

## Attorney II

Argonne National Laboratory, a U.S. Department of Energy laboratory managed by The University of Chicago, has a career opportunity for a mid-level in-house attorney. The successful candidate will work with the General Counsel and other Legal Department attorneys to advise Laboratory management in a variety of legal practice areas, with the major focus on intellectual property. This individual will work with the intellectual property attorney to negotiate licenses, ventures, and arrangements in the context of technology transfer. In addition, Argonne expects the successful candidate to advise on other legal matters, specifically including environment, safety, and health (including nuclear), and transportation, and to prepare or advise in preparation of environmental, safety, and health-related permits and permit documents. License to practice law with a minimum of 5-8 years legal experience is required. Membership in the Patent Bar and 5 years intellectual property experience, as well as experience in Federal procurement and environmental law, are desirable.

Argonne's Illinois site is located about 25 miles southwest of Chicago on a beautiful 1500-acre campus-like site. Argonne provides an excellent compensation/benefits package. For prompt consideration, send a detailed resume and salary requirement through the Argonne careers website at <http://www.anl.gov> under job search for requisition number 310795 LEG. Argonne is an equal opportunity employer, and we value diversity in our workforce.
