

participant (or its counsel or representative) to digitally sign documents and access the E-Submittal server for any proceeding in which it is participating; and/or (2) creation of an electronic docket for the proceeding (even in instances in which the petitioner/requestor (or its counsel or representative) already holds an NRC-issued digital ID certificate). Each petitioner/requestor will need to download the Workplace Forms Viewer™ to access the Electronic Information Exchange (EIE), a component of the E-Filing system. The Workplace Forms Viewer™ is free and is available at <http://www.nrc.gov/site-help/e-submittals/install-viewer.html>. Information about applying for a digital ID certificate is available on NRC's public Web site at <http://www.nrc.gov/site-help/e-submittals/apply-certificates.html>.

Once a petitioner/requestor has obtained a digital ID certificate, had a docket created, and downloaded the EIE viewer, it can then submit a request for hearing or petition for leave to intervene. Submissions should be in Portable Document Format (PDF) in accordance with NRC guidance available on the NRC public Web site at <http://www.nrc.gov/site-help/e-submittals.html>. A filing is considered complete at the time the filer submits its documents through EIE. To be timely, an electronic filing must be submitted to the EIE system no later than 11:59 p.m. Eastern Time on the due date. Upon receipt of a transmission, the E-Filing system time-stamps the document and sends the submitter an e-mail notice confirming receipt of the document. The EIE system also distributes an e-mail notice that provides access to the document to the NRC Office of the General Counsel and any others who have advised the Office of the Secretary that they wish to participate in the proceeding, so that the filer need not serve the documents on those participants separately. Therefore, applicants and other participants (or their counsel or representative) must apply for and receive a digital ID certificate before a hearing request/petition to intervene is filed so that they can obtain access to the document via the E-Filing system.

A person filing electronically may seek assistance through the "Contact Us" link located on the NRC Web site at <http://www.nrc.gov/site-help/e-submittals.html> or by calling the NRC technical help line, which is available between 8:30 a.m. and 4:15 p.m., Eastern Time, Monday through Friday. The help line number is (800) 397-4209 or locally, (301) 415-4737.

Participants who believe that they have a good cause for not submitting documents electronically must file a motion, in accordance with 10 CFR 2.302(g), with their initial paper filing requesting authorization to continue to submit documents in paper format. Such filings must be submitted by: (1) First-class mail addressed to the Office of the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemaking and Adjudications Staff; or (2) courier, express mail, or expedited delivery service to the Office of the Secretary, Sixteenth Floor, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852, Attention: Rulemaking and Adjudications Staff. Participants filing a document in this manner are responsible for serving the document on all other participants. Filing is considered complete by first-class mail as of the time of deposit in the mail, or by courier, express mail, or expedited delivery service upon depositing the document with the provider of the service.

Non-timely requests and/or petitions and contentions will not be entertained absent a determination by the Commission, the presiding officer, or the Atomic Safety and Licensing Board that the petition and/or request should be granted and/or the contentions should be admitted, based on a balancing of the factors specified in 10 CFR 2.309(c)(1)(i)-(viii). To be timely, filings must be submitted no later than 11:59 p.m. Eastern Time on the due date.

Documents submitted in adjudicatory proceedings will appear in NRC's electronic hearing docket which is available to the public at http://ehd.nrc.gov/ehd_proceeding/home.asp, unless excluded pursuant to an order of the Commission, an Atomic Safety and Licensing Board, or a Presiding Officer. Participants are requested not to include personal privacy information, such as social security numbers, home addresses, or home phone numbers in their filings. With respect to copyrighted works, except for limited excerpts that serve the purpose of the adjudicatory filings and would constitute a Fair Use application, Participants are requested not to include copyrighted materials in their submissions.

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-247 and 50-286, License Nos. DPR-26 and DPR-64]

Entergy Nuclear Operations, Inc., Entergy Nuclear Indian Point 2, LLC, Entergy Nuclear Indian Point 3, LLC, Indian Point Nuclear Generating Unit Nos. 2 and 3 (IP2 and IP3); Receipt of Request for Action Under 10 CFR 2.206

Notice is hereby given that by petition dated March 30, 2008, Mr. Sherwood Martinelli has requested that the NRC (1) " * * * suspend the license for IP2 and IP3 reactors located in Buchanan, NY owned by Entergy until they are fully in compliance with all 10 CFR Rules and Regulations, as well as other local, state and federal laws and regulations, and have eliminated the environmental risks that have contributed to, and/or caused my wife's breast cancer," and (2) " * * * halt the License Renewal Process."

The request is being treated pursuant to 10 CFR 2.206 of the Commission's regulations. The request has been referred to the Director of the Office of Nuclear Reactor Regulation (NRR). The Petitioner participated in a conference call with the NRR Petition Review Board (PRB) on August 14, 2008, to discuss the petition. The additional information provided by the Petitioner was considered by the PRB before making its final recommendation. By letter dated September 15th, 2008, the Director accepted for review, pursuant to 10 CFR 2.206, the Petitioner's concerns regarding the licensee's failure

to implement the new emergency notification siren system in a timely manner. The Director also informed the Petitioner that the siren issues in this petition would be combined with the Petitioner's earlier petition on the new siren system, dated September 28, 2007. The earlier petition was noticed in the **Federal Register** on February 25, 2008 (73 FR 10068). The Director informed the Petitioner that his issues on groundwater contamination were considered by the NRC in response to an earlier petition by the Petitioner. A Final Director's Decision was issued on August 14, 2008, and noticed in the **Federal Register** on August 21, 2008 (73 FR 49495). The NRC found that the licensee was in compliance with the pertinent NRC regulatory requirements on the release of radioactive isotopes and that public health and safety have not been, nor are likely to be, adversely affected.

As provided by Section 2.206, appropriate action will be taken on this petition within a reasonable time.

A copy of the petition and the transcript of the conference call with the PRB can be located at Agencywide Documents Access and Management Systems Accession Nos. ML080950265 and ML082330375, respectively, and are available for inspection at the Commission's Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland.

Dated at Rockville, Maryland, this 15th day of September 2008.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 58592]

Emergency Order Pursuant to Section 12(K)(2) of the Securities Exchange Act of 1934 Taking Temporary Action To Respond to Market Developments

September 18, 2008.

The Commission is aware of the continued potential of sudden and excessive fluctuations of securities prices and disruption in the functioning of the securities markets that could threaten fair and orderly markets. In our recent publication of an emergency order under Section 12(k) of the Exchange Act (the "Act"),¹ for example, we were concerned about the possible unnecessary or artificial price movements based on unfounded rumors regarding the stability of financial institutions and other issuers exacerbated by "naked" short selling. Our concerns, however, are no longer limited to just the financial institutions that were the subject of the July Emergency Order. Recent market conditions have made us concerned that short selling in the securities of a wider range of financial institutions may be
