

**APPENDIX G**

**NMFS PERMIT No. 932-1489-10**

**UNITED STATES DEPARTMENT OF COMMERCE**  
**National Oceanic and Atmospheric Administration**  
NATIONAL MARINE FISHERIES SERVICE  
Silver Spring, MD 20910

JUN 2 0 2008

Teri Rowles, D.V.M., Ph.D.  
National Coordinator, MMHSRP  
Office of Protected Resources  
National Marine Fisheries Service  
1315 East-West Highway  
Silver Spring, Maryland 20910

Dear Dr. Rowles:

Enclosed is an amendment to Permit No. 932-1489-09, for enhancement and research activities on marine mammals. The amendment has been assigned Permit No. 932-1489-10 and the changes to specific Terms and Conditions are reflected in bold font in the attached permit. This permit amendment is effective upon your signature and valid through June 30, 2009 or until the new permit (application File No. 932-1905) is issued, whichever comes first. Please note that this permit amendment replaces all previous versions of the permit.

Both an original and a "file copy" of the signature page are enclosed with your amended permit. Please sign and date both signature pages where indicated, keeping the original with the permit for your records. You must return the "file copy" signature page, with your dated signature, to this office as proof of your acceptance of the permit. Please return the signature page marked "file copy" to the Chief, Permits Division (F/PR1), 1315 East-West Highway, Silver Spring, MD 20910. You may also submit the "file copy" of the signature page by facsimile to 301-427-2521 and confirm it by mail.

As the Responsible Party of this amended permit, you are ultimately responsible for all activities of any individual operating under its authority. Therefore, you should read all sections of the amended permit carefully before signing it and before conducting any activities pursuant to the amended permit. If you have any problems or questions, please contact Amy Sloan or Carrie Hubard at 301-713-2289 before signing the amended permit.

Sincerely,

P. Michael Payne  
Chief, Permits, Conservation  
and Education Division  
Office of Protected Resources

Enclosure

UNITED STATES DEPARTMENT OF COMMERCE  
National Oceanic and Atmospheric Administration  
NATIONAL MARINE FISHERIES SERVICE  
Silver Spring, MD 20910

NMFS Permit No. 932-1489-10  
Expiration Date: June 30, 2009

SCIENTIFIC RESEARCH and ENHANCEMENT PERMIT  
TO TAKE MARINE MAMMALS

Authorization

The Marine Mammal Health and Stranding Response Program (MMHSRP), Office of Protected Resources, National Marine Fisheries Service (NMFS) [Responsible Party and Principal Investigator (PI): Dr. Teri Rowles], is hereby authorized to take marine mammals in the manner specified below for the purpose of scientific research and enhancement, subject to the provisions of the Marine Mammal Protection Act of 1972 (MMPA; 16 U.S.C. 1361 *et seq.*), the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), the Regulations Governing the Taking, Importing, and Exporting of Endangered and Threatened Fish and Wildlife (50 CFR parts 222-226), the Fur Seal Act of 1966, as amended (FSA; 16 U.S.C. 1151 *et seq.*), and the Terms and Conditions hereinafter set out. **This permit, as amended, supersedes all previous versions.**

Abstract

The purposes of the authorized activities, as stated in the application, are to: (1) collect, receive, preserve, label, and transport marine mammal cadavers, hard parts, tissue, and fluid samples for physical, chemical, or biological analyses, import, and export; (2) take stranded or distressed marine mammals and endangered or threatened species; (3) salvage specimens from dead marine mammals and endangered or threatened species; (4) conduct aerial surveys to locate imperiled marine mammals or survey the extent of disease outbreaks or die-offs; (5) harass marine mammals on land incidental to other MMHSRP activities authorized by this permit; and (6) develop and maintain cell lines from species under NMFS jurisdiction.

A. Number and Kind(s) of Marine Mammals and Location(s) [50 CFR 217.36(a)(i)]

1. PROJECT I - SPECIMEN COLLECTION: MARINE MAMMAL AND ENDANGERED OR THREATENED SPECIES

a. At any time of the year, the Permit Holder, PI, and Co-investigators (CIs) [hereinafter "Researchers"] may, subject to the conditions herein, collect, receive, analyze, archive, and import/export (worldwide), unlimited numbers and kinds of specimens, including cell lines, from the following marine mammal and endangered or threatened species:

- 1) Order Cetacea; and
- 2) Order Pinnipedia (except walrus).

- b. The specimens authorized in A.1.a. may be taken from any of the following sources:
- 1) On-going live animal capture/release programs as authorized under Part A.2.
  - 2) Live animal capture/release as part of a disease, emergency response or die-off investigation;
  - 3) Live animals stranded or in rehabilitation (specimens may include biopsies);
  - 4) Captive animals when sampling is beyond the scope of normal husbandry;
  - 5) Directly taken in fisheries for such animals where such taking is legal and humane;
  - 6) Killed during subsistence harvests by native communities;
  - 7) Killed incidental to commercial fishing operations;
  - 8) Killed incidental to other human activities (e.g., ship strikes, blasting, etc.);
  - 9) Found dead on the beach or at sea;
  - 10) Found dead as part of NOAA investigations (e.g., hazmat spills, oil spills, harmful algal blooms, etc.);
  - 11) Found on the beach or on land within 1/4 mile of the ocean (bones, teeth or ivory of any dead animal);
  - 12) Soft parts sloughed, excreted, or discharged; or
  - 13) Specimens from other permitted research and authorized activities.
- c. Researchers may receive/possess samples taken from species of the Order Sirenia, polar bear (*Ursus maritimus*), sea otter (*Enhydra lutris*), and marine otter (*Lontra felina*).

2. PROJECT II - ENHANCEMENT ACTIVITIES: MARINE MAMMALS AND ENDANGERED OR THREATENED SPECIES

- a. Researchers may “take”, as defined in the MMPA and ESA<sup>1</sup>, live marine mammals that are stranded; entangled; disentangled; trapped out of habitat; in peril (e.g., in vicinity of an oil spill); injured; part of a population that is experiencing or has experienced a die-off, unusual mortality event, or repeat morbidity/mortality event; extra-limital; and nuisance marine mammals and endangered or threatened species by the following activities:
- 1) Capture/release or if capture is not necessary, use means available (as approved by the Permit Holder/PI or a CI) to lure trapped or nuisance animals out to sea or deter them away from an area of imminent danger;
  - 2) Treat distressed conditions, including temporary captivity in an adequate treatment or rehabilitation facility;
  - 3) Disentangle from gear, ropes or other material which may be adversely affecting the animal;
  - 4) Transport for rehabilitation or return to wild;
  - 5) Attach tags to and/or biopsy; conduct auditory brainstem response and auditory evoked potential procedures; or
  - 6) Euthanize animals for humane or medical reasons (see B.2.b.).
- b. Researchers may harass marine mammals during aerial surveys to locate imperiled marine mammals or to survey the extent of a disease outbreak or die-off.
- c. Researchers may harass marine mammals on land incidental to MMHSRP activities authorized by this permit.

---

<sup>1</sup>As defined in the MMPA and promulgating regulations, “take” means to harass, hunt, collect, capture, or kill, or to attempt to harass, hunt, collect capture, or kill any marine mammal; as defined in the ESA, “take” means to harass, harm, pursue, hunt, shoot, wound, kill, trap, or collect, or attempt to engage in such conduct.

3. PROJECT III - IMPORT/EXPORT OF LIVE MARINE MAMMALS [MMPA §109(h)]
  - a. At any time of the year, Researchers may import/export (worldwide), non-listed marine mammals, for medical treatment, from the following species:
    - 1) Order Cetacea (except endangered or threatened species); and
    - 2) Order Pinnipedia (except walrus and endangered species).

B. Research/Enhancement Conditions [50 CFR 216.36(b)]

1. PROJECT I - SPECIMEN COLLECTION: MARINE MAMMALS AND ENDANGERED OR THREATENED SPECIES
  - a. The Working Group on Unusual Marine Mammal Mortality Events (WGUMMME) will provide advice on any live animal investigative activities.
  - b. Only experienced and trained personnel will perform any live animal investigative activities.
  - c. Samples in A.1.c. may be acquired and possessed only if the samples were taken under authority of a U.S. Fish and Wildlife Service permit or authorization and samples were taken in a humane manner.
2. PROJECT II - ENHANCEMENT ACTIVITIES: MARINE MAMMALS AND ENDANGERED OR THREATENED SPECIES
  - a. Tagging
    - 1) Prior to release, Researchers may tag marine mammals and threatened or endangered species undergoing rehabilitation;
    - 2) Animals entangled in rope or other debris may be tagged and monitored; and
    - 3) Only experienced personnel can apply and deploy tags by acceptable means.

- b. Euthanasia
  - 1) For ESA-listed species, the NMFS National Stranding Coordinator(s) must be consulted and provide approval (verbal or written), in advance, of euthanasia for humane or medical purposes; and
  - 2) For both MMPA and ESA-listed species, euthanasia must only be performed by an attending, experienced, and licensed veterinarian or other qualified individual according to applicable laws governing state veterinary practices.
- 3. PROJECT III - IMPORT/EXPORT OF LIVE MARINE MAMMALS (MMPA §109(h))
  - a. Researchers may only import or export non-listed marine mammals for medical treatment, rehabilitation or return to wild (including the return of extra-limital animals).
  - b. The Convention on International Trade in Endangered Species (CITES) shall apply to imports and exports authorized in this Project.
- 4. PROJECTS I, II and III
  - a. The following individuals may participate in the conduct of the activities authorized herein: Teri Rowles, Ph.D., D.V.M. (Responsible Party/PI) and Janet Whaley, D.V.M. (CI). Dr. Rowles or Dr. Whaley may designate additional individuals to participate as CIs in the conduct of the research and enhancement activities authorized herein. Each additional CI must receive a letter from Dr. Rowles or Dr. Whaley confirming his/her status and detailing specific roles and responsibilities, attached to a copy of this permit. Designation of CIs is at the sole discretion of the Permit Holder/PI and may be rescinded at any time.
  - b. The Permit Holder/PI, or an identified CI with approval of the Permit Holder/PI, may designate members of the National Stranding or Disentanglement Network that hold Stranding Agreements, other network participants, and/or other federal, state or local agencies or their employees, and other qualified individuals as agents of the Permit Holder/PI authorized under this permit to conduct activities authorized herein.
  - c. Researchers may conduct activities by the means and for the purposes described in the application, as limited by the Terms and Conditions of this

permit, and as otherwise authorized by the Permit Holder/PI or identified CIs.

- d. For marine mammal and endangered species stranding response activities (including capture/release activities), the Permit Holder/PI and/or CIs must:
- 1) Notify the Permits, Conservation and Education Division, Office of Protected Resources (hereinafter "Permits Division"), prior to any capture/release activities;
  - 2) Only perform capture/release activities as advised by the WGUMMME for any live animal investigative activities (B.1.a.);
  - 3) Only perform capture/release activities in conjunction with researchers and managers for that stock or species;
  - 4) Process animals in small groups;
  - 5) Minimize handling time;
  - 6) Exercise caution when approaching all animals, particularly female/pup or female/calf pairs;
  - 7) Monitor all biopsy or tagging sites for possible infection;
  - 8) Keep animals cool and wet during triage and/or transport (when appropriate);
  - 9) Use standardized, humane methods for sterilization and sample collection; and
  - 10) Use scientifically reviewed and acceptable tagging and biopsy sampling techniques that are not considered controversial. In no instance will Researchers attempt to biopsy a cetacean anywhere on the front half of the animal.
- e. For large whale disentanglements, Researchers must:
- 1) Approach the whales gradually to minimize or avoid any sort of startle response;
  - 2) Use caution when approaching mothers and calves; and

- 3) For the safety of the Researchers and whales, only use individuals that have been sufficiently trained, to the satisfaction of the Permit Holder/PI, to disentangle animals.
- f. Researchers must perform all activities and collect all samples in a humane manner.
- g. Researchers must not kill any animal for the express purpose of providing specimens to be obtained and/or imported/exported under this permit.
- h. Researchers must assign a permanent catalogue number, including any prior identification numbers, to all individuals or samples.

## 5. IMPORT/EXPORT REQUIREMENTS

- a. Researchers must not import specimens into the United States from marine mammals:
  - 1) Taken illegally in the country of origin or taken in a directed fishery, unless such taking is legal and humane;
  - 2) Taken in any high seas driftnet fishery after December 31, 1992;
  - 3) Taken during any commercial whaling operation or any scientific whaling operation which does not meet the criteria established by the International Whaling Commission at the time of taking; or
  - 4) Deliberately killed for the purposes of fulfilling this permit.
- b. Researchers must comply with the requirements of the CITES for import and export [50 CFR part 23].
- c. Marine mammals and marine mammal parts imported under the authority of this permit must be taken, imported or exported in a humane manner, and in compliance with the Acts and any applicable foreign law. Importation of marine mammals and marine mammal parts is subject to the provisions of 50 CFR parts 14 and 216.
- d. All specimens imported into the United States must be accompanied by documentation giving a description of each animal from which specimen materials were taken including, if possible:
  - 1) Identification, age, size, sex, reproductive condition;

- 2) Date and location of collection;
  - 3) Circumstances causing the death; and
  - 4) The date and port of entry of each location.
- e. Any marine mammal part imported under the authority of this scientific research permit must not have been obtained as the result of a lethal taking that would be inconsistent with the Acts, unless specifically authorized in writing by the Office Director.
  - f. The Permit Holder/PI must maintain records of the types, species, and numbers of specimens imported or exported, the importing or exporting country for each shipment, and circumstances surrounding the specimen acquisition (i.e., stranding, subsistence harvest, etc.).
  - g. All specimen materials obtained under this authority shall be maintained according to accepted curatorial standards.
  - h. Designated Ports of Entry: The USFWS Customs ports of entry (see Attachment A) are designated for the importation or exportation of wildlife and are referred to hereafter as “designated ports” (50 CFR 14.12). Please notify the USFWS wildlife inspectors at these ports at least 48 hours prior to import or export.

To use a port of entry other than the designated ports listed in Attachment A, Researchers must obtain a Designated Port Exception Permit from the USFWS as required in 50 CFR 14.31 and 14.32. Additional information may be obtained from the USFWS website. <http://permits.fws.gov/>.

## 6. DISPOSITION OF PARTS

- a. After completion of initial research goals, Researchers must deposit any remaining samples or specimens into a *bona fide* scientific collection that meets the minimum standards of collection, curation, and data cataloging as established by the scientific community.
- b. Researchers may dispose of carcasses, skeletal material, and soft parts from marine mammals and endangered species, as deemed appropriate and as limited by the MMPA, ESA, and FSA.

7. Transfer of Specimens (50 CFR 216.37): Marine mammal and endangered species parts taken or imported under authority of this permit may be transferred by the Permit Holder/PI or CI(s) provided:
  - a. Marine mammal parts, including cell lines, are not bought or sold.
  - b. Specimens are transferred for research [including analysis, diagnostics and archival in a laboratory], maintenance in a scientific collection, or for education<sup>2</sup> purposes.
  - c. Recipients of marine mammal parts adhere to the Terms and Conditions of this permit, regulations at 50 CFR 216.37, and any additional conditions required by the Permit Holder/PI.
  - d. Recipients of cell lines are designated as CIs under this permit or are holders of a special exception permit for scientific research and/or enhancement activities that includes development or research on cell lines, of the same species of marine mammal and/or endangered species.
8. The authority of this permit will extend from the date of issuance through **June 30, 2009**. The Terms and Conditions of the permit will remain in effect as long as the Researchers maintain the authority and responsibility of the marine mammal specimens collected, received, or imported hereunder. Attached is section 216.37 of the Regulations Governing the Taking and Importing of Marine Mammals that contains additional conditions applicable to maintaining marine mammal parts. These regulations are made a part hereof.

C. Notifications/Coordination [50 CFR 216.36]

1. The Permit Holder/PI or CIs must notify the appropriate NMFS Assistant Regional Administrator for Protected Resources (see Attachment C) regarding events occurring in that Region. This notification must include (when possible) a description of the proposed activity, location, dates, and duration of activities.
2. If the events occur within the boundaries of a National Marine Sanctuary, the Permit Holder/PI or CIs must notify the Sanctuary Manager at the appropriate Sanctuary Office listed in Attachment C. When possible, this notification must include specific dates, locations, and participants involved in the activities.

---

<sup>2</sup>In the case of transfers for educational purposes the recipient must be a museum or educational institution or equivalent that will ensure that the part is available to the public as part of an educational program.

3. To the maximum extent practical, the Permit Holder must coordinate permitted activities with activities of other Permit Holders conducting the same or similar activities on the same species, in the same locations, or at the same times of year to avoid unnecessary disturbance of animals. The appropriate Regional Office may be contacted (see Attachment C) for information about coordinating with other Permit Holders.

D. Reporting Conditions [50 CFR 216.38]

1. ANNUAL REPORT

Each year the permit is valid, the Permit Holder/PI must submit an annual report of research by March 31 of each year. The report shall cover research conducted during the previous year ending December 31 and describe the specific activities that have been conducted. For each marine mammal part taken, imported, exported or otherwise affected pursuant to permitted activities, the annual report must include the following:

a. Carcasses/parts:

- 1) A description of the part and its assigned identification number;
- 2) Source, collector, country of origin, and authorizing government agency (for imported samples) for each sample reported;
- 3) A summary of the research analysis conducted on the samples; and
- 4) A description of the disposition of any marine mammal parts, including an identification of the part as required §216.37(a)(4) and the manner of disposition.

b. Live animal activities:

A description of the species, numbers of animals, locations of activities, and types of activities for:

- 1) Live captures;
- 2) Stranding response/disentanglement of marine mammals and endangered/threatened species;
- 3) Specimen collections;
- 4) Euthanasia (including reason for euthanasia, drugs used, etc.); and

5) Incidental harassment during aerial surveys and land activities.

Please also describe the animals' reactions to any of the above activities.

2. FINAL REPORT

Upon completion of the research, the Permit Holder/PI must submit a final report within 180 days of the last annual report. A final report should include information requested in 1 above, and:

- a. A summary of research objectives and results of research as it relates to the objectives; and
- b. An indication as to when and where the research results will be published

3. Researchers must submit all reports and any papers or manuscripts published as a result of the research authorized herein, to the Director, Office of Protected Resources, NMFS, 1315 East-West Hwy., Silver Spring, Maryland 20910.

E. Photography/Filming Restrictions [50 CFR 216.36]

1. Researchers working under this permit must obtain prior approval by the Permits Division for the following:

- a. Non-research related (i.e., commercial) use of photographs, video and/or film that were taken to achieve the research objectives; and
- b. All activities not essential to achieving the research objectives (e.g., still photography, videotaping, motion picture film making). Such activities must not influence the conduct of research in any way.

2. Researchers are hereby notified that failure to obtain NMFS approval prior to conducting or facilitating such activities will be considered a violation of the permit. The Permit Holder/PI and Researchers must agree, upon request by NMFS, to make space available on the vessel or aircraft for a NMFS observer during any trips where activities identified in E.1.b. may be conducted.

3. Any commercial/documentary film approved for use must include a credit, acknowledgment, or caption indicating that the research was conducted under a permit issued by NMFS under the authority of the MMPA and/or the ESA.

F. General Conditions [50 CFR 216.35 and 216.36]

1. The Permit Holder/PI is ultimately responsible for all activities of any individual who is operating under the authority of the permit.

Co-investigators (CIs): The PI may designate additional CIs, provided that a copy of the letter designating the individual to conduct the activities authorized herein, and a copy of the individual's curriculum vitae is provided to the Permits Division by facsimile on the day of designation and confirmed by mail. The PI must ensure that the letter designating the individual(s) contains specific restrictions and a copy of the permit is attached to the designation letter.

2. Research Assistants are individuals who work under the direct supervision of the PI or CI(s) and who are authorized, for example, to record data, serve as safety observers and boat tenders, or handle and process samples.
  - a. Restrictions: Underwater observations and/or photography and operation of vessels may only be performed by personnel with documented experience (e.g., professional and/or experienced photographers/videographers or licensed and/or experienced boat operators).
  - b. Photographer/videographer: A professional and/or experienced videographer/photographer under the direct, on-site supervision of the Researchers may conduct activities requiring underwater observations and/or photography. The Permit Holder/PI or CI(s) must be present at all times when activities are being conducted.
3. Individuals conducting activities authorized under the permit must possess qualifications commensurate with his/her duties and responsibilities, or must work under the direct supervision of the PI or CI.
4. Persons who require state, Federal, or foreign licenses to conduct activities authorized under the permit must be duly licensed when undertaking such activities.
5. The Permit Holder cannot transfer or assign the permit to any other person. If the Permit Holder requests authorization to add a person to this permit, the Permit Holder cannot require compensation from the individual, in exchange for this request.
6. The Permit Holder and all other persons operating under the authority of this permit must possess a copy of the permit when engaged in a permitted activity, when a marine mammal is in transit incidental to such activity, and whenever marine mammals or marine mammal parts are in the possession of such persons. A duplicate copy of this permit must be attached to the container, package, enclosure,

or other means of containment, in which the marine mammals or marine mammal parts are placed for purposes of storage, transit, supervision, or care.

Activities conducted by the United States Coast Guard personnel authorized as Co-Investigators, LANTAREA will keep a copy of the permit on file for reference landside at each of the following in Districts 1, 5, 7, and 8: General Counsel offices, OPCON, each Station/Group/Activities office; and at the Offices of Law Enforcement. LANTAREA will also advise vessels 87' and greater to keep a copy of the permit on board.

7. Inspection: Upon request by NMFS personnel or agents designated by the Director, Office of Protected Resources, the Permit Holder must make available for inspection, any records collected under authority of this permit.
8. Permit Amendments: The Director, Office of Protected Resources, NMFS, may amend the provisions of this permit upon reasonable notice.
9. No remuneration, either financial or in-kind, may be offered for the taking of animals from the wild. This does not preclude the payment of legitimate collection and transportation expenses (e.g., hiring staff, freight costs). It does, however, apply to paying bounties or incentive pay for the removal of animals from the wild.
11. Any falsification of information pertaining to the permitted activities, including information provided to NOAA personnel, will be considered a violation of the permit.
12. The Permit Holder/PI, in signing this permit, has accepted and will comply with the provisions of this permit, applicable Regulations (50 CFR parts 216 and 222-226), and the MMPA, ESA, and FSA.

G. Penalties and Permit Sanctions (50 CFR 216.40)

1. Any person who violates any provision of this permit is subject to civil and criminal penalties, permit sanctions, and forfeiture as authorized under the MMPA, ESA and 15 CFR part 904 [Civil Procedures] and 50 CFR part 11.
2. All permits are subject to suspension, revocation, modification, and denial in accordance with the provisions of subpart D [Permit Sanctions and Denials] of 15 CFR part 904 and 50 CFR part 13.

Attachment B: 50 CFR §216.37 Marine mammal parts

With respect to marine mammal parts acquired by take or import authorized under a permit issued under this subpart:

(a) Marine mammal parts are transferrable if:

(1) The person transferring the part receives no remuneration of any kind for the marine mammal part;

(2) The person receiving the marine mammal part is:

(i) An employee of NMFS, the U.S. Fish and Wildlife Service, or any other governmental agency with conservation and management responsibilities, who receives the part in the course of their official duties;

(ii) A holder of a special exception permit which authorizes the take, import, or other activity involving the possession of a marine mammal part of the same species as the subject part; or

(iii) In the case of marine mammal parts from a species that is not depleted, endangered or threatened, a person who is authorized under section 112(c) of the MMPA and subpart C of this part to take or import marine mammals or marine mammal parts;

(iv) Any other person specifically authorized by the Regional Director, consistent with the requirements of paragraphs (a)(1) and (a)(3) through (6) of this section.

(3) The marine mammal part is transferred for the purpose of scientific research, maintenance in a properly curated, professionally accredited scientific collection, or education, provided that, for transfers for educational purposes, the recipient is a museum, educational institution or equivalent that will ensure that the part is available to the public as part of an educational program;

(4) A unique number assigned by the permit holder is marked on or affixed to the marine mammal part or container;

(5) The person receiving the marine mammal part agrees that, as a condition of receipt, subsequent transfers may only occur subject to the provisions of paragraph (a) of this section; and

(6) Within 30 days after the transfer, the person transferring the marine mammal part notifies the Regional Director of the transfer, including a description of the part, the person to whom the part was transferred, the purpose of the transfer, certification that the recipient has agreed to comply with the requirements of paragraph (a) of this section for subsequent transfers, and, if applicable, the recipient's permit number.

(b) Marine mammal parts may be loaned to another person for a purpose described in paragraph (a)(3) of this section and without the agreement and notification required under paragraphs (a)(5) and (6) of this section, if:

(1) A record of the loan is maintained; and

(2) The loan is for not more than one year. Loans for a period greater than 12 months, including loan extensions or renewals, require notification of the Regional Director under paragraph (a)(6).

(c) Unless other disposition is specified in the permit, a holder of a special exception permit may retain marine mammal parts not destroyed or otherwise disposed of during or after a scientific research or enhancement activity, if such marine mammal parts are:

(1) Maintained as part of a properly curated, professionally accredited collection; or

(2) Made available for purposes of scientific research or enhancement at the request of the Office Director.

(d) Marine mammal parts may be exported and subsequently reimported by a permit holder or subsequent authorized recipient, for the purpose of scientific research, maintenance in a properly curated, professionally accredited scientific collection, or education, provided that:

(1) The permit holder or other person receives no remuneration for the marine mammal part;

(2) A unique number assigned by the permit holder is marked on or affixed to the marine mammal specimen or container;

(3) The marine mammal part is exported or reimported in compliance with all applicable domestic and foreign laws;

(4) If exported or reimported for educational purposes, the recipient is a museum, educational institution, or equivalent that will ensure that the part is available to the public as part of an educational program; and

(5) Special reports are submitted within 30 days after both export and reimport as required by the Office Director under §216.38.
