RTI Updates

College/University Student Intern

A new subset of the College/University Student category, Student Intern, is being added to the system. The student intern is a foreign national enrolled in and pursuing a degree at an accredited post-secondary academic institution outside the United States and is participating in a student internship program in the United States that will fulfill the educational objectives for his or her current degree program at his or her home institution.

Note: Use of this category is permitted only by post-secondary accredited academic institutions (colleges and universities).

See 22 CFR 23, College and University Students, for the regulations for college/university student interns.

College/University Student Intern

Post-secondary accredited academic institutions designated for the College/University category will be able to create records for student interns.

When creating an exchange visitor (EV) record, the Student Intern option will be available on the Exchange Visitor Category drop-down list.

College/University Student Intern Batch Updates

With the addition of the College/University Student Intern category, one new exchange visitor category code is being added to the Program Category Codes lookup table:

Code	Description
1G	STUDENT INTERN

New elements that are being added to the Create-Update EV schema for the **EV.SubjectField** and **EV.Program.EditSubject** events are:

- Student Intern Foreign Degree
- Student Intern Foreign Field of Study

See <http://ice.gov/sevis/schools/batch.htm> for additional information.

Alternate Between Professor & Research Scholar

At the discretion and approval of the RO, professors may freely engage in research, and research scholars may freely engage in teaching and lecturing. Functionality to accommodate this change of activity is being added to SEVIS.

Because these activities are intertwined, such a change of activity is **NOT** considered a change of category.

This change of activity does **NOT**:

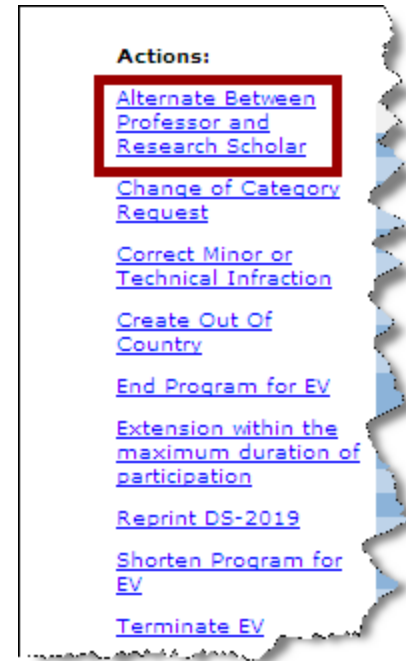

1. Require approval by the Department of State
2. Require the issuance of a new Form DS-2019
3. Extend the EV's maximum duration of program participation

Alternate Between Professor & Research Scholar

The Alternate Between Professor and Research Scholar option will be available for a professor or research scholar when:

- The EV's SEVIS status is Active. (The change in activity must be submitted prior to the EV's program end date.)
- There are no pending requests for the EV, for example, a request to transfer.

Alternate Between Professor & Research Scholar

The RO or ARO will be able to update the fields, as appropriate, on the *Alternate Between Professor and Research Scholar* screen to reflect the change in activity.

The change in activity will take effect immediately after the Submit button is selected.

Alternate Between Professor & Research Scholar

How does the “Alternate Between Professor and Research Scholar” function work?

There are three scenarios...

Alternate Between Professor & Research Scholar

Scenario 1:

If a university is designated for both the Professor and Research Scholar categories, and the EV will continue his program participation at this institution, the university must use the “Alternate Between Professor and Research Scholar” option to switch the EV from the:

- **Professor to Research Scholar category**
or
- **Research Scholar to Professor category**

Upon completion of this change of activity, the university must use the “Alternate Between Professor and Research Scholar” option to switch the EV back to the original category.

Alternate Between Professor & Research Scholar

Scenario 2:

If a university is designated for both the Professor and Research Scholar categories, but the EV will conduct research at an entity designated for the Research Scholar only, the following must occur:

1. The university must use the “Alternate Between Professor and Research Scholar” option to switch the EV from the Professor to the Research Scholar category.
2. The university must then transfer the EV to the Research Scholar program.
3. The Research Scholar program must validate the EV’s program participation.
4. Upon completion of this change of activity, the EV must be transferred back to the university.
5. The university must validate the EV’s program participation.
6. The university must use the “Alternate Between Professor and Research Scholar” option to switch the EV from the Research Scholar category back to the Professor category.

Alternate Between Professor & Research Scholar

Scenario 3:

If the entity is designated for the Research Scholar category only, and the EV will teach/lecture at a university, the university must be designated for both the Professor and Research Scholar categories. The following must occur:

1. The Research Scholar program must transfer the EV to the university.
2. The university must validate the EV's program participation.
3. The university must use the "Alternate Between Professor and Research Scholar" option to switch the EV from the Research Scholar to the Professor category.
4. When the EV completes his duties as a professor, the university must use the "Alternate Between Professor and Research Scholar" option to switch the EV's category from Professor to Research Scholar.
5. The university must transfer the EV back to the Research Scholar program.
6. The Research Scholar program must validate the EV's program participation.

Sanctions, Termination and Revocation of Programs

SEVIS is being enhanced to include Subpart D, Sanctions (22 CFR 62.50), and Subpart E, Termination and Revocation of Programs (22 CFR 62.60) of the Exchange Visitor Program regulations.

Due to the Sanctions, and Termination and Revocation functionality, several new program statuses are being added to SEVIS.

New Program Statuses

- **Denial Pending**—The sponsor’s redesignation request has been denied by DoS. No new EV records can be created, and records in Draft status cannot be updated or submitted. The program status will change to Denied once there are no EVs in active status.
- **Denied**—The sponsor’s previous status was Denial Pending and DoS has noted that there are no EVs in active status. The sponsor’s officials no longer have SEVIS access to the program’s records.
- **Revocation Pending**—The sponsor’s designation as an Exchange Visitor Program has been revoked by DoS. No new EV records can be created, and records in Draft status cannot be updated or submitted. The program status will change to Revoked once there are no EVs in active status.
- **Revoked**—The sponsor’s previous status was Revocation Pending and DoS has noted that there are no EVs in active status. The sponsor’s officials no longer have SEVIS access to the program’s records.

New Program Statuses

- **Suspended**—The sponsor's SEVIS participation as an Exchange Visitor Program has been temporarily suspended. No new EV records can be created, and records in Draft status cannot be accessed.
- **Termination Pending**—The sponsor's designation as an Exchange Visitor Program has been terminated by DoS. No new EV records can be created, and records in Draft status cannot be updated or submitted. The program status will change to Terminated once there are no more Active EVs.
- **Terminated**—The sponsor's previous status was Termination Pending and DoS has noted that there are no EVs in active status. The sponsor's officials no longer have SEVIS access to the program's records.

Sanctions, Termination and Revocation of Programs

In the event a sanction, termination, or revocation action is taken by the Department of State, the new program status will display on the *Program Information* screen. The screen also includes fields that *may* contain additional sanction, termination, or revocation information.
