**Notes:**

Jobs - refers to all full and part time jobs as of March of the indicated year.

Payroll - refers to wages and benefits paid to all employees in thousands of dollars.

Annual growth - is the estimated annualized growth rate for the given sector over the period from 1985 to 1995.

Total - refers to all jobs covered by County Business Patterns. This includes all private sector jobs except in agriculture. It does not include government employment, railroad employment, or the self-employed.

d - indicates that the data could not be disclosed.

c - indicates that employment was between 100 and 249 employees.

f - indicates that employment was between 500 and 999 employees.

g - indicates that employment was between 1,000 and 2,499 employees.

h - indicates that employment was between 2,500 and 4,999 employees.

y - indicates that employment and compensation figures were not available for La Paz County in 1985.

Finally, note that not all employment under retail or eating and drinking (which is a category within retail) or amusement services can be attributed to tourism. However, most of hotel and lodging can be attributed to tourism related activity.
