

About the Risk Management Agency

The role of USDA's Risk Management Agency (RMA) is to help producers manage their business risks through effective, market-based risk management solutions. RMA's mission is to promote, support, and regulate sound risk management solutions to preserve and strengthen the economic stability of America's agricultural producers. As part of this mission, RMA operates and manages the Federal Crop Insurance Corporation (FCIC). RMA was created in 1996; the FCIC was founded in 1938.

RMA employs approximately 530 people in offices around the country. RMA's fiscal year (FY) 2007 administrative budget was \$77 million. Meanwhile, the size of the program has grown tremendously (see chart, p. 2). In FY 2007, RMA managed over \$67 billion worth of insurance liabilities (see table).

RMA Administrator Eldon Gould was appointed in November 2005. He also serves as the manager of the FCIC. Located within the Office of the Administrator are the Director of External Affairs, the Director of Civil Rights and Outreach, the Director of Program Support and Chief Information Officer, the Chief Financial Officer, and the Secretary to the FCIC Board of Directors.

The Agency currently has three divisions: Insurance Services, Product Management, and Risk Compliance. Insurance Services is responsible for program delivery (for example, managing contracts with the companies that sell and service policies), and local program administration and support.

Product Management is responsible for overseeing product development. Risk Compliance monitors compliance with program provisions by both producers and the 16 insurance companies that sell and service policies.

RMA, via the FCIC, provides crop insurance to American producers. Sixteen private-sector insurance companies sell and service the policies. RMA develops and/or approves the premium rate, administers the premium and expense subsidies, approves and supports products, and reinsures the companies. In addition, RMA sponsors educational and outreach programs and seminars on the general topic of risk management.

Additional information about RMA can be found on its Web site, including agency news, State profiles and other publications, summaries of insurance sales, information on pilot programs, downloadable crop policies, and agency-sponsored events. The site also features online tools and applications. The most popular applications are the Agent Locator, Premium Calculator, and Summary of Business.
