

Managing 2006 and 2007 S2S Endpoints through the Transition to Adobe

January 27, 2009

Overview

- Both the PureEdge (2006) and Adobe (2007) systems are in service during the Transition
- All Agencies are scheduled to be in Adobe by March 3, 2009

- Applicants visiting Grants.gov GUI hit the Adobe (2007) system but “see” opportunities posted by agencies on both systems
- Agencies can post opportunities & packages to both the PureEdge (2006) and Adobe (2007) system
 - Agencies can only post in PureEdge up until Build 2008 – 03 is deployed (Date of deployment TBD)
- S2S connections **REQUIRE** Applicant and Agency ATTENTION!
- 2006 System S2S cutoffs are planned on or after 11/30/2008

Agency S2S Connection Notes

- Agencies are Posting to the 2007 (Adobe) System now!
 - Adobe Packages will Increase
 - If Agencies do not move their S2S connection to the 2007 endpoint, they will **NOT** be able to retrieve Adobe submissions through S2S
 - Agencies can wait to move S2S endpoint (and download Adobe submissions manually)
 - Agencies can move S2S endpoint now
- Connecting to 2007 Endpoint to retrieve will Display Adobe Form Characteristics (see the grants.gov website for PureEdge vs. Adobe FAQs at:
 - <http://grants.gov/help/faq.jsp>

Applicants

S2S Connection Notes

- All Submissions Made via an S2S Connection to the 2007 System are Stored in the 2007 System
 - This Includes Submissions for 2006 Opportunities
- Submissions to 2006 Opportunities Made through the 2007 Endpoint will Look and Feel like Adobe Submissions
 - They will Display Adobe Form Characteristics
 - Some Agencies have not Made the Switch to Allow Adobe Submissions
 - If Submissions are Made to 2007 System, and the agency is Still Connected to the 2006 Endpoint system;
 - Agency will not Receive the Submissions
 - Coordinate with the Agency to Ensure you are Submitting to the Correct Server

Do Applicant S2S Clients Need to Change their Software to Submit to the 2007 server?

GRANTS.GOVSM

FIND. APPLY. SUCCEED.SM

- If the Application was Downloaded from the 2007 System and Submitted to the 2007 System **NO** Change is Required
- Every Effort has been Made to Maintain Identical Interfaces
 - There is a Need for a Small Change to S2S Connections Before Using the 2007 Endpoint for 2006 System Submissions:
 - 2007 S2S Endpoint Users **MUST** Include the 'schemaLocation' Element in the XML

What is the Requirement for the 'schemaLocation' Element in the Submission XML?

- The 'schemaLocation' Element is **ONLY** for 2006 Submissions to the 2007 System
- If an Agency is Accepting only 2006 server Submissions;
 - The S2S Interface Must Download that Opportunity from 2006 and Submit to the 2006 System Endpoint
- If the S2S Connection is Submitting to the 2006 System with the 'schemaLocation' Element;
 - The S2S Connection will get Mixed Results
 - May Include Submission Failures

Can an Applicant S2S Connection Login and Download a 2006 Submission from the 2007 system?

GRANTS.GOVSM
FIND. APPLY. SUCCEED.SM

- **YES**
 - An S2S Connection **CAN** Login and Create a 2006 Submission from 2007 System then connect to 2006 system to Submit ***IF The Schema Header is Modified***

Can I tell by the Grants.gov Tracking Number if it is a Adobe or PureEdge submission?

GRANTS.GOVSM

FIND. APPLY. SUCCEED.SM

- An Adobe Tracking Number Begins as GRANT followed by the number 1
 - Example Grant1xxx
- A PureEdge Tracking Number Always Begins as Grant followed by the number 0
 - Example Grant0xxxx

- **Endpoint or Port:** To Access the 2007 Web Services Use the Following Endpoints:
 - **AT07:** <https://at07web.grants.gov:446/app-s2s-server/services/>
.NET users <https://at07ws.grants.gov:446/app-s2s-server/services/>
 - **Production-2007:** <https://ws07.grants.gov:446/app-s2s-server/services/>
- **Certificates:** There are No New Certificates Needed for 2007 Test System
 - Utilize Existing 2006 Test Certificates
 - **Note:** Firewall port 446 should be open to address the new URL <http://ws07.grants.gov>
- Email synopsis synopsisXML@grants.gov
