Manages and leads the planning and execution of the Annual Resource Management Plan (ARMP) for the Location. In consultation with Research Leaders, assures that ARMPs documents are prepared in accordance with Agency policy and guidelines. Meets submission deadlines and only minor revisions are required to final document.

Reviews Location budgets to ensure fiscal integrity and that expenditures do not exceed authorized CRIS allocations. Ensures that Research Leaders have access to accurate status of funds on a monthly basis so that they may plan expenditures and avoid over or under obligation of funds prior to the end of the fiscal year. Spots problem areas in advance and provides advice and guidance on resolving any irregularities, including outside funding account management and transfer of funds documentation.

Ensures that initial allocations and any temporary/permanent adjustments are correctly reflected in current financial plans and that any issues are promptly brought to the attention of the ABFO for correction in FFIS. Verifies that SAMS updates and salary lapse reports reflect application of current Agency policy, and that end of fiscal year YE reports and CAM rollup are based on accurate financial plan updates and CATS reconciliation procedures. Reports submitted to the Area Office/Headquarters are consistently timely and rarely require corrections. Ensures that all Location users of CATS are adequately trained.

Works with Research Leaders in the development of Annual Facilities Management Plan and 5-year Plan that outlines construction and repair and maintenance projects. Consults with Location Facilities Operations Specialist, Area Engineer and Contracting personnel to determine specifications and prepare bid packages for projects in support of Location construction and R&M projects. Assists with the award and management of Location construction contracts to ensure that repairs are made within delegated authorities and that all construction requests follow current Agency and Federal guidelines and that all documentation is entered into the CPAIS as required. Assists Area and Facilities Division personnel in the negotiation and establishment of leases authorizing the use of non-federal property for construction purposes, and for use of non-federal, or non-ARS office, lab and greenhouse space in support of Location research missions.

Assures that the Federal physical resources of the Location are appropriately maintained. Ensures that requests for maintenance or facilities development are prioritized with input from the Location Coordinator and Research Leaders so that workload is distributed appropriately. Ensures that critical needs are met to prevent loss or damage to federal resources. Coordinates report information so report deadlines are not missed.

Provides timely and technically sound advice to the Location managers on position management and human resources options which may be available to address an issue or enhance the research program. Consults appropriately with the Area Office staff and Headquarters, Human Resources Division.

GOALS: (Suggested) ARMP package submitted prior to due date and only minor editorial changes identified; less than 1% of Location allocations left unobligated by the end of the fiscal year; continue to evaluate CATS options in order to ensure SOF reports meet needs of Location fundholders.

Special projects are accepted willingly and completed on time; final products are fully acceptable in terms of both form and substance. Normal assignments are not seriously affected as a result of the additional workload.

Special projects afford the opportunity to perform work outside the routine, expand into other areas, and gain exposure within the Agency. Special projects internal to the Location are also important. It is the responsibility of the individual involved to accommodate their normal assignment while they are working on a special project. It is also their responsibility to participate fully (attend all meetings, participate in the discussion, complete any assignments) in the team or task group. Feedback from the task group or team leader will be solicited for use in evaluation this element. This element will not be rated if no special projects are undertaken during the rating cycle.
