Please credit “NOAA” in your Chyron.

Time Code	Description
1:00:00:00	Animation: Geostationary Orbiting Environmental Satellite (GOES)
1:00:30:00	Animation: Polar Orbiting Environmental Satellite (POES)
1:00:50:00	Animation: Polar Orbiting Environmental Satellite (POES), zoom out to reveal all satellites used in search and rescue
1:01:22:00	Animation: Countries who have ground stations (LUTs) and are participating in the COSPAS-SARSAT search and rescue tracking system
1:01:35:00	Animation: SARSAT Polar Orbiting Satellite picks up 406 emergency distress signal and redirects it to a Local User Terminal (LUT)
1:02:00:00	Animation: SARSAT Polar Orbiting Satellite picks up 406 emergency distress signal from a beacon
1:02:20:00	Animation: SARSAT Polar Orbiting Satellite picks up distress signal from ship and relays it to a LUT
1:02:35:00	Animation: Zoom from space to fishing boat at sea
1:02:50:00	COSPAS-SARSAT Personal Locator beacon (PLB) devices AUDIO: electronic sound effect representing activated 406 beacon
1:03:20:00	United States Mission Control Center; NOAA. Exterior, operations, screens, exterior antennae
1:05:52:00	United States Coast Guard helicopter
1:06:38:00	US Air Force Rescue Coordination Center operations
1:07:47:00	Search and rescue exercises
1:08:35:00	New Mexico ELT rescue re-enactment
1:10:13:00	Alaska PLB rescue re-enactment
1:11:57:00	NOAA logo

Total Running Time = 12:10
