

must consist of a specific statement of the issue of law or fact to be raised or controverted. In addition, the petitioner shall provide a brief explanation of the bases of the contention and a concise statement of the alleged facts or expert opinion which support the contention and on which the petitioner intends to rely in proving the contention at the hearing. The petitioner must also provide references to those specific sources and documents of which the petitioner is aware and on which the petitioner intends to rely to establish those facts or expert opinion. Petitioner must provide sufficient information to show that a genuine dispute exists with the applicant on a material issue of law or fact. Contentions shall be limited to matters within the scope of the amendment under consideration. The contention must be one which, if proven, would entitle the petitioner to relief. A petitioner who fails to file such a supplement which satisfies these requirements with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing, including the opportunity to present evidence and cross-examine witnesses.

If a hearing is requested, the Commission will make a final determination on the issue of no significant hazards consideration. The final determination will serve to decide when the hearing is held.

If the final determination is that the amendment request involves no significant hazards consideration, the Commission may issue the amendment and make it immediately effective, notwithstanding the request for a hearing. Any hearing held would take place after issuance of the amendment.

If the final determination is that the amendment request involves a significant hazards consideration, any hearing held would take place before the issuance of any amendment.

A request for a hearing or a petition for leave to intervene must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemakings and Adjudications Staff, or may be delivered to the Commission's Public Document Room (PDR), located at One White Flint North, Public File Area O1 F21, 11555 Rockville Pike (first floor), Rockville, Maryland, by the above date. Because of the continuing disruptions in delivery of mail to United States Government offices, it is

requested that petitions for leave to intervene and requests for hearing be transmitted to the Secretary of the Commission either by means of facsimile transmission to 301-415-1101 or by e-mail to hearingdocket@nrc.gov. A copy of the petition for leave to intervene and request for hearing should also be sent to the Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, and because of continuing disruptions in delivery of mail to United States Government offices, it is requested that copies be transmitted either by means of facsimile transmission to 301-415-3725 or by e-mail to OGCMailCenter@nrc.gov. A copy of the request for hearing and petition for leave to intervene should also be sent to General Counsel, Tennessee Valley Authority, 400 West Summit Hill Drive, ET 11A, Knoxville, Tennessee 37902, attorney for the licensee.

Nontimely filings of petitions for leave to intervene, amended petitions, supplemental petitions and/or requests for hearing will not be entertained absent a determination by the Commission, the presiding officer or the presiding Atomic Safety and Licensing Board that the petition and/or request should be granted based upon a balancing of the factors specified in 10 CFR 2.714(a)(1)(i)-(v) and 2.714(d).

For further details with respect to this action, see the application for amendment dated February 14, 2003, which is available for public inspection at the Commission's PDR, located at One White Flint North, File Public Area O1 F21, 11555 Rockville Pike (first floor), Rockville, Maryland. Publicly available records will be accessible from the Agencywide Documents Access and Management System's (ADAMS) Public Electronic Reading Room on the Internet at the NRC Web site, <http://www.nrc.gov/reading-rm/adams.html>. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS, should contact the NRC PDR Reference staff by telephone at 1-800-397-4209, 301-415-4737, or by e-mail to pdr@nrc.gov.

Dated in Rockville, Maryland, this 11th day of March 2003.

For the Nuclear Regulatory Commission.

Raj K. Anand,

Project Manager, Section 2, Project Directorate II, Division of Licensing Project Management, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

Notice of Error in Draft Environmental Impact Statement for the Construction and Operation of the Proposed Mixed Oxide Fuel Fabrication Facility at the Savannah River Site, South Carolina and Extension of Public Comment Period

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of error in Draft Environmental Impact Statement; extension of public comment period.

SUMMARY: U.S. Nuclear Regulatory Commission (NRC) noticed in the **Federal Register** (68 FR 9728; February 28, 2003) the availability of a Draft Environmental Impact Statement (DEIS) on the proposed construction and operation of a mixed oxide (MOX) fuel fabrication facility at the Savannah River Site in South Carolina and the opportunity for stakeholders to provide comment on the DEIS. That the **Federal Register** notice also provided information of public meetings that the NRC will be hosting on March 25, 26, and 27, 2003, to accept oral and written comments on the DEIS. The U.S. Environmental Protection Agency (EPA) also noticed the filing of the DEIS in the **Federal Register** (68 FR 9650, February 28, 2003).

Since issuing the DEIS, NRC has identified an error in the DEIS. The error affects the calculation of the 1-year exposure to members of the public following hypothetical accidents at the proposed MOX facility, pit disassembly and conversion facility, and waste solidification building. The risk associated with these potential accidents is still considered to be very small. Correcting the error will not change the estimated low probability that such accidents would ever occur, but correcting the error is expected to substantially reduce these potential impacts.

NRC is revising the calculations of the 1-year public accident impacts and plans to issue errata sheets in early April to stakeholders who were mailed a copy of the DEIS. The NRC will also post the revised information on the MOX website, which is provided below. The NRC plans to discuss this issue at the above noted public meetings.

Extension of public comment period: The NRC is extending the public comment period on the proposed MOX facility DEIS by 30 days. Comments should be submitted by May 14, 2003. Submit written comments to: Michael T. Lesar, Chief, Rules and Directives

Branch, Division of Administrative Services, Office of Administration, Mail Stop T-6D59, U.S. Nuclear Regulatory Commission, Washington, DC 20555. Comments will also be accepted by e-mail. Interested parties may e-mail their comments to teh@nrc.gov. Comments will also be accepted by fax at (301) 415-5398, Attention: Tim Harris.

Availability of Documents for Review: The DEIS, and other documents on which the DEIS is based, are available for public review through our electronic reading room: <http://www.nrc.gov/reading-rm.html>. A selected group of these documents are on the MOX web page: <http://www.nrc.gov/materials/fuel-cycle-fac/mox/licensing.html>. For those without access to the internet, paper copies of any electronic documents may be obtained for a fee by contacting the NRC's Public Document Room at 1-800-397-4209.

FOR FURTHER INFORMATION CONTACT: For further information regarding this notice, please contact: Tim Harris at (301) 415-6613.

Dated at Rockville, Maryland, this 6th day of March 2003.

For the Nuclear Regulatory Commission,
Lawrence E. Kokajko,
Acting Chief, Environmental and Performance Assessment Branch Division of Waste Management, Office of Nuclear Material Safety and Safeguards.

BILLING CODE 7710-FW-M

RAILROAD RETIREMENT BOARD

Proposed Collection; Comment Request

Summary: In accordance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 which provides opportunity for public comment on new or revised data collections, the Railroad Retirement Board (RRB) will publish periodic summaries of proposed data collections.

Comments are invited on: (a) Whether the proposed information collection is necessary for the proper performance of the functions of the agency, including whether the information has practical utility; (b) the accuracy of the RRB's estimate of the burden of the collection of the information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden related to

the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

Title and purpose of information collection: Application for Spouse Annuity Under the Railroad Retirement Act; OMB 3220-0042 section 2(c) of the Railroad Retirement Act (RRA), provides for the payment of annuities to spouses of railroad retirement annuitants who meet the requirements under the RRA. The age requirements for a spouse annuity depend on the employee's age and date of retirement and the employee's years of railroad service. The requirements relating to the annuities are prescribed in 20 CFR 216, 218, 219, 232, 234, and 295.

The RRB currently uses the electronic AA-3cert, Application Summary and Certification process and manual Form AA-3, Application for Spouse/Divorced Spouse Annuity, to obtain the information needed to determine an applicant's entitlement to an annuity and the amount of the annuity.

The AA-3cert process obtains information from an applicant by means of an interview with an RRB field-office representative. During the interview, the field-office representative enters the information obtained into an on-line information system. Upon completion of the interview, the applicant receives Form AA-3cert, Application Summary and Certification, which summarizes the information that was provided by/or verified by the applicant, for review and signature. The RRB also uses manual Form AA-3 in instances where the RRB representative is unable to contact the applicant in person or by telephone, *i.e.*, the applicant lives in another country.

The RRB estimates the burden for the collection as follows:

ESTIMATED BURDEN

| Form No. | Estimated annual responses | Estimated completion time (per response) | Estimated annual burden (hours) |
|---------------------|----------------------------|--|---------------------------------|
| AA-3CERT | 8,400 | 30 | 4,200 |
| AA-3 (manual) | 100 | 58 | 97 |
| Total | 8,500 | | 4,297 |

No changes are proposed to Form AA-3cert or Form AA-3. Completion is required to obtain a benefit. One response is requested of each respondent.

Additional Information or Comments: To request more information or to obtain a copy of the information

collection justification, forms, and/or supporting material, please call the RRB Clearance Office at (312) 751-3363. Comments regarding the information collection should be addressed to Ronald J. Hodapp, Railroad Retirement Board, 844 N. Rush Street, Chicago, Illinois 60611-2092. Written comments

should be received within 60 days of this notice.

Chuck Mierzwa,
Clearance Officer.
