Table 1-18. Birth Rates for Unmarried Women by Age of Mother, According to Race and Hispanic Origin: United States, Specified Years, 1940-55 and Each Year 1960-2001

(Rates are live births to unmarried women per 1,000 unmarried women in the specified group. Beginning in 1970, excludes births to nonresidents of the United States; see Technical Appendix. Population enumerated as of April 1 for census years and estimated as of July 1 for all other years. Rates for 1991-2001 have been revised using population estimates based on the 2000 census and may differ from rates previously published. See text and "Technical Notes," available at <http://www.cdc.gov/nchs/data/nvsr/nvsr51/nvsr51_12.pdf>)

--- Data not available.

- (1) Rates computed by relating total births to unmarried women, regardless of age of mother, to unmarried women aged 15-44 years.
- (2) Rates computed by relating births to unmarried women aged 40 years and over to unmarried women aged 40-44 years. Rates by race for years prior to 1969 are computed by relating births to unmarried women aged 35 years and over to unmarried women aged 35-44 years.
- (3) Includes races other than white and black.
- (4) Data for States in which marital status was not reported have been inferred from other items on the birth certificate and included with data from the reporting States; see Technical Appendix.
- (5) Based on 100 percent of births in selected States and on a 50-percent sample of births in all other States; see Technical Appendix.
- (6) Births to unmarried women are estimated for the United States from data for registration areas in which marital status of mother was reported; see Technical Appendix.
- (7) Based on a 50-percent sample of births.
- (8) Based on a 20- to 50-percent sample of births.
- (9) Rates for 1990 based on data for 48 States and District of Columbia which reported Hispanic origin on the birth certificate. Rates shown for ages 35-39 years for non-Hispanic white women are based on births to unmarried women aged 35-44 years.
- (10) Includes all persons of Hispanic origin of any race.

NOTES: Rates cannot be computed for unmarried non-Hispanic black women because the necessary populations are not available. Race and Hispanic origin are reported separately on birth certificates. Race categories are consistent with the 1977 Office of Management and Budget standards. See Technical Appendix.
