

Employment in the motor vehicle industry groups (NAICS* 3361, 3362, and 3363) declined by 71,500 jobs over the year, offsetting the growth in the other industry groups, which increased by 22,800 jobs combined.

🔊 All industry groups in transportation equipment manufacturing experienced average annual pay increases. However, these wage gains in motor vehicle industry groups were affected by large severance payouts.
