

## IAF Accreditation Scope Categories

The scope of the ASME ISO 9000 Registration Program is the registration of suppliers of mechanical equipment and related materials, items, and services in the industries and sectors associated with the art, science, and practice of mechanical engineering.

The IAF Accreditation Scope Categories are based on the Statistical Nomenclature for Economic Activities (NACE Rev. 1) 1994 published by the Commission of European Communities. Contact ASME if your company's Scope Category is not listed, or if you are uncertain of the proper classification.

### 14 Rubber and Plastic Products

- Reinforced thermoset-plastic tanks and pressure vessels

### 17 Basic Metals and Fabricated Metal Products

- Manufacture of basic iron and steel and ferro-alloys
- Manufacture of tubes (cast iron and steel)
- Other first processing of iron and steel and production of ferro-alloys
- Manufacture of basic precious and non-ferrous metals
- Casting of metals
- Manufacture of structural metal products
- Manufacture of tanks, reservoirs and containers of metal; manufacture of central heating radiators and boilers (including gas cylinders and process vessels)
- Manufacture of steam generators (including power boilers, nuclear reactors and steam condensers)
- Forging, pressing, stamping and roll forming of metal; powder metallurgy
- Treatment and coating of metals; general mechanical engineering
- Manufacture of cutlery, tools and general hardware
- Manufacture of other fabricated metal products

### 18 Machinery and Equipment

- Manufacture of machinery for the production and use of mechanical power, except aircraft, vehicle and cycle engines (including pumps, valves, and compressors)
- Manufacture of other general purpose machinery
- Manufacture of agricultural and forestry machinery
- Manufacture of machine-tools
- Manufacture of other special purpose machinery (including heat exchangers)
- Manufacture of weapons and ammunition
- Manufacture of domestic appliances not otherwise classified
- Manufacture of tooling and equipment

### 34 Engineering Services

- Research and experimental development on natural sciences and engineering
- Architectural and engineering activities and related technical consultancy

### 35 Other Services

- Technical testing and analysis
