16 USC 500 note. **SEC. 2. FINDINGS AND PURPOSES.**

(a) **FINDINGS.**—The Congress finds the following:

(1) The National Forest System, which is managed by the United States Forest Service, was established in 1907 and has grown to include approximately 192,000,000 acres of Federal lands.

(2) The public domain lands known as revested Oregon and California Railroad grant lands and the reconveyed Coos Bay Wagon Road grant lands, which are managed predominantly by the Bureau of Land Management were returned to Federal ownership in 1916 and 1919 and now comprise approximately 2,600,000 acres of Federal lands.

(3) Congress recognized that, by its decision to secure these lands in Federal ownership, the counties in which these lands are situated would be deprived of revenues they would otherwise receive if the lands were held in private ownership.

(4) These same counties have expended public funds year after year to provide services, such as education, road construction and maintenance, search and rescue, law enforcement, waste removal, and fire protection, that directly benefit these Federal lands and people who use these lands.

(5) To accord a measure of compensation to the affected counties for the critical services they provide to both county residents and visitors to these Federal lands, Congress determined that the Federal Government should share with these counties a portion of the revenues the United States receives from these Federal lands.

(6) Congress enacted in 1908 and subsequently amended a law that requires that 25 percent of the revenues derived from National Forest System lands be paid to States for use by the counties in which the lands are situated for the benefit of public schools and roads.

(7) Congress enacted in 1937 and subsequently amended a law that requires that 75 percent of the revenues derived from the revested and reconveyed grant lands be paid to the counties in which those lands are situated to be used as are other county funds, of which 50 percent is to be used as other county funds.

(8) For several decades primarily due to the growth of the Federal timber sale program, counties dependent on and supportive of these Federal lands received and relied on increasing shares of these revenues to provide funding for schools and road maintenance.

(9) In recent years, the principal source of these revenues, Federal timber sales, has been sharply curtailed and, as the volume of timber sold annually from most of the Federal lands

has decreased precipitously, so too have the revenues shared with the affected counties.

(10) This decline in shared revenues has affected educational funding and road maintenance for many counties.

(11) In the Omnibus Budget Reconciliation Act of 1993, Congress recognized this trend and ameliorated its adverse consequences by providing an alternative annual safety net payment to 72 counties in Oregon, Washington, and northern California in which Federal timber sales had been restricted or prohibited by administrative and judicial decisions to protect the northern spotted owl.

(12) The authority for these particular safety net payments is expiring and no comparable authority has been granted for alternative payments to counties elsewhere in the United States that have suffered similar losses in shared revenues from the Federal lands and in the funding for schools and roads those revenues provide.

(13) There is a need to stabilize education and road maintenance funding through predictable payments to the affected counties, job creation in those counties, and other opportunities associated with restoration, maintenance, and stewardship of Federal lands.

(14) Both the Forest Service and the Bureau of Land Management face significant backlogs in infrastructure maintenance and ecosystem restoration that are difficult to address through annual appropriations.

(15) There is a need to build new, and strengthen existing, relationships and to improve management of public lands and waters.

(b) PURPOSES.—The purposes of this Act are as follows:

(1) To stabilize payments to counties to provide funding for schools and roads that supplements other available funds.

(2) To make additional investments in, and create additional employment opportunities through, projects that improve the maintenance of existing infrastructure, implement stewardship objectives that enhance forest ecosystems, and restore and improve land health and water quality. Such projects shall enjoy broad-based support with objectives that may include, but are not limited to—

(A) road, trail, and infrastructure maintenance or obliteration;

(B) soil productivity improvement;

(C) improvements in forest ecosystem health;

(D) watershed restoration and maintenance;

(E) restoration, maintenance and improvement of wildlife and fish habitat;

(F) control of noxious and exotic weeds; and

(G) reestablishment of native species.

(3) To improve cooperative relationships among the people that use and care for Federal lands and the agencies that manage these lands.

TITLE IV—MISCELLANEOUS PROVISIONS

SEC. 401. AUTHORIZATION OF APPROPRIATIONS.

16 USC 500 note.

There are hereby authorized to be appropriated such sums as may be necessary to carry out this Act for fiscal years 2001 through 2006.

SEC. 402. TREATMENT OF FUNDS AND REVENUES.

16 USC 500 note.

(a) RELATION TO OTHER APPROPRIATIONS.—Funds appropriated pursuant to the authorization of appropriations in section 401 and funds made available to a Secretary concerned under section 206 shall be in addition to any other annual appropriations for the Forest Service and the Bureau of Land Management.

SEC. 403. REGULATIONS.

16 USC 500 note.

The Secretaries concerned may jointly issue regulations to carry out the purposes of this Act.

SEC. 404. CONFORMING AMENDMENTS.

Sections 13982 and 13983 of the Omnibus Budget Reconciliation Act of 1993 (Public Law 103-66; 16 U.S.C. 500 note; 43 U.S.C. 1181f note) are repealed.

Mineral Revenue
Payments
Clarification Act
of 2000.
30 USC 181 note.

TITLE V—MINERAL REVENUE PAYMENTS CLARIFICATION

SEC. 501. SHORT TITLE.

This title may be cited as the “Mineral Revenue Payments Clarification Act of 2000”.

30 USC 191 note.

SEC. 502. FINDINGS.

The Congress finds the following:

(1) Section 10201 of the Omnibus Budget Reconciliation Act of 1993 (Public Law 103-66; 107 Stat. 407) amended section 35 of the Mineral Leasing Act (30 U.S.C. 191) to change the sharing of onshore mineral revenues and revenues from geothermal steam from a 50:50 split between the Federal Government and the States to a complicated formula that entailed deducting from the State share of leasing revenues “50 percent of the portion of the enacted appropriations of the Department of the Interior and any other agency during the preceding fiscal year allocable to the administration of all laws providing for the leasing of any onshore lands or interest in land owned by the United States for the production of the same types of minerals leasable under this Act or of geothermal steam, and to enforcement of such laws * * *”.

(2) There is no legislative record to suggest a sound public policy rationale for deducting prior-year administrative expenses from the sharing of current-year receipts, indicating that this change was made primarily for budget scoring reasons.

(3) The system put in place by this change in law has proved difficult to administer and has given rise to disputes between the Federal Government and the States as to the nature of allocable expenses. Federal accounting systems have proven to be poorly suited to breaking down administrative costs in the manner required by the law. Different Federal agencies implementing this law have used varying methodologies to identify allocable costs, resulting in an inequitable distribution of costs during fiscal years 1994 through 1996. In November 1997, the Inspector General of the Department of the Interior found that “the congressionally approved method for cost sharing deductions effective in fiscal year 1997 may not accurately compute the deductions”.

(4) Given the lack of a substantive rationale for the 1993 change in law and the complexity and administrative burden involved, a return to the sharing formula prior to the enactment of the Omnibus Budget Reconciliation Act of 1993 is justified.

SEC. 503. AMENDMENT OF THE MINERAL LEASING ACT.

Section 35(b) of the Mineral Leasing Act (30 U.S.C. 191(b)) is amended to read as follows:

“(b) In determining the amount of payments to the States under this section, the amount of such payments shall not be reduced by any administrative or other costs incurred by the United States.”.

TITLE VI—COMMUNITY FOREST RESTORATION

Community
Forest
Restoration Act.

SEC. 601. SHORT TITLE.

This title may be cited as the “Community Forest Restoration Act”.

SEC. 602. FINDINGS.

The Congress finds the following:

(1) A century of fire suppression, logging, and livestock grazing has altered the ecological balance of New Mexico’s forests.

(2) Some forest lands in New Mexico contain an unnaturally high number of small diameter trees that are subject to large, high intensity wildfires that can endanger human lives, livelihoods, and ecological stability.

(3) Forest lands that contain an unnaturally high number of small diameter trees have reduced biodiversity and provide fewer benefits to human communities, wildlife, and watersheds.

(4) Healthy and productive watersheds minimize the threat of large, high intensity wildfires, provide abundant and diverse wildlife habitat, and produce a variety of timber and non-timber products including better quality water and increased water flows.

(5) Restoration efforts are more successful when there is involvement from neighboring communities and better stewardship will evolve from more diverse involvement.

(6) Designing demonstration restoration projects through a collaborative approach may—

(A) lead to the development of cost effective restoration activities;

(B) empower diverse organizations to implement activities which value local and traditional knowledge;

(C) build ownership and civic pride; and

(D) ensure healthy, diverse, and productive forests and watersheds.

New Mexico.

SEC. 603. PURPOSES.

The purposes of this title are—

(1) to promote healthy watersheds and reduce the threat of large, high intensity wildfires, insect infestation, and disease in the forests in New Mexico;

(2) to improve the functioning of forest ecosystems and enhance plant and wildlife biodiversity by reducing the unnaturally high number and density of small diameter trees on Federal, Tribal, State, County, and Municipal forest lands;

(3) to improve communication and joint problem solving among individuals and groups who are interested in restoring the diversity and productivity of forested watersheds in New Mexico;

(4) to improve the use of, or add value to, small diameter trees;

(5) to encourage sustainable communities and sustainable forests through collaborative partnerships, whose objectives are forest restoration; and

(6) to develop, demonstrate, and evaluate ecologically sound forest restoration techniques.

SEC. 604. DEFINITIONS.

As used in this title—

(1) the term “Secretary” means the Secretary of Agriculture acting through the Chief of the Forest Service; and

(2) the term “stakeholder” includes: tribal governments, educational institutions, landowners, and other interested public and private entities.

SEC. 605. ESTABLISHMENT OF PROGRAM.

(a) **FOREST RESTORATION PROGRAM.**—The Secretary shall establish a cooperative forest restoration program in New Mexico in order to provide cost-share grants to stakeholders for experimental forest restoration projects that are designed through a collaborative process (hereinafter referred to as the “Collaborative Forest Restoration Program”). The projects may be entirely on, or on any combination of, Federal, Tribal, State, County, or Municipal forest lands. The Federal share of an individual project cost shall not exceed 80 percent of the total cost. The 20-percent matching may be in the form of cash or in-kind contribution.

(b) **ELIGIBILITY REQUIREMENTS.**—To be eligible to receive funding under this title, a project shall—

(1) address the following objectives—

(A) reduce the threat of large, high intensity wildfires and the negative effects of excessive competition between trees by restoring ecosystem functions, structures, and species composition, including the reduction of non-native species populations;

(B) re-establish fire regimes approximating those that shaped forest ecosystems prior to fire suppression;

(C) preserve old and large trees;

(D) replant trees in deforested areas if they exist in the proposed project area; and

(E) improve the use of, or add value to, small diameter trees;

(2) comply with all Federal and State environmental laws;

(3) include a diverse and balanced group of stakeholders as well as appropriate Federal, Tribal, State, County, and Municipal government representatives in the design, implementation, and monitoring of the project;

(4) incorporate current scientific forest restoration information; and

(5) include a multiparty assessment to—

(A) identify both the existing ecological condition of the proposed project area and the desired future condition; and

(B) report, upon project completion, on the positive or negative impact and effectiveness of the project including improvements in local management skills and on the ground results;

(6) create local employment or training opportunities within the context of accomplishing restoration objectives, that are consistent with the purposes of this title, including summer youth jobs programs such as the Youth Conservation Corps where appropriate;

(7) not exceed 4 years in length;

(8) not exceed a total annual cost of \$150,000, with the Federal portion not exceeding \$120,000 annually, nor exceed a total cost of \$450,000 for the project, with the Federal portion of the total cost not exceeding \$360,000;

(9) leverage Federal funding through in-kind or matching contributions; and

(10) include an agreement by each stakeholder to attend an annual workshop with other stakeholders for the purpose of discussing the cooperative forest restoration program and projects implemented under this title. The Secretary shall coordinate and fund the annual workshop. Stakeholders may use funding for projects authorized under this title to pay for their travel and per diem expenses to attend the workshop.

SEC. 606. SELECTION PROCESS.

(a) After consulting with the technical advisory panel established in subsection (b), the Secretary shall select the proposals that will receive funding through the Collaborative Forest Restoration Program.

(b) The Secretary shall convene a technical advisory panel to evaluate the proposals for forest restoration grants and provide recommendations regarding which proposals would best meet the objectives of the Collaborative Forest Restoration Program. The technical advisory panel shall consider eligibility criteria established in section 605, the effect on long-term management, and seek to use a consensus-based decisionmaking process to develop such recommendations. The panel shall be composed of 12 to 15 members, to be appointed by the Secretary as follows:

(1) A State Natural Resource official from the State of New Mexico.

(2) At least two representatives from Federal land management agencies.

(3) At least one tribal or pueblo representative.

(4) At least two independent scientists with experience in forest ecosystem restoration.

(5) Equal representation from—

(A) conservation interests;

(B) local communities; and

(C) commodity interests.

SEC. 607. MONITORING AND EVALUATION.

The Secretary shall establish a multiparty monitoring and evaluation process in order to assess the cumulative accomplishments or adverse impacts of the Collaborative Forest Restoration Program. The Secretary shall include any interested individual or organization in the monitoring and evaluation process. The Secretary also shall conduct a monitoring program to assess the short- and long-term ecological effects of the restoration treatments, if any, for a minimum of 15 years.

SEC. 608. REPORT.

Deadline.

No later than 5 years after the first fiscal year in which funding is made available for this program, the Secretary shall submit a report to the Committee on Energy and Natural Resources of the United States Senate and the Committee on Resources of the United States House of Representatives. The report shall include an assessment on whether, and to what extent, the projects

funded pursuant to this title are meeting the purposes of the Collaborative Forest Restoration Program.

SEC. 609. AUTHORIZATION OF APPROPRIATIONS.
