

September 15, 2008

Chairman Robert C. Byrd
Senate Appropriations Committee
The Capitol
Room S-131
Washington, DC 20510-6025

Senator Thad Cochran, Ranking Member
Senate Appropriations Committee
The Capitol
Room S-131
Washington, DC 20510-6025

Dear Chairman Byrd and Senator Cochran:

We, the undersigned, urge you to provide emergency supplemental appropriations to cover US Forest Service (USFS) and Department of the Interior (DOI) wildland fire operations costs above originally appropriated amounts. In the absence of adequate firefighting funding, the USFS has been forced to move \$400 million from non-fire accounts to support fire suppression efforts. This has disrupted or completely stopped many important programs, projects and cooperative agreements benefiting public and private forests, including forest management, wildlife habitat, conservation, and research activities, many of which help prevent or minimize wildfires. This has eroded agency partnerships and credibility with communities and organizations that help it accomplish its goals.

To date, the USFS and DOI combined have spent over \$1.3 billion on fire suppression activities, controlling wildfires on over 4.6 million acres. As you are aware, the 2008 wildfire season in California began much earlier and proceeded with greater intensity than it had in previous years. This increased and prolonged wildfire activity, along with large fires in North Carolina and across the Southwest, has once again strained USFS and DOI finances. Now that we are in the midst of a very active hurricane season, we will likely see an increased need for supplemental funding as USFS takes on greater responsibility for hurricane response and recovery efforts.

The current fire funding crisis underscores the importance of developing a long-term solution to correct the way in which fire suppression funds are budgeted. We urge Congress to provide these supplemental funds to prevent further short-term financial damage, and at the same time, address the more challenging issue of finding a budget fix to end this six-year cycle of emergency supplemental funding. We are committed to working with Congress and the Administration to craft a comprehensive solution.

Thank you for your consideration.

Sincerely,
