2003 CENSUS OF AGRICULTURE - AMERICAN SAMOA INTRODUCTION

HISTORY

For more than 150 years, the U.S. Department of Commerce, Bureau of the Census, conducted the census of agriculture. However, the 1997 Appropriations Act transferred the responsibility from the Bureau of the Census to the U.S. Department of Agriculture (USDA), National Agricultural Statistics Service (NASS). The 2003 Census of Agriculture for American Samoa is the second census in American Samoa conducted by NASS.

The census of agriculture is taken to obtain agricultural statistics for each county, State (including territories and protectorates), and the Nation. The first U.S. agricultural census data were collected in 1840 as a part of the sixth decennial census. From 1840 to 1920, an agricultural census was taken as a part of each decennial census. Since 1920, a separate national agricultural census has been taken every 5 years.

The 2003 census is the tenth census of agriculture of American Samoa, but only the second to be conducted strictly as a census of agriculture. The first eight agriculture censuses in American Samoa, beginning in 1920, were taken in conjunction with the decennial census, and agriculture information was collected only for those households that answered affirmatively to a question about agricultural activities asked at the end of the decennial questionnaire.

USES OF THE CENSUS

The census of agriculture is the leading source of statistics about American Samoa's agricultural production and the only source of consistent, comparable data at the island level. Census statistics are used to measure agricultural production and to identify trends in an ever-changing agricultural sector. Many local programs use census data as a benchmark for designing and evaluating surveys. Private industry uses census statistics to provide a more effective production and distribution system for the agricultural community. The 2003 Census of Agriculture of American Samoa provides data on production and value of agriculture both for sale and for home consumption. The collection of data for home consumption reflects the importance of this sector of agriculture in American Samoa, where a majority of households provide a portion of their food needs through agricultural activities that may fall outside the commercial marketplace.

AUTHORITY AND AREA COVERED

The census of agriculture is required by law under the “Census of Agriculture Act of 1997,” Public Law 105-113 (Title 7, United States Code, Section 2204g). The law directs the Secretary of Agriculture to conduct a census of agriculture in 1998 and in every fifth year thereafter, covering the prior year. The census of agriculture includes each State, Puerto Rico, Guam, the U.S. Virgin Islands, and the Commonwealth of Northern Mariana Islands, and states that the Secretary may include other territories or protectorates in the census program.

The inclusion of American Samoa in the five year agriculture census program was done at the request of the Department of Interior’s Office of Insular Affairs and the Department of Commerce of American Samoa. The census data for American Samoa were collected in accordance with a Memorandum of Agreement between NASS, the Department of Interior’s Office of Insular Affairs, and the Department of Commerce of American Samoa. It was conducted with the cooperation and assistance of the American Samoa Department of Agriculture and American Samoa Community College - Land Grant.

FARM DEFINITION

The statistics collected in the census represent all places in American Samoa with agricultural operations during the 2003 calendar year qualifying as farms. The farm definition was any place that raised or produced any agricultural products for sale or home consumption. Approximately seventy-five percent of all households in American Samoa fit this definition. This is the same farm definition used in the 1998 Census of Agriculture, but a broader farm definition than was used prior to that. The 1990 farm definition required a minimum of \$100 in sales, and previous censuses used sales or some minimum number of livestock to qualify as a farm. This publication provides 2003 and 1998 data for all farms, commercial farms, and noncommercial farms. Commercial farms are defined as those with sales of \$100 or more, and noncommercial farms are those with less than \$100 in sales. Many of the commercial farms produce more for home consumption than for sale, but by virtue of having sales in excess of \$100 are classified as commercial.

COMPARABILITY OF DATA

In general, the data from the 2003 census are comparable to those of the 1998 census.

TABULAR PRESENTATION

Tables 1 through 10 show detailed island data for all farms, commercial farms, and noncommercial farms, accompanied by historic data from the previous census. Tables 11 through 24 show selected data items for the three categories of farms, presented by legal districts. Tables 25 through 28 provide 2003 island data cross-tabulated by tenure of operator, size of farm, age of operator, and value of agricultural products sold.

SPECIAL TABULATIONS

Custom-designed tabulations can be developed to individual user specifications on a programming cost reimbursable basis. Inquiries about special tabulations should be directed to the Associate Administrator, National Agricultural Statistics Service, U.S. Department of Agriculture, 1400 Independence Ave., S.W., Washington, DC 20250, or HQAA@nass.usda.gov.

DISCLOSURE RULES

In keeping with the provisions of Title 7, United States Code, no data are published that would disclose the operations of an individual farm. However, the number of farms in a given size category or other classification is not considered a disclosure, so this information may be given even though other information is withheld.

DOLLAR VALUES

All dollar values presented in this report are in current dollars, i.e., 2003 data are in 2003 dollars and 1998 data in 1998 dollars. The dollar values have not been adjusted for changes in price levels between census years.

REFERENCE PERIODS

Inventories of livestock, poultry, and machinery and equipment are the number on hand at the time of enumeration. Crop production, crop and livestock sales, and expense data are for the 12-month period between January 1 and December 31, 2003.

ABBREVIATIONS AND SYMBOLS

The following abbreviations and symbols are used throughout the tables:

- Represents zero.
- (D) Withheld to avoid disclosing data for individual farms.
- (NA) Not available.
- (X) Not applicable.
- (Z) Less than half of the unit shown.

¹ A household may or may not be a farm according to the census farm definition.

APPENDIX A. GENERAL EXPLANATION

DATA COLLECTION

Method of Enumeration

As in the previous agriculture census in American Samoa, enumeration was based on a list of farm operators compiled by the American Samoa Department of Agriculture along with a sample of all households not on the list. All of the operators on the list were enumerated with certainty, and a random sample of the remaining households was selected to represent all operations not on the list. The data from these households were given a weight equal to the inverse of their probability of selection to the sample. The statistics in this report were collected from farm operators during the period from late February to early April 2004.

The enumerators were employees of the Department of Commerce, the Department of Agriculture, or the American Samoa Community College - Land Grant. Enumerators were divided into teams, with each team responsible for a given area. The enumerators were required to contact all households identified on census maps in their assigned area and complete a census report form for all farm operations. If a person on the list of farm operators was not operating a farm, the enumerator was to record whether the land had been sold or rented to someone else and was still being used for agriculture. If so, the enumerator got the name of that person, and followed up to ensure that the operation was included in the census.

Training Program

The project manager, crew leaders, and enumerators employed for the census in American Samoa received special training in accordance with instructions prepared by NASS and the Department of Commerce of American Samoa. The training included practice in interviewing and filling out the report form plus detailed discussion of the enumerator's instructions.

Report Form

Prior to each agriculture census, the content of all census report forms is reviewed to eliminate inquiries no longer needed, to identify new items necessary to meet user needs, and to better describe the agricultural situation in the Islands. Data requests are solicited from farm organizations, land-grant colleges and universities, State and Federal agencies, State Departments of Agriculture, agribusinesses, and other users. Each respondent is asked to identify and justify its specific data needs.

The report form for the 2003 Census of Agriculture was prepared by NASS, in cooperation with the Departments of Commerce and Agriculture of American Samoa. Based on comments from these departments, along with the American Samoa Community College - Land Grant, the content of the 2003 census report form remained basically unchanged from 1999.

DATA PROCESSING

The processing of the 2003 Census of Agriculture for American Samoa was done by both the Department of Commerce in American Samoa, and NASS in Washington. Each report form was reviewed and coded prior to data keying. Report forms not meeting the census farm definition were voided. The remaining report forms were examined for accuracy, consistency, and completeness. Reporting errors in computations, units of measures, data inconsistencies, and misplaced entries were corrected. After all the report forms had been reviewed and coded, the data were keyed. These functions were performed in American Samoa.

After the review and keying operations were completed, the electronic files and the report forms were sent to Washington, where the data were subjected to a thorough computer edit. The edit performed comprehensive checks for consistency and reasonableness, corrected erroneous or inconsistent data, supplied missing data based on similar farms, and assigned farm classification codes necessary for tabulating the data. All substantial changes to the data generated by the computer edits were reviewed and verified by analysts. Inconsistencies were reviewed, corrected, and keyed to a correction file. The corrected data were then tabulated by the computer and reviewed by analysts.

Prior to publication, tabulated totals were reviewed by analysts to identify inconsistencies and potential coverage problems. Comparisons were made with previous census data, as well as other available data. When necessary, data inconsistencies were resolved by carrying corrections to data records.

DEFINITIONS AND EXPLANATION

The following definitions and explanations relate to items that are in the tables. For an exact wording of the questions and instructions on the report form, see the report form in appendix B.

Crops. The report form contained individual inquiries for crops commonly grown and space to write in those less frequently produced. The information requested in 1998 included acres of crops harvested and pounds harvested for sale.

The units of measure for reporting quantities of some crops have varied from one census to another. The aim has been to permit reporting in the units of measure currently in use. The quantities harvested for each crop are expressed in the units of measure given on the 1999 report form.

Field Crops, Vegetables, and Melons. The land area from which individual root crops were harvested was obtained in acres and tenths of acres. When two or more crops were harvested from the same land, the area was to be reported for each separate crop or planting. Total quantities of each crop harvested, quantity of sales, value of sales, and quantity used for home consumption were also reported.

Fruits, nuts, or nursery crops. The total number of acres planted in bearing and nonbearing fruit and nut trees was collected. For individual fruit or nut crops, data on the number of trees or plants, total quantities of each crop harvested, quantity of sales, value of sales, and quantity used for home consumption were reported. For nursery crops, the land area harvested, both square feet under cover and acres in the open, was collected, along with the value of sales and value of plants for family use.

Equipment. The following types of equipment on the place at time of enumeration, regardless of ownership, were reported if they were operable:

Automobiles. This includes all vehicles used primarily as passenger cars.

Motortrucks. This includes pickup trucks and truck-trailer combinations.

Tractors. This includes all wheel and tracklaying (crawler) tractors and garden tractors.

Tillers of all kinds. This includes all mechanical tillers.

Chain saws.

Weed eaters. This includes all types of string trimmers.

Mist blowers. This includes all stationary mist sprayers.

Knap sacks. This includes manually operated sprayers carried by the user.

Expenses. The 2003 report form contained questions on seven types of farm expenses incurred during the census year, whether made by the farm operator, his/her landlord, or both. A farm operator who rented part of his/her land to others reported only the expenses on the land he/she operated.

Machine hire and customwork. Expenses for machine hire and customwork relate to tractor hire, plowing, and spraying. Any amount spent for the labor involved is considered to be part of the expense. The costs of hauling, trucking, or exchange work without pay are omitted.

Wages and salaries paid to employees or hired farm workers. Expenses for hired farm labor include total cash payments made to family members and others for farm labor.

Feed purchased for livestock and poultry. Expenses for feed for livestock and poultry include total cash payments made for pasture used, salt concentrates, mineral supplements, grain, hay, mill feeds, and any other items purchased for feeding livestock and poultry on the place.

Purchases of insecticides, fungicides, and herbicides. This item relates to total cash expenses for all chemicals, sprays, dusts, etc., used to control weeds, pests, insects, or disease on crops and livestock.

Purchases of fertilizers and manure. These expenses include the total amount spent for manure and commercial fertilizers of all kinds for use on the farm.

Purchases of livestock, poultry, and fish. This item includes all cash expenses for livestock, poultry, and fish purchased for the place. The cost of livestock and poultry bought and resold within 30 days is not included.

Seed Cost. These expenses include all seed purchased for planting, as well as seedlings.

Farm operator. The term "operator" designates a person who operates a farm, either by doing the work himself/herself or by directly supervising the work. The operator may be the owner, a member of the owner's household, a hired manager, or a tenant, renter, or sharecropper. If the operator rents land to others or has land worked on shares by others, he/she is considered the operator only if the land is retained for his/her own operation. For communal lands, the person in charge is considered as the operator of land used for the benefit of the extended family group. An individual member of the family group who raised crops or kept livestock or poultry for his/her own account on communal land was considered to be the operator of the land so assigned. By definition, the number of operators is the same as the number of farms.

Farms or operators reporting. Figures for "farms reporting" or "operators reporting" represent the number of farms, or operators, reporting the specified item. The difference between the total number of farms and the number of farms reporting a particular item represents the number of farms not having that item.

Land in farms. The land in farms was determined from the answers to questions 1 through 4 in section 1 of the report form (see appendix B). The amounts of land reported as owned and reported as rented from others were added together, and the amount of land reported as rented to others was subtracted from that sum. The result represents "land in farms." Although the area designated land in farms consists primarily of agricultural land, i.e. land used for crops, pasture, or grazing, it also included areas of land not actually under cultivation, nor used for pasture or grazing. For example, woodland and wasteland owned or rented from others were included as land in farms unless the report indicated it was being held for nonagricultural purposes, such as for recreation or for timber.

Land owned. This includes all land that the operator or his/her spouse held under title, purchased contract, or as heir or trustee of an undivided estate at the time of enumeration. Land managed by a hired manager also was considered owned. Communal land is the land which is owned by the extended family.

Land rented from others. This includes not only land the operator rented or leased from others, but also land worked on shares for others or land occupied rent free.

Land rented to others. This includes all land that the operator rented to others and all land assigned to others on shares or rent free. For the most part, land rented to others represents agricultural land, but it also includes land rented for residential or other purposes. The tenant is considered to be the operator of land leased, rented, or worked on shares, even though his/her landlord may supervise the operations. The landlord is considered to be the operator of only that portion of the land not assigned to tenants.

Land use. Land in farms at the time of enumeration is categorized according to the way it was used during the calendar year of 2003. The land is counted only once, even though it may have had more than one use during the year.

Cropland harvested. This refers to all land from which any crop was harvested. It also includes land in field crops that were grazed when mature or almost mature and land in nonbearing fruit or nut trees and plants. Land from which two or more crops were harvested and which was also used for other purposes, either before or after the crops were harvested, was to be reported as cropland harvested without regard to the other uses.

Other cropland. This includes all cropland on the place that was used for pasture and cropland on the place that was not used for crops or pasture. It includes land on which there was total crop failure due to hurricane, flood, drought, insects, fire, or other causes; cropland lying idle; and cropland planted with soil improvement grasses or other cover crops planted for improvement. It does not include land so hilly, rocky, or wet that the cost of improving it for cultivation would be more than the operator could pay.

Pasture or grazing land. This refers to all land used for pasture or grazing, except cropland. It includes all woodland where livestock pastured or grazed. It does not include cropland, even though cattle or other livestock may have been grazed on it.

Woodland. This includes all land that is covered in woods or forests. It does not include woodland pasture.

Other land. This refers to all land not included in the other land use classifications, such as house and other building lots, lanes, roads, ditches, and land area of ponds and wasteland.

Livestock and poultry. Inventory data for livestock and poultry relate to the number on hand at the time of enumeration. All livestock and poultry were to be enumerated on the place where they were at the time of enumeration regardless of who owned them. Livestock on unfenced land were to be reported as being on the place identified as the headquarters of the person who had control over them.

Operator/household characteristics. Data were obtained for the operators and all members of the household for the following characteristics:

Relationship to the head of the household. The relationship to the head of the household of each person living in the household.

Age. The age of each member of the household on the day of enumeration.

Sex. The sex of each member of the household.

Work force participation. Data on the work force participation of each member of the household in the week prior to enumeration were collected. There are eight categories of participation: 1) worked for pay only, 2) worked for pay/subsistence, 3) worked for subsistence only, 4) worked for in-kind pay, 5) none - on leave or vacation, 6) none - available and seeking work, 7) none - seeking work but unavailable, and 8) none - not seeking work.

Place of birth. There are thirteen possible entries for this question: 1) American Samoa, 2) Western Samoa, 3) Tonga, 4) Fiji, 5) Other Pacific, 6) United States, 7) Australia, 8) New Zealand, 9) Korea, 10) ROC, 11) Philippines, 12) Other Asian Country, 13) Other.

Residence 5 years ago. Identifies where each member of the household resided five years prior to the day of the interview. The possible locations are the same as for the place of birth listed above.

Highest level of education. The highest level of education attained for each member of the household was collected.

Work on farm. There are three ranges for the number of days that each member of the household worked on the farm. The ranges are: 1) 150 days or more, 2) 25 to 149 days, and 3) less than 25 days.

Years on present farm. Operators were classified by years on present farm into four groups. These data were based on the question asking the year the operator began operation of the present farm or any part of it.

Value of products. Data for value of products sold were obtained for each crop or type of livestock and their products sold from the farm. Value of sales was also collected for fish and other aquaculture both raised on the place and caught from the sea. Values of crops and livestock used for home consumption were not reported, but were computer-generated using the quantities consumed and the average sale price for each product.

FARM CLASSIFICATIONS

Farms by tenure of operator. In the 1998 census, farms were classified by tenure of operator on the basis of data reported for land owned, rented from others, worked on shares for others, and managed for others. The same classification has been used since 1964. During the processing operations, each report form was coded to indicate whether the operator was a full owner, part owner, or tenant.

Full owners. Operate only land they own.

Part owners. Operate land they own and also land they rent from others.

Tenants. Rent from others or work the land they operate on shares for others.

Farms by size. Farms were classified by size on the basis of the total land area established in each farm. According to the census definition, a farm is essentially an operating unit, not an ownership tract. All land operated or managed by one person or partnership represents one farm. In the case of tenants, the land assigned to each tenant is considered a separate farm, even though the landlord may consider the entire landholding to be one unit rather than several separate units.

Farms by age of operator. Enumerators entered the operator's age, as of his/her last birthday, on the report form. The computer edit classified the operator's age into one of the following age groups:

Under 25 years	35 to 44 years	55 to 64 years
25 to 34 years	45 to 54 years	65 years and over

Farms by value of agricultural products sold. The farms were classified on the basis of the total value of agricultural products sold. The total was obtained by adding the reported values of all products sold from the farm. The value of livestock, milk, poultry and eggs, fish, vegetables, fruits and nuts, all field crops, ornamental plants, and all other crops was obtained from the operator at the time of enumeration. The computer edit classified the value of agricultural products sold into one of the following groups:

Less than \$100	\$500 to \$1,199	\$2,500 to \$4,999	\$7,500 to \$9,999
\$100 to \$499	\$1200 to \$2499	\$5,000 to \$7,499	\$10,000 or more

Appendix B. REPORT FORM

OMB No. 0535-0226 Approval Expires - 10/31/04

<p>NOTICE - Response to this inquiry is required by law (title 7, U.S. Code). By the same law, YOUR REPORT IS CONFIDENTIAL and will only be used for statistical purposes. Your report CANNOT be used for purposes of taxation, investigation or regulation. The law also provides that copies retained in your files are immune from legal process.</p>		Part A - QUESTIONNAIRE IDENTIFICATION (NASS USE ONLY)				
 <p style="text-align: center;">2003 CENSUS OF AGRICULTURE AMERICAN SAMOA</p>		FARM SERIAL NUMBER				
		ARA	Block	Map Spot		
Form 02-A1 (USAS) U.S. DEPARTMENT OF AGRICULTURE NATIONAL AGRICULTURAL STATISTICS SERVICE		Island	Code	District	Code	
		County	Code	Village	Code

		Full name (First name, middle initial, last name)				
		Address or physical location				
035	036	037	038	039		
<p>READ TO RESPONDENT - We estimate that it will take from 20 to 40 minutes to complete this report, with 30 minutes being the average time. Do you have any land on which you keep livestock or grow crops for sale or family use? (If NO, go to Section 10 on the back page. If YES, continue with Section 1.)</p>						
INSTRUCTIONS						
1. Communal lands a. Any land used in owner-like possession for the benefit of the extended family should be reported as land owned under section 1, question 1. If the land is used for the sole benefit of the operator rather than the extended family, report the land under section 1, question 2 on a separate questionnaire. b. Any land used to which title or right of ownership is not held, should be reported as land rented FROM OTHERS under section 1, question 2. Do this even though no rent is paid to the owner of this land. c. Any land to which the title is held or ownership claimed, which is used by a nonmember of the extended family, should be reported as land rented TO OTHERS under section 1, question 3. Do this even though no rent is paid by the nonmember. In such cases, a separate agriculture questionnaire should be completed for the lands reported under section 1, question 3 in the name of the person in charge.			2. Private land Privately owned lands, not held or operated under the communal system - If crops were raised or livestock or poultry were kept, complete this agriculture questionnaire in the name of the person in charge. The person in charge is the one responsible for making the decisions. The person in charge will usually be the head of the family which plants or gathers the crops. 3. All other land Experimental farms, schools, churches, and other institutions - If crops were raised or livestock or poultry were kept, complete this agriculture questionnaire in the name of the institution. Also, give the name of the manager or superintendent in part B, above.			
SECTION 1 LAND IN AGRICULTURE (Report all land in tenths of acres)						
		None	Communal land	Privately owned land	All other land	Total
1. How many acres do you own or use in owner-like possession?		040	/10	041	/10	042
2. How many acres do you rent from others? (Include land used rent-free)		044	/10	045	/10	046
3. How many acres do you rent to others? (Include land for which no rent is received)		048	/10	049	/10	051
4. Total acres in this place -ADD acres owned (question 1) and acres rented from others (question 2), then subtract acres rented to others (question 3), and enter the result in this space.		053	/10	054	/10	055
		056	/10	057	/10	058
5. If you rented land from others, (question 2) enter the following information for each landlord		Name of owner		Village	Acres	Tenths
		1)				/10
		2)				/10
		3)				/10
6. How many separate PARCELS or PIECES of land or plantations are represented in the "Total acres in this place?"		060				
		Number of parcels				
7. Is this farm producing mainly for family consumption or for sale? (Mark (X) one)		061				
1 <input type="checkbox"/> Home consumption - Go to question 10.		2 <input type="checkbox"/> Sale - ASK questions 8 and 9				
8. Which of the following best describes your operation?		062				
1 <input type="checkbox"/> Crop holding		2 <input type="checkbox"/> Livestock and/or poultry holding		3 <input type="checkbox"/> Mixed holding - both crops and livestock		4 <input type="checkbox"/> Other
9. In what YEAR did you begin to operate this farm?		063				
		Year				
10. In 2003, how many paid farm hands (non-family members) worked on this place -		150 days or more?	25 to 149 days?	Less than 25 days?		
		064	065	066		
11. What percent of the farm operation is financed by each of the following sources?		067				
a. Household		None	Percent			
b. Private (Individual)		<input type="checkbox"/>	067	%		
c. Commercial		<input type="checkbox"/>	068	%		
d. Government		<input type="checkbox"/>	069	%		
e. Other - Specify _____		<input type="checkbox"/>	070	%		
		<input type="checkbox"/>	071	%		

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The time required to complete this information collection is estimated to average 30 minutes per response.

SECTION 2 FIELD CROPS, MELONS, AND VEGETABLES - Did you harvest any FIELD CROPS, MELONS, or VEGETABLES in 2003, such as cabbage, cassava, taro yams, etc.?

002 1 Yes - Complete this section
2 No - Go to section 3

	None	How many acres were harvested in 2003?		What quantity was harvested in 2003?	What quantity was sold in 2003?	What was the value of sales in 2003? (Dollars)?	What was the quantity harvested for family use or consumption?
		Acres	Tenth				
1. Cabbage	<input type="checkbox"/>	080	/10	081 Lbs	082 Lbs	083 \$	084 Lbs

12. Tomatoes	<input type="checkbox"/>	135	/10	136 Lbs	137 Lbs	138 \$	139 Lbs
13. Yams	<input type="checkbox"/>	140	/10	141 Lbs	142 Lbs	143 \$	144 Lbs
14. Other field crops and vegetables (kava, sweet potatoes, etc.)	<input type="checkbox"/>	145	/10	146 Lbs	147 Lbs	148 \$	149 Lbs

SECTION 3 FRUITS AND NUTS - Did you have any FRUIT or NUT trees or plants on this place, such as bananas, coconuts, mangoes, pineapples, etc.? (Quantity harvested in 2003 and number of trees and plants on December 31, 2003.)

003 1 Yes - Complete this section
2 No - Go to section 4

	None	Total trees or plants on this place	Total quantity harvested in 2003	Quantity sold in 2003	Value of sales in 2003 (Dollars)	Quantity harvested for family use or consumption
2. Bananas (Fai Palagi)	<input type="checkbox"/>	155	156	157	158 \$	159
3. Bananas (Other varieties)	<input type="checkbox"/>	160	161	162	163 \$	164
4. Breadfruits	<input type="checkbox"/>	165	166	167	168 \$	169
5. Cacao	<input type="checkbox"/>	170	171	172	173 \$	174
6. Coconuts	<input type="checkbox"/>	175	176	177	178 \$	179
7. Grapefruits	<input type="checkbox"/>	180	181	182	183 \$	184
8. Lemons	<input type="checkbox"/>	185	186	187	188 \$	189
9. Limes	<input type="checkbox"/>	190	191	192	193 \$	194
10. Mangoes	<input type="checkbox"/>	195	196	197	198 \$	199
11. Oranges	<input type="checkbox"/>	200	201	202	203 \$	204
12. Papayas	<input type="checkbox"/>	205	206	207	208 \$	209
13. Pineapples	<input type="checkbox"/>	210	211	212	213 \$	214
14. Other fruits, nuts, and tree crops (pandanus, kopek, citrons, coffee, etc. Specify _____)	<input type="checkbox"/>	215	216	217	218 \$	219

15. How many square feet under cover and/or acres in the open did you have planted in ORNAMENTAL PLANTS or in any other NURSERY CROPS?	Square feet under cover	Acres	Tenths	Value of sales in 2003	Value of plants for family use in 2003
		220	221	/10	222 \$

SECTION 4 LAND USE - Land is to be reported in **ONLY ONE CATEGORY**. If two or more uses were made of the same land, report in the **FIRST** category that applies.

	None	Acres	
1. Cropland harvested - Report the number of acres on which crops were grown and harvested	<input type="checkbox"/>	230	/10
2. Other cropland - Include cropland pasture, crop failure, idle and fallow cropland, and cropland used for soil improvement	<input type="checkbox"/>	231	/10
3. Pasture or grazing land - Include woodland pasture. (DO NOT include cropland pasture.)	<input type="checkbox"/>	232	/10
4. Woodland (DO NOT include woodland pasture.)	<input type="checkbox"/>	233	/10
5. All other land - Include house lots, barn lots, lanes, roads, ditches, ponds, wasteland, etc.	<input type="checkbox"/>	234	/10
6. TOTAL LAND - Add entries in questions 1 through 5. This total should equal the entry in section 1, question 4		235	/10

SECTION 5 LIVESTOCK AND POULTRY - How many of the following livestock and/or poultry were on this place December 31, and how many were sold or slaughtered for family use in 2003?

	None	How many were on this place Dec. 31?	How many were sold in 2003?	What was the value of sales in 2003?	How many were slaughtered for family use
1. Total cattle and calves of all ages (Total of "a" and "b" below)	<input type="checkbox"/>	240	241	242	243
a. Milk Cows	<input type="checkbox"/>	244	245	246	247
b. All other cattle and calves	<input type="checkbox"/>	248	249	250	251
2. Hogs and pigs of all ages	<input type="checkbox"/>	252	253	254	255
3. Horses, mules, and colts of all ages	<input type="checkbox"/>	256	257	258	259
4. Chickens	<input type="checkbox"/>	260	261	262	263
5. Other poultry (ducks, pigeons, guineas, geese, etc.) - Specify	<input type="checkbox"/>	264	265	266	267
6. Other livestock - Specify	<input type="checkbox"/>	268	269	270	271
		Total quantity produced in 2003	Quantity sold in 2003	Value of sales in 2003	Quantity produced for family use or consumption in 2003
7. How many dozen chicken eggs were produced during 2003?	<input type="checkbox"/>	272	273	274	275
8. How many quarts of milk were produced during 2003?	<input type="checkbox"/>	276	277	278	279

SECTION 6 Did you or any family member raise any **FISH or AQUACULTURE PRODUCTS** on this place during 2003?

280 1 **YES - Complete this section** 2 **NO - Go to SECTION 7** None Number

1. How many in-ground PONDS did you use?	<input type="checkbox"/>	281
2. How many above-ground TANKS did you use?	<input type="checkbox"/>	282
3. Which of the following FISH or other AQUACULTURE PRODUCTS were raised in 2003?	None	
a. Tilapia	<input type="checkbox"/>	283
b. Shrimp	<input type="checkbox"/>	286
c. Crayfish	<input type="checkbox"/>	289
4. Clams	<input type="checkbox"/>	292
5. Other - Specify:	<input type="checkbox"/>	295

	Quantity Sold (Pounds)	Gross Value of SALES (Dollars ONLY)	Quantity raised for family use or consumption
283	lbs	284	285
286	lbs	287	288
289	lbs	290	291
292	number	293	294
295	lbs	296	297

SECTION 7 Did you or any family member **catch any fish or giant clams** for sale or family use, in 2003? (Do not include fish raised in captivity.)

300 1 **YES - Complete this section** 2 **NO - Go to SECTION 8**

1. Number of boats used for fishing

	None	Total quantity caught in 2003	Quantity sold in 2003	Value of sales in 2003	Quantity consumed or for family use in 2003
2. Fish	<input type="checkbox"/>	302	303	304	305
3. Giant Clams	<input type="checkbox"/>	302	307	308	309

SECTION 8 How much were your **EXPENDITURES** for each of the following in 2003?

None Dollars only

1. Machine hire and customwork	<input type="checkbox"/>	310	00
2. Wages and salaries paid to employees or hired farm workers (DO NOT include housework or contract construction work.) Include cash payments only	<input type="checkbox"/>	311	00
3. Feed purchased for livestock and poultry - Include cost of grain, feed, concentrates, and roughage; also amount paid for grinding and mixing feed.	<input type="checkbox"/>	312	00
4. Insecticides, fungicides, and herbicides	<input type="checkbox"/>	313	00
5. Fertilizers and manure purchased	<input type="checkbox"/>	314	00
6. Livestock and poultry purchased	<input type="checkbox"/>	315	00
7. Seed cost - Include seedlings purchased	<input type="checkbox"/>	316	00

SECTION 9 EQUIPMENT and FACILITIES

1. How many of the following pieces of **EQUIPMENT** are on this place? (Include all specified equipment on this place today, regardless of ownership, provided it is in operating condition.)

	None	Number
a. Tractors of all kinds	<input type="checkbox"/>	320
b. Motortrucks	<input type="checkbox"/>	321
c. Automobiles	<input type="checkbox"/>	322
d. Tillers of all kinds	<input type="checkbox"/>	323
e. Chain Saws	<input type="checkbox"/>	324
f. Weed Eaters	<input type="checkbox"/>	325
g. Mist Blowers	<input type="checkbox"/>	326
h. Knap Sack	<input type="checkbox"/>	327

2. Do you have the following **FACILITIES** on this place?

a. Electricity 1 YES 2 NO 328

b. Piped running water 1 YES 2 NO 329

SECTION 10 HOUSEHOLD CHARACTERISTICS

Name of family member (beginning with head of household)	Relationship to head of household	Age	Sex	WFP ¹	Class of Work ²	Place of Birth ³	Citizen-ship	Resi-dence 5 years ago ⁴	Highest Level of Educ. ⁵	Days worked on Farm ⁷

COMMENTS:

Enter the code for the following categories in the appropriate column above: of individuals' participation in the work force in the last week:

1 - WFP (Work Force Participation) in the last week-

- 1 - Worked for pay only
- 2 - Worked for pay/subsistence
- 3 - Worked for subsistence only
- 4 - Worked for in-kind pay
- 5 - None, on leave or vacation
- 6 - None- available and seeking work
- 7 - None- seeking work but unavailable
- 8 - None-not seeking work

2 - Class of Work-

- 1 - Government
- 2 - Private company or individual
- 3 - Self-employed

3 - Birthplace-

- 01 - American Samoa
- 02 - Western Samoa
- 03 - Tonga
- 04 - Fiji
- 05 - Other Pacific
- 06 - United States
- 07 - Australia
- 08 - New Zealand
- 09 - Korea
- 10 - ROC
- 11 - Philippines
- 12 - Other Asian Country
- 13 - Other

4 - Citizenship -

- 1 - US citizen
- 2 - US national
- 3 - Non-citizen/national permanent resident
- 4 - Non-citizen/national temporary resident

5 - Residence - 1999

- 01 - American Samoa
- 02 - Western Samoa
- 03 - Tonga
- 04 - Fiji
- 05 - Other Pacific
- 06 - United States
- 07 - Australia
- 08 - New Zealand
- 09 - Korea
- 10 - ROC
- 11 - Philippines
- 12 - Other Asian Country
- 13 - Other

6 - Highest Education Level

- List the highest grade completed. 01 through 12 are used for elementary through high school. 13 through 16 represent university, and 17 and above indicate graduate work.

7 - Days Worked on Farm

- 1 - 150 days or more
- 2 - 25 - 149 days
- 3 - Less than 25 days

INDEX

Item	Area Tables	District/ County Tables	Summary Tables	Item	Area Tables	District/ County Tables	Summary Tables
