

U.S. Department of Labor Employment and Training Administration

Disability Employment and Training Services

Employment and training services to assist people with disabilities are available at One-Stop Centers and through other Federal partners. The disAbility Employment and Initiatives Unit (DEIU) of the Employment and Training Administration (ETA) also helps identify policies and provide technical assistance to address barriers and disincentives to work for people with disabilities.

ETA awards disAbility Employment Grants to provide skill training, including computer-related skills, and employment assistance to people with disabilities. It also awards Work Incentive Grants to local workforce investment boards to develop comprehensive approaches and coordinate programs to improve employment opportunities for people with disabilities. Policy and technical assistance initiatives include training on laws such as the Americans with Disabilities Act through regional Disability Business and Technical Assistance Centers.

ETA works closely with the Presidential Task Force on Employment of Adults with Disabilities, the Rehabilitation Services Administration, the Social Security Administration, and other Federal agencies to help people with disabilities find good, high-wage jobs under the Workforce Investment Act and the Ticket to Work and Work Incentive Improvement Act.

The President's Committee on Employment of People with Disabilities (PCEPD) provides additional services, including a job recruitment program for people with disabilities, a career exploration program for high school students with disabilities, and a toll-free Job Accommodations Network (800-526-7234) that provides information on the employment provisions of the Americans with Disabilities Act. Further information is available at <http://www.wdsc.org/disability>, or the PCEPD's web site, <http://www.pcepd.gov>.
