

G, establish an adequate margin to brittle failure during normal operation, anticipated operational occurrences, and system hydrostatic tests.

ASME B&PV Code, Section XI, Code Case N-640 permits the use of an alternate reference fracture toughness curve for reactor pressure vessel materials for use in determining the P-T limits. ASME Code Case N-640 permits the use of alternate reference fracture toughness (*i.e.*, use of " K_{IC} fracture toughness curve" instead of " K_{IA} fracture toughness curve," where K_{IC} and K_{IA} are "Reference Stress Intensity Factors," as defined in ASME Code, Section XI, Appendices A and G, respectively) for reactor vessel materials in determining the P-T limits. Since the K_{IC} fracture toughness curve shown in ASME Code, Section XI, Appendix A, Figure A-2200-1, provides greater allowable fracture toughness than the corresponding K_{IA} fracture toughness curve of ASME Code, Section XI, Appendix G, Figure G-2210-1, using ASME Code Case N-640 to establish the P-T limits would be less conservative than the methodology currently endorsed by 10 CFR part 50, Appendix G. Therefore, an exemption to apply ASME Code Case N-640 is required.

The proposed action is in accordance with the licensee's application dated September 6, 2002, as supplemented by letter dated December 19, 2002 and June 24, 2003.

The Need for the Proposed Action

The proposed exemption is needed to allow the licensee to implement ASME Code Case N-640 in order to revise the method used to determine the P-T limits because continued use of the present method for determining P-T limits unnecessarily restricts the P-T operating window. The two primary benefits to the licensee from the use of Code Case N-640 are:

- Challenges to the operators would be reduced since the requirements for maintaining high-vessel temperature during pressure testing would be lessened.
- Enhanced personnel safety would result because of the lower temperatures which would exist during the conduct of inspections in primary containment.

Environmental Impacts of the Proposed Action

The NRC has completed its evaluation of the proposed action and concludes that there are no significant environmental impacts associated with the use of the alternative analysis method to support the revision of the reactor coolant system P-T limits.

The proposed action will not significantly increase the probability or consequences of accidents, no changes are being made in the types or significant increase in the amounts of effluents that may be released offsite, and there is no significant increase in occupational or public radiation exposure. Therefore, there are no significant radiological environmental impacts associated with the proposed action.

With regard to potential nonradiological impacts, the proposed action does not have a potential to affect any historic sites. It does not affect nonradiological plant effluents and has no other environmental impact. Therefore, there are no significant nonradiological environmental impacts associated with the proposed action.

Accordingly, the NRC concludes that there are no significant environmental impacts associated with the proposed action.

Environmental Impacts of the Alternatives to the Proposed Action

As an alternative to the proposed action, the staff considered denial of the proposed action (*i.e.*, the "no-action" alternative). Denial of the application would result in no change in current environmental impacts. The environmental impacts of the proposed action and the alternative action are similar.

Alternative Use of Resources

The action does not involve the use of any different resource than those previously considered in the Final Environmental Statement for SQN, dated February 13, 1974.

Agencies and Persons Consulted

On July 15, 2003, the staff consulted with the Tennessee State official, Ms. Elizabeth Flannagan, regarding the environmental impact of the proposed action. The State official had no comments.

Finding of No Significant Impact

On the basis of this environmental assessment, the NRC concludes that the proposed action will not have a significant effect on the quality of the human environment. Accordingly, the NRC has determined not to prepare an environmental impact statement for the proposed action.

For further details with respect to the proposed action, see the licensee's letter dated September 6, 2002, as supplemented by letter dated December 19, 2002. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located

at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and Management System (ADAMS) Public Electronic Reading Room on the Internet at the NRC Web site, <http://www.nrc.gov/reading-rm/adams.html>. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS, should contact the NRC PDR Reference staff by telephone at 1-800-397-4209 or 301-415-4737, or by e-mail to pdr@nrc.gov.

Dated at Rockville, Maryland, this 23rd day of July 2003.

For The Nuclear Regulatory Commission,
Allen G. Howe,

*Chief, Section 2, Project Directorate 2,
Division of Licensing Project Management,
Office of Nuclear Reactor Regulation.*

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-327 and 50-328]

Tennessee Valley Authority; Notice of Withdrawal of Application for Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of Tennessee Valley Authority (the licensee) to withdraw its May 22, 2003, application for proposed amendments to Facility Operating License Nos. DPR-77 and DPR-79 for the Sequoyah Nuclear Plant, Units 1 and 2, in Hamilton County, Tennessee.

The proposed amendment would have revised the limiting condition for operation for Technical Specification (TS) Section 3.7.5, "Ultimate Heat Sink." The licensee requested that the maximum emergency raw cooling water temperature requirement in TS 3.7.5.b be increased from 83 degrees Fahrenheit (°F) to 87 °F and that the minimum ultimate heat sink water elevation in TS 3.7.5.a be increased from 670 feet to 674 feet.

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the **Federal Register** on July 8, 2003 (68 FR 40719). However, by letter dated July 17, 2003, the licensee withdrew the proposed change.

For further details with respect to this action, see the application for amendment dated May 22, 2003, and the licensee's letter dated July 17, 2003,

which withdrew the application for license amendments. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room (PDR), located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible electronically from the Agencywide Documents Access and Management Systems (ADAMS) Public Electronic Reading Room on the internet at the NRC Web site, <http://www.nrc.gov/reading-rm/adams/html>. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS, should contact the NRC PDR Reference staff by telephone at 1-800-397-4209, or 301-415-4737 or by e-mail to pdrc@nrc.gov.

Dated at Rockville, Maryland, this 23rd day of July 2003.

For the Nuclear Regulatory Commission.

Michael L. Marshall, Jr.,

Senior Project Manager, Section 2, Project Directorate II, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

SECURITIES AND EXCHANGE COMMISSION

Submission for OMB Review; Comment Request

Upon Written Request, Copies Available From: Securities and Exchange Commission, Office of Filings and Information Services, Washington, DC 20549.

Extension:

Rule 206(4)-3, SEC File No. 270-218, OMB Control No. 3235-0242.

Rule 206(4)-4, SEC File No. 270-304, OMB Control No. 3235-0345.

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission ("Commission") has submitted to the Office of Management and Budget a request for extension of the previously approved collections of information discussed below.

Rule 206(4)-3, which is entitled "Cash Payments for Client Solicitations," provides restrictions on cash payments for client solicitations. The rule requires that an adviser pay all solicitors' fees pursuant to a written agreement. When an adviser will provide only impersonal advisory services to the prospective client, the rule imposes no disclosure

requirements. When the solicitor is affiliated with the adviser and the adviser will provide individualized services, the solicitor must, at the time of the solicitation, indicate to prospective clients that he is affiliated with the adviser. When the solicitor is not affiliated with the adviser and the adviser will provide individualized services, the solicitor must, at the time of the solicitation, provide the prospective client with a copy of the adviser's brochure and a disclosure document containing information specified in rule 206(4)-3. The information rule 206(4)-3 is necessary to inform advisory clients about the nature of the solicitor's financial interest in the recommendation so they may consider the solicitor's potential bias, and to protect investors against solicitation activities being carried out in a manner inconsistent with the adviser's fiduciary duty to clients. Rule 206(4)-3 is applicable to all registered investment advisers. The Commission believes that approximately 1,560 of these advisers have cash referral fee arrangements. The rule requires approximately 7.04 burden hours per year per adviser and results in a total of approximately 10,982 total burden hours ($7.04 \times 1,560$) for all advisers.

Rule 206(4)-4, which is entitled "Financial and Disciplinary Information that Investment Advisers Must Disclose to Clients," requires advisers to disclose certain financial and disciplinary information to clients. The disclosure requirements in rule 206(4)-4 are designed so that a client will have information about an adviser's financial condition and disciplinary events that may be material to an evaluation of the adviser's integrity or ability to meet contractual commitments to clients. We estimate that approximately 1,349 advisers are subject to this rule. The rule requires approximately 7.5 burden hours per year per adviser and amounts to approximately 10,118 total burden hours ($7.5 \times 1,349$) for all advisers.

The disclosure requirements of rules 206(4)-3 and 206(4)-4 do not require recordkeeping or record retention. The collections of information requirements under the rules are mandatory. Information subject to the disclosure requirements of rules 206(4)-3 and 206(4)-4 is not submitted to the Commission. Accordingly, the disclosures pursuant to the rules are not kept confidential. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid control number.

General comments regarding the above information should be directed to

the following persons: (i) Desk Officer for the Securities and Exchange Commission, Office of Information and Regulatory Affairs, Office of Management and Budget, Room 10102, New Executive Office Building, Washington, DC 20503; and (ii) Kenneth A. Fogash, Acting Associate Executive Director/CIO, Office of Information Technology, Securities and Exchange Commission, 450 Fifth Street, NW., Washington, DC 20549. Comments must be submitted to OMB within 30 days of this notice.

Dated: July 22, 2003.

Jill M. Peterson,

Assistant Secretary.

BILLING CODE 8010-01-P

SECURITIES AND EXCHANGE COMMISSION

Proposed Collection; Comment Request

Upon Written Request, Copies Available

From: Securities and Exchange Commission, Office of Filings and Information Services, 450 Fifth Street, NW., Washington, DC 20549-0004.

Extension: Rule 27f-1 and Form N-27F-1, SEC File No. 270-487, OMB Control No. 3235-0546.

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission (the "Commission") is soliciting comments on the collections of information under the Investment Company Act of 1940 ("Act") summarized below. The Commission plans to submit these collections of information to the Office of Management and Budget for approval.

Rule 27f-1 [17 CFR 270.27f-1] is entitled "Notice of Right of Withdrawal Required to Be Mailed to Periodic Payment Plan Certificate Holders and Exemption from Section 27(f) for Certain Periodic Payment Plan Certificates." Form N-27F-1 is entitled "Notice to Periodic Payment Plan Certificate Holders of 45 Day Withdrawal Right with Respect to Periodic Payment Plan Certificates." Form N-27F-1, which is prescribed by rule 27f-1, is used to notify recent purchasers of periodic payment plan certificates, of their right under section 27(f) of the Act to return the certificates within a specified period for a full refund. The Form N-27F-1 notice, which is sent directly to holders of periodic payment plan certificates, serves to alert purchasers of periodic
