

1 doxorubicin, to use that as an attempt at predicting
2 whether or not survival will turn out to be equivalent some
3 years down the road, I'm troubled by that. I'm not
4 confident that it's that good a predictor, and so I'm also
5 unhappy with that choice of response rate.

6 Dr. Lippman?

7 DR. LIPPMAN: I think it sets maybe a
8 troublesome precedent because we may think that these drugs
9 are similar, but when they're delivered in different ways,
10 they're really different drugs. What it could raise, as a
11 lot of these new molecular targeting agents come down and
12 we think we know they work by the same mechanism, there
13 really may be a lot of differences. So, I'd be concerned
14 about establishing a precedent.

15 DR. SCHILSKY: Okay. Thank you. We will
16 reconvene at 8 o'clock tomorrow morning.

17 (Whereupon, at 5:15 p.m., the committee was
18 recessed, to reconvene at 8:00 a.m., Friday, September 17,
19 1999.)
