BILLING CODE 6055-01-P

NUCLEAR REGULATORY COMMISSION

Commonwealth of Pennsylvania: Discontinuance of Certain Commission Regulatory Authority Within the State; Notice of Agreement Between the Nuclear Regulatory Commission and the Commonwealth of Pennsylvania; Notice of Waiver Termination

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of Agreement between the U.S. Nuclear Regulatory Commission and the Commonwealth of Pennsylvania.

SUMMARY: This notice is announcing that on March 10, 2008, Dr. Dale E. Klein, Chairman of the U.S. Nuclear Regulatory Commission (NRC), and on March 26, 2008, Governor Edward G. Rendell of the Commonwealth of Pennsylvania signed an Agreement as authorized by Section 274b. of the Atomic Energy Act of 1954, as amended (the Act). The Agreement provides for the Commission to discontinue its regulatory authority and for

Pennsylvania to assume regulatory authority over the possession and use of byproduct material as defined in Sections 11e.(1), 11e.(3), and 11e.(4) of the Act, source material, special nuclear materials (in quantities not sufficient to form a critical mass), and land disposal of all waste for such materials. Under the Agreement, a person in Pennsylvania possessing these materials is exempt from certain Commission regulations. The exemptions have been previously published in the **Federal Register** and are codified in the Commission's regulations as 10 CFR Part 150. Approximately 650 licenses have been transferred to Pennsylvania's jurisdiction. This Agreement became effective on March 31, 2008, and is published here as required by Section 274e. of the Act.

Notice of Waiver Termination

On March 31, 2008, the Commission terminated the time-limited waivers of the Energy Policy Act of 2005 requirements granted by the Commission (70 FR 51581; August 31, 2005) to Pennsylvania for byproduct material as defined in Sections 11e.(3) and 11e.(4) of the Act.

FOR FURTHER INFORMATION CONTACT: Kim Lukes, Division of Materials Safety and State Agreements, Office of Federal and State Materials and Environmental Management Programs, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Telephone 301-415-6701; e-mail Kim.Lukes@nrc.gov.

SUPPLEMENTARY INFORMATION: The NRC published the draft Agreement in the **Federal Register** for comment once a week for four consecutive weeks on June 18, 2007 (72 FR 33541), June 25, 2007 (72 FR 34728), July 2, 2007 (72 FR 36069), and July 9, 2007 (72 FR 37268), as required by the Act. The public comment period ended on July 18, 2007. The Commission received two comment letters. The comments do not affect the NRC staff's assessment, which finds that the Pennsylvania Agreement materials program is adequate to protect public health and safety and compatible with the NRC's program. The proposed Pennsylvania Agreement is consistent with Commission policy and thus meets the criteria for an Agreement with the Commission.

After considering the request for an Agreement by the Governor of Pennsylvania, the supporting documentation submitted with the request for an Agreement, and its interactions with the staff of the Pennsylvania Bureau of Radiation Protection, the NRC staff completed an assessment of the Pennsylvania

program. The agency made a copy of the staff assessment available in the NRC's Public Document Room (PDR) and electronically on NRC's Web site. Based on the staff's assessment, the Commission determined on February 12, 2008, that the proposed Pennsylvania program for control of radiation hazards is adequate to protect public health and safety, and compatible with the Commission's program.

Documents may be examined and/or copied for a fee, at the NRC's PDR, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland. Documents referred to in this notice and other publicly available documents are available electronically at the NRC's Public Electronic Reading Room on the Internet at the NRC Web site, <http://www.nrc.gov/reading-rm/adams.html>. From this site, the public can gain entry into the NRC's Agencywide Document Access and Management System (ADAMS), which provides text and image files of NRC's public documents. If you do not have access to ADAMS or if there are problems in accessing the documents located in ADAMS, contact the NRC PDR Reference staff at 1-800-397-4209, 301-415-4737 or by e-mail to pdr.resources@nrc.gov.

Dated at Rockville, Maryland, this 4th day of April 2008.

For the U.S. Nuclear Regulatory Commission.

Annette L. Vietti-Cook,
Secretary of the Commission.

Agreement Between the United States Nuclear Regulatory Commission and the Commonwealth of Pennsylvania for the Discontinuance of Certain Commission Regulatory Authority and Responsibility Within the Commonwealth Pursuant to Section 274 of the Atomic Energy Act of 1954, as Amended

Whereas, The United States Nuclear Regulatory Commission (hereinafter referred to as the Commission) is authorized under Section 274 of the Atomic Energy Act of 1954, as amended, 42 U.S.C. 2011 *et seq.* (hereinafter referred to as the Act), to enter into agreements with the Governor of any State/Commonwealth providing for discontinuance of the regulatory authority of the Commission within the State/Commonwealth under Chapters 6, 7, and 8, and Section 161 of the Act with respect to byproduct materials as defined in Sections 11e.(1), 11e.(2), 11e.(3), and 11e.(4) of the Act, source materials, and special nuclear materials

in quantities not sufficient to form a critical mass; and,

Whereas, The Governor of the Commonwealth of Pennsylvania is authorized under the Pennsylvania Radiation Protection Act of July 10, 1984, Public Law 688, No. 147, as amended, 35 P.S. 7110.101 *et seq.*, to enter into this Agreement with the Commission; and,

Whereas, The Governor of the Commonwealth of Pennsylvania certified on November 9, 2006, that the Commonwealth of Pennsylvania (hereinafter referred to as the Commonwealth) has a program for the control of radiation hazards adequate to protect public health and safety with respect to the materials within the Commonwealth covered by this Agreement, and that the Commonwealth desires to assume regulatory responsibility for such materials; and,

Whereas, The Commission found on February 12, 2008, that the program of the Commonwealth for the regulation of the materials covered by this Agreement is compatible with the Commission's program for the regulation of such materials and is adequate to protect public health and safety; and,

Whereas, The Commonwealth and the Commission recognize the desirability and importance of cooperation between the Commission and the Commonwealth in the formulation of standards for protection against hazards of radiation and in assuring that Commonwealth and Commission programs for protection against hazards of radiation will be coordinated and compatible; and,

Whereas, The Commission and the Commonwealth recognize the desirability of the reciprocal recognition of licenses, and of the granting of limited exemptions from licensing of those materials subject to this Agreement; and,

Whereas, This Agreement is entered into pursuant to the provisions of the Act;

Now, therefore, It is hereby agreed between the Commission and the Governor of the Commonwealth acting on behalf of the Commonwealth as follows:

Article I

Subject to the exceptions provided in Articles II, IV, and V, the Commission shall discontinue, as of the effective date of this Agreement, the regulatory authority of the Commission in the Commonwealth under Chapters 6, 7, and 8, and Section 161 of the Act with respect to the following materials:

1. Byproduct materials as defined in Section 11e.(1) of the Act;

2. Byproduct materials as defined in Section 11e.(3) of the Act;

3. Byproduct materials as defined in Section 11e.(4) of the Act;

4. Source materials;

5. Special nuclear materials in quantities not sufficient to form a critical mass;

6. The regulation of the land disposal of all byproduct, source, and special nuclear waste materials covered by this Agreement.

Article II

This Agreement does not provide for discontinuance of any authority and the Commission shall retain authority and responsibility with respect to the following:

1. The regulation of the construction and operation of any production or utilization facility or any uranium enrichment facility;

2. The regulation of the export from or import into the United States of byproduct, source, or special nuclear material, or of any production or utilization facility;

3. The regulation of the disposal into the ocean or sea of byproduct, source, or special nuclear materials waste as defined in the regulations or orders of the Commission;

4. The regulation of the disposal of such other byproduct, source, or special nuclear materials waste as the Commission from time to time determines by regulation or order should, because of the hazards or potential hazards thereof, not be disposed without a license from the Commission;

5. The evaluation of radiation safety information on sealed sources or devices containing byproduct, source, or special nuclear materials and the registration of the sealed sources or devices for distribution, as provided for in regulations or orders of the Commission;

6. Byproduct materials as defined in Section 11e.(2) of the Act.

Article III

With the exception of those activities identified in Articles II, paragraphs 1 through 4, this Agreement may be amended, upon application by the Commonwealth and approval by the Commission, to include one or more of the additional activities specified in Article II, paragraphs 5 and 6, whereby the Commonwealth may then exert regulatory authority and responsibility with respect to those activities.

Article IV

Notwithstanding this Agreement, the Commission may from time to time by

rule, regulation, or order, require that the manufacturer, processor, or producer of any equipment, device, commodity, or other product containing source, byproduct, or special nuclear material shall not transfer possession or control of such product except pursuant to a license or an exemption from licensing issued by the Commission.

Article V

This Agreement shall not affect the authority of the Commission under Section 161b or 161i of the Act to issue rules, regulations, or orders to protect the common defense and security, to protect restricted data, or to guard against the loss or diversion of special nuclear material.

Article VI

The Commission will cooperate with the Commonwealth and other Agreement States in the formulation of standards and regulatory programs of the Commonwealth and the Commission for protection against hazards of radiation and to assure that Commission and Commonwealth programs for protection against hazards of radiation will be coordinated and compatible. The Commonwealth agrees to cooperate with the Commission and other Agreement States in the formulation of standards and regulatory programs of the Commonwealth and the Commission for protection against hazards of radiation and to assure that the Commonwealth's program will continue to be compatible with the program of the Commission for the regulation of materials covered by this Agreement.

The Commonwealth and the Commission agree to keep each other informed of proposed changes in their respective rules and regulations and to provide each other the opportunity for early and substantive contribution to the proposed changes.

The Commonwealth and the Commission agree to keep each other informed of events, accidents, and licensee performance that may have generic implications or otherwise be of regulatory interest.

Article VII

The Commission and the Commonwealth agree that it is desirable to provide reciprocal recognition of licenses for the materials listed in Article I licensed by the other party or by any other Agreement State. Accordingly, the Commission and the Commonwealth agree to develop appropriate rules, regulations, and procedures by which such reciprocity will be accorded.

Article VIII

The Commission, upon its own initiative after reasonable notice and opportunity for hearing to the Commonwealth, or upon request of the Governor of the Commonwealth, may terminate or suspend all or part of this Agreement and reassert the licensing and regulatory authority vested in it under the Act if the Commission finds that (1) such termination or suspension is required to protect public health and safety, or (2) the Commonwealth has not complied with one or more of the requirements of Section 274 of the Act. The Commission may also, pursuant to Section 274j of the Act, temporarily suspend all or part of this Agreement if, in the judgment of the Commission, an emergency situation exists requiring immediate action to protect public health and safety and the Commonwealth has failed to take necessary steps. The Commission shall periodically review actions taken by the Commonwealth under this Agreement to ensure compliance with Section 274 of the Act which requires a Commonwealth program to be adequate to protect public health and safety with respect to the materials covered by this Agreement and to be compatible with the Commission's program.

Article IX

This Agreement shall become effective on March 31, 2008, and shall remain in effect unless and until such time as it is terminated pursuant to Article VIII.

Done at Rockville, Maryland, in triplicate, this 10th day of March, 2008.

For the United States Nuclear Regulatory Commission.

Dale E. Klein,
Chairman.

Done at Harrisburg, Pennsylvania, in triplicate, this 26th day of March, 2008.

For the Commonwealth of Pennsylvania.

Edward G. Rendell,
Governor.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 040-06394]

Notice of Consideration of Amendment Request for Decommissioning of the Department of the Army, U.S. Army Research, Development and Engineering Command, Army Research Laboratory, Aberdeen Proving Ground, Maryland and Opportunity To Request a Hearing

AGENCY: Nuclear Regulatory Commission.

ACTION: Notice of amendment request and opportunity to request a hearing.

DATES: A request for a hearing must be filed by June 9, 2008.

FOR FURTHER INFORMATION CONTACT: Betsy Ullrich, Senior Health Physicist, Commercial and R&D Branch, Division of Nuclear Materials Safety, Region I, U.S. Nuclear Regulatory Commission, King of Prussia, PA 19406. Telephone: (610) 337-5040; fax number: (610) 337-5269; or e-mail: exu@nrc.gov.

SUPPLEMENTARY INFORMATION:**I. Introduction**

The Nuclear Regulatory Commission (NRC) is considering issuance of a license amendment to Source Material License No. SMB-141 issued to the Department of the Army, U.S. Army Research, Development and Engineering Command, Army Research Laboratory (the Licensee), to authorize decommissioning of its Army Research Laboratory (ARL) Experimental Facility 14, formally known as Range 14, at the Aberdeen Proving Ground, Maryland (the Facility), under the Licensee's Decommissioning Plan (DP).

An NRC administrative review, documented in a letter to the Army Research Laboratory dated December 18, 2007, found the DP acceptable to begin a technical review.

If the NRC approves the DP, the approval will be documented in an amendment to NRC License No. SMB-141. However, before approving the proposed amendment, the NRC will need to make the findings required by the Atomic Energy Act of 1954, as amended, and NRC's regulations. These findings will be documented in a Safety Evaluation Report and an Environmental Assessment and/or an Environmental Impact Statement. The license will be amended to authorize release of the Facility for unrestricted use if this amendment is approved following completion of decommissioning activities and verification by the NRC that the

radiological criteria for license termination have been met.

II. Opportunity To Request a Hearing

The NRC hereby provides notice that this is a proceeding on an application for a license amendment regarding the decommissioning of Range 14. Any person whose interest may be affected by this proceeding and who desires to participate as a party must file a request for a hearing and, a specification of the contentions which the person seeks to have litigated in the hearing, in accordance with the NRC E-Filing rule, which the NRC promulgated in August, 2007, 72 FR 49139 (Aug. 28, 2007). The E-Filing rule requires participants to submit and serve documents over the internet or in some cases to mail copies on electronic storage media. Participants may not submit paper copies of their filings unless they seek a waiver in accordance with the procedures described below.

To comply with the procedural requirements of E-Filing, at least five (5) days prior to the filing deadline, the petitioner/requester must contact the Office of the Secretary by e-mail at HEARINGDOCKET@NRC.GOV, or by calling (301) 415-1677, to request (1) a digital ID certificate, which allows the participant (or its counsel or representative) to digitally sign documents and access the E-Submittal server for any proceeding in which it is participating; and/or (2) creation of an electronic docket for the proceeding (even in instances in which the petitioner/requester (or its counsel or representative) already holds an NRC-issued digital ID certificate). Each petitioner/requester will need to download the Workplace Forms Viewer™ to access the Electronic Information Exchange (EIE), a component of the E-Filing system. The Workplace Forms Viewer™ is free and is available at <http://www.nrc.gov/site-help/e-submittals/install-viewer.html>. Information about applying for a digital ID certificate is available on NRC's public website at <http://www.nrc.gov/site-help/e-submittals/apply-certificates.html>.

Once a petitioner/requester has obtained a digital ID certificate, had a docket created, and downloaded the EIE viewer, it can then submit a request for hearing or petition for leave to intervene. Submissions should be in Portable Document Format (PDF) in accordance with NRC guidance available on the NRC public website at <http://www.nrc.gov/site-help/e-submittals.html>. A filing is considered complete at the time the filer submits its documents through EIE. To be timely,
