#### Atomic Safety and Licensing Board; Before Administrative Judges: Ann Marshall Young, Chair, Dr. Peter S. Lam, Thomas D. Murphy; In the Matter of Connecticut Yankee Atomic Power Company (Haddam Neck Plant)

January 27, 2003.

#### Notice of Evidentiary Hearing and Opportunity To Make Limited Appearance Statements

This Atomic Safety and Licensing Board hereby gives notice that, beginning on Monday, March 10, 2003, it will convene an evidentiary hearing in New Britain, Connecticut, to receive testimony and exhibits and to allow the cross-examination of witnesses on certain matters at issue in this proceeding. In addition, the Board gives notice that, in accordance with 10 CFR 2.715(a), it will also entertain oral limited appearance statements from members of the public, as specified in Section B below.

This proceeding involves certain challenges of Intervenor Citizens Awareness Network (CAN) to a license amendment request by Connecticut Yankee Atomic Power Company (CYAPCO or Connecticut Yankee), seeking approval of a License Termination Plan (LTP) for its Haddam Neck Plant. (Intervenor Connecticut Department of Public Utility Control (CDPUC) has settled all its admitted contentions with CYAPCO, but continues to participate in the proceeding as an interested state.) On January 31, 2001, this Licensing Board was established to preside over this proceeding. 66 FR 9111 (Feb. 6, 2001). By Memorandum and Order dated July 9, 2001, the Licensing Board granted CAN's and CDPUC's requests for a hearing, and on July 12, 2001, issued a Notice of Hearing. 66 FR 37494 (July 18, 2001).

At the evidentiary hearing, the Board will receive evidence on CAN's challenges to the adequacy of certain aspects of the LTP to assure the protection of the public health and safety, relating to Connecticut Yankee's site characterization and methodology for detection and cleanup of transuranic, hard-to-detect-nuclide, and "hot particle" contamination; and to its dose modeling calculation methodology.

### A. Timing and Location of Evidentiary Hearing

The evidentiary hearing will commence on the afternoon of March 10, 2003, at 1:30 p.m. in Hearing Room One, located on the first floor of the Connecticut Department of Public Utility Control Building, at Ten Franklin Square, New Britain, Connecticut.

The hearing will continue from day to day until concluded. At the conclusion of each day, the Board will announce when the hearing will reconvene, which will generally be at 9 a.m. each day (although the hearing may not start until 10 a.m. on Wednesday, March 12). Hearings will extend until approximately 5 p.m. each day (except that on Friday, March 14, the hearing will likely adjourn at approximately 12 noon). The Board may make changes in the schedule, lengthening or shortening each day's session or canceling a session as deemed necessary or appropriate to allow for witnesses' availability and other matters arising during the course of the proceeding.

Members of the public are encouraged to attend any and all sessions of the evidentiary hearing, but should note that these sessions are adjudicatory proceedings open to the public for observation only. Those who wish to participate are invited to offer limited appearance statements as provided in Section B, below.

### B. Participation Guidelines for Oral Limited Appearance Statements

Although these statements do not constitute testimony or evidence, they may nonetheless help the Board and/or the parties in their consideration of the issues in this proceeding.

The time allotted for each statement will normally be no more than five minutes, but may be further limited depending on the number of written requests to make oral statements that are submitted in accordance with section C below, and/or on the number of persons present the evening of March 11, 2003. Persons who submit timely written requests to make oral statements will be given priority over those who have not filed such requests. ## NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-369 and 50-370]

### Duke Energy Corporation, McGuire Nuclear Station, Units 1 and 2; Environmental Assessment and Finding of No Significant Impact

The U.S. Nuclear Regulatory Commission (NRC) is considering the re-issuance of an exemption from certain requirements of its regulations for Facility Operating License Nos. NPF-9 and NPF-17, issued to the Duke Power Company (the licensee), for operation of the McGuire Nuclear Station (McGuire), Units 1 and 2, located in Mecklenburg County, North Carolina.

### Environmental Assessment

#### Identification of Proposed Action

The proposed action would continue to authorize an exemption that was granted to the licensee on July 31, 1997, from the requirements of 10 CFR 70.24, which requires a monitoring system that will energize clear audible alarms if accidental criticality occurs in each area in which special nuclear material is handled, used, or stored. The proposed action would also continue to exempt the licensee from the requirements to maintain emergency procedures for each area in which this licensed special nuclear material is handled, used, or stored to ensure that all personnel withdraw to an area of safety upon the sounding of the alarm, to familiarize personnel with the evacuation plan, and to designate responsible individuals for determining the cause of the alarm, and to place radiation survey instruments in accessible locations.

The proposed action is in response to the licensee's application for an exemption from 10 CFR 70.24 dated February 4, 1997, as supplemented by letter dated March 19, 1997, and reflects the licensee's letters dated April 18, August 7 and October 9, 2002, and January 15, 2003, wherein the licensee revised a portion of the technical basis supporting its request for the exemption.

#### The Need for the Proposed Action

The purpose of 10 CFR 70.24 is to ensure that, if a criticality were to occur
