

www.ScienceAccelerator.gov/eprints
Access over 1.4 million e-print documents;
use E-PRINT Alerts for weekly updates.

Remarkable advances
in science

www.ScienceAccelerator.gov/accomplishments
Discover outcomes of past DOE R&D which have
had significant economic impact, improved
people's lives, or been widely recognized as a
remarkable advance in science.

www.ScienceAccelerator.gov/rdprojects
Access summaries of energy-related scientific
projects performed since 1995 by DOE
laboratories and other research facilities.

www.ScienceAccelerator.gov/fedrnd
Cross-search R&D project summaries
in six leading science agencies.

www.ScienceAccelerator.gov/bridge
Access over 190,000 DOE R&D reports
with searchable full-text and
bibliographic citations.

Energy Citations Database

www.ScienceAccelerator.gov/ecd
Search bibliographic citations of DOE documents
from 1948 to the present, with links to electronic
full text when available.

www.ScienceAccelerator.gov/doepatents
A searchable database of over 20,000
patents resulting from DOE-sponsored
research and development.

www.ScienceAccelerator.gov
One-stop search of key DOE resources

www.ScienceAccelerator.gov/estsc
Search and acquire scientific and technical
software representing the latest in federally
funded technology.

www.ScienceAccelerator.gov/energyfiles
Navigate this broad collection of resources
using distributed subject-searching of over
500 databases and Web sites.

www.ScienceAccelerator.gov/scienceconferences
Access this distributed portal to select
science and technology conference
papers and proceedings.

Education resources

www.osti.gov/sciencelab
Explore education resources for students,
teachers and the public.

Developed and maintained by the
Office of Scientific and Technical Information
Office of Science
U.S. Department of Energy

www.osti.gov/DataExplorer
