

I. Background

Under 30 CFR 5.50, MSHA may revise the fee schedule for testing, evaluation, and approval of mining products at least once every three years although the fee schedule must remain in effect for at least one year. MSHA's existing fee schedule, revised December 27, 2007 (72 FR 73380), became effective January 1, 2008.

Under 30 CFR 5.30(a), the new fee adjustment does not apply to the 30 CFR part 15 testing (explosives and sheathed explosive units). In addition, under 30 CFR 5.40, it does not apply to travel expenses incurred under this Part. When the nature of the product requires MSHA to test and evaluate the product at a location other than on MSHA premises, MSHA must be reimbursed for the travel, subsistence, and incidental expenses of its representative according to Federal government travel regulations. This reimbursement is separate from, and in addition to, the fees charged for evaluation and testing.

II. Fee Computation

MSHA computed the 2009 fees using FY 2008 costs for baseline data. MSHA calculated a weighted-average based on the direct and indirect costs to applicants for testing, evaluation, and approval services rendered during FY 2008. From this average, MSHA computed a single hourly rate, which applies uniformly to all applications.

As a result of this process, MSHA has determined that as of January 1, 2009, the fee will be \$90 per hour of services rendered.

III. Applicable Fee

- *Applications postmarked before January 1, 2009:* MSHA will process these applications under the 2008 hourly rate of \$84.
- *Applications postmarked on or after January 1, 2009:* MSHA will process these applications under the 2009 hourly rate of \$90. This information is available on MSHA's Web site at <http://www.msha.gov>.

NUCLEAR REGULATORY COMMISSION

[Docket No. 52-017]

Virginia Electric and Power Company, D/B/A Dominion Virginia Power, and Old Dominion Electric Cooperative; Notice of Availability of the Draft Supplemental Environmental Impact Statement and Public Meeting for North Anna Power Station Unit 3 Combined License Application

Notice is hereby given that the U.S. Nuclear Regulatory Commission (NRC, Commission) has published a draft Supplemental Environmental Impact Statement (SEIS), NUREG-1917, for the North Anna Unit 3 Combined License (COL) and is making it available for comment. This document is a supplement to the Environmental Impact Statement for an Early Site Permit (ESP) at the North Anna ESP site, NUREG-1811, dated December 2006. The North Anna site is located near the Town of Mineral in Louisa County, Virginia on the southern shore of Lake Anna.

Virginia Electric and Power Company, doing business as Dominion Virginia Power, and Old Dominion Electric Cooperative, collectively referred to as Dominion, submitted an application on November 27, 2007, for a COL at its North Anna Power Station (North Anna). A COL is an authorization to construct and (with specified conditions) operate a nuclear power plant at a specific site, in accordance with established laws and regulations. In November 2007, the NRC issued ESP-003 to Dominion Nuclear North Anna, LLC, for the North Anna ESP Site (the site of proposed Unit 3). An ESP is an NRC approval of a site as suitable for construction and operation of one or more new nuclear units. The application for a COL for North Anna Unit 3 submitted by Dominion references the ESP for the North Anna ESP site, ESP-003.

Pursuant to NRC regulations in 10 CFR 51.50(c)(1), a COL applicant referencing an ESP need not submit information or analyses regarding environmental issues that were resolved in the ESP EIS, except to the extent the COL applicant has identified new and significant information regarding such

issues; pursuant to 10 CFR 52.39, matters resolved in the ESP proceedings are considered to be resolved in any subsequent proceedings, absent identification of new and significant information. Upon receipt of a COL application that references an ESP, the NRC staff, pursuant to 10 CFR 51.75(c), prepares a supplement to the ESP EIS in accordance with 10 CFR 51.92(e). Accordingly, this notice is to inform the public that the NRC staff has prepared a supplement to NUREG-1811, the ESP EIS (NUREG-1917), which is in support of the review of the COL application for North Anna Unit 3 at the North Anna ESP site described in ESP-003 referenced in the COL application, and to provide the public an opportunity to comment.

The draft SEIS, NUREG-1917, for the North Anna, Unit 3 COL is available for public inspection at the NRC Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland, or from the Publicly Available Records component of the NRC's Agency-wide Documents Access and Management System (ADAMS). ADAMS is accessible at <http://www.nrc.gov/reading-rm/adams.html>, which provides access through the NRC's Electronic Reading Room link. The accession number in ADAMS for the draft SEIS, NUREG-1917, is ML083380360.

Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS should contact the NRC's PDR Reference staff at 1-800-397-4209 or 301-415-4737, or by sending an e-mail to pdr.resource@nrc.gov. The draft SEIS may also be viewed on the Internet at: <http://www.nrc.gov/reactors/new-reactors/col/north-anna.html>. Melvin Snow Memorial Branch Library in Spotsylvania, Virginia have agreed to make the draft SEIS available for public inspection.

The staff will hold a public meeting to present an overview of the draft SEIS, NUREG-1917, and to accept public comments. The public meeting will be held in the Auditorium at the Louisa County High School, 757 Davis Highway, Mineral, Virginia, on Tuesday, February 3, 2009. The meeting will convene at 6 p.m. and will continue until 10 p.m., as necessary. The meeting will be transcribed and will include: (1) A presentation of the contents of the draft SEIS, and (2) the opportunity for

interested government agencies, organizations, and individuals to provide comments on the draft report. Additionally, the NRC will host informal discussions one hour before the start of the meeting. No formal comments on the draft SEIS will be accepted during the informal discussions. To be considered, comments must be provided either at the transcribed public meeting or in writing. Persons may register to attend or present oral comments at the meeting by contacting Ms. Alicia Williamson, by telephone at 1-800-368-5642, extension 1878, or by Internet to the NRC at: NORTHANNA.COLAEIS@nrc.gov, no later than January 28, 2009.
