplicate Partner Code Identifier (DPCI)

The DPCI is a single-digit code to be applied only to a reporting trading partner agency sharing a two-digit agency code with another agency. The DPCI field is blank for all other trading partner agencies. The rules for using the DPCI identifier are contained in the following table:

If the Trading Partner Agency is...	Then Apply Partner Code...	DPCI Code Is	Notes
Pension Benefit Guaranty Corporation (PBGC – Agency Code 1602)	16	R	Leave DPCI field blank for Department of Labor (16).
Smithsonian Institution (Agency Code 33)	33	R	Leave DPCI field blank for all other agency “33” entities, such as the JFK Performing Arts Center.
Farm Credit System Insurance Corporation (FCSIC) (Agency Code 7802)	78	R	Leave DPCI field blank for Farm Credit Administration (78).
Any other future reporting agency sharing a two-digit agency code with a nonreporting agency	[two-digit partner code]	R	Leave DPCI field blank for the nonreporting agency.
Note: “R” indicates that partner codes 16, 33, and 78 refer to the Pension Benefit Guaranty Corporation, the Smithsonian Institution, and the Farm Credit System Insurance Corporation, respectively (as opposed to other Federal entities that share the same two-digit agency codes).
