

L201 Periodicals Origin Split and First-Class Mail Mixed ADC/AADC

[4-6-09] [2-2-09] [8-14-08] [6-5-08] L201 describes the First-Class Mail surface transportation reach of an origin facility for use in preparing bundles and sacks of Periodicals mail (including Periodicals labeled “news”) and in preparation of First-Class Mail mixed containers.

For Periodicals addressed to destinations within the First-Class Mail surface reach of the origin facility, mailers must use L201 to prepare mixed origin ADC bundles and sacks to enable integration of this volume into the First-Class Mail mailstream. Label bundles and sacks of mail originating in the 3-digit entry ZIP Code in Column A for delivery to 3-digit ZIP Code destinations listed in Column B using the corresponding city, state, and ZIP Code information in Column C. Use L009 for the preparation of mixed ADC bundles and sacks for any remaining pieces addressed to 3-digit ZIP Code destinations not listed in Column B.

For First-Class Mail letters, flats, and parcels originating in the 3-digit entry ZIP Code in Column A, label trays and sacks to the corresponding destination in Column C. Use “MXD” instead of “OMX.” Ignore Column B.
