

UEZ General FAQ's

What benefits does a business enjoy if it's located within one of New Jersey's urban enterprise zones?

New Jersey offers a number of programs to encourage the redevelopment of the state's urban areas. These include a range of financial benefits for those companies creating jobs within urban areas, as well as financial assistance for those taking part in urban redevelopment.

How many urban enterprise zones are there in New Jersey?

New Jersey has 32 Urban Enterprise Zones (37 municipalities) throughout the state providing significant incentives and benefits to businesses that locate within the zones.

How old is the UEZ Program and how many Zones have been created since its inception?

Few programs have proven more enduring and successful than the New Jersey Commerce Commission's nationally acclaimed Urban Enterprise Zone (UEZ) Program. Since 1984, it has been a hallmark for urban revitalization and a cornerstone for economic growth and development. Due to this success, the number of Urban Enterprise Zones has expanded from an original 10 in 1984 to the 32 zones in 37 municipalities today.

How much money have UEZ businesses invested into New Jersey's urban communities and how many jobs have been created?

The program helps to support nearly 150,000 full-time jobs within the zones. This represents a total private investment estimated at over \$24 billion by these businesses.
