Program Description

This program provides grants to states to support a wide range of services designed to help individuals with disabilities prepare for and engage in gainful employment consistent with their strengths, resources, priorities, concerns, abilities, capabilities, interests, and informed choice. Eligible individuals are those who have a physical or mental impairment that results in a substantial impediment to employment and who require vocational rehabilitation (VR) services to achieve an employment outcome. Priority must be given to serving individuals with the most significant disabilities if a state is unable to serve all eligible individuals.

Types of Projects

Funds are distributed to states and territories based on a formula that takes into account population and per capita income to cover the cost of direct services and program administration. Grant funds are administered under an approved state plan by VR agencies designated by each state. The state matching requirement is 21.3 percent; however, the state share is 50 percent for the cost of construction of a facility for community rehabilitation program purposes.
