

Violence Prevention and

Arizona Students

What is the problem?

The 2007 Arizona Youth Risk Behavior Survey indicates that among high school students:

Weapons

- 21% carried a weapon, such as a gun, knife, or club. (1)
- 7% carried a gun. (1)
- 7% carried a weapon, such as a gun, knife, or club, on school property. (1)
- 11% had been threatened or injured with a weapon, such as a gun, knife, or club, on school property. (2)

Physical Violence

- 31% were in a physical fight. (2)
- – were injured in a physical fight and had to be treated by a doctor or nurse. (2)
- 11% were in a physical fight on school property. (2)
- 12% were hit, slapped, or physically hurt on purpose by their boyfriend or girlfriend. (3)

Security

- 8% did not go to school because they felt unsafe at school or on their way to or from school. (1)
- 29% had property, such as a car, clothing, or books, stolen or deliberately damaged on school property. (2)

What are the solutions?

Better health education • Violence prevention programs • Healthier school environments

What is the status?

The 2006 Arizona School Health Profiles indicates that among middle schools and high schools:

Health Education

- 16% required students to take two or more health education courses.
- 40% tried to increase student knowledge on violence prevention in a required health education course.
- 39% tried to improve student conflict resolution skills, such as techniques to resolve interpersonal conflicts without fighting in a required health education course.
- 59% had a lead health education teacher who received staff development during the past two years on violence prevention.

Violence Prevention Programs

- 10% had or participated in a safe-passages to school program.
- 41% had or participated in a program to prevent gang violence.
- 69% had or participated in a program to prevent bullying.

School Environment

- 90% used staff or adult volunteers to monitor school halls during and between classes.
- 100% required visitors to report to the main office or reception area upon arrival.
- 87% maintained a "closed campus" where students are not allowed to leave school during the day, including during lunchtime.
- 20% routinely conducted locker searches.
- 13% required students to wear identification badges.
- 30% used security or surveillance cameras, either inside or outside the school building.
- 50% used police, school resource officers, or security guards during the regular school day.

1. On at least 1 day during the 30 days before the survey.
 2. One or more times during the 12 months before the survey.
 3. During the 12 months before the survey.
- Data not available.
