

ATTN: Ms Reese, Psychopharmacologic Drugs Advisory Committee Staff Member

SUBJECT: Please DO NOT approve the use of the methylphenidate patch.

Dear Ms Reese,

My comments to the committee, below, are submitted under the agreement established between yourself and Sheila Matthews of Ablechild.

I understand you have extended the period for public comment on this subject, through today. I JUST learned of this.

I have gained a great deal of knowledge related to both sides of the controversial use of methylphenidate for treating children with ADHD, and I implore you to not allow this inappropriate and dangerous expansion of the use of methylphenidate.

Please DO NOT approve the methylphenidate patch.

Very sincerely,  
Harry S. Frisch,
