CITATION

SAFETY AWARD FOR EXCELLENCE CAMARILLO DISTRICT PACIFIC OCS REGION

CHEVRON
PLATFORM GAIL
OCS-P-0205
SANTA BARBARA CHANNEL

The Camarillo District Safety Award for Excellence (SAFE) is presented to Chevron for the period January 1 through June 30, 1993, for safe operating practices and professional adherence to the operating regulations while conducting production, drilling, and workover/completion operations on Platform Gail in the Santa Barbara Channel, California.

During the period of evaluation, Platform Gail was inspected by the Minerals Management Service 59 times. The results of each inspection indicated that personnel on Platform Gail were very safety conscious and aware of the operating regulations. In addition, general housekeeping was outstanding and cooperation with the Minerals Management Service inspectors was excellent. Personnel training in operation of safety and pollution prevention equipment and devices, environmental awareness, first aid, water survival, and fire fighting consistently demonstrated Chevron's commitment to the maintenance of an extremely qualified work force.

The purpose of the SAFE program is to recognize and encourage operational safety, environmental protection and adherence to the operating regulations. The Secretary of the Interior and the Director of the Minerals Management Service join me in congratulating Chevron and their employees at Platform Gail for achieving the goals of the SAFE program.

J. LISLE REED
REGIONAL DIRECTOR
PACIFIC OCS REGION
