			<p>3. Total TEU allowance is determined using the Cargo Securing Manual (CSM) and the General arrangement Plan (GA) with proper adjustments for ACP visibility restrictions. In the event these documents do not meet the accuracy guidelines acceptable by the Authority, the alternate method of admeasurement set forth in the "Regulations for the Admeasurement of Vessels to Assess Tolls for the Use of the Panama Canal" will be applied.</p> <p>4. The ballast conditions means without passenger or cargo. Empty containers are considered cargo.</p> <p>5. For vessels not classified as full container vessels but which have the capacity to transport containers above the upper deck, tolls shall be the result of their PC/UMS net tons times the toll rate of the appropriate segment, plus the number of TEU carried during a transit times tariff item 1010.0503.</p>
