

## Curriculum Vitae

Name: Walter J. Rogan

Education:

1971 - BA (Biology) LaSalle College, Philadelphia  
1975 - MPH (Biostatistics) University of California, Berkeley  
1975 - MD University of California, San Francisco

Employment:

1975 - 1976 Intern, San Francisco General Hospital  
1976 - date National Institute of Environmental Health Sciences,  
Research Triangle Park, NC  
1976 - 1978 Staff Associate  
1978 - 1986 Medical Officer, Epidemiology Branch  
1986 - 1991 Chief, Epidemiology Branch  
1991 - 1993 Associate Director for Prevention,  
Division of Biometry and Risk Assessment  
1993 - 1997 Acting Clinical Director, Division of Intramural Research  
1997 - date Senior Investigator, Epidemiology Branch

Academic:

1977 - date Department of Epidemiology, University of North Carolina School of  
Public Health, Chapel Hill, NC - Adjunct Faculty (currently Professor)  
1994 - date Department of Medicine, Duke University School of Medicine - Adjunct  
Faculty (currently Associate Professor)

Editorial:

Associate Editor, *Journal of Environmental Pathology and Toxicology*, 1979-1989  
Associate Editor, *Preventive Medicine*, 1982-1996  
Editorial Board, *Environmental Health Perspectives*, 1982-1997  
Advisory Editor, *Environmental Research*, 1987-date  
Corresponding Editor, *American Journal of Industrial Medicine*, 1988-date

Honors and Other Special Recognition:

PHS Commendation Medal (1981)  
Society for Pediatric Research (elected 1988)  
American Epidemiological Society (elected 1990)  
PHS Outstanding Unit Citation (1992)  
NIH Merit Award (1997)  
Collegium Ramazzini (elected 1997)  
Visiting Professor of Public Health, National Cheng Kung University Medical  
College, Tainan, Taiwan, May-August 1998

Societies:

Society for Epidemiologic Research  
AAAS  
Society for Pediatric Research  
American Epidemiological Society  
Collegium Ramazzini

Committees: Present

American Academy of Pediatrics, Committee on Environmental Health (Liaison)  
(1977-) <http://www.aap.org/visit/cmte16.htm>  
Department of Health and Human Services, Advisory Committee on Childhood Lead  
Poisoning Prevention (Ex Officio) (1997- )  
National Institute of Child Health and Human Development, Committee on Newborn  
Screening, (Liaison) (2006-)

Committees: Past (selected)

NIEHS Institute Clinical Review Subpanel (now the Institutional Review Board)  
(founding chair, 1980-83; member, 1983-91; chair, 1992-93)  
WHO Working Groups on Organochlorine Contaminants in Breast Milk (1982, 1986,  
1990)  
Hawaii Heptachlor Health Effects Research Foundation (1987-2001)  
Gore-Chernomyrdin Commission on Environmental Health (1995)  
IARC Working Group on the carcinogenicity of PCDFs and PCDDs (1996-7)  
WHO Working Group on the Tolerable Daily Intake for Dioxin (1998)  
NICHD Director's Panel on the Inclusion of Children in Clinical Research (1997)  
Office of Science and Technology Policy Methylmercury Panel (1998)  
Office on Women's Health Advisory Committee on breast feeding policy (1999-  
2000)  
NIH/EPA delegation to Vietnam on Agent Orange Research (2000)  
NIEHS Advisory Committee on Clinical Research (1998-2001)  
National Toxicology Program, Initial Review Group, Carcinogenicity of Lead and  
Lead Compounds (2002)  
Epidemiology Branch search committees for Tenure-track reproductive (2002) and  
chronic disease (2003) epidemiologists

**Recent invitations:**

US Vietnam Conference on Health Effects of Agent Orange, Hanoi. February 2002.  
Organizing Committee,

East Chapel Hill HS. Honors Modern History. April 2002 “Chemical legacy of the Vietnam War?”

National Toxicology Program, Report on Carcinogens, Review Group 1. September 2002. Inorganic lead.

Mt Sinai New York Community Medicine Grand Rounds, April 2003. “Soy infant formula and the effects of neonatal estrogen”

French Society of Pediatrics & French Society of Public Health, Lille, France, November 2003. Consensus conference on management of childhood lead poisoning.  
“Developmental follow-up of lead exposed children”

Medical University of South Carolina “Frontiers in Pediatrics” series, December 2003.  
“Evidence of Environmental Endocrine Disruption in Children”

University of Wroclaw, Poland, “Metals, Environment, and Health” conference, June 2004. “Treatment of Pediatric Lead poisoning”

NIH Clinical Center Grand Rounds. June 2004. “How low is low enough in childhood lead exposure?”

DHHS Advisory Committee on Childhood Lead Poisoning Prevention. October 2004.  
“Effect of succimer on neuropsychological function of lead-exposed children – treatment at age 2, follow up at age 7”

Taiwan Department of Health, April 2005– Advisory meeting on longitudinal studies in children, Taichung.

Pediatric Academic Societies meetings, May 2005. “DDT, malaria, and non-malarial infant deaths in Africa”
