[Document Identifier: OS-0990-New; 30-day Notice]

Agency Information Collection Request; 30-Day Public Comment Request

AGENCY: Office of the Secretary, HHS.

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Office of the Secretary (OS), Department of Health and Human Services, is publishing the following summary of a proposed collection for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to

minimize the information collection burden.

To obtain copies of the supporting statement and any related forms for the proposed paperwork collections referenced above, e-mail your request, including your address, phone number, OMB number, and OS document identifier, to *Sherette.funncoleman@hhs.gov*, or call the Reports Clearance Office on (202) 690-5683. Written comments and recommendations for the proposed information collections must be received within 30 days of this notice directly to the OS OMB Desk Officer all comments must be faxed to OMB at 202-395-6974.

Proposed Project—Annual Appellant Climate Survey—0990-NEW—Office of Medicare Hearings and Appeals (OMHA).

Abstract: The first annual OMHA Appellant Climate Survey is a survey of Medicare beneficiaries, providers, and suppliers who had a hearing before an Administrative Law Judge (ALJ) at the Office of Medicare Hearings and Appeals (OMHA). Appellants dissatisfied with the outcome of their Level 2 appeal may request a hearing before an OMHA ALJ. The Appellant

Climate Survey will be used to measure appellant satisfaction with their OMHA appeals experience, as opposed to their satisfaction with a specific ruling.

OMHA was established by the Medicare Prescription Drug, Improvement, and Modernization Act (MMA) of 2003 (Pub. L. 108-173) and became operational on July 1, 2005. The MMA legislation and implementing regulations issued on March 8, 2007 instituted a number of changes in the appeals process. The MMA legislation also directed the U.S. Department of Health and Human Services to consider the feasibility of "conducting hearings using telephone- or video-conference technologies." In carrying out this mandate, OMHA makes extensive use of video-teleconferencing to provide appellants with a vast nationwide network of access points for hearings close to their homes. The survey will gauge appellants' satisfaction with this new service along with the overall appeals experience. The OMHA survey will be conducted annually over a three-year period, beginning in FY08. Results from the surveys will be used to gauge progress made in increasing satisfaction amongst appellants.

ESTIMATED ANNUALIZED BURDEN TABLE

Type of respondent	Form name	Number of respondents	Number responses per respondent	Average burden per response (in hours)	Total burden hours
Healthcare Practitioners and Technical Occupations	Form A	60	1	11/60	11
Bill and Account Collectors	Form A	340	1	11/60	62
Total		400	1	11/60	73

Seleda Perryman,

Office of the Secretary, Paperwork Reduction Act Reports Clearance Officer.

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and

Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call 404-639-4766 and send comments to Maryam Daneshvar, CDC Assistant Reports Clearance Officer, 1600 Clifton Road, MS-D74, Atlanta, GA 30333 or send an e-mail to *omb@cdc.gov*.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the

use of automated collection techniques or other forms of information technology. Written comments should be received within 60 days of this notice.

Proposed Project

Health Hazard Evaluation and Technical Assistance—Requests and Emerging Problems—Reinstatement (OMB No. 0920-0260)—National Institute for Occupational Safety and Health (NIOSH), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

In accordance with its mandates under the Occupational Safety and Health Act of 1970 and the Federal Mine Safety and Health Act of 1977, the National Institute for Occupational Safety and Health (NIOSH) responds to requests for health hazard evaluations (HHE) to identify chemical, biological or

physical hazards in workplaces throughout the United States. Each year, NIOSH receives approximately 400 such requests. Most HHE requests come from the following types of companies: Service, manufacturing companies, health and social services, transportation, construction, agriculture/mining, skilled trade and construction. A printed Health Hazard Evaluation request form is available in English and in Spanish. The form is also available on the Internet and differs from the printed version only in format and in the fact that it uses an Internet address to submit the form to NIOSH. Both the printed and Internet versions of the form provide the mechanism for employees, employers, and other authorized representatives to supply the information required by the regulations governing the NIOSH Health Hazard Evaluation program (42 CFR 85.3-1). In general, if employees are submitting the form it must contain the signatures of three or more current employees. However, regulations allow a single signature if the requestor: Is one of three (3) or fewer employees in the process, operation, or job of concern; or is any officer of a labor union representing the employees for collective bargaining purposes. An individual management official may request an evaluation on behalf of the employer. The information provided is used by NIOSH to determine whether there is reasonable cause to justify conducting an

investigation and provides a mechanism to respond to the requestor.

In the case of 25% to 50% of the health hazard evaluation requests received, NIOSH determines an on-site evaluation is needed. The primary purpose of an on-site evaluation is to help employers and employees identify and eliminate occupational health hazards. In most on-site evaluations employees are interviewed to help further define concerns, and in approximately 50% of these evaluations (presently estimated to be about 100 facilities), questionnaires are distributed to the employees (averaging about 40 employees per site for this last subgroup). The interview and survey questions are specific to each workplace and its suspected diseases and hazards, however, items are derived from standard medical and epidemiologic techniques. The request forms take an estimated 12 minutes to complete. The interview forms take 30 minutes to complete.

NIOSH distributes interim and final reports of health hazard evaluations, excluding personal identifiers, to: Requesters, employers, employee representatives; the Department of Labor (Occupational Safety and Health Administration or Mine Safety and Health Administration, as appropriate); and, as needed, other state and federal agencies.

NIOSH administers a follow-back program to assess the effectiveness of its health hazard evaluation program in reducing workplace hazards. This

program entails the mailing of follow-back questionnaires to employer and employee representatives at all the workplaces where NIOSH conducted site visits. In a small number of instances, a follow-back on-site evaluation may be conducted. The initial follow-back questionnaire is administered immediately following the site visits and takes about 15 minutes. Another follow-back questionnaire is sent a year later and requires about 15 minutes to complete. At 24 months, a final follow-back questionnaire regarding the completed evaluation is sent which takes about 15 minutes to complete.

For requests where NIOSH does not conduct an onsite evaluation, the requester receives a follow-back questionnaire 12 months after our response and a second one 24 months after our response. The first questionnaire takes about 10 minutes to complete and the second questionnaire takes about 15 minutes to complete.

Because of the large number of investigations conducted each year, the need to respond quickly to requests for assistance, the diverse and unpredictable nature of these investigations, and its follow-back program to assess evaluation effectiveness; NIOSH requests an umbrella clearance for data collections performed within the domain of its health hazard evaluation program.

There is no cost to respondents other than their time.

ESTIMATE OF ANNUALIZED BURDEN HOURS

Type of respondent	Form	Number of respondents	Number of responses per respondent	Average burden per response in hours	Total burden hours
Employees and Representatives	Health Hazard Evaluation Request Form.	302	1	12/60	60
Employers	Health Hazard Evaluation Request Form.	118	1	12/60	24
Employees	Health Hazard Evaluation specific interview example.	4200	1	15/60	1050
Employees	Health Hazard Evaluation specific questionnaire example.	4440	1	30/60	2220
Followback for onsite evaluations for Management, Labor and Requester.	Initial Site Visit survey form	840	1	15/60	210
Followback for onsite evaluations for Management, Labor and Requester.	Closeout for HHE with an OnSite Evaluation.	840	1	15/60	210
Followback for onsite evaluations for Management, Labor and Requester.	1 year later HHE with an OnSite Evaluation.	840	1	15/60	210
Followback for evaluations for Management, Labor and Requester without onsite evaluation.	Followback I Survey cover letter and Forms.	55	1	10/60	9
Followback for evaluations for Management, Labor and Requester without onsite evaluation.	Followback II Survey Cover Letter and Forms.	55	1	15/60	14

Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) publishes a list of information collection requests under review by the Office of Management and Budget (OMB) in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these requests, call the CDC Reports Clearance Officer at (404) 371-5960 or send an e-mail to *omb@cdc.gov*. Send written comments to CDC Desk Officer, Office of Management and Budget, Washington, DC or by fax to (202) 395-6974. Written comments should be received within 30 days of this notice.

Proposed Project

Racial and Ethnic Approaches to Community Health across the U.S. (REACH US) Evaluation—NEW—National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Minority populations in the U.S. experience health disparities and excess deaths due to the burden of disease. Analysis has shown that more than eighty percent of excess deaths in minority populations are accounted for by six disease areas: Cardiovascular disease, diabetes, asthma, infant mortality, breast and cervical cancer, and diseases that can be prevented through immunization. In response, CDC has funded a national, multi-level community intervention program to eliminate health disparities in specific priority areas, entitled “Racial and Ethnic Approaches to Community Health across the U.S. (REACH US).” The REACH US program will serve communities with African American, American Indian, Hispanic American, Asian American, and Pacific Islander citizens. The REACH US program extends previous CDC-funded efforts

funded through the related REACH 2010 program, and is part of the Department of Health and Human Services’ response to the President’s Race Initiative and to the Healthy People 2010 goal of eliminating health disparities in the health status of racial and ethnic minorities.

REACH US will help to continue assessing the prevalence of self-reported risk behaviors associated with cardiovascular disease, diabetes, health disparities in infant mortality, deficits in breast and cervical cancer screening and management, and deficits in adult immunizations. Annual surveys will be conducted in 29 REACH US communities using Computer-Assisted Telephone Interview (CATI) methodology. Information will be collected from 900 respondents in each participating community. The REACH US questionnaire is modeled on the questionnaire previously fielded through the REACH 2010 evaluation, and contains questions that are standard public health performance measures for each health priority area.

There are no costs to respondents except their time to participate in the survey. The total estimated annualized burden hours are 9,875.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondents	Form name	No. of respondents	No. of responses per respondent	Average burden per response (in hours)
Adults ages 18 and older who live in communities participating in the REACH US Program.	Introductory Screening Interview	100,500	1	2/60
	Household Member Interview	26,100	1	15/60

Dated: March 28, 2008.
