Disclaimer

This is an updated PDF document that allows you to type your information directly into the form, print it, and save the completed form.

Note: This form can be viewed and saved only using Adobe Acrobat Reader version 7.0 or higher, or if you have the full Adobe Professional version.

Instructions:

- 1. Type in your information
- 2. Save file (if desired)
- 3. Print the completed form
- 4. Sign and date the printed copy5. Mail it to the directed contact.

FORM 2S

NPDES FORM 2S APPLICATION OVERVIEW

NPDES

PRELIMINARY INFORMATION

Facilities with a currently effective NPDES permit.

This page is designed to indicate whether the applicant is to complete Part 1 or Part 2. Review each category, and then complete Part 1 or Part 2, as indicated. For purposes of this form, the term "you" refers to the applicant. "This facility" and "your facility" refer to the facility for which application information is submitted.

FACILITIES INCLUDED IN ANY OF THE FOLLOWING CATEGORIES MUST COMPLETE PART 2 (PERMIT APPLICATION INFORMATION).

2. Facilities which have been directed by the permitting authority to submit a full permit application at this time.

ALL OTHER FACILITIES MUST COMPLETE PART 1 (LIMITED BACKGROUND INFORMATION).

PART 1: LIMITED BACKGROUND INFORMATION

This part should be completed only by "sludge-only" facilities - that is, facilities that do not currently have, and are not applying for, an NPDES permit for a direct discharge to a surface body of water.

For purposes of this form, the term "you" refers to the applicant. "This facility" and "your facility" refer to the facility for which application information is submitted.

	iornation is submitted.

PART 2: PERMIT APPLICATION INFORMATION

Complete this part if you have an effective NPDES permit or have been directed by the permitting authority to submit a full permit application at this time. In other words, complete this part if your facility has, or is applying for, an NPDES permit.

For purposes of this form, the term "you" refers to the applicant. "This facility" and "your facility" refer to the facility for which application information is submitted.

APPLICATION OVERVIEW — SEWAGE SLUDGE USE OR DISPOSAL INFORMATION

Part 2 is divided into five sections (A-E). Section A pertains to all applicants. The applicability of Sections B, C, D, and E depends on your facility's sewage sludge use or disposal practices. The information provided on this page indicates which sections of Part 2 to fill out.

1. SECTION A: GENERAL INFORMATION.

Section A must be completed by all applicants

SECTION B: GENERATION OF SEWAGE SLUDGE OR PREPARATION OF A MATERIAL DERIVED FROM SEWAGE SLUDGE.

Section B must be completed by applicants who either:

- 1) Generate sewage sludge, or
- 2) Derive a material from sewage sludge.

3. SECTION C: LAND APPLICATION OF BULK SEWAGE SLUDGE.

Section C must be completed by applicants who either:

- 1) Apply sewage to the land, or
- 2) Generate sewage sludge which is applied to the land by others.

NOTE: Applicants who meet either or both of the two above criteria are exempted from this requirement if <u>all</u> sewage sludge from their facility falls into one of the following three categories:

- 1) The sewage sludge from this facility meets the ceiling and pollutant concentrations, Class A pathogen reduction requirements, and one of vector attraction reduction options 1-8, as identified in the instructions, or
- 2) The sewage sludge from this facility is placed in a bag or other container for sale or give-away for application to the land, or
- 3) The sewage sludge from this facility is sent to another facility for treatment or blending.

4. SECTION D: SURFACE DISPOSAL

Section D must be completed by applicants who own or operate a surface disposal site.

5. SECTION E: INCINERATION

Section E must be completed by applicants who own or operate a sewage sludge incinerator.

C. LAND APPLICATION OF BULK SEWAGE SLUDGE

Complete Section C for sewage sludge that is applied to the land, unless any of the following conditions apply:

- The sewage sludge meets the Table 1 ceiling concentrations, the Table 3 pollutant concentrations, Class A pathogen requirements, and one of vector attraction reduction options 1-8 (fill out B.4 Instead); or
- . The sewage sludge is sold or given away in a bag or other container for application to the land (fill out B.5 Instead); or
- You provide the sewage sludge to another facility for treatment or blending (fill out B.6 instead).

Complete Section C for every site on which the sewage sludge that you reported in Section B.7 is applied

Con	npiet	ete Section C for every site on which the sewage sludge that you reported in Section B.7 is applied.	
C.1.	lder a.	entification of Land Application Site. Site name or number	
	b.	Site location (Complete 1 and 2). 1. Street or Route #	
		County	
		City or Town State Zip	
		2. Latitude Longitude	
		Method of latitude/longitude determination	
		USGS map Field survey Other	
	C.	Topographic map. Provide a topographic map (or other appropriate map if a topographic map is unavailable) that shows the site lo	ocation.
C.2.	Owr a.	wner Information. Are you the owner of this land application site? Yes No	
	b.	If no, provide the following information about the owner:	
		Name	
		Telephone number	
		Mailing Address	
C.3.	App a.	Are you the person who applies, or who is responsible for application of, sewage sludge to this land application site? Yes No	
	b.	If no, provide the following information for the person who applies:	
		Name	
		Telephone number	
		Mailing Address	
C.4.	Site	te Type: Identify the type of land application site from among the following.	
		Agricultural land Forest Public contact site	
		Reclamation site Other. Describe:

D. SU	RFACE DISPOSAL							
•	te this section if you own or operate a surface disposal site.							
Comple	ete Sections D.1 - D.5 for each active sewage sludge unit.							
D.1. Inf	ormation on Active Sewage Sludge Units.							
a.	Unit name or number:	_						
b.	Unit location (Complete 1 and 2).							
	1. Street or Route #							
	County							
	City or Town State Zip							
	2. Latitude Longitude							
	Method of latitude/longitude determination: USGS map Field survey	Other						
C.	Topographic map. Provide a topographic map (or other appropriate map if a topographic map is unavailable) the	at shows the site location.						
d.	Total dry metric tons of sewage sludge placed on the active sewage sludge unit per 365-day period:	dry metric tons						
e.	Total dry metric tons of sewage sludge placed on the active sewage sludge unit over the life of the unit:	dry metric tons						
f.	Does the active sewage sludge unit have a liner with a maximum hydraulic conductivity of 1×10^{-7} cm/sec?	Yes No						
	If yes, describe the liner (or attach a description):							
g.	Does the active sewage sludge unit have a leachate collection system? Yes No							
	If yes, describe the leachate collection system (or attach a description). Also describe the method used for leacthe numbers of any Federal, State, or local permit(s) for leachate disposal:	hate disposal and provide						
h.	If you answered no to either D.1.f. or D.1.g., answer the following question:							
	Is the boundary of the active sewage sludge unit less than 150 meters from the property line of the surface disp	oosal site?						
	Yes No							
	If yes, provide the actual distance in meters:							
	Provide the following information:							
	Remaining capacity of active sewage sludge unit, in dry metric tons: dry metric	tons						
	Anticipated closure date for active sewage sludge unit, if known: (MM/DD/YYYY)						
	Provide, with this application, a copy of any closure plan that has been developed for this active sewage sludge	unit.						

EPA Form 3510-2S (Rev. 1-99)

Option 11 (Covering active sewage sludge unit daily)

FAC	ILITY	Y NAME AND PERMIT NUMBER:	Form Approved 1/14/99 OMB Number 2040-0086				
D.3.	Vec	tor Attraction Reduction. (con't)					
	b.	Describe, on this form or another sheet of paper, any treatment process properties of sewage sludge:	es used at the active sewage sludge unit to reduce vector attraction				
D.4.	Gro	und-Water Monitoring.					
	 a. Is ground-water monitoring currently conducted at this active sewage sludge unit, or are ground-water monitoring data otherwise available for this active sewage sludge unit? Yes No 						
	If yes, provide a copy of available ground-water monitoring data. Also, provide a written description of the well locations, the approximate depth to ground-water, and the ground-water monitoring procedures used to obtain these data.						
	b.	Has a ground-water monitoring program been prepared for this active se	ewage sludge unit? Yes No				
	If ye	s, submit a copy of the ground-water monitoring program with this permit	application.				
	C.	Have you obtained a certification from a qualified ground-water scientist contaminated? Yes No	that the aquifer below the active sewage sludge unit has not been				
		If yes, submit a copy of the certification with this permit application.					
D.5. Site-Specific Limits. Are you seeking site-specific pollutant limits for the sewage sludge placed on the active sewage sludge unit? Yes No							
		If yes, submit information to support the request for site-specific pollutar	t limits with this application.
