

environmental and cultural issues associated with alternatives being evaluated for the operation of Harlan County Dam including flood control, irrigation, agriculture, recreation, tourism, cultural resources, aesthetics, transportation, project costs, and other factors to be identified during the scoping process.

2. Scoping Process

The one or more scoping meetings planned during 2005 for the Dam Safety Assurance Program will also provide information to the public regarding the Harlan County Dam Interim Operating Plan and the potential impacts this Plan may have on the Republican River Basin. The scoping meeting(s) will be advertised in local newspapers, and a mailing list will be used to notify the public and other interested parties of the meetings. The public, native American tribes, and affected government agencies at the local, State, and Federal level are encouraged to participate in the scoping process by forwarding written comments to the above noted address. The scoping process is designed to obtain comments and input for the DEIS and DSAP Report from the public concerning alternative measures that may be considered for the future operation of the Harlan County Dam. Interested parties may also request to be included on the mailing list for public distribution of meeting announcements and the status of EIS document preparation. Environmental consultation and review will be conducted in accordance with the requirements of the National Environmental Policy Act of 1969, as per regulations of the Council of Environmental Quality (Code of Federal Regulations Parts 40 CFR 1500–1508), and other applicable laws, regulations, and guidelines.

3. Availability of EIS Documents

Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: The purposes of this program are to (1) help address State-identified needs for highly qualified personnel—in special education, related services, early intervention, and regular education—to work with children with disabilities; and (2) ensure that those personnel have the skills and knowledge—derived from practices that have been determined through research and experience to be successful—that are needed to serve those children.

Priority: In this competition, we are establishing one absolute priority (with five focus areas), a competitive preference priority within one of these five focus areas, and two separate competitive preference priorities. In accordance with 34 CFR 75.105(b)(2)(v), these priorities are from allowable activities specified in the statute (see section 662(d) and 681(d) of the Individuals with Disabilities Education Act (IDEA)).

Absolute Priority: For FY 2005 this priority is, except as otherwise

specified, an absolute priority. Under 34 CFR 75.105(c)(3) we consider only applications that meet this absolute priority.

This priority is:

Combined Priority for Personnel Preparation

Background: State agencies, university training programs, local schools, and other community-based entities confirm the importance and difficulty of improving training programs for personnel to serve children with disabilities or infants and toddlers with disabilities.

The national demand for fully credentialed special education, related services and early intervention personnel to serve children with disabilities also exceeds available supply. Thus, Federal support is required to improve both the quality and supply of personnel who serve children with disabilities.

Priority: The purpose of this priority is to increase the number and quality of personnel who are fully credentialed to serve children with disabilities, especially in areas of chronic shortage, by supporting projects that prepare special education, early intervention, and related services personnel at the associate, baccalaureate, master's and specialist levels. In order to be eligible under this priority, programs must provide training and support for students to complete, within the term of the project, a degree and/or State certification, professional license, or State endorsement in early intervention, special education or related services. Programs preparing students to be special education paraprofessionals or related services assistants are also eligible under this priority. The Secretary is particularly interested in programs that prepare special educators who provide instruction in core academic areas to children with disabilities to be highly qualified under section 602(10) of IDEA, in accordance with State requirements. The Secretary is also particularly interested in programs that provide enhanced support for beginning special educators (see section 662(b)(3) of IDEA).

Absolute Priority Requirements: Projects funded under this absolute priority must—

(a) Demonstrate, in the narrative section of the application under “Quality of Project Services”, how—

(1) Research that has been shown to be effective in improving outcomes for children with disabilities is incorporated into training requirements and reflected in required coursework for

the proposed training program and include relevant research citations;

(2) The program is designed to offer integrated training and practice opportunities that will enhance the skills of appropriate personnel who share responsibility for providing effective services to children with disabilities;

(3) The program prepares personnel to address the specialized needs of children with disabilities from diverse cultural and language backgrounds, including limited English proficient children with disabilities, by—

(i) Identifying the competencies needed for personnel to work effectively with culturally and linguistically diverse populations; and

(ii) Infusing those competencies into early intervention, special education, and related services training programs;

(4) The program is designed to develop or improve and implement mutually beneficial partnerships with schools and other service settings to promote continuous improvement in preparation programs and in service delivery;

(5) The program includes field-based training opportunities for students in diverse settings, such as schools and settings in high-poverty communities, in rural areas and in urban areas;

(6) The training program equips scholars with the knowledge and skills necessary to effectively assist children in achieving State learning standards; and

(7) Student support systems (including tutors, mentors, and other innovative practices) are provided to enhance student retention and success in the program;

(b) Include in the application narrative under "Quality of Project Evaluation", a clear, effective plan for evaluating the extent to which graduates of the training program have the knowledge and skills necessary to provide research-based instruction and services that result in improved outcomes for children with disabilities;

(c) Communicate student evaluation results to the Office of Special Education Programs (OSEP) in required annual performance reports for continuation funding and the project's final performance report;

(d) Budget for a two-day Project Director's meeting in Washington, DC, during each year of the project;

(e) If the project maintains a Web site, include relevant information and documents in a form that meets a government or industry-recognized standard for accessibility;

(f) Include, in the application Appendix, all course syllabi for the

proposed training program. Course syllabi must clearly reflect the incorporation of research-based curriculum and pedagogy as required under paragraph (a) of this section of the priority;

(g) Submit annual data on each scholar who receives grant support. Projects funded under this priority must submit this scholar data electronically within 60 days after the end of each grant budget year. Applicants are encouraged to visit the Personnel Prep Data (PPD) Web site at www.osepppd.org for further information. This data collection is in addition to and does not supplant the annual grant performance report required of each grantee for continuation funding (34 CFR 75.590); and

(h) Assure that at least 60 percent of the total requested budget be used for student training stipends.

Statutory and Other Requirements: To be considered for an award under this priority, applicants must also satisfy the following requirements authorized under sections 662(e)(2) and (3), section 662(h)(1) and section 682(a)(1)(A) of IDEA:

(a) Demonstrate that the activities described in the application will address needs identified by the State or States the applicant proposes to serve and that the State or States intend to accept successful completion of the proposed personnel preparation program as meeting State personnel standards or other requirements in State law or regulation for serving children with disabilities or serving infants and toddlers with disabilities (see sections 662(e)(2)(A) and 662(e)(3) of IDEA). Letters from one or more States that the project proposes to serve could be one method for addressing this requirement;

(b) Demonstrate that the applicant and one or more State educational agencies—or, if appropriate, State appointed lead agencies responsible for providing early intervention services—or local educational agencies will cooperate in carrying out and monitoring the proposed project (see section 662(e)(2)(B) of IDEA);

(c) Involve individuals with disabilities or parents of individuals with disabilities ages birth through 26 in planning, implementing, and evaluating the project (see section 682(a)(1)(A) of IDEA); and

(d) Provide an assurance that the applicant will ensure that individuals who receive financial assistance under the proposed project agree to meet the service obligation requirements, or repay all or part of the amount of the scholarship, in accordance with section

662(h)(1) of IDEA and the *Additional Requirements* section of this notice. Applicants must describe how they will inform scholarship recipients of this service obligation requirement.

Focus Areas

Within this absolute priority, the Secretary intends to support projects under the following five (5) focus areas: (a) Training of Early Intervention and Early Childhood Personnel, (b) Training of Low-Incidence Personnel, (c) Training of High-Incidence Personnel, (d) Training Programs for Related Services, Speech/Language, and Adapted Physical Education Personnel, and (e) Training Programs in Minority Institutions. Provided that there are a sufficient number of high quality applications, a total of up to 5 of the awards made in focus areas (b), (c) and (e) combined will be to applicants training special education teachers that demonstrate how grant supported scholars who complete the proposed program will meet State certification standards in special education and will be highly qualified under section 602(10) of IDEA.

Provided that there are a sufficient number of high quality applications, a total of up to 5 of the awards made in focus areas (b), (c) and (e) combined will be to applicants training beginning special education teachers that demonstrate how the program is designed to carry out the activities described in one or both paragraphs (A) or (B) in section 662(b)(3) of IDEA.

Note: Applicants must identify the focus area (*i.e.*, (a), (b), (c), (d), or (e)) under which they are applying as part of the project title on the application cover sheet and may not submit the same proposal under more than one focus area. In addition, applicants applying under focus areas (b), (c) or (e) that are addressing either of the categories of intended awards under the preceding paragraphs (*i.e.*, highly qualified and/or beginning special educator training) must also identify the intended award area at the beginning of the Application Abstract.

Focus Area a: Training of Early Intervention and Early Childhood Personnel. For the purpose of this focus area, early intervention personnel are those who are trained to provide services to infants and toddlers with disabilities and early childhood personnel are those who are trained to provide services to children with disabilities ages 3 through 5. In States where certification in early intervention (EI) is combined with certification in early childhood (EC), applicants may propose a combined EI/EC training project under this focus area. Projects training related services, speech/

language and/or adapted physical education personnel are not eligible under this focus area (see Focus Area d).

Focus Area b: Training of Low-Incidence Personnel. For the purpose of this focus area, low-incidence personnel are special education personnel, including paraprofessionals, trained to serve school-age children with low-incidence disabilities including visual impairments, hearing impairments, simultaneous vision and hearing impairments, significant cognitive impairments (severe mental retardation), orthopedic impairments, autism, and/or traumatic brain injury. Programs preparing special education personnel to provide services to visually impaired or blind children that can be appropriately provided in Braille, must prepare those individuals to provide those services in Braille. Projects training related services, speech/language and/or adapted physical education personnel are not eligible under this focus area (see Focus Area d). Projects training special education pre-school personnel are eligible under Focus Area a.

Focus Area c: Training of High-Incidence Personnel. For the purpose of this focus area, high-incidence personnel are special education personnel, including paraprofessionals, trained to serve school-age children with mild and/or moderate mental retardation, emotional disturbance, specific learning disability, other health impairment (including children with Attention Deficit Hyperactive Disorder) and/or children ages 5 through 9 with developmental delay. Projects training related services, speech/language and/or adapted physical education personnel are not eligible under this focus area (see Focus Area d). Projects training special education pre-school personnel are eligible under Focus Area a.

Focus Area d: Training Programs for Related Services, Speech/Language, and Adapted Physical Education Personnel. Programs training related services, speech/language or adapted physical education personnel to serve infants, toddlers, children and youth with high-and/or low-incidence disabilities are eligible within this focus area. For the purpose of this focus area, related services include, but are not limited to, psychological services, physical therapy, occupational therapy, therapeutic recreation, social work services, counseling services, audiology services (including personnel trained at the Doctor of Audiology level), and or speech/language services. Training programs in States where personnel trained to serve children with speech/language impairments are considered to

be special educators are eligible under this focus area. Training programs preparing related services assistants are also eligible under this focus area.

Focus Area e: Training Programs in Minority Institutions. Programs in minority institutions that are training special education, including adapted physical education, and/or related services personnel to serve infants, toddlers, children and youth with high-and/or low-incidence disabilities are eligible within this focus area. Minority institutions include institutions with a minority student enrollment of 25 percent or more, which may include Historically Black Colleges and Universities and Tribal Colleges. Within this focus area and for the FY 2005 competition, projects that are recommended for funding and that have not received support under the IDEA Personnel Preparation Program in FY 2003 or FY 2004 will receive 10 competitive preference points.

Under Focus Area e, a project may budget for less than the required percentage (60 percent) for student training support if they can provide sufficient justification for any designation less than 60 percent for student scholarships. Sufficient justification for proposing less than 60 percent of the budget for student support would include support for activities such as program development, expansion of a program, or the addition of a new area of emphasis. Some examples include the following:

- A project that is starting a new program may request up to a year for program development and capacity building. In the initial project year, no student support would be required. Instead, a project could hire a new faculty member or a consultant to assist in program development.
- A project that is proposing to build capacity may hire a field supervisor so that additional students can be trained.
- A project that is expanding or adding a new emphasis area to the program may initially need additional faculty or other resources such as expert consultants, additional training supplies, or equipment that would enhance the program.

Projects that are funded to develop, expand, or to add a new area of emphasis to special education or related services programs must provide information on how these new areas will be maintained once Federal funding ends.

Note: The statute does not authorize the selection of trainees on the basis of race, ethnicity, gender, or disability status.

Competitive Preference Priorities: For FY 2005, these priorities are competitive preference priorities. Under 34 CFR 75.105(c)(2)(i) we award up to an additional five points for each priority depending on how well the application meets the priority.

These competitive preference priorities are:

Competitive Preference Priority 1: We give competitive preference to institutions of higher education that are educating regular education personnel to meet the needs of children with disabilities in integrated settings and educating special education personnel to work in collaboration with regular educators in integrated settings.

Note: Grant-supported scholarships should not be provided to students preparing to become regular education personnel as these students will not be able to meet the service obligation requirements under section 662(h) of IDEA.

Competitive Preference Priority 2: We give competitive preference to institutions of higher education based on the extent to which they successfully recruit individuals with disabilities and individuals from groups that are underrepresented in the profession for which they are preparing individuals. In the case of a new project, the applicant must submit a plan with strategies on how it will meet this competitive preference.

Note: The statute does not authorize the selection of trainees on the basis of race, ethnicity, gender, or disability status.

Additional Requirements: Specific provisions contained in the regulations for this program, which are in 34 CFR part 304, no longer apply because they have been superseded by requirements in IDEA, as recently reauthorized and amended by the Individuals with Disabilities Education Improvement Act of 2004. Accordingly, for purposes of this competition, the following requirements will apply in lieu of the regulations in 34 CFR part 304.

Note: The Secretary will be issuing a notice of proposed rulemaking to amend part 304 to implement these recent changes in IDEA. The Secretary does not expect the final regulations to be substantially different from the requirements in this *Additional Requirements* section. However, the competition announced in this notice will be governed solely by the requirements in this notice.

Waiver of Proposed Rulemaking: Under the Administrative Procedure Act (APA) (5 U.S.C. 553) the Department generally offers interested parties the opportunity to comment on proposed priorities and requirements. Section 681(d) of IDEA makes the public comment requirements of the APA inapplicable to the priority in this notice. With Respect to the *Additional Requirements*, section 437(d)(1) of the General Education Provisions Act exempts from the APA's notice and comment requirement rules that apply to the first competition under a new or substantially revised program authority. This is the first competition under section 662 of IDEA (the Personnel Development to Improve Services and Results for Children with Disabilities program), which was substantially revised by the Individuals with Disabilities Education Improvement Act of 2004. These *Additional Requirements* will apply to the FY 2005 grant competition only.

a. *Electronic Submission of Applications.*

We have been accepting applications electronically through the Department’s e-Application system since FY 2000. In order to expand on those efforts and comply with the President’s Management Agenda, we are continuing to participate as a partner in the new government wide Grants.gov Apply site in FY 2005. The Combined Priority for Personnel Preparation-CFDA Number 84.325K competition is one of the competitions included in this project.

If you choose to submit your application electronically, you must use the Grants.gov Apply site (Grants.gov). Through this site, you will be able to download a copy of the application package, complete it offline, and then upload and submit your application. You may not e-mail an electronic copy of a grant application to us. We request your participation in Grants.gov.

You may access the electronic grant application for the Combined Priority for Personnel Preparation-CFDA Number 84.325K competition at: <http://www.grants.gov>. You must search for the downloadable application package for this program by the CFDA

number. Do not include the CFDA number's alpha suffix in your search. Please note the following:

- Your participation in Grants.gov is voluntary.
- When you enter the Grants.gov site, you will find information about submitting an application electronically through the site, as well as the hours of operation.
- Applications received by Grants.gov are time and date stamped. Your application must be fully uploaded and submitted with a date/time received by the Grants.gov system no later than 4:30 p.m., Washington, DC time, on the application deadline date. We will not consider your application if it was received by the Grants.gov system later than 4:30 p.m. on the application deadline date. When we retrieve your application from Grants.gov, we will notify you if we are rejecting your application because it was submitted after 4:30 p.m. on the application deadline date.
- If you experience technical difficulties on the application deadline date and are unable to meet the 4:30 p.m., Washington, DC time, deadline, print out your application and follow the instructions in this notice for the submission of paper applications by mail or hand delivery.
- The amount of time it can take to upload an application will vary depending on a variety of factors including the size of the application and the speed of your Internet connection. Therefore, we strongly recommend that you do not wait until the application deadline date to begin the application process through Grants.gov.
- You should review and follow the Education Submission Procedures for submitting an application through Grants.gov that are included in the application package for this competition to ensure that your application is submitted timely to the Grants.gov system.
- To use Grants.gov, you, as the applicant, must have a D-U-N-S Number and register in the Central Contractor Registry (CCR). You should allow a minimum of five business days to complete the CCR registration.
- You will not receive additional point value because you submit your application in electronic format, nor will we penalize you if you submit your application in paper format.
- You may submit all documents electronically, including all information typically included on the Application for Federal Education Assistance (ED 424), Budget Information—Non-Construction Programs (ED 524), and all necessary assurances and certifications.

Any narrative sections of your application should be attached as files in a .DOC (document), .RTF (rich text) or .PDF (Portable Document) format.

- Your electronic application must comply with any page limit requirements described in this notice.
- After you electronically submit your application, you will receive an automatic acknowledgement from Grants.gov that contains a Grants.gov tracking number. The Department will retrieve your application from Grants.gov and send you a second confirmation by e-mail that will include a PR/Award number (an ED-specified identifying number unique to your application).
- We may request that you provide us original signatures on forms at a later date.

V. *Application Review Information*

1. *Selection Criteria:* The selection criteria for this competition are from 34 CFR 75.210 of EDGAR and are listed in the application package.

2. *Treating A Priority As Two Separate Competitions:* In the past, there have been problems in finding peer reviewers without conflicts of interest for competitions in which many entities throughout the country submit applications. The Standing Panel requirements under IDEA also have placed additional constraints on the availability of reviewers. Therefore, the Department has determined that, for some discretionary priorities, applications may be separated into two or more groups and ranked and selected for funding within the specific group. This procedure will ensure the availability of a much larger group of reviewers without conflicts of interest. It also will increase the quality, independence and fairness of the review process and permit panel members to review applications under discretionary

priorities for which they have also submitted applications. However, if the Department decides to select for funding an equal number of applications in each group, this may result in different cut-off points for fundable applications in each group.

VI. Award Administration Information

1. *Award Notices:* If your application is successful, we notify your U.S. Representative and U.S. Senators and send you a Grant Award Notification (GAN). We may also notify you informally.

If your application is not evaluated or not selected for funding, we notify you.

2. *Administrative and National Policy Requirements:* We identify administrative and national policy requirements in the application package and reference these and other requirements in the Applicable Regulations section of this notice.

We reference the regulations outlining the terms and conditions of an award in the *Applicable Regulations* section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. *Reporting:* At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multi-year award, you must submit an annual performance report that provides the most current performance and financial expenditure information as specified by the Secretary in 34 CFR 75.118. In addition, to satisfy the requirements of the priority in this notice, you must submit annual data on each scholar who receives grant support through this program.

4. *Performance Measures:* Under the Government Performance and Results Act (GPRA), the Department has established a set of performance measures that are designed to yield information on the effectiveness of the Personnel Preparation program. These measures include the extent to which scholars are successfully completing their program and the extent to which they are employed in the area(s) trained upon program completion.

If funded, applicants will be required to collect and report data on grant-supported students through the PPD Web site at <http://www.oespppd.org> (see paragraph (g) under the *Absolute Priority* section of this notice).

Beyond the performance measures specifically described in this notice, the Department is also currently developing measures that will be designed to yield

information on various aspects of program quality (e.g., the extent to which the curricula of training programs funded under this competition reflect the current knowledge base on effective practices; and the extent to which program graduates maintain employment for three or more years in the area(s) for which they were trained). Grantees will be asked to participate in assessing and providing information on program quality.

We will notify grantees of the performance measures once they are developed.
