

# National Training Center

## Purpose:

The USGS Office of Employee Development National Training Center (NTC) provides excellence in learning support for all USGS disciplines and Department of Interior Bureaus.

## The NTC Offers:

- A full support training facility and Technology Enabled Learning services for scientific/technical and non-technical classes

## Learning Support Services Include:

- Course coordination and marketing
- Administrative services
- Support for USGS classes at other sites/locations
- Information technology support
- Deployable laptops

## \*Deployable Laptops

To support courses held throughout the USGS, the Office of Employee Development (OED) is now offering deployable laptops. A "deployment" includes 11 participant and one instructor laptop preloaded with all requested software. It also includes a screen projector and all necessary cables shipped directly to your training site. To find out more, visit the OED website at <http://training.usgs.gov>
