NUCLEAR REGULATORY COMMISSION

[Docket No. 030-29288]

Notice of Consideration of License Renewal Request for Decommissioning the Quehanna Site in Karthaus, Pennsylvania and Opportunity To Provide Comments and Request a Hearing

ACTION: Notice of consideration of amendment request to renew license to authorize decommissioning, and opportunity to provide comments and to request a hearing.

FOR FURTHER INFORMATION CONTACT:

James Kottan, Project Manager, Decommissioning and Laboratory Branch, Division of Nuclear Materials Safety, Region I, U.S. Nuclear Regulatory Commission, 475 Allendale Road, King of Prussia, PA 19406. Telephone: (610) 337-5214, fax number (610) 337-5269, and/or e-mail jjk@nrc.gov.

SUPPLEMENTARY INFORMATION:

I. Introduction

The U.S. Nuclear Regulatory Commission is considering the renewal of By-Product Materials License No. 37-

17860-02 (License No. 37-17860-02), issued to the Pennsylvania Department of Environmental Protection, Bureau of Radiation Protection, to authorize decommissioning of the Quehanna Site in Karthaus, Pennsylvania.

The licensee has been performing limited decommissioning of the hot cells at the Quehanna Site in accordance with the conditions described in License No. 37-17860-02. On February 26, 2003, the licensee submitted a license renewal application, including a revised Decommissioning Plan (DP) for the Quehanna Site, to the NRC for review that summarized the decommissioning activities that will be undertaken to remediate the hot cells and other building areas and any contaminated soil. Radioactive contamination at the licensee's Quehanna Site consists of contaminated process piping, soils, and building surfaces contaminated primarily with strontium-90 resulting from licensed operations that occurred from the late 1950s until 1967.

The NRC will require the licensee to remediate the Quehanna Site to meet the NRC's decommissioning criteria and, during decommissioning activities, to maintain effluents and doses within NRC requirements and as low as reasonably achievable.

Prior to approving the decommissioning plan, the NRC will have made findings required by the Atomic Energy Act of 1954, as amended, and NRC's regulations. Renewal of the license, including approval of the Decommissioning Plan for the Quehanna Site, will be documented in an amendment to License No. 37-17860-02.

II. Opportunity To Provide Comments

In accordance with 10 CFR 20.1405, the NRC is providing notice to individuals in the vicinity of the site that the NRC is in receipt of a DP, and will accept comments concerning this decommissioning proposal and its associated environmental impacts. Comments with respect to this action should be provided in writing within 30 days of this notice and addressed to James Kottan, Project Manager, Decommissioning and Laboratory Branch, Division of Nuclear Materials Safety, Region I, 475 Allendale Road, King of Prussia, PA 19406. Telephone: (610) 337-5214, fax number (610) 337-5269, and/or e-mail jjk@nrc.gov. Comments received after 30 days will be considered if practicable to do so, but only those comments received on or before the due date can be assured consideration.

III. Opportunity To Request a Hearing

NRC also provides notice that this is a proceeding on an application for an amendment of a license falling within the scope of Subpart L, "Informal Hearing Procedures for Adjudication in Materials Licensing Proceedings," of NRC's rules and practice for domestic licensing proceedings in 10 CFR part 2. OFFICE OF PERSONNEL MANAGEMENT

Proposed Collection; Comment Request for Review of an Information Collection: Reemployment of Annuitants, 5 CFR 837.103

AGENCY: Office of Personnel Management.

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-13, May 22, 1995), this notice announces that the Office of Personnel Management (OPM) intends to submit to the Office of Management and Budget a request for review of an expiring information collection. Section 837.103 of Title 5, Code of Federal Regulations, requires agencies to collect information from retirees who become employed in

Government positions. Agencies need to collect timely information regarding the type and amount of annuity being received so the correct rate of pay can be determined. Agencies provide this information to OPM so a determination can be made whether the reemployed retiree's annuity must be terminated.

Comments are particularly invited on: Whether this collection of information is necessary for the proper performance of functions of the Office of Personnel Management, and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

We estimate 3,000 reemployed retirees are asked this information annually. It takes each reemployed retiree approximately 5 minutes to provide the information for an annual estimated burden of 250 hours.

For copies of this proposal, contact Mary Beth Smith-Toomey on (202) 606-8358, FAX (202) 418-3251 or via e-mail to mbtoomey@opm.gov. Please include a mailing address with your request.

DATES: Comments on this proposal should be received within 60 calendar days from the date of this publication.

ADDRESSES: Send or deliver comments to—Ronald W. Melton, Chief, Operations Support Group, Center for Retirement and Insurance Services, U.S. Office of Personnel Management, 1900 E Street, NW., Room 3349A, Washington, DC 20415-3540.
