

# Federal Depository Library STAT-USA Account Validation Form

This validation form authorizes your depository library the use of up to **TWO DEDICATED COMPUTER WORKSTATIONS** for access to STAT-USA®/Internet™ and USA Trade® Online. These services are to be accessible for free public access under the Federal Depository Library Program (FDLP).

It is a violation of STAT-USA policy and the terms of this agreement to:

- release the username or password to organizations or individuals other than authorized library personnel serving a public service function;
- allow organizations or individuals outside your library to connect to STAT-USA using your username or password via your library's computer network.

Any violation of these terms will result in the termination of your account with STAT-USA.

Please read the FAQs and complete this form and fax the signed form to 202-512-2300.

I have read the [FAQs](#): \_\_\_\_\_ (Please initial)

Access Choice/Change: (Check ONLY one):

- Username/Password (to be used for dynamic IP addresses)

OR

- Internet Protocol (IP) authentication (for automatically logging in the two designated computer workstations specified below without the need for user IDs or passwords)

**NOTE: It Is Understood That:**

- IP authentication requires a depository library to have static IP addresses for the two workstations from which access is provided.
- These IP addresses must be static (not dynamically assigned) and cannot be shared by other designated computer workstations.
- Choosing this option will eliminate any GPO depository access to these services by a password.

The IP addresses are: 1. \_\_\_\_\_ 2. \_\_\_\_\_

Depository Number: \_\_\_\_\_

Depository Name: \_\_\_\_\_

Library Address: \_\_\_\_\_

Depository Librarian's Name: \_\_\_\_\_
