## Accident Investigation

### Accident investigation

Number: VT01293

Material: video 22 minutes

Industry: all industries

Describes how to effectively conduct an accident investigation including the purpose of accident investigation, interviewing the witnesses, gathering and analyzing the information, and implementing improvements.

Summit Training Source, 1987

### Accident investigation: Just the facts

Number: VT01416

Material: video 18 minutes

Industry: construction

Covers how to effectively conduct an accident investigation including the purpose of accident investigation, gathering the facts, interviewing the witnesses, analyzing the information, and implementing improvements.

Assoc General Contractors of America, 1991

### How to investigate an accident

Number: VT01581

Material: video 13 minutes

Industry: all industries

Presents the basics of accident investigation including interviewing witnesses, fact gathering, analyzing data, and the points to remember when completing an accident report.

Digital 2000, 1999

### Incident investigation

Number: VT01299

Material: video 17 minutes

Industry: all industries

Provides training on the methods and techniques required to discover the accurate cause of an incident including physical evidence, fact finding, data gathering, interviewing witnesses, analyzing details, and effective corrective actions.

Summit Training Source, 1995

## Accident Prevention

*See also Construction Safety; Job Safety Analysis; and Industrial Safety*

### Accident prevention: Staying a step ahead

Number: VT01263

Material: video 18 minutes

Industry: general industry

Covers the basics for setting up a company safety program including establishing procedures for reporting hazards, hazard assessment and correction, and employee training. NOTE: Washington State may have stricter standards than OSHA.

WA State Dept of Labor & Industries, 1992

### Accidents: It can't happen to me

Number: VT01575

Material: video 10 minutes

Industry: general industry

Covers, through interviews with workers, the basic causes and prevention of accidents including safety attitudes and practices.

Digital 2000, 1997

### Can you spot the hazard?

Number: VT01638

Material: video 6 minutes

Industry: all industries

Covers conducting a workplace inspection, identifying hazards including fire and electrical, and safety measures including housekeeping and personal protective equipment.

Safety Shorts, 1999

### Construction accidents: It can't happen to me

Number: VT01616

Material: video 8 minutes

Industry: construction

Covers, through interviews with workers, the basic causes and prevention of accidents including safety attitudes and practices.

Digital 2000, 1997

### Dark ages of safety

Number: VT01533

Material: video 12 minutes

Industry: all industries

This humorous video uses black and white footage from the 20's, 30's, and 40's to emphasize the importance of following safety procedures.

Digital 2000, 1995

### Hazard recognition

Number: VT01737

Material: video 5 minutes

Industry: general industry

Covers the skills and techniques for recognizing common types of hazards found in the

# Training Materials by Subject 2007

workplace.

Summit Training Source, 1990

## **Hazard recognition: Out of the ordinary**

Number: VT01667

Material: video 13 minutes

Industry: general industry

Covers how to identify potential hazards in the workplace through work area inspection and common hazards including contact with objects and equipment, improper lifting, falls, exposure to harmful substances.

Summit Training Source, 2000

## **It only takes a second...**

Number: VT01682

Material: video 4 minutes

Industry: all industries

This powerful video shows, through work and driving accident re-enactments, how easily accidents can happen and the consequences of not taking the time to think safety.

Aurora Pictures, 1995

## **Pro-active safety attitudes: Looking out for number one**

Number: VT01620

Material: video 15 minutes

Industry: all industries

Through re-enactments of real-life accidents, discusses the importance of accident prevention and protection, safety equipment and safety habits.

Coastal Training Technologies, 1994

## **Safety attitude**

Number: VT01309

Material: video 6 minutes

Industry: general industry

Discusses hazard awareness, following safe work practices, and creating a safe work environment.

Summit Training Source, 1990

## **Safety-- It's your responsibility**

Number: VT01275

Material: video 19 minutes

Industry: general industry

Uses dramatized situations to show the role supervisors play in promoting and maintaining safety.

US Postal Service, 1982

## **Safety on trial**

Number: VT01767

Material: video 35 minutes

Industry: construction

This video was developed to assist the general contractor in establishing work rules to prevent accidents, explains the role of the employer in worker safety, and shows how an accident can devastatingly alter a workers life.

WA State Dept of Labor & Industries, 1994

## **What's wrong with this picture?**

Number: VT01704

Material: video 15 minutes

Industry: all industries

This humorous video asks employees to identify lifting, PPE, HazCom, and fire protection hazards in a variety of video clips; the segments are repeated with narration and graphics that explain the hazards or unsafe acts.

Training Network-LIP, 1998

## **Aerial Lifts**

*See also Scaffolding; and Walking and Working Surfaces*

### **Aerial lift safety**

Number: VT01506

Material: video 7 minutes

Industry: all industries

Demonstrates safe operating procedures, pre-operation inspection, work site evaluation and safe work practices.

Summit Training Source, 1998

### **Boomlifts in construction**

Number: VT01528

Material: video 10 minutes

Industry: construction

Covers startup inspections, lifting principles, hazards including overhead power lines, and safe operating procedures.

Coastal Training Technologies, 1996

### **Bucket truck safety: Training for operators**

Number: VT01699

Material: video 18 minutes

Industry: all industries

Covers safety and operation issues, explains what can go wrong, and how to prevent these situations from happening.

J.J. Keller & Associates, 2000

### **Scissor and aerial work platform safety**

# Training Materials by Subject 2007

Number: VT01678  
Material: video 15 minutes  
Industry: construction  
Highlights the hazards of working on elevated platforms including overhead power lines, pre-operation inspection, and safe work practices.  
Assoc General Contractors of America, 2000

## Scissor lifts in construction

Number: VT01531  
Material: video 9 minutes  
Industry: construction  
Discusses pre-operation inspections, lifting principles, hazards such as overhead power lines, and safe operating procedures.  
Coastal Training Technologies, 1996

## Agricultural Machinery

### Agricultural vehicle safety orientation

Number: VT01532  
Material: video 1 2 minutes  
Industry: agriculture  
Covers basic safety measures including defensive driving techniques and pre-operation inspection.  
Digital 2000, 1994

### Agricultural vehicle safety orientation

Number: VT01534 Spanish  
Material: video 12 minutes  
Industry: agriculture  
See previous description.  
Digital 2000, 1994

### Farm & ranch safety management by Stan Anthony

Number: S565.A58  
Material: book 231 pages  
Industry: agriculture  
Provides safety guidelines to help farmers/ranchers identify and eliminate agricultural safety hazards.  
Delmar Publishers, 1995

### Machinery safety: A close call

Number: VT01512  
Material: video 9 minutes  
Industry: agriculture  
Discusses hazards associated with agricultural machinery including entanglements, pinch and crush points.  
Kansas State University, 1993

### Safe harvest

Number: VT01543  
Material: video 24 minutes  
Industry: agriculture  
Features farmers who were involved in harvesting equipment accidents who discuss pre-operation inspections, hazards, training, and safety procedures.  
Kansas State University, 1988

### Tractor safety: Consider the flipside

Number: VT01312  
Material: video 15 minutes  
Industry: agriculture  
Discusses the importance of ROPS (roll over protective structures) to prevent death or injury due to tractor overturn.  
Case International, 1995

## Agricultural Operations

*See also Grain Elevators*

### Farmstead safety: Do it everyday!

Number: VT01542  
Material: video 7 minutes  
Industry: agriculture  
Focuses on hazards and safety measures including machinery and equipment, grain storage, and housekeeping.  
Kansas State University, 1994

### Minimizing the risks of skin cancer

Number: VT01513  
Material: video 12 minutes  
Industry: all industries  
This video, while geared toward farmers, covers safety measures for anyone required to work long hours in the sun including wearing sunscreen and protective clothing, gives SPF ratings for various types of clothing.  
Kansas State University, 1995

### Pesticides and you: A primer on pesticide handling and storage

Number: VT01514  
Material: video 29 minutes

# Training Materials by Subject 2007

Industry: all industries

This video, while geared toward farmers, explains and describes safe handling, storage, containment, and application of pesticides for anyone using these chemicals.

Kansas State University, 1997

## Asbestos

### Asbestos awareness

Number: VT00359

Material: video 6 minutes

Industry: general industry

Covers the identification and uses of asbestos, where it is found and its health hazards.

Summit Training Source, 1990

### Asbestos awareness: Are you at risk?

Number: VT01565

Material: video 19 minutes

Industry: all industries

Discusses the three forms of asbestos, how they are used, possible locations, recognizing damage and deterioration, hazard communication, health effects, housekeeping requirements, and personal protection.

Coastal Training Technologies, 1992

### Asbestos exposure: Within safe limits

Number: VT01590

Material: video 15 minutes

Industry: construction

Describes how asbestos is used in construction, its effect on the body, and how workers can protect themselves from exposure.

Assoc General Contractors of America, 1998

### Asbestos removal: Jobsite techniques

Number: VT01126

Material: video 20 minutes

Industry: construction

Covers safe asbestos removal from job site preparation to clean up.

Sheet Metal & Air-Conditioning Industry, 1988

## Automobile Repair and Servicing

### Don't blow it: Asbestos safety

Number: VT01268

Material: video 15 minutes

Industry: automotive repair

Discusses asbestos, its health effects, and removal methods used to control exposure during brake replacement.

US Environ Protection Agency, 1986

### Protecting workers in auto body shops

Number: VT01629

Material: video 17 minutes

Industry: general industry

Discusses personal protective equipment, use of spray paint guns, ventilation of spray booths and sanders, and health hazards such as metal dusts and paint.

US National Institute for OSH, 1995

## Back Safety

*See also Materials Handling*

### Back injury prevention: Construction

Number: VT01370

Material: video 5 minutes

Industry: construction

Explains how the back functions, safe lifting techniques, and prevention of back injuries.

Digital 2000, 1993

### Back safety

Number: VT00360

Material: video 6 minutes

Industry: all industries

Covers how the back functions, proper lifting techniques, good posture, and prevention of injuries.

Summit Training Source, 1990

### Back safety: The ergonomic connection

Number: VT01683

Material: video 14 minutes

Industry: all industries

Explains ways to prevent back disorders including how the back works, proper body mechanics, common back injuries, risk factors, and preventive measures.

Summit Training Source, 1992

### Back to basics: Construction back injury

# Training Materials by Subject 2007

## **prevention**

Number: VT01406

Material: video 18 minutes

Industry: construction

Explains how the back functions and the causes and prevention of back injuries including proper lifting techniques and good work posture.

Assoc General Contractors of America, 1992

## **Back your back: Back & Muscle injury prevention**

Number: VT01276

Material: video 19 minutes

Industry: general industry

Explains the causes and prevention of back injuries and lifting techniques.

WA State Dept of Labor & Industries, 1992

## **Construction back safety**

Number: VT01600

Material: video 10 minutes

Industry: construction

Covers safety techniques including correct posture, proper lifting procedures, and preventing back injuries.

Coastal Training Technologies, 1992

## **Lifting safely: Construction**

Number: VT01318

Material: video 12 minutes

Industry: construction

Explains how the back functions, safe lifting methods, and how to prevent back injuries.

Digital 2000, 1993

## **Minimizing back strain on the job**

Number: VT00147

Material: video 24 minutes

Industry: general industry

Covers explains how to reduce the day-to-day strains of lifting, sitting, and bending, how back injuries occur, and techniques for reducing back injuries including proper lifting.

Primedia Workplace Learning, 1985

## **Preventing back injuries and other CTD's**

Number: VT01710

Material: video 18 minutes

Industry: construction

Discusses how the body works, the best body positions for doing work, back function and injury, proper lifting, proper shoveling, and the three risk factors for cumulative trauma injury,

which are force, position, and repetition.

National Roofing Contractors Assoc, 1996

## **Safe lifting**

Number: VT01649 Spanish

Material: video 5 minutes

Industry: all industries

Explains how the back functions, safe lifting methods, and how to prevent back injuries.

Training Network-LIP, 1994

## **Shoveling safety**

Number: VT01476

Material: video 6 minutes

Industry: construction

Covers using the right shovel for the job, inspection, and proper technique to avoid back injury.

Training Network-LIP, 1990

## **Backhoes**

*See also Construction Equipment*

### **Backhoe safety**

Number: VT01503

Material: video 18 minutes

Industry: construction

Emphasizes safe operating techniques including pre-operation inspection, safety procedures, unloading from trailers, and digging near underground and overhead utilities.

Zomar Productions, 1992

### **Backhoe/loader operation**

Number: VT01740

Material: video 16 minutes

Industry: construction

Covers backhoe operation safety including planning the job, trenching and backfilling, working a spoil pile, and lifting techniques

Assoc General Contractors of America, 2001

### **Backhoe/loader operations and safety**

Number: VT01371

Material: video 5 minutes

Industry: construction

Covers general backhoe safety practices, operating rules, and maintenance procedures.

Digital 2000, 1993

# Training Materials by Subject 2007

## **Bloodborne Pathogens**

*See also Healthcare; and Laboratory Safety*

### **Bloodborne pathogens**

Number: VT00412

Material: video 20 minutes

Industry: all industries

Describes basic bloodborne disease transmission and precautions, decontamination, and minimizing the risk of infection through proper housekeeping and personal protective equipment.

Coastal Training Technologies, 1992

### **Bloodborne pathogens**

Number: VT01577

Material: video 9 minutes

Industry: all industries

Covers information on HIV and Hepatitis B, transmission, work accident first aid procedures, and exposure prevention.

Digital 2000, 1998

### **Bloodborne pathogens**

Number: VT01733

Material: video 6 minutes

Industry: all industries

Discusses HIV, Hepatitis B and C including the hazards, means of transmission, misconceptions about exposure, symptoms of infection, and proper protective measures.

Summit Training Source, 1990

### **Bloodborne pathogens case histories**

Number: VT01592

Material: video 21 minutes

Industry: general industry

Through the retelling of real-life stories, discusses bloodborne disease trans-mission, safe work practices, PPE, housekeeping, and engineering controls for first responders.

Coastal Training Technologies, 1995

### **Bloodborne pathogens: Know the risk**

Number: VT01633

Material: video 19 minutes

Industry: all industries

Covers common sense guidelines for workers including information on bloodborne diseases, transmission, exposure risk, preventing or minimizing exposure risk, housekeeping, and the proper use, removal and disposal of PPE.

Coastal Training Technologies, 1997

### **Bloodborne pathogens: Protect yourself**

Number: VT00454

Material: video 15 minutes

Industry: general industry

Covers basic bloodborne disease transmission and precautions for workers including first-aid safeguards, decontamination procedures, and proper housekeeping for first-on-the-scene co-workers.

Coastal Training Technologies, 1992

### **Bloodborne pathogens: Protect yourself**

Number: VT001715 Spanish

Material: video 15 minutes

Industry: general industry

See previous description.

Coastal Training 2000

### **Bloodborne pathogens: What employees must know**

Number: VT01698

Material: video 15 minutes

Industry: general industry

Provides practical tips and safe work practices for employees including personal protective equipment, safe work practices, engineering controls, reporting exposure and labeling.

J.J. Keller & Associates, 2001

### **Preventing bloodborne disease**

Number: VT00421

Material: video 18 minutes

Industry: general industry

Discusses bloodborne disease trans-mission, precautions, decontamination measures, and personal protective equipment for first responders and first aid providers.

Primedia Workplace Learning, 1992

## **Bridge Construction**

### **Bridge construction safety: Safe span**

Number: VT01423

Material: video 10 minutes

Industry: construction

Covers bridge construction hazards and safety measures including falls, cranes, and scaffolds.

Assoc General Contractors of America , 1993

## **Cold Stress**

*See also Heat Stress*

### **Hypothermia**

# Training Materials by Subject 2007

Number: VT01604  
Material: video 7 minutes  
Industry: all industries  
Discusses how to recognize the warning signs and how to prevent it including wearing the proper cold-weather PPE.  
Summit Training Source, 1998

## Compressed Gases

*See also Welding and Cutting*

### Compressed gas cylinders: Storage

Number: VT01471  
Material: video 10 minutes  
Industry: construction  
Discusses safety rules and procedures for the safe storage of compressed gas cylinders.  
Digital 2000, 1992

### Compressed gas cylinders: Using and handling

Number: VT01472  
Material: video 8 minutes  
Industry: construction  
Explains the hazards and procedures for the safe use, storage, and handling of compressed gas cylinders.  
Digital 2000, 1992

### Compressed gases: Safe handling

Number: VT01453  
Material: video 18 minutes  
Industry: all industries  
Provides information on both flammable and non-flammable compressed gases including classifications, labeling, handling cylinders, valves and leaks.  
Coastal Training Technologies, 1995

### Gas cylinders: Handling and storing

Number: VT01401  
Material: video 7 minutes  
Industry: general industry  
Shows the proper storage and handling procedures for many types of gases contained in cylinders.  
Summit Training Source, 1990

### Working safely with compressed gases

Number: VT01697  
Material: video 15 minutes  
Industry: all industries  
Covers the proper handling and storage of full and empty containers, emergency procedures,

and the physical hazards of compressed gases.  
J.J. Keller & Associates, 1995

## Concrete Construction

### Concrete construction safety: Laying the groundwork

Number: VT01751  
Material: video 13 minutes  
Industry: construction  
Covers the hazards associated with concrete construction.  
IL Onsite S&H Consultation Program, 2002

### Operation safe site: Concrete

Number: VT01203  
Material: video 11 minutes  
Industry: construction  
Discusses safety procedures when working in concrete construction including form and shoring systems.  
Assoc Contractors of Mid-Florida 1980

### Pave your way to safety: Concrete paving safety

Number: VT01571  
Material: video 14 minutes  
Industry: construction  
Covers general safety procedures for concrete paving including concrete hazards, heavy equipment, personal protective equipment, paving equipment maintenance, and traffic control.  
Assoc General Contractors of America, 1993

## Confined Spaces

### Complete confined spaces handbook by John F. Rekus

Number: T55.R45  
Material: book 381 pages  
Industry: all industries  
Covers recommended procedures and guidance for safe entry into confined spaces.

# Training Materials by Subject 2007

Lewis Publishers, 1994

## **Confined space atmospheric testing**

Number: VT01663

Material: video 17 minutes

Industry: general industry

Reviews the how and when to test, atmospheric hazards, procedures for proper pre-testing, and how to respond when air is determined to be unsafe.

Coastal Training Technologies, 1992

## **Confined space case histories**

Number: VT01434

Material: video 14 minutes

Industry: all industries

Shows re-enactments of real-life confined space accidents and reviews what went wrong including atmospheric testing, ventilation and permits.

Coastal Training Technologies, 1995

## **Confined space case histories**

Number: VT01716 Spanish

Material: video 14 minutes

Industry: all industries

See previous description.

Coastal Training Technologies, 1995

## **Confined space emergency rescue**

Number: VT01650

Material: video 14 minutes

Industry: all industries

Covers the hazards of confined spaces, the proper use of safety and rescue equipment, and rescue pre-planning and training.

Summit Training Source, 1994

## **Confined space entry**

Number: VT01687

Material: video 25 minutes

Industry: all industries

Covers characteristics and types of confined space, hazards, control measures, entry permits, personal protective equipment, and rescue techniques.

Primedia Workplace Learning, 1993

## **Confined space entry: Clearing the air**

Number: VT01567

Material: video 16 minutes

Industry: construction

Discusses the dangers of confined space entry, entry permits, air quality testing, ventilation,

rescue procedures and personal protective equipment.

Assoc General Contractors of , 1991  
America

## **Confined space entry: Construction**

Number: VT01369

Material: video 5 minutes

Industry: construction

Explains hazards, procedures, and safety measures for entry into confined spaces including atmosphere testing.

Digital 2000, 1993

## **Confined space entry: Permit required!**

Number: VT01435

Material: video 12 minutes

Industry: all industries

Covers the dangers of working in confined spaces and safety precautions including entry permit requirements, safe atmospheric testing, ventilation, and personal protective equipment.

Coastal Training Technologies, 1990

## **Confined space hazards**

Number: VT01302

Material: video 5 minutes

Industry: all industries

Explains types of confined spaces, atmospheric and physical hazards, and safe work practices.

Summit Training Source, 1990

## **Confined space hotwork: Checklist to safety**

Number: VT01454

Material: video 20 minutes

Industry: all industries

Describes the hazards and the safety precautions required for confined space hotwork including hotwork permits, atmospheric testing, safety equipment, fire watch, and emergency rescue.

Coastal Training Technologies, 1992

## **Confined space rescue**

Number: VT01303

Material: video 6 minutes

Industry: all industries

Demonstrates simulated rescue situations, proper use of rescue and retrieval equipment, and rescue procedures.

Summit Training Source, 1990

## **Confined space rescue**

Number: VT01599

Material: video 31 minutes

# Training Materials by Subject 2007

Industry: general industry

Reviews proper confined space entry, technical rescue procedures, different types of rescue systems and equipment, and developing the rescue team.

Coastal Training Technologies, 1991

## **Confined space ventilation**

Number: VT01651

Material: video 18 minutes

Industry: all industries

Reviews the safety precautions required for confined space ventilation including the when and how to ventilate, atmospheric hazards, types of mechanical ventilation, and techniques.

Coastal Training Technologies, 1992

## **Confined spaces, deadly places**

Number: VT01626

Material: video 21 minutes

Industry: all industries

Based on real-life incidents that show the hazards that can befall untrained workers and permit violators including confined space hazards, oxygen deficiency, toxic atmospheres, engulfment, flammable or explosive atmospheres, and mechanical hazards.

Safe Expectations, 1992

## **Confined spaces: A training program for employees**

Number: VT01517

Material: video 25 minutes

Industry: general industry

Covers identification of confined space hazards, discusses entry permits, reviews training needs, and outlines standard requirements such as atmospheric testing and personal protective equipment.

J.J. Keller & Associates, 1993

## **Construction confined space entry**

Number: VT01455

Material: video 12 minutes

Industry: construction

Covers skills for working safely in confined spaces including how to identify confined spaces, their hazards including oxygen deficiency and toxic gases, safety procedures and entry permits.

Coastal Training Technologies, 1992

## **Construction Equipment**

*See also Backhoes; Cranes, Hoists and Conveyors; Forklifts*

### **Avoiding struck by/hit by: Construction**

Number: VT01549

Material: video 18 minutes

Industry: general industry

Covers safety precautions around heavy equipment and rotating/pivoting machinery, construction vehicle movement signals and alarms, proper stacking of building materials, protection from falling objects, and the use of personal protective equipment.

J.J. Keller & Associates, 1996

### **Construction equipment safety: Multiple choice**

Number: VT00354

Material: video 24 minutes

Industry: construction

Covers heavy equipment operation safety through accident re-enactments that are freeze-framed at the actual moment of judgment. Viewers are asked to spot the hazards before the action is resumed.

Allied Digital Technologies 1984

### **Construction equipment safety: Shake hands with danger**

Number: VT00259

Material: video 23 minutes

Industry: construction

This award winning video shows re-enactments of hazardous situations faced by workers who operate and maintain heavy construction equipment, to stress the need to follow safe work practices.

Allied Digital Technologies 1984

### **Skid steer loader safety**

Number: VT01677

Material: video 8 minutes

Industry: construction

Covers safety hazards including limited driver visibility, rollovers and contact with power lines; and safety procedures including pre-use inspection, refueling, and carrying the load.

Assoc General Contractors of America, 1994

### **Trailing construction equipment safely**

Number: VT01696

# Training Materials by Subject 2007

Material: video 14 minutes  
Industry: construction  
Covers how to safely load, transport, and unload construction equipment from trailers.  
Assoc General Contractors of America, 1996

## **Working around construction equipment**

Number: VT01428  
Material: video 5 minutes  
Industry: construction  
Discusses backing accidents and safe work practices for heavy equipment operators.  
Assoc General Contractors of America, 1992

## **Construction Safety**

*See also specific subjects such as Accidents, Fall Protection, Lockout/Tagout, OSHA, Residential Construction,, Scaffolding, Welding and Cutting, etc.*

## **Construction emergency medical response**

Number: VT01674  
Material: video 15 minutes  
Industry: construction  
Covers what workers should do in an emergency situation and assists contractors in the development of an emergency medical plan.  
Assoc General Contractors of America, 1999

## **Construction health risks**

Number: VT01232  
Material: video 15 minutes  
Industry: construction  
Discusses health hazards found on the construction-site including the effects of toxic chemicals, asbestos, welding fumes, and silica.  
Florida AFL-CIO United Labor Agency 1989

## **Construction jobsite safety**

Number: VT01550  
Material: video 20 minutes  
Industry: construction  
Covers how to recognize and avoid jobsite hazards such as power tools, heavy equipment, scaffolds, electrical, falls and safety measures such as personal protective equipment and emergency action plans.  
J.J. Keller & Associates, 1996

## **Construction repetitive stress injuries**

Number: VT01639  
Material: video 5 minutes  
Industry: construction  
Covers one of the fastest growing types of workplace injuries, its symptoms, proper work techniques, and the effects of overexertion, incorrect posture, and excessive force.  
Safety Shorts, 1998

## **Construction safety Choice or chance?**

Number: VT01280  
Material: video 15 minutes  
Industry: construction  
Highlights the four leading causes of fatalities on construction job sites and stresses that safety is also the worker's responsibility.

OSHA Office of Information & Consumer Affairs, 1996

<http://www.osha.gov/SLTC/video/constructionsafety/video.html>

## **Construction safety essentials**

Number: VT01548  
Material: video 23 minutes  
Industry: construction  
Discusses jobsite hazards such as scaffolding, ladders, confined spaces, excavations, and safety measures such as personal protective equipment and fall arrest systems.  
Vocam, 1997

## **Construction safety: New hire safety orientation**

Number: VT01388  
Material: video 10 minutes  
Industry: construction  
Discusses basic jobsite safety procedures including fire extinguisher use, hearing protection, hazardous substances, fall protection, housekeeping, electrical safety, ladders, and lifting.  
CoreMedia Training Solutions 1991

## **Construction safety planning by David V. MacCollum**

Number: TH443.M  
Material: book 285 pages  
Industry: construction  
Provides a broad overview and summary of safety considerations when planning for both large and small construction projects.  
Van Nostrand Reinhold, 1995

## **Construction safety practices and principles by Robert Peyton and Toni C. Rubio**

# Training Materials by Subject 2007

Number: TH443.P4

Material: book 266 pages

Industry: construction

Discusses how to integrate safety into jobsite operations including written safety and health programs, hazard communication, and safety training.

Van Nostrand Reinhold, 1991

## **Construction worker safety orientation: Getting the job done safely**

Number: VT01569

Material: video 12 minutes

Industry: construction

Outlines basic jobsite safety measures including personal protective equipment, manual material handling, fall protection, electrical hazards, excavations, and housekeeping.

Assoc General Contractors of America, 1995

## **Construction worker safety orientation: Getting the job done safely**

Number: VT01607 Spanish

Material: video 12 minutes

Industry: construction

See previous description.

Assoc General Contractors of America, 1995

## **Jobsite safety inspection: Controlling the field**

Number: VT01582

Material: video 13 minutes

Industry: construction

Discusses how to conduct jobsite safety inspections, developing and using safety checklists, identifying and eliminating hazards, follow-up on problem areas, and employee training.

Assoc General Contractors of America, 1991

## **Pile driving safety: Firm footing**

Number: VT01410

Material: video 15 minutes

Industry: construction

Describes common pile driving hazards and safety measures including overhead power lines, equipment inspection, and driving the pile.

Assoc General Contractors of America, 1993

## **Safety: The bottom line**

Number: VT01694

Material: video 19 minutes

Industry: construction

Designed to demonstrate the value of establishing a sound safety programs and the economic benefits.

Assoc General Contractors of America, 1997

## **Construction Trades**

### **Carpenters: A study of hazards in the construction industry**

Number: VT01153

Material: video 12 minutes

Industry: carpentry and floor

Focuses on general safety and health hazards faced by carpenters on the construction-site including scaffolding, ladders, personal protective equipment, and power tools.

Florida AFL-CIO United Labor Agency 1986

### **Ironworkers: A study of hazards in the construction industry**

Number: VT01098

Material: video 25 minutes

Industry: structural steel

Discusses jobsite hazards and safety precautions including ladders, scaffolds, rigging, setting beams, bolting and welding. NOTE: Body belts are no longer acceptable as part of a personal fall arrest system.

Florida AFL-CIO United Labor Agency 1987

### **Masonry trades: A study of hazards**

Number: VT01122

Material: video 13 minutes

Industry: construction

Covers construction-site hazards and safety measures including lifting techniques, cement dust, power tools and equipment, wall bracing and supports, and limited access zones.

Florida AFL-CIO United Labor Agency 1989

### **Operating engineers: A study of hazards in the construction industry**

# Training Materials by Subject 2007

Number: VT01123

Material: video 18 minutes

Industry: construction

Discusses hazards and safety measures when operating cranes and heavy equipment including pre-operation inspection, load lifting techniques, power lines, and carrier operations.

Florida AFL-CIO United Labor Agency 1988

## **Painters and allied trades: A study of hazards**

Number: VT01161

Material: video 26 minutes

Industry: painting and paper

Covers jobsite safety and health hazards including ladders, scaffolds, abrasive blasting, spray painting, and hazardous chemicals. NOTE: Body belts are no longer acceptable as part of a personal fall arrest system.

Florida AFL-CIO United Labor Agency 1987

## **Plumbing and pipefitting trades: A study of hazards**

Number: VT01168

Material: video 20 minutes

Industry: construction

Covers construction-site hazards and safety measures including power tools, ladders, welding, and toxic fumes.

Florida AFL-CIO United Labor Agency 1990

## **Sheet metal workers: A study of hazards**

Number: VT01169

Material: video 17 minutes

Industry: sheet metal

Discusses fabrication and installation hazards including shop machinery, slings and hoists, ladders, power tools, and electricity.

Florida AFL-CIO United Labor Agency 1987

## **Corrosives**

### **Chemical handling: Corrosives**

Number: VT01486

Material: video 12 minutes

Industry: all industries

Reviews basic information about corrosives including characteristics, hazards, PPE, exposure symptoms, labeling, handling and storage.

Coastal Training Technologies, 1992

## **Corrosives**

Number: VT00363

Material: video 5 minutes

Industry: general industry

Covers the hazards associated with corrosives, including battery acid and phosphates, proper handling and storage in the work environment.

Summit Training Source, 1990

## **Cranes, Hoists, and Conveyors**

*See also Rigging*

### **Chains, cranes, & slings**

Number: VT01362

Material: video 5 minutes

Industry: general industry

Covers equipment pre-use inspection, load handling and sling angles.

Training Network-LIP, 1992

### **Chains, cranes, slings and hoists**

Number: VT01363

Material: video 12 minutes

Industry: general industry

Covers pre-use inspections, maintenance and proper use of lifting devices including equipment protection, safe load capacities and sling angles.

Training Network-LIP, 1994

### **Conveyors**

Number: VT01640

Material: video 6 minutes

Industry: general industry

This humorous video gives an overview of conveyor hazards including nip points and falling materials, and preventive measures including guards, warning signs, and safe work practices.

### **Crane and sling safety: Inspection and use**

Number: VT01390

Material: video 19 minutes

Industry: general industry

Covers basic safety procedures when working with overhead and boom cranes including daily pre-operation inspection, maintenance, lifting procedures, and proper use techniques.

CoreMedia Training Solutions, 1992

# Training Materials by Subject 2007

## **Crane operation safety**

Number: VT01535

Material: video 12 minutes

Industry: construction

Focuses on the basic procedures for the safe operation of overhead and boom cranes including pre-operation inspection, pre-lift check, sling maintenance and inspection, and operator training. Industrial Training Systems, 1995

## **Crane safety awareness for site superintendents**

Number: VT01186

Material: video 8 minutes

Industry: construction

Highlights common hazards associated with construction mobile crane operations and discusses management responsibilities for safe operation on the jobsite.

OSHA Office of Construction & , 1992

Engineering

<http://www.osha.gov/SLTC/video/cranesafety/video.html>

## **Crane safety: Construction**

Number: VT01315

Material: video 13 minutes

Industry: construction

Covers mobile crane pre-operation inspection, refueling, potential hazards such as power lines, load capacities, lifting procedures, and safety precautions.

Digital 2000, 1992

## **Crane safety: Play it safe**

Number: VT01420

Material: video 15 minutes

Industry: construction

Covers crane safety practices for crane operators and riggers including daily pre-work inspection and maintenance, proper loading and moving a load, and surveying the jobsite for hazards such as overhead power lines.

Assoc General Contractors of America, 1992

## **Hoists and slings**

Number: VT01635

Material: video 14 minutes

Industry: all industries

Covers various types of hoists and slings, factors to consider when choosing a hoist or sling, safety practices, inspection procedures, proper care and storage.

Summit Training Source, 2000

## **Indoor cranes: Safe lifting operations**

Number: VT01602

Material: video 19 minutes

Industry: general industry

Covers how to safely operate shop-operated power hoist equipment and discusses pre-operation safety inspections, basic rigging techniques, and lifting and moving the load.

Coastal Training Technologies, 1991

## **Manbaskets in construction**

Number: VT01485

Material: video 10 minutes

Industry: construction

Covers safety measures including proper procedures for hoisting manbaskets using a crane or derrick.

Coastal Training Technologies, 1997

## **Mobile crane capacities: Construction**

Number: VT01675

Material: video 19 minutes

Industry: construction

Provides information for the crane operator to make correct reductions in mobile crane capacities including crane inspection, leveling, wind effects, dynamic loading and duty cycle work.

Assoc General Contractors of America, 2000

## **Mobile crane load charts**

Number: VT01656

Material: video 5 minutes

Industry: all industries

Covers load chart interpretations and usage including the importance of factoring in all variables for each lift.

Summit Training Source, 1990

## **Mobile crane setup: Construction**

Number: VT01676

Material: video 19 minutes

Industry: construction

Provides information for the safe setup of mobile cranes including site condition hazards, leveling, blocking and planning the lift.

# Training Materials by Subject 2007

Assoc General Contractors of America, 2000

## **Mobile cranes**

Number: VT01509

Material: video 5 minutes

Industry: all industries

Discusses pre-location set-up, pre-operation inspection, safe operating techniques, and planning the lift.

Summit Training Source, 1990

## **Pendant controlled crane safety**

Number: VT01669

Material: video 14 minutes

Industry: general industry

Covers safety considerations including pre-operation inspection, safe operating procedures, rigging, slings, use of hooks, moving and setting the load, and storage of the crane and block.

Summit Training Source, 1997

## **Safe operation of overhead cranes: Pendant controlled**

Number: VT01613

Material: video 19 minutes

Industry: general industry

Covers the major steps that should be followed to insure safe operation of pendant controlled overhead cranes and hoists including pre-operation inspections, operational checks, hand signals, weight capacity, planning the lift, and shutdown procedures.

Safetycare, 1995

## **Working around cranes**

Number: VT01451

Material: video 19 minutes

Industry: general industry

Covers hazards and safety measures around cranes including wire rope/lifting and signaling.

Coastal Training Technologies, 1995

## **Demolition**

### **Demolition safety: What goes up must come down**

Number: VT01573

Material: video 12 minutes

Industry: construction

Describes the demolition process and safety measures including on-site preparations, pre-stressed concrete hazards, signs and barricades,

cranes, and debris removal.

Assoc General Contractors of America, 1993

## **Driving Safety**

### **Driver attitude**

Number: VT00364

Material: video 5 minutes

Industry: all industries

Covers safe driving procedures, seat belt use, and the effects of drugs and alcohol on driving.

Summit Training Source, 1990

### **Driver's safety: Thinking ahead**

Number: VT01741

Material: video 14 minutes

Industry: construction

Provides instruction on safe driving practices for construction workers required to operate motor vehicles while on the job.

Assoc General Contractors of America, 1996

### **Driving safety: Highway-rail crossing safety**

Number: VT01713

Material: video 18 minutes

Industry: commercial vehicles

Shows a reenactment of a train/school bus crash to illustrate the dangers of not following safety procedures when crossing railroad track, also includes a ten-step procedure for safe driver actions.

Idaho Dept of Law Enforcement, 1991

### **Driving safety: The safety zone**

Number: VT01714

Material: video 16 minutes

Industry: all industries

Addresses what safety precautions car drivers should take when driving in close proximity to trucks including the difference in weight ratios, blind spots, turning space, safe driving distances, and stopping distance.

Idaho Dept of Law Enforcement, 1995

# Training Materials by Subject 2007

## **Egress**

*See also Emergency Action Plans*

### **Egress/exit safety**

Number: VT01641

Material: video 5 minutes

Industry: general industry

Discusses exit doors, safe exits, clear paths, blocked exits, and employee awareness of exit locations.

Safety Shorts, 1992

### **Means of egress**

Number: VT01475

Material: video 5 minutes

Industry: general industry

A Laurel and Hardy spoof showing the consequences of improperly marked exits and blocked exits.

Kirkwood Community College, 1995

## **Electrical Safety**

*See also Lockout/Tagout*

### **Avoiding electrical hazards**

Number: VT01430

Material: video 19 minutes

Industry: general industry

Discusses working safely around electricity including personal protection, working on energized circuits, lockout/tagout, and working near power lines.

Coastal Training Technologies 1989

### **Avoiding electrical hazards**

Number: VT01614 Spanish

Material: video 19 minutes

Industry: general industry

See above description

Coastal Training Technologies, 1994

### **Basic electrical safety**

Number: VT01281

Material: video 7 minutes

Industry: all industries

Discusses the properties of electricity, its hazards, and working safely with electric powered tools and equipment.

Training Network-LIP, 1992

### **Basic electrical safety Construction**

Number: VT01387

Material: video 7 minutes

Industry: construction

Discusses the properties of electricity and the hazards involved in working with electric power tools and equipment including grounding, extension cords, inspection and maintenance, and working in wet weather.

CoreMedia Training Solutions, 1991

### **Basic electrical safety on the job site**

Number: VT01313

Material: video 11 minutes

Industry: construction

Reviews the principles and properties of electricity, its hazards, and the safe use of electrical equipment and extension cords on the job site.

Digital 2000, 1992

### **Basic electrical safety on the job site**

Number: VT01499

Spanish

Material: video 11 minutes

Industry: construction

See previous description.

Digital 2000, 1992

### **Construction electrical safety**

Number: VT01456

Material: video 10 minutes

Industry: construction

Covers the properties of electricity, electrical hazards, accident response, and proper work practices including the safe use of power tools and equipment.

Coastal Training Technologies, 1993

### **Construction temporary electricity: Take charge**

Number: VT01426

Material: video 18 minutes

Industry: construction

Covers electrical hazards found on the jobsite, how electricity works, safety measures, GFCIs, extension cords, power tools, and temporary power installations.

Assoc General Contractors of America, 1991

### **Contractor beware: Guide to power line safety**

Number: VT01708

Material: video 16 minutes

Industry: construction

Covers safety precautions when working near overhead or underground power lines including how electricity can kill, operating cranes and

# Training Materials by Subject 2007

heavy equipment such as backhoes, and calling electric utilities before you dig.

Connecticut Light & Power, 1997

## **Electrical case histories: Fatal shock**

Number: VT01439

Material: video 22 minutes

Industry: general industry

Covers, through re-enactments of real-life electrical accidents, the principles of electrical safety including the dangers of electrical shock, personal verification of lockout/tagout, response to electrical emergencies, and PPE.

Coastal Training Technologies, 1994

## **Electrical power generation: High voltage**

Number: VT01488

Material: video 27 minutes

Industry: general industry

Presents safety information for electric utilities operations including working on or near exposed energized parts and overhead power lines.

Coastal Training Technologies, 1994

## **Electrical principles**

Number: VT01558

Material: video 14 minutes

Industry: all industries

Demonstrates basic electrical principles including how electricity works, electrical circuits, grounding, and circuit protection devices such as GFCIs.

Coastal Training Technologies 1988

## **Electrical safety and asbestos abatement**

Number: VT01094

Material: video 12 minutes

Industry: construction

Covers electrical fundamentals and hazards.

NOTE: OSHA does not require explosion-proof lighting or equipment unless another hazard is present which would require its use.

Intl Assoc of Heat and Frost Insulators 1987

## **Electrical safety in construction**

Number: VT01380

Material: video 19 minutes

Industry: construction

Covers both temporary and permanent jobsite installations of electricity including GFCIs, temporary hook-ups, power tools and cord sets.

J.J. Keller & Associates, 1996

## **Electrical safety overview**

Number: VT01282

Material: video 10 minutes

Industry: general industry

Discusses the properties of electricity and its hazards, the inspection and care of electrical equipment and power tools, and safe work practices including grounding, GFCIs, and lockout/tagout.

Digital 2000, 1993

## **Electrical safety: Basic principles**

Number: VT01664

Material: video 16 minutes

Industry: general industry

Covers the basic principles of electricity, reviews safe work conditions and procedures, emergency response procedures, electrical circuits, insulators and conductors, grounding, and circuit protection devices such as GFCIs.

Coastal Training Technologies, 2000

## **Electrical safety: Construction**

Number: VT01372

Material: video 5 minutes

Industry: construction

Covers basic safety rules when working with electrical tools and equipment including plugs, cords, and GFCIs.

Digital 2000, 1993

## **Electrical safety: Ground Fault Circuit Interrupters**

Number: VT01580

Material: video 11 minutes

Industry: construction

Covers what GFCI's are all about, how they work, and general safety procedures for protection against electrical shock.

Digital 2000, 1992

## **Electrical safety: Ground Fault Circuit Interrupters**

Number: VT01726

Material: video 11 minutes

Industry: construction

See previous description

Digital 2000, 1992

## **Electrical safety: Real, real-life**

Number: VT01601

Material: video 13 minutes

# Training Materials by Subject 2007

Industry: general industry

Explains, through re-enactments of real-life situations, hazards and safety practices when working with or around electricity including PPE, proper grounding, and the use of GFCIs.

Coastal Training Technologies, 1998

## **Electrical safety: Real, real-life**

Number: VT01717 Spanish

Material: video 13 minutes

Industry: general industry

See previous description.

Coastal Training Technologies, 1998

## **Electrical safety: Safe work practices**

Number: VT01304

Material: video 5 minutes

Industry: general industry

Describes electrical hazards, maintaining proper work distances from electrical sources, proper tools and equipment, and personal protective equipment.

Summit Training Source, 1990

## **Electrical safety: The hazards of electricity**

Number: VT01400

Material: video 6 minutes

Industry: general industry

Covers the basic principles of electricity, the causes of electrocution and electrical shock and electricity as the source of fire.

Summit Training Source 1990

## **Pole topping safety: High voltage electrical**

Number: VT01761

Material: video 10 minutes

Industry: utilities

This video, for utilities workers and linemen, shows examples of acceptable and effective pole top removal practices.

WA State Dept of Labor & Industries, 2000

## **Use of electrical equipment in hazardous locations**

Number: VT01352

Material: video 16 minutes

Industry: all industries

Discusses the three classifications of hazardous locations and requirements for approved electrical equipment.

Utility Workers Union of America 1987

## **Working around high voltage**

Number: VT01429

Material: video 6 minutes

Industry: construction

Discusses safety measures when working around overhead and underground power lines including what to do if contact does occur.

Assoc General Contractors of America, 1992

## **Emergency Action Plans**

*See also Egress*

### **Emergency action plans: I plan to live**

Number: VT01642

Material: video 5 minutes

Industry: general industry

This humorous video covers warning signals, responsibility lists and assignments, exit routes, and evacuation procedures.

Safety Shorts, 1992

### **Emergency action plans: Spiral to disaster**

Number: VT01636

Material: video 24 minutes

Industry: all industries

Using the Piper Alpha oil rig explosion as a backdrop, covers what makes a good Emergency Action Plan including awareness of work-area hazards, risk analysis, training, safe work practices, emergency procedures, and evacuation drills.

Coastal Training Technologies, 2000

### **Emergency evacuation training**

Number: VT01522

Material: video 18 minutes

Industry: general industry

gives step-by-step instructions on procedures to follow in an emergency including the important role of pre-planning exit routes, egress, assembly areas, lines of authority, and all-clear signals.

Safe Expectations, 1990

### **Fire! Getting out alive**

Number: VT01524

Material: video 18 minutes

Industry: general industry

Discusses how to prepare for a fire emergency including exit posting and egress, fire drills, emergency evacuation plans, and employee fire education and preparation training.

Safe Expectations, 1995

# Training Materials by Subject 2007

## **Preparing your office for an earthquake**

Number: VT01762

Material: video 7 minutes

Industry: all industries

Identifies potential hazards, shows how to lessen damage with simple preventive measures, and lists items for emergency kits.

WA State Dept of Labor & Industries, 2001

## **Ergonomics**

*See also Back Safety*

### **Basic ergonomics**

Number: VT01637

Material: video 5 minutes

Industry: all industries

This humorous video provides a definition, gives a short history, and covers its relevance in the workplace.

Safety Shorts1989

### **Carpal tunnel**

Number: VT00361

Material: video 5 minutes

Industry: general industry

Describes carpal tunnel syndrome and ways to eliminate the stress caused by this repetitive motion injury.

Summit Training Source, 1990

### **Ergonomic programs that work**

Number: VT01498

Material: video 21 minutes

Industry: general industry

Discusses various aspects of an ergonomics program by visiting four companies and reviewing their programs.

OSHA Office of Information & Consumer Affairs, 1998

<http://www.osha.gov/SLTC/video/ergoprogramsthatwork/video.html>

### **Ergonomics awareness education**

Number: VT01759

Material: video 26 minutes

Industry: general industry

Describes musculoskeletal disorders, work related causes, recognizing hazards, identifying common measures to reduce these hazards, risk factors, and the importance of early reporting of symptoms.

WA State Dept of Labor & Industries, 2002

## **Ergonomics in the workplace**

Number: VT01393

Material: video 18 minutes

Industry: general industry

Addresses production line tasks, cumulative trauma disorders, identification of workplace activities that can cause CTD such as manual materials handling, and prevention measures.

Primedia Workplace Learning, 1995

### **Ergonomics: Solving the puzzle**

Number: VT01623

Material: video 18 minutes

Industry: general industry

Covers how to create an ergonomic work environment, how to reduce repetitive motion injuries, and how to create a successful ergonomics program.

Coastal Training Technologies, 2000

### **Ergonomics: Your body at work**

Number: VT01624

Material: video 20 minutes

Industry: general industry

This award winning video reviews ergonomic mechanics, cumulative trauma disorders and contributing factors, worksite analysis, and low-cost ergonomic worksite improvements.

Coastal Training Technologies, 1991

### **Hand/arm vibration syndrome**

Number: VT01270

Material: video 25 minutes

Industry: all industries

Covers the cause, symptoms, assessment, and treatment of this cumulative trauma disorder.

US National Institute for OSH, 1990

### **Power zone ergonomics**

Number: VT01631

Material: video 10 minutes

Industry: general industry

Covers manufacturing and office work station design including visual access, work reach zones, standing, and hand-wrist stress.

IL Onsite S&H Consultation Program, 2000

### **Repetitive stress injuries: Manufacturing**

Number: VT01644

Material: video 6 minutes

Industry: general industry

Covers the symptoms of this painful disorder, proper work techniques, and the effects of

# Training Materials by Subject 2007

overexertion, incorrect posture, lifting, twisting, and improper wrist positions.

Safety Shorts, 1998

## Excavations

### Competent person and soils testing

Number: VT01504

Material: video 27 minutes

Industry: construction

Defines the role and responsibilities of the "competent person," explains the soil classification system, shows five easy field tests for determining soil types including by means of a pocket penetrometer, and preparing for an OSHA inspection.

Zomar Productions, 1992

### Construction shoring safety

Number: VT01505

Material: video 24 minutes

Industry: construction

Covers installation of timber, screwjack and hydraulic shoring systems, determining soil types, sheeting designs, and safety hazards unique to trenching operations.

Coastal Training Technologies, 1990

### Construction trenching and shoring

Number: VT01459

Material: video 10 minutes

Industry: construction

Covers safety guidelines including site evaluation, protective systems, and emergency response.

Coastal Training Technologies, 1992

### Excavation and trenching safety: On solid ground

Number: VT01418

Material: video 18 minutes

Industry: construction

Covers identifying jobsite hazards and conditions, access and egress to trench, hazardous atmospheres, emergency rescue, methods of sloping, shoring and shielding, and soil classification.

Assoc General Contractors of America, 1990

### Excavation safety for workers: In the trenches

Number: VT01415

Material: video 14 minutes

Industry: construction

Discusses trench hazards, how hazards can be

reduced through sloping and shielding, and how to safety work in and around them.

Assoc General Contractors of America, 1996

### Excavations, trenches and shoring

Number: VT01294

Material: video 14 minutes

Industry: construction

Provides an overview of protective systems, regulatory requirements and safe work practices.

Summit Training Source, 1996

### Excavations: 29 CFR 1926, Subpart P

Number: VT01242

Material: video 23 minutes

Industry: construction

Discusses the hazards associated with excavation operations and safe work practices and control measures to prevent accidents.

OSHA Office of Training and Education, 1992

### Survival in excavation: Safe working around existing utilities

Number: VT01706

Material: video 20 minutes

Industry: construction

This video, an orientation for excavators, describes how to safely plan the job from start to finish.

Assoc General Contractors of America, 1996

### Trench emergency: Cave in!

Number: VT01468

Material: video 14 minutes

Industry: construction

Reviews, through showing an actual cave-in, the dos and don'ts of trench rescue including the dangers posed by trenches, shoring and shielding, and preparing a rescue team.

Coastal Training Technologies, 1993

### Trenching and excavation safety

Number: VT01659

Material: video 18 minutes

Industry: construction

Explains the hazards created by digging trenches and excavations, how these hazards can be reduced by sloping, shielding, and shoring systems, and emphasizes personal and work safety.

# Training Materials by Subject 2007

Zomar Productions, 1987

## **Trenching and shoring**

Number: VT01378

Material: video 5 minutes

Industry: construction

Explains trenching basics such as soil classification and various types of shoring and shielding.

Digital 2000, 1992

## **Trenching and shoring operations**

Number: VT01322

Material: video 12 minutes

Industry: construction

Explains how to avoid cave-ins by following safety precautions including proper sloping, types of shoring, types of shielding, and soil classification.

Digital 2000, 1992

## **Trenching and shoring operations**

Number: VT01502 Spanish

Material: video 12 minutes

Industry: construction

See previous description.

Digital 2000, 1992

## **Trenching and shoring safety: Cave-in!**

Number: VT01431

Material: video 18 minutes

Industry: construction

Covers trench hazards and cave-in prevention including site evaluation, soil testing, protective systems, and emergency response.

Coastal Training Technologies, 1994

## **Trenching and shoring: Safety training program**

Number: VT01555

Material: video 19 minutes

Industry: construction

Covers safety and health hazards including falling rock or soil and oxygen deficiencies, soil classification, competent person, installation of protective support systems, sloping including and benching, and emergency cave-in response.

J.J. Keller & Associates, 1993

## **Explosives and Blasting**

### **Working safely around explosives**

Number: VT01574

Material: video 5 minutes

Industry: construction

Covers basic safety procedures including storage facilities, transportation, loading the charge, and blasting area precautions.

Assoc General Contractors of America, 1992

## **Eye Protection**

*See also Personal Protective Equipment*

### **Eye and face protection: Safety gear**

Number: VT01518

Material: video 11 minutes

Industry: all industries

Describes different types of safety glasses, goggles, face shields, and helmets used to protect the eyes and face from debris, chemicals, and dangerous light.

Aims Multimedia, 1989

### **Eye and face protection: Safety gear**

Number: VT01727 Spanish

Material: video 11 minutes

Industry: all industries

See previous description.

Aims Multimedia, 1989

### **Eye safety**

Number: VT00144

Material: video 20 minutes

Industry: general industry

Covers the importance of eye protection, common eye injuries, and the selection and use of eye protection.

Primedia Workplace Learning, 1985

### **Eye safety**

Number: VT00365

Material: video 5 minutes

Industry: general industry

Discusses three kinds of eye hazards, the specific type of eye protection for each hazard, and proper first aid procedures are demonstrated.

Summit Training Source, 1990

### **Eye safety: Your eyes are different**

Number: VT01653

Material: video 14 minutes

# Training Materials by Subject 2007

Industry: general industry  
Stresses, through its depiction of near misses and computer graphics, the need to consistently wear eye protection, common eye injuries, and how to choose the correct type of eyewear for the job.

CoreMedia Training Solutions, 1994

## **Eyewashes and safety showers**

Number: VT01702

Material: video 12 minutes

Industry: all industries

Reviews the correct operation and use of eyewashes and safety showers, equipment testing, accident prevention, reading MSDS, and proper procedures in chemical contact.

Training Network-LIP, 1994

## **Protecting your eyesight**

Number: VT01763

Material: video 7 minutes

Industry: general industry

Shows dramatic examples of what happens when proper eye protection is not worn and the difference between regular glasses compared to goggles stamped ANSI Z87.

WA State Dept of Labor & Industries, 2003

## **Fall Protection**

*See also Housekeeping; Walking and Working Surfaces*

### **Construction fall protection: Get arrested!**

Number: VT01557

Material: video 11 minutes

Industry: construction

This humorous video covers the effective use of body harness and lanyard in personal fall arrest systems, as well as positioning systems, proper anchorage techniques, floor hole covers, and guardrail construction.

Coastal Training Technologies, 1998

### **Construction fall protection: Get arrested!**

Number: VT01615 Spanish

Material: video 12 minutes

Industry: construction

See previous description.

Coastal Training Technologies, 1998

### **Construction fall protection: Hook Up**

Number: VT01487

Material: video 10 minutes

Industry: construction

Discusses fall hazards, the three types of fall arrest systems, fall arrest distances, choosing anchorage and tie-off points, equipment inspection, proper use of equipment, and the rescue of fallen workers.

Coastal Training Technologies, 1995

### **Fall free: Employer training**

Number: VT01289

Material: video 25 minutes

Industry: construction

Covers the requirements of 1926 Subpart M for supervisory and management personnel including fall hazards and their controls, protective systems, management responsibilities, and employee training requirements.

Chicago Construction Safety Council, 1995

### **Fall free: Toolbox talk**

Number: VT01288

Material: video 9 minutes

Industry: construction

Focuses on the proper use of fall arrest equipment including body harnesses, lanyards, and lifelines.

Chicago Construction Safety Council, 1995

### **Fall prevention: Elevated work surfaces**

Number: VT01394

Material: video 21 minutes

Industry: all industries

Covers safety procedures for working on and inspection of elevated work surfaces including aerial lifts and scaffolds.

Primedia Workplace Learning, 1993

### **Fall protection for construction: Heightened awareness**

Number: VT01413

Material: video 20 minutes

Industry: construction

Covers types of fall protection systems and where they should be used including personal fall arrest systems, guardrails, safety nets, floor covers, warning lines, and controlled access zones.

Assoc General Contractors of America, 1995

### **Fall protection for construction: Heightened awareness**

Number: VT01515 Spanish

# Training Materials by Subject 2007

Material: video 20 minutes  
Industry: construction  
See previous description.  
Assoc General Contractors of America, 1995

## **Fall protection for ironworkers**

Number: VT01749  
Material: video 17 minutes  
Industry: construction  
Covers fall restraint systems, fall arrest systems, positioning devices, equipment inspection, and controlled decking zones.  
Coastal Training Technologies, 2001

## **Fall protection: Construction**

Number: VT01556  
Material: video 24 minutes  
Industry: construction  
Covers fall protection systems including guardrails, nets, personal fall arrest, positioning devices, warning lines, floor and hole covers, and controlled access zones.  
J.J. Keller & Associates, 1995

## **Fall protection: Taking control**

Number: VT01295  
Material: video 11 minutes  
Industry: all industries  
Discusses how to recognize potential fall hazards, developing a pro-active safety attitude, and the proper use and care of fall protection equipment including anchor points, rope grabs, full body harnesses, lanyards, and lifelines.  
Summit Training Source 1994

## **Fall protection: The basics**

Number: VT01537  
Material: video 11 minutes  
Industry: all industries  
This humorous video covers engineering controls such as guardrails, barriers, and nets; and personal fall arrest systems including body harnesses, lifelines, lanyards, and anchorages  
Industrial Training Systems, 1996

## **How far is that fall?**

Number: VT01511  
Material: video 22 minutes  
Industry: construction  
Covers fall distance calculations for personal fall arrest systems as found in OSHA regulation 1926.502(d)(16).

OSHA Office of Training and Education , 1998

## **Fire Extinguishers**

### **Fire extinguisher operation: Construction**

Number: VT01568  
Material: video 5 minutes  
Industry: construction  
Discusses classes of fires, types of fire extinguishers, inspection, operation, and location on the jobsite for visibility and accessibility.  
Assoc General Contractors of America, 1995

### **Fire extinguisher safety**

Number: VT01391  
Material: video 11 minutes  
Industry: general industry  
Discusses knowing your company's fire escape plan, finding out where fire extinguishers are located at your worksite, the four classes of fires, types of fire extinguishers, and their proper use.  
CoreMedia Training Solutions, 1996

### **Fire extinguisher training**

Number: VT01373  
Material: video 5 minutes  
Industry: all industries  
Covers fire extinguisher basics, types of fire extinguishers, the four classes of fires, and proper use techniques.  
Digital 2000, 1993

### **Fire extinguishers**

Number: VT01507  
Material: video 5 minutes  
Industry: all industries  
Covers the classification of fire extinguishers, the type of fire for which they are suited, and their proper use.  
Summit Training Source, 1990

### **Fire prevention: Construction**

Number: VT01578  
Material: video 12 minutes  
Industry: construction  
Discusses fire hazards and prevention on the job site including proper storage of flammables, safety cans, electrical safety, good housekeeping practices, and the types and use of fire extinguishers.  
Digital 2000, 1992

### **Portable fire extinguishers**

# Training Materials by Subject 2007

Number: VT01492

Material: video 14 minutes

Industry: all industries

Discusses the four difference classes of fire, how to choose the appropriate fire extinguisher and the basics of fire extinguisher use.

Coastal Training Technologies, 1990

## Fire Prevention

*See also Egress; Emergency Action Plans; Fire Extinguishers*

### Construction fire prevention: Avoid the heat

Number: VT01405

Material: video 15 minutes

Industry: construction

Discusses fire hazards and prevention on the job site including proper storage of combustibles and flammables, control of welding sparks and fire watch, safety cans, housekeeping, and the types and use of fire extinguishers.

Assoc General Contractors of America, 1992

### Fire safety

Number: VT01551

Material: video 15 minutes

Industry: general industry

Presents the elements of combustion, the classes for fire, fire hazards commonly found in the workplace, types and use of fire extinguishers, and evacuation procedures.

J.J. Keller & Associates, 1993

### Fire safety: Real, real-life

Number: VT01559

Material: video 15 minutes

Industry: all industries

This humorous video covers all of the important essentials of fire safety through reenactments of fire situations, and discusses the elements and classes of fire, fire prevention, fire extinguishers, emergency action plans.

Coastal Training Technologies, 1998

### Fire safety: There's no second chance

Number: VT01460

Material: video 20 minutes

Industry: general industry

Re-creates a workplace fire and discusses the elements and classes of fire, fire prevention, emergency action plans, types of fire extinguishers and their use.

Coastal Training Technologies, 1996

## Fire! In the workplace

Number: VT01440

Material: video 17 minutes

Industry: general industry

Covers the recognition of potential hazards, the fire triangle, classes of fires, fire extinguisher use, and how to extinguish small fires.

Coastal Training Technologies, 1989

## First Aid

### Chemical burns

Number: VT00362

Material: video 5 minutes

Industry: general industry

Discusses safe work practices, the use of chemical-resistant personal protection, and first aid measures.

Summit Training Source, 1990

### Thermal burns

Number: VT00393

Material: video 5 minutes

Industry: general industry

Shows how to prevent heat related burns using safe work practices and the do's and don't when treating a burn victims.

Summit Training Source, 1990

## Flammable Materials

### Chemical handling: Flammables

Number: VT01432

Material: video 14 minutes

Industry: all industries

Covers basic information about handling flammables and combustibles in the workplace including their characteristics and hazards, ignition, MSDSs, labeling, emergency response, handling and storage.

Coastal Training Technologies, 1992

### Flammable liquids

Number: VT01305

Material: video 7 minutes

Industry: general industry

Covers the characteristics of, hazards of, and proper handling and storing of flammable liquids.

Summit Training Source, 1990

## Food Service

# Training Materials by Subject 2007

## **It's a wonderful kitchen: Injury prevention for food**

### **service workers**

Number: VT01496

Material: video 12 minutes

Industry: food service

Identifies the most common food service-related injuries and methods of prevention including slips and falls, burns and scalds, and cuts.

NY State Dept of Health, 1991

## **Foot Protection**

*See also Personal Protective Equipment*

### **Foot protection**

Number: VT01374

Material: video 5 minutes

Industry: all industries

Discusses types of hazardous situations found on the job, foot injuries and the importance of wearing appropriate safety shoes and boots.

Digital 2000, 1993

### **Foot protection: Safety gear**

Number: VT01519

Material: video 11 minutes

Industry: all industries

Explains how the foot works, workplace hazards to feet, classification of safety shoes, and the function of toe shields, metatarsal guards, and puncture-resistant soles.

Aims Multimedia, 1989

### **Foot protection: Safety gear**

Number: VT01728 Spanish

Material: video 11 minutes

Industry: all industries

See previous description.

Aims Multimedia, 1989

## **Forklift Trucks**

### **Construction forklift safety**

Number: VT01314

Material: video 14 minutes

Industry: construction

Covers pre-operation inspection, maintenance, safe operating procedures, and forklift engineering principles such as leverage and stability.

Digital 2000, 1991

### **Construction forklifts**

Number: VT01457

Material: video 9 minutes

Industry: construction

Covers safe operating procedures for both fixed mast lift and extended reach forklifts including start-up inspections, lifting principles, rated load capacity, center of gravity, and moving a load.

Coastal Training Technologies, 1996

### **Construction forklifts: Extending your reach**

Number: VT01593

Material: video 14 minutes

Industry: construction

Covers extended reach forklift safety including lifting principles, start-up inspections, load stability, leverage, rated load capacity, moving the load, electrical hazards, and safety procedures.

Coastal Training Technologies, 1999

### **Forklift case histories: Serious business**

Number: VT01449

Material: video 18 minutes

Industry: general industry

Shows re-enactments of real-life forklift accidents, demonstrates the dangers of improper use, and discusses safe work practices, securing the platform and load, lifting, safe speed and turning, and awareness of surroundings.

Assoc General Contractors of America, 1992

### **Forklift driving skills**

Number: VT00368

Material: video 5 minutes

Industry: general industry

Describes techniques for driving on wet, rough and inclined surfaces and proper procedures for load handling.

Summit Training Source, 1990

### **Forklift fundamentals: Get the facts**

Number: VT01594

Material: video 18 minutes

Industry: general industry

Covers powered industrial truck design, controls and instrumentation, pre-operation safety inspection, the vehicle stability triangle and the factors that affect it.

Coastal Training Technologies, 1997

### **Forklift load capacity**

Number: VT01654

Material: video 5 minutes

Industry: general industry

Demonstrates proper load balance and weight

# Training Materials by Subject 2007

capacity, the importance of the three-point suspension system and the effect of the stability triangle.

Summit Training Source, 1990

## **Forklift operations: Carry the load**

Number: VT01595

Material: video 19 minutes

Industry: general industry

Discusses operating conditions and hazards including surface conditions, lifting and putting down the load, load stability, traveling tips, working with stacks, special hazards, operating safety, vehicle and pedestrian traffic.

Coastal Training Technologies, 1999

## **Forklift pedestrian safety**

Number: VT01760

Material: video 10 minutes

Industry: general industry

This dramatic video is intended for people on foot who work in areas where forklifts are being used.

WA State Dept of Labor & Industries, 2003

## **Forklift pre-operation inspection**

Number: VT01655

Material: video 5 minutes

Industry: general industry

Covers the pre-operation inspection checklist, proper forklift maintenance, and basic forklift features.

Summit Training Source, 1990

## **Forklift safe driving**

Number: VT00371

Material: video 5 minutes

Industry: general industry

Demonstrates how accidents occur and safe driving techniques.

Summit Training Source, 1990

## **Forklift safe driving skills: The responsible operator**

Number: VT01296

Material: video 14 minutes

Industry: general industry

Discusses hazard awareness and safety procedures, driving skills, interaction with pedestrian traffic, proper load handling and lifting, and techniques for driving on various surfaces such as ramps, inclines and dock plates.

Summit Training Source, 1995

## **Forklift safety: Loads of experience**

Number: VT01392

Material: video 15 minutes

Industry: general industry

Focuses on the responsibilities of pedestrians who are working around lift trucks to prevent accidents including eye contact with the driver, safe distance, safe work zone, and safe drop zone.

CoreMedia Training Solutions, 1990

## **Forklift safety: On the go**

Number: VT01584

Material: video 17 minutes

Industry: construction

This video on extended reach forklifts discusses pre-operation inspection, vehicle center of balance, load capacities, and safe operation including lifting, moving, and stacking loads.

Assoc General Contractors of America 1994

## **Forklift Safety: The Color of Danger**

Number: VT01526

Material: video 17 minutes

Industry: general industry

This award winning video uses re-enactments of actual accidents to show the consequences of a lapse in concentration or safe driving procedures in various industrial settings including docks and warehouses.

Allied Digital Technologies 1982

## **Forklift walk-behinds**

Number: VT00372

Material: video 5 minutes

Industry: general industry

Covers the safe operation of handtrucks including pre-operation inspection and load capacity.

Summit Training Source, 1990

## **Forklifts and pedestrians**

Number: VT00373

Material: video 5 minutes

Industry: general industry

Uses live-action accident scenarios to show how serious forklift accidents involving pedestrians can be prevented.

Summit Training Source, 1990

# Training Materials by Subject 2007

## Foundries

### Caution: Foundry at work

Number: VT01628

Material: video 10 minutes

Industry: general industry

Covers foundry operations, safe work practices, hazard control, and health and safety hazards including metal fumes, noise, heat, and silica.

US National Institute for OSH, 1997

### Caution: Foundry at work (CC)

Number: DVD07

Material: DVD10 minutes

Industry: general industry

See previous description.

US National Institute for OSH, 1998

### Caution: Foundry at work (CC)

Number: DVD08 Spanish

Material: DVD10 minutes

Industry: general industry

See previous description.

US National Institute for OSH, 1998

## Grain Elevators

### Deadly dust II

Number: VT01540

Material: video 30 minutes

Industry: grain elevators

Shows dramatic scenes of grain elevator explosions, the devastation caused by the blast, demonstrations on how and why these explosions occur, and emergency planning.

Kansas State University, 1990

### Deadly dust III

Number: VT01541

Material: video 22 minutes

Industry: grain elevators

Features two employees who survived major dust explosions, dramatic scenes of actual explosions, stop motion demonstrations of how primary and secondary explosions occur, and prevention measures.

Kansas State University, 1995

### Grain elevator safety orientation

Number: VT01709

Material: video 14 minutes

Industry: agriculture

Demonstrates safe work practices including the

use of PPE, electrical safety, ladder safety, slip hazards, truck and wagon grain unloading, entering grain bins, engulfment hazards, and grain dust explosion causes and prevention.

IL Onsite S&H Consultation Program, 2001

## Grinding Wheels

### Grinding

Number: VT01402

Material: video 7 minutes

Industry: general industry

Discusses engineering controls, proper personal protective equipment, and techniques of safe grinding operations.

Summit Training Source, 1990

### Grinding safety: The rule of Muldoon

Number: VT00526

Material: video 17 minutes

Industry: general industry

This humorous video covers grinding wheel speeds, guards, mounting procedures, and wheel operating rules.

Grinding Wheel Institute, 1985

## Groundskeeping

### Groundskeeping safety: Be a pro!

Number: VT01489

Material: video 17 minutes

Industry: general industry

Covers hazards and safety procedures for employees responsible for grounds or outdoor maintenance when using chemicals and equipment including basic PPE, tractors, riding mowers, brush-cutting equipment and blowers.

Coastal Training Technologies, 1997

## Hand Protection

*See also Personal Protective Equipment*

### Hand and arm protection: Safety gear

Number: VT01520

Material: video 11 minutes

Industry: all industries

Covers how to recognize workplace hand and arm hazards, the causes of traumatic and contact injuries, the reason for and use of guards on equipment and machinery, and choosing the proper gloves for the job.

Aims Multimedia, 1989

# Training Materials by Subject 2007

## **Hand and arm protection: Safety gear**

Number: VT01729 Spanish  
Material: video 11 minutes  
Industry: all industries  
See previous description.  
Aims Multimedia, 1989

## **Hand safety**

Number: VT00376  
Material: video 6 minutes  
Industry: general industry  
Covers the causes of hand injuries and prevention including the proper use of hand tools, knife safety, working with machinery and pinch points.  
Summit Training Source, 1990

## **Hazard Communication**

*See also Material Safety Data Sheets*

### **Employee's guide to working with hazardous materials**

Number: VT01176  
Material: video 16 minutes  
Industry: all industries  
Gives an overview of the hazard communication standard and an introduction to material safety data sheets.  
S&H Council of Greater Omaha 1991

### **Employee's guide to working with hazardous materials**

Number: VT01365 Spanish  
Material: video 16 minutes  
Industry: all industries  
See previous description.  
S&H Council of Greater Omaha, 1996

## **Hazard communication**

Number: VT01668  
Material: video 13 minutes  
Industry: general industry  
Reviews the differences between common hazardous materials, proper storage, labeling systems, material safety data sheets, exposure reduction, and safe handling procedures.  
Summit Training Source, 1998

## **Hazard communication in manufacturing**

Number: VT01285  
Material: video 5 minutes  
Industry: general industry  
Discusses material safety data sheets, labeling, handling and safe use of chemicals in the

workplace.  
Training Network-LIP, 1992

## **Hazard communication: Training for employees**

Number: VT01660  
Material: video 18 minutes  
Industry: general industry  
Covers chemical safety, the importance of keeping an up-to-date hazardous chemical inventory, how to read MSDSs, labeling of containers, what an employee should do if they find an unlabeled container or no MSDS on a substance, and written hazcom programs.  
J.J. Keller & Associates, 2000

## **Hazard communication: Training for employees**

Number: VT01662 Spanish  
Material: video 18 minutes  
Industry: general industry  
See previous description.  
J.J. Keller & Associates, 2000

## **Hazard communication: Your safety net**

Number: VT01665  
Material: video 14 minutes  
Industry: general industry  
Focuses on chemical hazards and safety precautions including exposure situations, ways to control chemical hazards, and reading and using material safety data sheets and warning labels.  
Coastal Training Technologies, 2000

## **HazCom case histories: Learn from their mistakes**

Number: VT01442  
Material: video 20 minutes  
Industry: all industries  
Using re-enactments of real-life HazCom incidents, covers the importance of following safe work practices, reading material safety data sheets and warning labels, emergency response, and using personal protective equipment.  
Coastal Training Technologies, 1994

## **Right-to-know**

Number: VT00388  
Material: video 5 minutes  
Industry: general industry  
Provides hazard communication training on MSDS terms and labeling compliance including proper container labeling.  
Summit Training Source, 1990

# Training Materials by Subject 2007

## **Hazard Communication-Construction**

*See also Material Safety Data Sheets*

### **Hazard communication standard 1926.59**

Number: VT01243

Material: video 14 minutes

Industry: construction

Discusses chemical hazards in construction including materials safety data sheets, container labeling, employee training, and the requirements of the standard.

OSHA Office of Training and Education, 1993

### **Hazard communication training: The toxic time bomb**

Number: VT01166

Material: video 15 minutes

Industry: construction

Discusses construction chemical hazards including hazard awareness, safe chemical handling procedures, employee right-to-know, and how to read labels and material safety data sheets.

Florida AFL-CIO United Labor Agency, 1988

### **Hazard communication: The message is construction safety**

Number: VT01583

Material: video 14 minutes

Industry: construction

Covers construction chemical hazards including types of hazardous materials found on the jobsite, reading product labels and material safety data sheets, safe handling procedures, and the requirements of the standard.

Assoc General Contractors of America, 1997

### **Hazard communication: Your right to know**

Number: VT01722

Material: video 12 minutes

Industry: roofing and siding

Explains how to use material safety data sheets, labeling procedures for hazardous materials, and safety precautions.

National Roofing Contractors Assoc, 1990

### **HazCom for construction**

Number: VT01461

Material: video 12 minutes

Industry: construction

Covers the dangers of working with and around chemicals, how to recognize construction site chemical hazards, hazard control, safety precautions and personal protective equipment. Coastal Training Technologies, 1995

### **HazCom: Understanding labels**

Number: VT01245

Material: video 8 minutes

Industry: construction

Discusses the importance of labels on hazardous materials, how to read them, and various types of labeling systems including that of the National Fire Protection Association which uses color coding to distinguish classes of hazards.

Laborers' National H&S Fund, 1993

## **Hazardous Substances**

*See also Asbestos; Corrosives; Flammable Materials; Lead; Silica; and Solvents*

### **Case of the vicious vapor**

Number: VT01473

Material: video 7 minutes

Industry: all industries

This humorous video deals with how to investigate a hazardous vapor incident including air sampling, personal protective equipment, and proper ventilation.

Kirkwood Community College, 1995

### **Chemical handling: General principles**

Number: VT01433

Material: video 16 minutes

Industry: all industries

Covers safe work practices for handling flammables, corrosives, and solvents including their characteristics and hazards, handling and storage.

Coastal Training Technologies, 1990

### **Chemicals in the workplace**

Number: VT01516

Material: video 15 minutes

Industry: general industry

Details material safety data sheets and labels, recognition of chemical hazards, safe handling techniques and storage, and personal protective equipment.

J.J. Keller & Associates, 1988

### **Formaldehyde**

Number: VT01625

# Training Materials by Subject 2007

Material: video 14 minutes

Industry: general industry

Discusses health hazards and routes of entry into the body, hazard communication, personal protective equipment, and safe work practices.

Summit Training Source, 1995

## **Non-compatible chemicals: What you should know**

Number: VT01337

Material: video 14 minutes

Industry: general industry

Discusses chemical groups and their hazards, storage requirements, and emergency procedures.

Intl Chemical Workers Union, 1987

## **Spills**

Number: VT00392

Material: video 14 minutes

Industry: general industry

Demonstrates containment, cleanup and decontamination procedures for small spills of hazardous chemicals.

Summit Training Source, 1990

## **Toxics**

Number: VT01658

Material: video 5 minutes

Industry: all industries

Discusses why toxics are dangerous to health, ways to limit exposure, and safe handling procedures in order to prevent injuries and accidents.

Summit Training Source, 1990

## **Hazardous Substances-Construction**

*See also Asbestos, Corrosives, Flammable Materials, Lead, Silica and Solvents*

## **Jobsite hazardous waste safety: handle with care**

Number: VT01411

Material: video 17 minutes

Industry: construction

Reviews the proper way to handle the unexpected discovery of hazardous waste on the jobsite including stop work, notifying the designated person, and securing the site.

Assoc General Contractors of America, 1992

## **Hazardous Waste Operations**

## **HAZWOPER training: Awareness level**

Number: VT01490

Material: video 20 minutes

Industry: general industry

Designed for all employees, discusses the standard, hazardous materials definitions, and the activities and workers covered by the standard.

Coastal Training Technologies 1990

## **Head Protection**

*See also Personal Protective Equipment*

### **Head protection: Hard hats**

Number: VT01375

Material: video 5 minutes

Industry: construction

Covers hardhat construction, how hard hats work and the importance of wearing head protection on the job.

Digital 2000, 1993

### **Head protection: Safety gear**

Number: VT01521

Material: video 10 minutes

Industry: all industries

Examines the features and benefits of wearing hard hats including how the suspension system works, adjustment, regular inspection, and maintenance.

Aims Multimedia, 1989

### **Head protection: Safety gear**

Number: VT01730 Spanish

Material: video 10 minutes

Industry: all industries

See previous description.

Aims Multimedia, 1989

## **Healthcare**

*See also Laboratories*

### **Bloodborne pathogens standard: How it affects you, how it protects you**

Number: VT01686

Material: video 20 minutes

Industry: health care

Reviews standard precautions, HBV vaccinations, engineering controls, work practice controls, and personal protective equipment.

Coastal Training Technologies, 1992

# Training Materials by Subject 2007

## **Bloodborne pathogens: Long-term care**

Number: VT01684

Material: video 23 minutes

Industry: health services

Discusses safe work practices and precautions including workplace transmission, reducing the risk, and personal protective equipment.

Coastal Training Technologies, 1992

## **Bloodborne pathogens: Protect your dental environment**

Number: VT01685

Material: video 19 minutes

Industry: health services

Covers safe work practices for the dental worker including workplace transmission, dealing with sharp instruments, reducing the risk, and personal protective equipment.

Coastal Training Technologies, 1992

## **Healthcare electrical safety**

Number: VT01561

Material: video 18 minutes

Industry: health services

Discusses the common hazards of using electrical monitoring and diagnostic equipment typical to the healthcare setting, basic electrical principles, and electrical safety guidelines.

Coastal Training Technologies, 1991

## **Healthcare ergonomics**

Number: VT01562

Material: video 21 minutes

Industry: health services

Covers cumulative trauma disorders and contributing factors, identifying hazards, proper lifting body mechanics, lifting and transferring of patients, workstation adjustments, and exercises.

Coastal Training Technologies, 1996

## **Healthcare PPE**

Number: VT01563

Material: video 19 minutes

Industry: health services

Covers types of PPE available to healthcare workers and how they work, how to identify hazards such as infectious and chemical, selection of PPE, proper use and removal, inspection and disposal.

Coastal Training Technologies, 1995

## **Healthcare safety orientation**

Number: VT01564

Material: video 16 minutes

Industry: health services

Gives employees an overview of workplace hazards and safety measures including slips and falls, back injuries, handling medical waste, chemicals, radiation, and the proper use of personal protective equipment.

Coastal Training 1994

## **Long term care safety orientation: Work smart, be safe**

Number: VT01753

Material: video 15 minutes

Industry: health services

Intended as a safety orientation for new employees or as a refresher for current employees who work in the nursing home industry.

IL Onsite S&H Consultation Program, 2002

## **Nursing homes: Hazards & solution**

Number: VT01497

Material: video 16 minutes

Industry: nursing homes

Discusses various hazards in nursing homes, specifically focusing on resident transfer hazards and the use of patient assist devices.

OSHA Directorate of Technical Support 1998

<http://www.osha.gov/SLTC/video/nursinghome/video.html>

## **Respirators: Your TB defense**

Number: VT01630

Material: video 16 minutes

Industry: health services

Covers the history of TB, transmission, symptoms, and respiratory protection including types of respirators, how they work, fit testing, cleaning, inspection, and storage.

US National Institute for OSH, 2000

## **Respirators: Your TB Defense/TB respiratory protection**

Number: DVD01

Material: DVD 48 minutes

Industry: health services

Discuss respiratory protection for healthcare workers, and gives step-by-step instructions for developing a respiratory protection program for tuberculosis.

# Training Materials by Subject 2007

US National Institute for OSH, 2002

## **Respirators: Your TB Defense/TB respiratory protection (CC)**

Number: DVD02

Material: DVD 48 minutes

Industry: health services

Discuss respiratory protection for healthcare workers, and gives step-by-step instructions for developing a respiratory protection program for tuberculosis.

US National Institute for OSH, 2002

## **TB respiratory protection: Administrator's review**

Number: VT01738

Material: video 48 minutes

Industry: health services

takes you step-by-step through developing a respiratory protection program for tuberculosis including risk assessment, standard operating procedures, respirator selection, and employee training.

US National Institute for OSH, 2002

## **Workers exposed: HIV and Hepatitis B**

Number: VT00504

Material: video 10 minutes

Industry: health services

Explains the means of transmission, the disposal of sharps, and how to clean up blood spills and vomit.

Oregon Occupational S&H Division, 1993

## **Workplace precautions against bloodborne pathogens: as it should be done**

Number: VT01185

Material: video 25 minutes

Industry: general industry

Highlights OSHA requirements and discusses how health care workers can protect themselves against occupational exposure to Hepatitis B and HIV.

OSHA Office of Information & , 1992  
Consumer Affairs

## **Hearing Protection**

### **Hearing**

Number: VT00377

Material: video 5 minutes

Industry: general industry

Explains how the ear operates, the effects of

noise, and the use of earmuffs and earplugs to prevent hearing loss.

Summit Training Source, 1990

### **Hearing conservation on the jobsite: Sound advice**

Number: VT01424

Material: video 13 minutes

Industry: construction

Discusses noise on the jobsite and the reason for wearing hearing protection.

Assoc General Contractors of America, 1995

### **Hearing conservation: An employee review**

Number: VT01273

Material: video 9 minutes

Industry: all industries

Discusses control of harmful noise, hearing protection, and noise-induced hearing loss.

VA Medical Center, 1991

### **Hearing protection: Safety gear**

Number: VT01731 Spanish

Material: video 13 minutes

Industry: general industry

Explains how the ear works, workplace noise hazards, the effects of noise, and the use of hearing protection including earmuffs and earplugs.

Aims Multimedia, 1989

### **Hearing safety**

Number: VT00146

Material: video 18 minutes

Industry: general industry

Stresses the hazards of both short- and long-term exposure to common levels of industrial noise, and the correct use of various protective devices.

Primedia Workplace Learning, 1986

## **Heat Stress**

*See also Cold Stress*

### **Heat stress**

Number: VT01634

Material: video 5 minutes

Industry: all industries

Covers the effects of heat on the body, health hazards and their symptoms, and preventive measures.

Summit Training Source, 1990

# Training Materials by Subject 2007

## **Heat stress prevention**

Number: VT01297

Material: video 10 minutes

Industry: all industries

Discusses the dangers of excessive heat exposure, how the body reacts in high temperatures, and precautions to take to guard against heat stroke and exhaustion.

Summit Training Source, 1989

## **Heat stress: Don't lose your cool**

Number: VT01666

Material: video 15 minutes

Industry: all industries

Discusses how to prevent or treat heat disorders including work procedures, fluid intake, eating habits, clothing, and acclimatization.

Coastal Training Technologies, 2000

## **Housekeeping**

### **Housekeeping**

Number: VT00379

Material: video 6 minutes

Industry: general industry

Discusses how proper housekeeping can reduce accidents including slips and falls and prevent fires.

Summit Training Source, 1990

### **Housekeeping on the jobsite**

Number: VT01317

Material: video 10 minutes

Industry: construction

Discusses how good housekeeping can prevent accidents on the construction site including slips and falls.

Digital 2000, 1995

### **Housekeeping on the jobsite: The winning ticket**

Number: VT01707 Spanish

Material: video 13 minutes

Industry: construction

Explains the dangers of working on cluttered jobsites including slips and falls.

Assoc General Contractors of America, 1991

### **Housekeeping responsibilities**

Number: VT01648 Spanish

Material: video 5 minutes

Industry: all industries

Covers how good housekeeping can prevent

accidents and fires including spill cleanup and oily rag disposal.

Training Network-LIP, 1994

### **Housekeeping: A matter of attitude**

Number: VT01525

Material: video 16 minutes

Industry: all industries

This humorous video points out the impacts of sloppy housekeeping and why good housekeeping is an important aspect of safety because it can prevent accidents.

Safe Expectations, 1981

### **Housekeeping: It ain't like in the movies**

Number: VT01530

Material: video 15 minutes

Industry: all industries

This humorous video, an action adventure spoof, reviews the importance of preventing accidents through good housekeeping techniques including proper tool storage and eliminating spills.

Coastal Training Technologies, 1995

## **Indoor Air Quality**

### **Breathing easy: What you should know about indoor**

#### **air quality**

Number: VT01364

Material: video 13 minutes

Industry: general industry

Discusses the factors affecting indoor air quality including ventilation systems, temperature and humidity, and sources of contaminants.

Public Building Services, 1992

## **Industrial Safety**

*See also Job Safety Analysis*

### **Safety made easy: Checklist to OSHA compliance by John R. Grubbs and Sean M. Nelson**

Number: T55.D39

Material: book 198 pages

Industry: general industry

Provides a guide to understanding and complying with OSHA Title 29 CFR 1910.

Government Institutes, 1999

### **Safety orientation: It begins with you**

Number: VT01300

Material: video 14 minutes

# Training Materials by Subject 2007

Industry: general industry

Discusses inspecting for and recognizing potential hazards and following safe work practices including lockout/tagout, lifting, forklift operations, housekeeping, bloodborne pathogens, confined spaces, and PPE.

Summit Training Source, 1996

## **Safety orientation: It takes a winning attitude**

Number: VT01462

Material: video 18 minutes

Industry: general industry

Presents an overview of workplace safety to protect workers from the most common industrial hazards including lockout/tagout, PPE, bloodborne pathogens, lifting and fire safety.

Coastal Training Technologies, 1996

## **So you're the safety director!: An introduction to loss control and safety management by Michael V. Manning**

Number: T55.M3516

Material: book 174 pages

Industry: all industries

Covers evaluating and managing a company safety program, investigating accidents, preparing for and handling OSHA inspections.

Coastal Training Technologies, 1996

## **Supervisor's safety manual**

Number: T55.S8156

Material: book 341 pages

Industry: all industries

Covers safety management and training, hazards and prevention, and accident investigation.

National Safety Council, 1991

## **Job Safety Analysis**

### **Job hazard analysis: A guide to identifying risks in the workplace by George Swartz**

Number: T55.S93

Material: book 205 pages

Industry: all industries

Provides a step-by-step guide to identifying and preventing occupational hazards on the job.

Government Institutes, 2001

### **Job safety analysis**

Number: VT01752

Material: video 10 minutes

Industry: all industries

Offers an overview of job safety analysis

including how to identify the hazards which are associated with each job step and identifying the proper way of doing the job.

IL Onsite S&H Consultation Program, 2000

### **Job safety analysis for construction: Step-by-step**

Number: VT01572

Material: video 14 minutes

Industry: construction

Discusses the elements of the job safety analysis process used for planning work, and identifying and controlling potential job site hazards.

Assoc General Contractors of America, 1993

## **Job Stress**

### **Working with stress**

Number: VT01739

Material: video 17 minutes

Industry: all industries

Covers how job stress poses a threat to both the well-being of workers and companies, the body's physical and psychological responses to stress, and the causes and prevention of job stress.

US National Institute for OSH, 2002

### **Working with stress**

Number: DVD05

Material: DVD17 minutes

Industry: all industries

See previous description.

US National Institute for OSH, 2002

### **Working with stress (CC)**

Number: DVD06

Material: DVD17 minutes

Industry: all industries

See previous description.

US National Institute for OSH, 2002

## **Laboratory Safety**

### **HIV in the research laboratory**

Number: VT01748

Material: video 28 minutes

Industry: general industry

Identifies causes of laboratory-acquired infections and safety practices to protect against HIV.

Howard Hughes Medical Institute, 1994

# Training Materials by Subject 2007

## **Lab safety: Assessing risks of toxic chemicals**

Number: VT01747

Material: video 11 minutes

Industry: general industry

Covers risk assessment, determining a chemical's inherent toxicity, potential routes of exposure, acute versus chronic toxicity, duration and frequency of exposure.

Howard Hughes Medical Institute, 1994

## **Lab safety: Chemical hazards**

Number: VT01744

Material: video 10 minutes

Industry: general industry

Demonstrates safe work practices and procedures that apply when working with hazardous chemicals.

Howard Hughes Medical Institute, 1994

## **Lab safety: Chemical storage hazards**

Number: VT01746

Material: video 11 minutes

Industry: general industry

Reviews the basic principles of safe chemical storage for organic and inorganic chemicals, acids, bases, flammables, toxics, caustics, oxidizers, and corrosives.

Howard Hughes Medical Institute, 1994

## **Lab safety: Emergency response**

Number: VT01745

Material: video 12 minutes

Industry: general industry

Addresses fire, personal injuries, and radiation, chemical and biological spills and demonstrates proper safety procedures.

Howard Hughes Medical Institute, 1994

## **Lab safety: Handling hazardous chemicals**

Number: VT01689

Material: video 21 minutes

Industry: general industry

Discusses the requirements of the Laboratory Safety Standard, hazard identification, exposure monitoring and PELs, recordkeeping, and emergency procedures.

Coastal Training Technologies, 1990

## **Lab safety: Practicing safe science**

Number: VT01743

Material: video 29 minutes

Industry: general industry

Demonstrates safe practices, features

reenactments of actual laboratory accidents, and poses questions to help the viewer recognize risks associated with scientific protocols.  
Howard Hughes Medical Institute, 1994

## **Lab safety: Under the hood**

Number: VT01603

Material: video 18 minutes

Industry: general industry

Discusses safe work practices, how to recognize common laboratory chemical and health hazards, laboratory hoods, how to use a Chemical Hygiene Plan and emergency procedures.

Coastal Training Technologies, 1998

## **Ladders and Stairways**

### **Construction stairways and ladders**

Number: VT01436

Material: video 12 minutes

Industry: construction

Discusses ladder and stairway hazards and safety precautions including proper setup and use, slope ratio, inspection and maintenance, and construction.

Coastal Training Technologies, 1992

### **Ladder safety**

Number: VT01508

Material: video 6 minutes

Industry: all industries

Covers selecting the proper ladder for the job, inspection, truck racks, and proper set-up and use.

Summit Training Source, 1990

### **Ladder safety: Construction**

Number: VT01381

Material: video 5 minutes

Industry: construction

Explains safe use requirements for ladders including proper set-up, inspection, 4:1 ratio, and climbing techniques.

Training Network-LIP, 1994

### **Ladder safety: Construction**

Number: VT01570

Material: video 6 minutes

Industry: construction

Covers the safe use of ladders including inspection, 4:1 pitch ratio, the 3-point rule, safe climbing techniques, and job-made ladders.

Assoc General Contractors of America, 1992

# Training Materials by Subject 2007

## **Ladder safety: Construction**

Number: VT01672 Spanish  
Material: video 6 minutes  
Industry: construction  
See previous description.  
Assoc General Contractors of America, 1992

## **Ladder safety: Fall prevention**

Number: VT01545  
Material: video 12 minutes  
Industry: all industries  
Explains the principles of ladder selection, inspection, set-up and use, and safe climbing techniques.  
Primedia Workplace Safety, 1993

## **Ladder safety: Step right up**

Number: VT01279  
Material: video 19 minutes  
Industry: general industry  
This humorous video demonstrates safety tips and procedures when using portable ladders including carrying, inspection, erecting, securing, and climbing.  
Coronet/MTI Film & Video, 1981

## **Stairway and ladder safety: Success at the top**

Number: VT01425  
Material: video 17 minutes  
Industry: construction  
Discusses ladder and stairway safety including point of access, inspection, ladder ratings, and requirements for jobmade ladders and stairways such as height limits, lumber strengths, siderails, tie-down, treads, risers, and stair-rail heights.  
Assoc General Contractors of America, 1991

## **Stairways and ladders: Construction safety**

Number: VT01389  
Material: video 7 minutes  
Industry: construction  
Mostly discusses ladder safety including step and straight ladder set-up, how to choose the proper ladder for the job, pre-use inspection, and slope ratio, and stairway safety inspection.  
CoreMedia Training Solutions, 1991

## **Stairways and ladders: The first step**

Number: VT01596  
Material: video 18 minutes

Industry: all industries  
This video, which mostly covers portable and fixed ladders, reviews hazards and safety procedures including proper selection for the job, inspection, maintenance, set-up, climbing techniques, and load capacity.  
Coastal Training Technologies, 1991

## **Lasers**

### **Laser safety: Construction**

Number: VT01673  
Material: video 8 minutes  
Industry: construction  
Covers the use of lasers in construction, the four classes of lasers, the hazards of laser light, proper eye protection, and safe operating practices including the posting of warning signs.  
Assoc General Contractors of America, 1997

## **Lead**

### **Advertencia a los peligros de plomo (lead)**

Number: VT01386 Spanish  
Material: video 13 minutes  
Industry: construction  
Discusses lead hazards including health effects and personal protective equipment.  
Chicago Construction Safety Council, 1996

### **Lead abatement: Safe practices**

Number: VT01261  
Material: video 26 minutes  
Industry: construction  
Discusses lead hazards and ways of preventing exposure in the construction industry.  
Laborers-AGC Education and , 1995  
Training Fund

### **Lead exposure in construction: Caution!**

Number: VT01705  
Material: video 11 minutes  
Industry: construction  
Discusses sources of lead exposure, lead poisoning symptoms, protective measures, and the hazards of lead in the construction industry.  
Western Consortium for Public Health 1993

### **Lead exposure in construction: Exposing the facts**

Number: VT01705

# Training Materials by Subject 2007

Material: video 17 minutes  
Industry: construction  
Describes how lead is used in the construction industry, its effects on the human body, and how workers can protect themselves from overexposure.  
Assoc General Contractors of America, 1992

## **Lead in construction: Medical surveillance**

Number: VT01265  
Material: video 15 minutes  
Industry: construction  
Discusses medical examinations and surveillance program that employers are required to provide workers exposed to lead in construction.  
Laborers-AGC Education and Training Fund 1993

## **Lead safety in the demolition industry**

Number: VT01260  
Material: video 15 minutes  
Industry: wrecking and  
Discusses lead exposure, its health effects, and ways of preventing exposure  
National Assoc of Demolition Contractors 1994

## **Lead safety in the demolition industry**

Number: VT01266 Spanish  
Material: video 15 minutes  
Industry: wrecking and  
See previous description.  
National Assoc of Demolition , 1994  
Contractors

## **Lead safety on the construction site: Employee**

Number: VT01236  
Material: video 29 minutes  
Industry: construction  
Discusses lead hazards, health effects, sources of lead exposure, medical surveillance, engineering and work practice controls, and abatement procedures.  
Chicago Construction Safety Council, 1993

## **Lead safety on the construction site: Employer**

Number: VT01237  
Material: video 26 minutes  
Industry: construction  
Covers compliance programs, lead hazards, health effects, exposure assessment, control measures, OSHA requirements, recordkeeping requirements, and safety program evaluation.

Chicago Construction Safety Council, 1993

## **Lead standard**

Number: VT01661  
Material: video 6 minutes  
Industry: all industries  
Discusses how lead enters the body, the health hazards associated with overexposure, safety procedures, and preventive measures.  
Summit Training Source, 1996

## **Lead: Treat it with respect**

Number: VT01463  
Material: video 17 minutes  
Industry: construction  
Discusses the dangers of lead hazards in construction, how lead enters the body, exposure limits, PPE, housekeeping, and medical surveillance.  
Coastal Training Technologies, 1993

## **Working safely with lead: Construction**

Number: VT00547  
Material: video 20 minutes  
Industry: construction  
Discusses the potential health hazards involved with overexposure to lead, routes of entry into the body, safety precautions and medical surveillance.  
Primedia Workplace Learning, 1994

## **Lockout/Tagout**

### **Construction lockout/tagout**

Number: VT01458  
Material: video 10 minutes  
Industry: construction  
Discusses the prevention of unexpected start-ups of equipment during servicing and maintenance including how lockout/tagout systems operate and a six-step safety procedure.  
Coastal Training Technologies, 1992

### **Construction lockout/tagout: Take control**

Number: VT01427  
Material: video 20 minutes  
Industry: construction  
Reviews the types of hazardous energy found on the jobsite, identifying potential hazards, proper lockout/tagout procedures, and equipment re-energizing procedures.  
Assoc General Contractors of America, 1993

# Training Materials by Subject 2007

## **Lockout for life! Lockout/tagout case histories**

Number: VT01444

Material: video 20 minutes

Industry: general industry

Shows dramatic re-enactments of actual accidents, reviews the hazards of uncontrolled energy, details correct procedures for locking and tagging, proper equipment shutdown and isolation, and proper safety procedures.

Coastal Training 1992

## **Lockout tragedy: Danger zone**

Number: VT01750

Material: video 15 minutes

Industry: general industry

This high-impact video retells the story of a worker who lost his life in an avoidable accident involving improper lockout procedures.

Coastal Training Technologies, 2001

## **Lockout/tagout for machine shop employees**

Number: VT01239

Material: video 18 minutes

Industry: general industry

Discusses lockout/tagout procedures for machine shop employees.

National Tooling and Machining Association , 1992

## **Lockout/tagout for machine shop managers**

Number: VT01238

Material: video 19 minutes

Industry: general industry

Discusses lockout/tagout procedures for machine shop employees.

National Tooling and Machining Association, 1992

## **Lockout/tagout procedures**

Number: VT01306

Material: video 6 minutes

Industry: general industry

Covers proper procedures for isolating various types of hazardous energy including electrical, mechanical, hydraulic and pneumatic, and the procedures to take when restarting equipment.

Summit Training Source, 1990

## **Lockout/tagout safety procedures**

Number: VT01277

Material: video 17 minutes

Industry: general industry

Discusses energy control during the maintenance and servicing of equipment. NOTE: Washington State may have stricter standards than Federal OSHA.

WA State Dept of Labor and , 1992  
Industries

## **Lockout/tagout: Controlling the beast**

Number: VT01470

Material: video 19 minutes

Industry: general industry

Graphically demonstrates the hazards of uncontrolled energy, reviews and explains the purpose of proper lockout/tagout procedures and the dangers if those procedures are not followed.

Coastal Training Technologies, 1994

## **Lockout/tagout: Real, real-life**

Number: VT01608

Material: video 18 minutes

Industry: general industry

This interactive video covers the when, where and why of lockout including safe work practices, proper locking/tagging procedures, and spotting potential dangers.

Coastal Training Technologies, 2000

## **Lockout/tagout: Real, real-life**

Number: VT01718 Spanish

Material: video 18 minutes

Industry: general industry

See previous description.

Coastal Training Technologies, 2000

## **Lockout/tagout: safety training for employees**

Number: VT01552

Material: video 15 minutes

Industry: general industry

Provides an overview of the standard and demonstrates proper safety procedures including how to apply and remove safety devices, the requirements for locks and tags, inspections, recordkeeping, and maintaining lockout/tagout during shift changes.

J.J. Keller & Associates, 1995

## **Lockout/tagout: The process of controlling hazardous energy by Edward R. Grund**

Number: T55.G77

Material: book 429 pages

Industry: general industry

Covers safeguards and practices to protect workers when servicing, repairing, adjusting, and

# Training Materials by Subject 2007

inspecting machinery, equipment, and processes.  
National Safety Council, 1995

## Logging Operations

### Conducting a safety meeting in the field

Number: VT01250  
Material: video 14 minutes  
Industry: logging  
Discusses how to conduct a safety meeting at the work site.  
University of Idaho, 1992

### Ground skidding

Number: VT01257  
Material: video 11 minutes  
Industry: logging  
This video, developed for Pacific Northwest logging, covers the basic safety procedures of ground skidding.  
University of Idaho, 1992

### Landing safety

Number: VT01251  
Material: video 18 minutes  
Industry: logging  
This logging video discusses safety measures to be taken at landing areas.  
University of Idaho, 1992

### Line skidding

Number: VT01252  
Material: video 16 minutes  
Industry: logging  
Covers safety procedures for skidding with a gravity yarder.  
University of Idaho, 1992

### Loading and hauling

Number: VT01253  
Material: video 17 minutes  
Industry: logging  
Discusses safety procedures for drivers and loader operators during the loading and hauling of logs.  
University of Idaho, 1992

### Logging body mechanics

Number: VT01292  
Material: video 22 minutes  
Industry: logging  
Discusses the prevention of back injuries for loggers working with chain saws and logging

equipment.  
Lumberjack Resource Development , 1995  
Council

### Logging safely in the Intermountain Northwest

Number: VT01254  
Material: video 18 minutes  
Industry: logging  
Gives an overview of logging operations and safety practices.  
University of Idaho, 1992

### Mechanized logging

Number: VT01255  
Material: video 12 minutes  
Industry: logging  
Covers the basics of safe mechanized logging.  
University of Idaho, 1992

### Physics of falling

Number: VT01256  
Material: video 14 minutes  
Industry: logging  
This video, developed for Pacific Northwest logging, discusses the basics of safe tree falling including saw cuts.  
University of Idaho, 1992

## Machine Guarding

### Machine guarding

Number: VT01307  
Material: video 7 minutes  
Industry: general industry  
Discusses different types of guards, the importance of not bypassing guards, and the use of guards in lockout procedures.  
Summit Training Source, 1990

### Machine guarding

Number: VT01395  
Material: video 16 minutes  
Industry: general industry  
Provides an overview of machine hazards including point of operation and pinch points, the necessity and techniques of machine guarding, safety precautions, and guarding devices including sensors, restraints, pullbacks and gates.  
Primedia Workplace Learning, 1989

# Training Materials by Subject 2007

## **Machine guarding**

Number: VT01445

Material: video 14 minutes

Industry: general industry

Describes machine hazards, the categories and types of machine guards, the importance of using guards, the places where machine hazards occur such as pinch points, and safety control devices including pullbacks and gates.

Coastal Training Technologies, 1992

## **Machine guarding**

Number: VT01719 Spanish

Material: video 14 minutes

Industry: general industry

See previous description.

Coastal Training Technologies, 1992

## **Machine guarding: A management & employee safety program**

Number: VT01700

Material: video 18 minutes

Industry: general industry

Explains the roles of management and employees, discusses the elements of a sound machine guarding policy, and maintaining a safe work environment.

J.J. Keller & Associates, 1995

## **Machinery and machine guarding**

Number: VT01755

Material: video 15 minutes

Industry: general industry

Covers ways to safeguard machinery and shows a variety of machine safeguarding techniques.

IL Onsite S&H Consultation Program, 2003

## **Material Safety Data Sheets**

*See also Hazardous Substances*

### **HazCom: Understanding MSDS**

Number: VT01246

Material: video 19 minutes

Industry: construction

Discusses the eight sections required on material safety data sheets including health hazards and exposure prevention.

Laborers' National H&S Fund, 1993

### **HazCom: Using MSDS**

Number: VT01538

Material: video 12 minutes

Industry: general industry

This humorous video provides a basic overview of a typical material safety data sheet, how to read and use them, and the reasons to consult a MSDS when working with hazardous chemicals.

Industrial Training Systems, 1996

### **MSDS**

Number: VT00383

Material: video 5 minutes

Industry: general industry

Explains how to read and use a material safety data sheet.

Summit Training Source, 1990

### **MSDS: Communicating chemical safety**

Number: VT01546

Material: video 15 minutes

Industry: all industries

Provides a basic overview of a typical material safety data sheet including the types of information they contain, and why they should be consulted when working with chemicals.

Industrial Training Systems, 1994

### **MSDS: Read it before you need it!**

Number: VT01464

Material: video 20 minutes

Industry: general industry

This video will help employees use and understand the various sections of material safety data sheets including exposure situations, hazard prevention and personal protection, toxicology, and disposal.

Coastal Training Technologies, 1993

## **Materials Handling**

*See also Back Safety; and Warehouses*

### **From here to there: Moving things by hand**

Number: VT01523

Material: video 13 minutes

Industry: all industries

Presents the fundamentals of manual materials handling including sizing up the item to be moved, proper lifting techniques, and the use of handcarts and trucks.

Safe Expectations 1978

# Training Materials by Subject 2007

## **Material handling equipment safety**

Number: VT01618

Material: video 9 minutes

Industry: general industry

Covers safe operating procedures for 2-wheel dollies, cages, manual pallet jacks, gas and electric forklifts, stock chasers, stock pickers and electric jacks.

Aims Multimedia, 1991

## **Materials handling and storage**

Number: VT01474

Material: video 22 minutes

Industry: general industry

Discusses safety procedures when using common material handling equipment including forklifts, cranes, hoists, and conveyors.

Kirkwood Community College, 1995

## **Materials handling and storage: Hazardous and flammable**

Number: VT01606

Material: video 9 minutes

Industry: all industries

This humorous video covers safety principles for the handling and storage large quantity hazardous and flammable materials including manual and equipment handling, stacking, proper storage techniques, and storage areas.

Industrial Training Systems, 1995

## **Materials handling safety: Making the right move**

Number: VT01417

Material: video 14 minutes

Industry: construction

Discusses hazards and safety procedures when handling and storing construction materials including proper lifting techniques, storage areas, and safe stacking methods for materials.

Assoc General Contractors of America 1992

## **Offices**

### **Mailroom safety**

Number: VT01734

Material: video 6 minutes

Industry: all industries

Covers how to recognize suspicious packages, helps dispel myths about the hazards presented by suspicious packages, and proper procedures for handling suspect mail.

Summit Training Source, 2002

### **Office safety**

Number: VT01735

Material: video 5 minutes

Industry: all industries

Covers how to recognize potential hazards and take preventive measures to help eliminate incidents including slips and falls and back injuries.

Summit Training Source, 1990

### **Oops! Your office is showing**

Number: VT01278

Material: video 15 minutes

Industry: all industries

Discusses how to identify the causes of office accidents and ways to prevent them including workstation design, and proper lifting techniques.

WA State Department of Labor and Industries, 1992

### **Working smart: General office safety**

Number: VT01452

Material: video 20 minutes

Industry: general industry

Discusses identifying office hazards and ways to prevent accidents including slips and falls, hazardous substances, flammable chemicals, and ergonomics.

Coastal Training Technologies, 1992

## **OSHA**

### **All about OSHA**

Number: VT01679 Spanish

Material: video 8 minutes

Industry: all industries

Provides an introduction to OSHA for the Spanish-speaking workforce including Latino accident statistics, OSHA inspections, reporting job hazards, and employer responsibilities.

NOTE: Mention is made of some Georgia statistics.

OSHA Atlanta West Area Office, 2000

### **OSHA 10-hour construction PowerPoint**

# Training Materials by Subject 2007

Number: CD01

Material: CD10

Industry: construction

Emphasizes hazard identification, avoidance and control in the following subjects: OSHA, electrical, fall protection, excavations, cranes, materials handling and storage, hand and power tools, ppe, scaffolds, and stairways and ladders. OSHA Office of Training and , 2003

Education

[http://www.osha.gov/fso/ote/training/outreach/const\\_outreach\\_tp.html](http://www.osha.gov/fso/ote/training/outreach/const_outreach_tp.html)

## **OSHA 10-hour general industry PowerPoint**

Number: CD02

Material: CD10

Industry: general industry

Hazard identification, avoidance and control in the following subjects: OSHA, bloodborne pathogens, electrical, fire protection, flammable liquids, ppe, hazard communication, machine guarding, walking-working surfaces, and safety and health programs.

OSHA Office of Training and Education, 2003

[http://www.osha.gov/fso/ote/training/outreach/gi\\_outreach\\_tp.html](http://www.osha.gov/fso/ote/training/outreach/gi_outreach_tp.html)

## **OSHA at work**

Number: VT01184

Material: video 22 minutes

Industry: all industries

Describes OSHA and its functions. NOTE: First two minutes of video contains extraneous material.

OSHA Office of Information & , 1991

Consumer Affairs

## **OSHA in review**

Number: VT01233

Material: video 10 minutes

Industry: all industries

Reviews the history of OSHA through film footage of former Assistant Secretaries.

OSHA, 1989

## **OSHA inspection: Overcoming the fear**

Number: VT01691

Material: video 24 minutes

Industry: all industries

Discusses how to prepare for an OSHA inspection and what to expect including the opening conference, what is included in the inspection tour, the closing conference, types of

violations and their penalties, and how to appeal a citation.

Coastal Training Technologies, 1994

## **OSHA inspection: Preparation and response by Rick Kaletsky**

Number: T55.K26

Material: book 438 pages

Industry: all industries

Covers how OSHA works, what employers need to do in order to have an effective safety and health program, and how to prepare for and respond to an OSHA work site inspection.

McGraw-Hill, 1997

## **OSHA on-site consultation program**

Number: VT01756

Material: video 10 minutes

Industry: all industries

Provides an overview of the services provided by state OSHA Consultation Programs by presenting a jointly developed Industry/OSHA silica hazard control program.

IL Onsite S&H Consultation Program, 2002

## **OSHA recordables**

Number: VT01736

Material: video 6 minutes

Industry: all industries

Covers the recording of workplace illnesses and accidents on the OSHA 300, 300-A, and 301 forms including what records must be kept and how to determine what goes on the record.

Summit Training Source, 2002

## **OSHA recordkeeping: On the record**

Number: VT01681

Material: video 18 minutes

Industry: all industries

Discusses the revised OSHA recordkeeping system including how to distinguish between a recordable and non-recordable incident and the new OSHA 300, 300-A, and 301 forms.

Summit Training Source, 2001

## **OSHA recordkeeping: True to form**

Number: VT01680

Material: video 13 minutes

Industry: all industries

Covers the revised OSHA recordkeeping system including an overview of changes, when to begin and end counting, employee privacy issues, procedures, and the new OSHA forms 300, 300-

# Training Materials by Subject 2007

A and 301.

Coastal Training Technologies, 2001

## **OSHA top ten**

Number: VT01771

Material: video 25 minutes

Industry: general industry

Points out the most common OSHA violations for general industry including machine guarding, lockout/tagout, hazard communication, warning signs and labels, and employee training.

Coastal Training Technologies, 2002

## **OSHA's inspection and citation process: Construction**

Number: VT01586

Material: video 14 minutes

Industry: construction

Provides information on employer rights and responsibilities under the OSH Act including the reasons for inspections, the opening conference, inspection tour, closing conference, citations, the seven types of violations, and penalties.

Assoc General Contractors of America, 1993

## **Protecting workers: How OSHA conducts inspections**

Number: VT01258

Material: video 18 minutes

Industry: all industries

Describes the OSHA inspection process and OSHA services available to employers.

OSHA Office of Information & , 1994

Consumer Affairs

## **Protecting workers: How OSHA writes standards**

Number: VT01183

Material: video 13 minutes

Industry: all industries

Describes how OSHA standards are developed using the excavation standard as an example.

OSHA Office of Information & , 1992

Consumer Affairs

## **Painting**

*See also Construction Trades*

### **Spray painting: Dual protection**

Number: VT01269

Material: video 14 minutes

Industry: general industry

Discusses the spray-painting process, its health

hazards, and basic control strategies for dealing with these hazards.

US National Institute for OSH, 1984

## **Personal Protective Equipment**

*See also Eye Protection;, Foot Protection; Hand Protection; Head Protection; Hearing Protection; and Respiratory Protection*

### **Personal protective equipment**

Number: VT01287

Material: video 9 minutes

Industry: all industries

Discusses types of hazards found in the workplace and appropriate personal protective equipment.

Training Network-LIP, 1992

### **Personal protective equipment**

Number: VT00386

Material: video 5 minutes

Industry: all industries

Demonstrates the proper use of personal protective equipment including hard hats, respirators, eye protection, and gloves.

Summit Training Source, 1990

### **Personal protective equipment**

Number: VT01286

Material: video 6 minutes

Industry: all industries

Covers the selection and use of hard hats, gloves, safety glasses, and earmuffs.

Training Network-LIP, 1992

### **Personal protective equipment for construction: Best strategy**

Number: VT01407

Material: video 12 minutes

Industry: construction

Discusses the safety reasons for using PPE, sizing up the job, choosing the proper PPE, and the use of hard hats, earplugs and muffs, face shields, safety shoes, gloves, safety glasses and goggles, respirators, and fall protection.

Assoc General Contractors of America, 1995

### **Personal protective equipment for construction: Best strategy**

Number: VT01646 Spanish

# Training Materials by Subject 2007

Material: video 12 minutes  
Industry: construction  
See previous description.  
Assoc General Contractors of America 1995

## **Personal protective equipment for head, eye/face, hand, foot**

Number: VT01398  
Material: video 19 minutes  
Industry: all industries  
Discusses matching personal protective equipment with the hazards associated with the job, proper selection, fit, inspection, and maintenance of hard hats, safety glasses, gloves, and work boots.  
Primedia Workplace Learning, 1992

## **Personal protective equipment training**

Number: VT01553  
Material: video 22 minutes  
Industry: general industry  
Covers eye and face, head, foot, hand, hearing, and respiratory personal protective equipment, how to use it, fit testing, maintenance and inspection.  
J.J. Keller & Associates, 1994

## **Personal protective equipment: Danger zone**

Number: VT01652  
Material: video 12 minutes  
Industry: general industry  
Stresses the importance of assessing hazards prior to PPE selection and includes demonstrations of the proper use and care of hard hats, safety glasses, goggles, respirators, gloves, and shoes.  
Summit Training Source, 1992

## **Personal protective equipment: Real, real-life**

Number: VT01493  
Material: video 14 minutes  
Industry: all industries  
This humorous video discusses the use of various types of personal protective equipment and shows re-enactments of real-life situations and asks viewers to think how they would respond.  
Coastal Training Technologies, 1997

## **Personal protective equipment: What's the difference?**

Number: VT01723  
Material: video 10 minutes

Industry: roofing and siding  
Covers the types of personal protective equipment needed to prevent injuries including hard hats, gloves, goggles, boots and the conditions in which it is needed.

National Roofing Contractors Assoc, 1990

## **Personal protective equipment: You're covered**

Number: VT01447  
Material: video 18 minutes  
Industry: general industry  
Covers workplace hazards and the selection, care and use of head, eye/face, foot, hand, and hearing personal protective equipment including safety glasses, types and classes of hard hats, gloves, footwear, and ear muffs and plugs.  
Coastal Training Technologies, 1994

## **Power Presses**

### **Mechanical power press safety: Don't press your luck**

Number: VT01446  
Material: video 19 minutes  
Industry: general industry  
Discusses proper safety procedures, types of presses, safeguarding devices, press operation, inspection and maintenance.  
Coastal Training Technologies, 1996

## **Process Safety**

### **Contractor's guide to process safety management: a part of the process**

Number: VT01585  
Material: video 14 minutes  
Industry: construction  
Covers work safety in industrial process facilities including hazard control, worker training, and OSHA's Process Safety Management Standard.  
Assoc General Contractors of America, 1994

### **It can happen here: Chemical disasters**

Number: VT01171  
Material: video 5 minutes  
Industry: chemical  
Describes the causes of toxic releases and explosions at chemical plants.  
Intl Chemical Workers Union, 1989

### **Line breaking: Use a permit**

Number: VT01443

# Training Materials by Subject 2007

Material: video 16 minutes  
Industry: chemical  
Discusses the dangers involved in not following process system safety procedures including line and equipment opening (LEO), LEO permits, lockout/ tagout, line-breaking procedures and post procedures, and emergency response.  
Coastal Training Technologies, 1992

## **Never again: Preventing chemical disasters**

Number: VT01172  
Material: video 49 minutes  
Industry: chemical  
Covers safety committees, risk analysis, and accidents.  
United Steelworkers of America, 1989

## **Not by chance: Chemical disasters**

Number: VT01175  
Material: video 21 minutes  
Industry: chemical  
Discusses the risks of accidental chemical releases to workers and the general public.  
AFL-CIO Industrial Union , 1990  
Department

## **Permit-required activities**

Number: VT01690  
Material: video 12 minutes  
Industry: construction  
Discusses high-risk contractor work that requires a special work permit including identifying potential hazards, safe work practices for hot work, confined space entry, excavations, asbestos, and lockout/tagout.  
Summit Training Source, 1995

## **Process incident investigation**

Number: VT01657  
Material: video 18 minutes  
Industry: general industry  
Covers the methods and techniques of gathering evidence, interviewing witnesses, analyzing details, and documenting information.  
Summit Training Source, 1993

## **Process safety for the hard hat crew**

Number: VT01621  
Material: video 12 minutes  
Industry: construction  
For contract employees working at chemical or

petroleum facilities including how the Process Safety Standard applies to them, contract employee responsibilities, safe work practices, lines of communication, and handling emergencies and accidents.

Coastal Training Technologies, 1995

## **Process safety: Employee awareness**

Number: VT01465  
Material: video 15 minutes  
Industry: general industry  
Explains basic elements of the Process Safety Standard, the importance of following proper procedures, employee participation in process safety programs, incident investigation and follow-up.

Coastal Training Technologies, 1994

## **Residential Construction**

### **Residential construction: Framing safety**

Number: VT01764  
Material: video 13 minutes  
Industry: construction  
Designed for general contractors, carpenters, and framers. Covers safe work practices including guardrails, raising walls, rolling trusses, and roof sheeting.

WA State Dept of Labor & Industries, 2000

### **Residential construction: Framing safety**

Number: VT01768 Spanish  
Material: video 13 minutes  
Industry: construction  
See previous description.  
WA State Dept of Labor & Industries, 2000

### **Residential construction: Roofing safety**

Number: VT01765  
Material: video 13 minutes  
Industry: construction  
Covers job preparation, walk-around safety inspections, ladder safety, fall protection, roofing hazards, and housekeeping.

WA State Dept of Labor & Industries, 1999

### **Residential construction: Roofing safety**

Number: VT01769 Spanish  
Material: video 13 minutes  
Industry: construction  
See previous description.  
WA State Dept of Labor & Industries, 1999

# Training Materials by Subject 2007

## **Residential construction: Siding safety**

Number: VT01766

Material: video 13 minutes

Industry: construction

Covers safety work practices including job preparation, walk-around safety inspections, PPE, ladder safety, scaffold safety, and first aid.  
WA State Dept of Labor & Industries, 1999

## **Residential construction: Siding safety**

Number: VT01770 Spanish

Material: video 13 minutes

Industry: construction

See previous description.

WA State Dept of Labor & Industries, 1999

## **Residential fall protection: Nailing it down**

Number: VT01754

Material: video 13 minutes

Industry: construction

Covers fall hazards in the residential construction industry and hazard controls such as guardrails, controlled access zones, side rails, and PPE.  
IL Onsite S&H Consultation Program, 2002

## **Residential fall protection: New options**

Number: VT01291

Material: video 13 minutes

Industry: construction

Discusses interim fall protection measures during the rulemaking period.

OSHA Directorate of Technical Support, 1996

## **Respiratory Protection**

### **Air purifying respirators**

Number: VT00357

Material: video 7 minutes

Industry: general industry

Demonstrates the care and storage of air purifying respirators, the situations where they are worn, and proper fit testing.

Summit Training Source, 1990

### **Airborne hazards**

Number: VT00358

Material: video 6 minutes

Industry: general industry

Describes airborne contaminants, their effect on the respiratory system, and the importance of selecting the right respirator for the job.

Summit Training Source, 1990

### **Construction respiratory protection: Breathing easier**

Number: VT01408

Material: video 18 minutes

Industry: construction

Provides basic information about jobsite respiratory hazards, types of respirators, selection, fit testing procedures, use, inspection and maintenance.

Assoc General Contractors of America, 1993

### **Respirators and how to use them**

Number: VT01319

Material: video 12 minutes

Industry: all industries

Covers typical workplace respiratory hazards, facts regarding respirator use, and various types of respiratory equipment.

Digital 2000 1995

### **Respirators and how to use them**

Number: VT01732 Spanish

Material: video 12 minutes

Industry: all industries

See previous description.

Digital 2000, 1995

### **Respirators: SCBA care and maintenance**

Number: VT01560

Material: video 15 minutes

Industry: all industries

Covers the care and use of the most common types of respirators including donning, fit testing, disassembly and reassembly, inspecting, and storing.

Coastal Training Technologies, 1991

### **Respiratory protection**

Number: VT01377

Material: video 5 minutes

Industry: general industry

Covers common respiratory health hazards, and the inspection, use, and storage of respiratory

# Training Materials by Subject 2007

equipment.

Digital 2000, 1993

## **Respiratory protection: Another world**

Number: VT01466

Material: video 19 minutes

Industry: general industry

Discusses respiratory protection including when it is needed, airborne hazardous substances, hazardous atmospheres, types of respirators, fit testing, maintenance, and written programs.

Coastal Training Technologies 1995

## **Rigging**

*See also Cranes, Hoists and Conveyors*

### **Crane rigging safety: Controlling the load**

Number: VT01409

Material: video 17 minutes

Industry: construction

Discusses the basics of crane rigging safety including pre-use inspection of hooks and slings, planning the lift including determining the weight, stability of the load, and the center of gravity of the load, and choice of sling.

Assoc General Contractors of America, 1992

### **Rigging equipment: Inspecting for safety**

Number: VT01479

Material: video 15 minutes

Industry: general industry

Covers the importance of both regular and periodic inspections of rigging equipment and what signs of damage to look for on synthetic web slings, metal mesh slings, chain slings, wire rope, and rigging hardware.

Primedia Workplace Learning, 1990

### **Rigging equipment: Selection and care**

Number: VT01480

Material: video 16 minutes

Industry: general industry

Introduces the characteristics, care and handling of slings (synthetic web, metal mesh, chain and wire rope) and hardware (hoist locks, shackles, eye bolts, and turn buckles) commonly used for overhead lifting in industry.

Primedia Workplace Learning, 1990

### **Rigging safety**

Number: VT01670

Material: video 13 minutes

Industry: all industries

Covers types of rigging, sling selection and inspection, pre-lift preparation, load control and dynamics, work site hazards, and safe work practices.

Summit Training Source, 1998

### **Safe rigging**

Number: VT01481

Material: video 20 minutes

Industry: general industry

Explains the procedures involved in rigging for a safe lift, the importance of lift capacity rating, types of hitches, how to calculate the load weight for simple and complex shapes, and center of gravity.

Primedia Workplace Learning, 1990

### **Wire rope: Above the hook**

Number: VT01742

Material: video 18 minutes

Industry: construction

Provides an overview of wire rope safety for crane operators including installation, inspection, maintenance, deficiencies, wedge sockets and block spinning.

Assoc General Contractors of America, 2001

## **Rim Wheels**

### **Split rim tire safety**

Number: VT01477

Material: video 6 minutes

Industry: general industry

Outlines how to remove and replace tires from rims and split rings, air pressure, and using a safety inflation cage

Training Network-LIP, 1990

## **Road Construction**

### **Avoid hot mix hazards**

Number: VT01566

Material: video 12 minutes

Industry: construction

Covers basic hot mix road construction safety including hot mix plants, hot mix transfer, dump trucks, heavy equipment, traffic control, and personal protective equipment.

Assoc General Contractors of America, 1993

# Training Materials by Subject 2007

## **Highway work zone safety: Work zone ahead**

Number: VT01693

Material: video 12 minutes

Industry: construction

Provides basic safety training to road construction workers.

Assoc General Contractors of America, 1996

## **Work zone safety training**

Number: VT01701

Material: video 18 minutes

Industry: construction

Covers the dangers of roadwork for construction and utility workers including traffic control, warning signs, flaggers, PPE, channeling devices, equipment inspection and maintenance.

J.J. Keller & Associates, 2001

## **Roofing Work**

*See also Residential Construction*

### **Fire safety: Don't get burned**

Number: VT01721

Material: video 10 minutes

Industry: roofing and siding

Covers fire hazards and burn prevention by illustrating the correct use of kettles, tankers, LP gas tanks and torches, as well as proper emergency first-aid techniques.

National Roofing Contractors Assoc, 1990

### **Roofing contractor safety**

Number: VT01632

Material: video 10 minutes

Industry: construction

Covers roofing safety awareness and safe work practices including falls, hot work, ladders, fires, material storage, cranes, weather conditions, personal protective equipment, housekeeping, and equipment use.

IL Onsite S&H Consultation Program, 2000

### **Safety awareness: It's up to you!**

Number: VT01724

Material: video 13 minutes

Industry: roofing and siding

Provides a summary of safety procedures including fall prevention, burns, proper lifting techniques and personal protective equipment.

National Roofing Contractors Assoc, 1993

### **Setting up a jobsite safely**

Number: VT01725

Material: video 9 minutes

Industry: roofing and siding

Explains the importance of planning and implementing safety procedures on the jobsite including setting up warning lines, ladder safety, and material safety data sheets.

National Roofing Contractors Assoc, 1994

## **Rubber Industry-Mills and Calendars**

### **Mill safety and rescue in the rubber industry**

Number: VT01544

Material: video 18 minutes

Industry: rubber industry

Re-creates mill accidents, demonstrates rescue methods, and discusses mill hazards, machine guards, and safe operating procedures.

Rubber Manufacturers Association, 1997

## **Sawmills**

### **X factor: Accidents in woods and millyards**

Number: VT01527

Material: video 22 minutes

Industry: logging

This award winning video uses accident reenactments to explore the reasons behind accidents in the logging industry and in millyards.

Allied Digital Technologies, 1980

## **Scaffolding**

*See also Aerial Lifts; and Walking and Working Surfaces*

### **Basic look at scaffolds for compliance officers**

Number: VT01259

Material: video 21 minutes

Industry: construction

Discusses OSHA requirements for scaffolding and scaffold construction.

OSHA Office of Construction & , 1994

Engineering

<http://www.osha.gov/SLTC/video/scaffold/video.html>

### **Construction scaffold safety**

Number: VT01529

Material: video 10 minutes

Industry: construction

Explains construction, inspection, and safety procedures including fall arrest systems for stationary, mobile, and suspension scaffolds.

# Training Materials by Subject 2007

Coastal Training Technologies, 1995

## **Construction stationary scaffolds**

Number: VT01437

Material: video 11 minutes

Industry: construction

Covers safety practices for working on and around stationary scaffolds including hazards, construction, inspection, fall prevention, and use.

Coastal Training Technologies, 1997

## **Introduction to scaffolding safety**

Number: VT01597

Material: video 22 minutes

Industry: construction

Discusses scaffold erection, hazards, and safe work practices.

National Ironworkers Training Fund, 1999

## **Mobile scaffold safety: Rolling towers**

Number: VT01587

Material: video 12 minutes

Industry: construction

Describes mobile scaffold safety including erection and dismantling, 4:1 ratio, inspection, use, fall protection, and load capacity.

Assoc General Contractors of America, 1997

## **Scaffold hazard recognition**

Number: VT01220

Material: video 24 minutes

Industry: construction

Shows jobsite situations and points out good and bad design and construction practices including base plates, frames, bracing, and planking.

CO Building & Construction Trades Council, 1982

## **Scaffold safety: Construction**

Number: VT01320

Material: video 10 minutes

Industry: construction

Covers basic safety hazards and procedures when working on stationary, mobile and suspended scaffolds including erecting, inspection, guardrails, power lines, and load capacities.

Digital 2000, 1992

## **Scaffold safety: Construction**

Number: VT01501 Spanish

Material: video 10 minutes

Industry: construction

See previous description.

Digital 2000, 1992

## **Scaffold safety: Putting it all together**

Number: VT01422

Material: video 15 minutes

Industry: construction

Provides step-by-step erecting procedures including worksite evaluation and preparation, selecting and inspection of scaffolding, siles, cross bracing, planking, access points, fall protection systems, and tie-ins to existing structures.

Assoc General Contractors of America, 1996

## **Scaffolding safety training: Construction**

Number: VT01554

Material: video 17 minutes

Industry: construction

Provides an overview of the standard and demonstrates scaffolding techniques, reviews rules on selection and construction, use of guardrails and ladders, and preventing accidents due to falling objects, falls, overloading, and structural instability.

J.J. Keller & Associates, 1997

## **Scaffolding safety: Erecting and dismantling**

Number: VT01403

Material: video 19 minutes

Industry: construction

Covers potential hazards, site evaluation and preparation, selecting and inspection of scaffolding, proper erecting and dismantling procedures, and safe work practices during erection and dismantling.

Summit Training Source, 1997

## **Scaffolding safety: Safe work practices**

Number: VT01404

Material: video 12 minutes

Industry: construction

Demonstrates the potential hazards associated with scaffolds including falls, falling objects, power lines, load capacity, inspection, and safe work practices such as fall arrest systems and

# Training Materials by Subject 2007

good housekeeping.

Summit Training Source, 1997

## **Scaffolds: Safety at all levels**

Number: VT01448

Material: video 18 minutes

Industry: construction

Covers the requirements of 1926.450-454 including hazards, safe work practices, fall arrest systems, the role of the competent person, preassembly inspection, assembly, pre-shift inspection, and maintenance.

Coastal Training Technologies, 1997

## **Scaffolds: Safety at all levels**

Number: VT01612 Spanish

Material: video 18 minutes

Industry: construction

See previous description.

Coastal Training Technologies, 1998

## **Suspension scaffolds in construction**

Number: VT01467

Material: video 10 minutes

Industry: construction

Covers safety procedures including recognizing hazards, access, hoisting, inspection, electrical hazards, and safe work practices.

Coastal Training Technologies, 1997

## **Swing stage scaffolds**

Number: VT01589

Material: video 13 minutes

Industry: construction

Covers 2-point adjustable scaffold safety including correct rigging, operation, inspection, and personal fall arrest systems.

Coastal Training Technologies, 1997

## **Signs, Signals and Barricades**

### **Construction signs and barricades**

Number: VT01495

Material: video 10 minutes

Industry: construction

Gives an overview of signs, signals and barricades used on construction sites including road construction.

Digital 2000, 1995

### **Construction warning labels and signs**

Number: VT01469

Material: video 16 minutes

Industry: construction

Discusses various labeling systems, the reason for warning labels and signs around the jobsite including chemical hazards and safety precautions.

Coastal Training Technologies, 1996

### **Construction warning signs**

Number: VT01605

Material: video 4 minutes

Industry: construction

Deals with reasons to take warning signs, found on and around construction sites, seriously because they warn of potential safety hazards. Assoc General Contractors of America, 1992

## **Silica**

### **Dust control: It's everybody's business**

Number: VT01382

Material: video 20 minutes

Industry: all industries

Discusses how to reduce worker exposure to silica dust including dust collection equipment.

US Mine Safety and Health, 1996

Administration

### **Managing silica hazards: Construction**

Number: VT01483

Material: video 14 minutes

Industry: construction

Discusses silica, its hazards, hazard assessment at the jobsite, engineering and work practice controls, personal protective equipment, and the employer's responsibilities.

Chicago Construction Safety Council, 1997

### **Silica exposure: It can leave you breathless**

Number: VT01695

Material: video 13 minutes

Industry: construction

Covers the use of silica in the construction industry, its effects on the body, and how workers can protect themselves from the hazards.

Assoc General Contractors of America, 1999

### **Silica hazard awareness: Construction**

Number: VT01482

Material: video 16 minutes

Industry: construction

Discusses silica, its hazards and health effects on

# Training Materials by Subject 2007

the respiratory system, sources of silica exposure, and exposure protection.  
Chicago Construction Safety Council, 1997

## **Stop silicosis**

Number: VT01383

Material: video 13 minutes

Industry: all industries

This black-and-white 1938 documentary discusses the causes of silicosis and its effects on the respiratory system.

USDOL 1938

## **Solvents**

### **Chemical handling: Solvents**

Number: VT01619

Material: video 12 minutes

Industry: all industries

Provides general information on solvents including the effect of solvents on the body, exposure symptoms, handling and storage, safety rules, labeling, fire hazards, and emergency response.

Coastal Training Technologies, 1992

## **Tools**

*See also Electrical Safety; Hand Protection*

### **Chainsaw leg protection**

Number: VT01758

Material: video 4 minutes

Industry: general industry

This brief but graphic video demonstrates the devastating effects of the chainsaw on various materials including jeans, old chaps, and state of the art chaps.

WA State Dept of Labor & Industries, 2002

### **Cut-off saw safety**

Number: VT01671

Material: video 9 minutes

Industry: construction

Reviews hazards, proper PPE, and safe operating practices including pre-use inspection, blade installation, refueling, startup, and guard positioning.

Assoc General Contractors of America, 1994

### **Hand and power tool safety**

Number: VT01283

Material: video 7 minutes

Industry: all industries

Discusses the common hand and power tools involved in accidents including wrenches, drills and handsaws.

Training Network-LIP, 1992

### **Hand and power tool safety**

Number: VT01284

Material: video 16 minutes

Industry: all industries

This humorous video reviews the basics of using tools including proper use, choosing the right tool for the job, inspection, and tool related accidents.

Training Network-LIP, 1991

### **Hand and power tool safety**

Number: VT01384

Material: video 12 minutes

Industry: all industries

Covers general safety rules and proper techniques when using cutting, striking, and power tools including using the right tool for the job, storage and inspection, avoiding kickbacks, and PPE.

Training Network-LIP, 1994

### **Hand and power tool safety**

Number: VT01598

Material: video 13 minutes

Industry: all industries

Discusses good safety attitudes and proper techniques as the key to injury-free use of hand and power tools including wrenches, power drills and saws.

Training Network-LIP, 1996

### **Hand and power tool safety: Construction**

Number: VT01379

Material: video 13 minutes

Industry: construction

Discusses tool care and inspection, grounding, and general safety rules including using the proper tool for the job.

Digital 2000, 1992

### **Hand and power tool safety: Construction**

Number: VT01500 Spanish

Material: video 13 minutes

Industry: construction

See previous description.

Digital 2000, 1992

# Training Materials by Subject 2007

## **Hand and power tools**

Number: VT01376

Material: video 5 minutes

Industry: all industries

Covers general safety rules when using hand and power tools including wrenches.

Digital 2000, 1993

## **Hand tool safety overview: Give safety a hand**

Number: VT01441

Material: video 15 minutes

Industry: all industries

Provides an introduction to hand tool safety including basic safety procedures, safe work practices, and proper use of wrenches, hammers, and screw drivers.

Coastal Training Technologies, 1994

## **Large power hand tool safety**

Number: VT01617

Material: video 10 minutes

Industry: all industries

Covers safety risks and precautions that should be observed when working with the impact wrench, large power drills, portable band saws, and the roto hammer.

Aims Multimedia, 1991

## **Pneumatic fastening tools**

Number: VT01611

Material: video 12 minutes

Industry: all industries

Covers the safe and effective use of pneumatic nailers and staplers including components, loading and operation, hoses and couplings, and air pressure.

Safetycare, 1995

## **Powder actuated tool safety**

Number: VT01421

Material: video 5 minutes

Industry: construction

Reviews the hazards and safety measures associated with these tools including caution when working on walls and loading.

Assoc General Contractors of America, 1992

## **Power and hand tool safety**

Number: VT01399

Material: video 21 minutes

Industry: all industries

Covers safety rules, good judgment and the

proper methods of selection, inspection and use of both hand tools and portable power tools.

Primedia Workplace Learning, 1988

## **Power tool safety: On your guard**

Number: VT01419

Material: video 14 minutes

Industry: construction

Hazards of circular, reciprocating and radial arm saws, drills, sanders, and bench and angle grinders including safety eyewear, the importance of reading and understanding the operator's manual, tool guards, proper use, and electrical safety.

Assoc General Contractors of America, 1992

## **Power tool safety: On your guard**

Number: VT01720 Spanish

Material: video 14 minutes

Industry: construction

See previous description.

Assoc General Contractors of America, 1992

## **Power tools**

Number: VT01643

Material: video 8 minutes

Industry: construction

This graphic video covers safe power tool use and operation, electrical hazards, pre-use inspection and maintenance, and personal protective equipment.

Safety Shorts, 1996

## **Powered hand tool safety: Handle with care**

Number: VT01609

Material: video 19 minutes

Industry: all industries

Discusses predicting and avoiding dangers when working with powered hand tools including safety procedures, pre-use inspection, and proper PPE.

Coastal Training Technologies, 2000

## **Training**

### **Safety meetings: Give'em what they want**

Number: VT01622

Material: video 16 minutes

Industry: all industries

Discusses how to conduct successful safety meetings including determining your needs, executing a plan, keeping the meeting interesting,

# Training Materials by Subject 2007

save time for questions, evaluate the training, and try out new material.

Coastal Training Technologies, 2000

## **Train the trainer**

Number: VT01311

Material: video 5 minutes

Industry: all industries

Covers how to conduct effective safety meetings including meeting preparation, capturing audience attention, and leading effective discussions

Summit Training Source, 1990

## **Tree Trimming**

### **Tree trimming safety**

Number: VT01478

Material: video 6 minutes

Industry: general industry

Covers hazards including contact with energy sources and falling limbs and tool maintenance.

Training Network-LIP, 1990

## **Tunneling**

### **Tunneling inspections**

Number: VT01351

Material: video 18 minutes

Industry: construction

Covers safety and health problems, safety procedures and equipment used in tunneling.

Intl Union of Operating Engineers, 1988

## **Valves**

### **Pressure valves**

Number: VT01627

Material: video 5 minutes

Industry: general industry

Discusses hazards, injury prevention, and safe work practices.

Summit Training Source, 1990

## **Ventilation**

### **Exhaust air ventilation systems: operation and maintenance**

Number: VT01095

Material: video 18 minutes

Industry: construction

Describes how to set up and operate negative air

filtration systems used in asbestos removal.

Intl Assoc of Heat and Frost Insulators 1989

### **Industrial ventilation: a practical overview**

Number: VT01188

Material: video 22 minutes

Industry: general industry

Discusses the principles of industrial ventilation to control the buildup of hazardous industrial chemicals in the air.

OSHA Office of Training and Education, 1991

## **Walking and Working Surfaces**

*See also Housekeeping; Ladders and Stairways; and Scaffolding*

### **Construction slips and falls**

Number: VT01645

Material: video 6 minutes

Industry: construction

This humorous video discusses the causes of slips and falls, proper footwear, and prevention including awareness of hazards and good housekeeping.

Safety Shorts, 1996

### **Elevated work safety**

Number: VT01536

Material: video 12 minutes

Industry: all industries

This humorous video covers general safety procedures for working on tower and suspended scaffolds, aerial lifts, and roofs including proper setup, inspection, and fall arrest systems.

Industrial Training Systems, 1996

### **Elevated work surfaces: Getting it right at height**

Number: VT01591

Material: video 21 minutes

Industry: construction

Discusses working on scaffolds, elevated and suspended work platforms, and roofs including the importance of planning and preparing the work, hazard recognition, safety procedures, and fall protection.

Vocam, 1996

### **Slips and falls**

Number: VT01310

Material: video 5 minutes

Industry: all industries

# Training Materials by Subject 2007

Discusses the causes of slips and falls on ladders, stairs, loading docks, and wet surfaces, preventive measures, and fall techniques.  
Summit Training Source, 1990

## **Slips and falls in construction**

Number: VT01321  
Material: video 10 minutes  
Industry: construction

Covers slip and fall hazards, basic safety rules, and hazard abatement including housekeeping.  
Digital 2000, 1992

## **Slips and falls in construction**

Number: VT01712 Spanish  
Material: video 10 minutes  
Industry: construction  
See previous description.  
Digital 2000, 1992

## **Slips, trips and falls**

Number: VT01510  
Material: video 15 minutes  
Industry: all industries  
Uses falls performed by stunt people to demonstrate the importance of the correct use of ladders, stair safety, good housekeeping, picking up obstacles, cleaning up spills, and fall protection equipment.  
Summit Training Source, 1990

## **Slips, trips and falls: Real, real-life**

Number: VT01610  
Material: video 17 minutes  
Industry: all industries  
This interactive video uses “real-life” situations to cover awareness and identification of potential dangers, taking action to minimize hazards including good housekeeping and spill cleanup, and minimizing improper use of equipment such as ladders.  
Coastal Training Technologies 2000

## **Walking and working surfaces: Watch your step!**

Number: VT01484  
Material: video 19 minutes  
Industry: all industries  
Discusses the proper use of equipment and procedures on various walking and working surfaces including ramps, scaffolds and platforms.  
Coastal Training Technologies, 1995

## **Warehouses**

### **Warehouse safety: It's no mystery**

Number: VT01494  
Material: video 22 minutes  
Industry: general industry  
Covers the most common hazards in warehouses and how to correct them including lifting, housekeeping, driving and working around forklifts, hazard communication, PPE, and materials handling.  
Coastal Training Technologies, 1997

## **Welding and Cutting**

*See also Compressed Gases*

### **Arc welding operations: Construction**

Number: VT01576  
Material: video 11 minutes  
Industry: construction  
Reviews safety and health hazards including operating procedures, securing the work zone, ventilation, grounding, personal protective equipment, and fire prevention.  
Digital 2000, 1992

### **Construction welding safety**

Number: VT01438  
Material: video 12 minutes  
Industry: construction  
Discusses the essentials of welding safety focusing on oxyfuel gas welding and cutting including operation procedures and safety equipment.  
Coastal Training Technologies, 1993

### **Gas welding and cutting operations: Construction**

Number: VT01579  
Material: video 14 minutes  
Industry: construction  
Explains basic safety procedures and health hazards including equipment inspection, cylinder connections, valves, fire prevention, and metal fume fever.  
Digital 2000, 1993

### **Gas welding and cutting operations: Construction**

Number: VT01711 Spanish  
Material: video 14 minutes  
Industry: construction  
See previous description.

# Training Materials by Subject 2007

Digital 2000, 1993

## **Health and safety in welding and allied processes by Nigel C. Balchin**

Number: TS227.8H

Material: book 231 pages

Industry: all industries

Identifies the hazards of major welding processes including gas welding, arc welding, brazing and soldering.

McGraw-Hill, 1993

## **Hot work permit**

Number: VT01298

Material: video 13 minutes

Industry: all industries

Discusses proper procedures and safe work practices when performing hot work (welding, cutting, grinding) including identifying potential hazards including fires and explosions, permit procedures, and personal protective equipment. Summit Training Source, 1996

## **Hot work: Welding and cutting safety in construction**

Number: VT01414

Material: video 14 minutes

Industry: construction

Covers safe work practices and procedures for gas and arc welding and cutting operations including recognizing hazards, personal protective equipment, and equipment inspection. Assoc General Contractors of America, 1994

## **Oxyacetylene safety**

Number: VT01397

Material: video 22 minutes

Industry: all industries

Discusses the importance of following basic safety rules, ten safety rules are given and illustrated, and demonstrations show the dangers and effects of misuse of oxyacetylene equipment. Primedia Workplace Learning, 1996

## **Oxyfuel gas cutting: The sure cut**

Number: VT01491

Material: video 13 minutes

Industry: all industries

Details the principles of welding safety and provides specific procedures when performing oxyfuel gas cutting including safety equipment, hook-up procedures, hazardous fumes, and

ventilation.

Coastal Training Technologies, 1990

## **Safety and health factors in welding and cutting**

Number: VT01290

Material: video 30 minutes

Industry: all industries

Discusses general safety and health hazards associated with gas and arc welding and cutting as well as techniques for controlling or reducing these hazards including gases, chemical agents, hearing loss, and fire.

OSHA Office of Training and , 1990  
Education

## **Welding safety: Securing the work zone**

Number: VT01450

Material: video 16 minutes

Industry: all industries

Explains proper procedures for oxyfuel and electric-arc welding, securing the 360-degree zone, proper ventilation, personal protective equipment, and fire watch.

Coastal Training Technologies, 1988

## **Welding: Respecting the hazards**

Number: VT01301

Material: video 13 minutes

Industry: all industries

Discusses understanding and recognizing potential hazards, safe work practices, types of welding, inspecting the welding environment and equipment, proper personal protective equipment, and fire prevention.

Summit Training Source, 1996

## **Wholesale and Retail Trades**

### **Health & safety Why care?**

Number: VT01173

Material: video 14 minutes

Industry: general industry

Presents an overview of potential hazards and safety precautions for retail, wholesale and department store employees.

Retail, Wholesale and Dept Store , 1991  
Union

### **Health & safety Why care?**

Number: VT01173S Spanish

Material: video 14 minutes

Industry: general industry

See previous description.

# Training Materials by Subject 2007

Retail, Wholesale and Dept Store , 1991  
Union

## **Workplace Violence**

### **Is it worth your life? Workplace violence prevention**

Number: VT01262

Material: video 19 minutes

Industry: retail trade

This video shows ways to prevent or defuse violent situations in retail stores. NOTE:

Washington State has a Crime Prevention Code. OSHA uses the General Duty Clause to cover this workplace hazard.

WA State Dept of Labor & Industries, 1992

### **Targeting workplace violence**

Number: VT01385

Material: video 19 minutes

Industry: general industry

Shows three scenarios (hospital/late night custodial/office) then discusses ways to prevent or defuse the situations.

Oregon Occupational S&H Division, 1997

### **Violence in the workplace**

Number: VT01703

Material: video 15 minutes

Industry: all industries

Covers the underlying causes of workplace violence, warning signs, types of threats including aggressive behavior and verbal abuse, proper response to threatening words or actions, and handling disputes with co-workers.

Training Network-LIP, 1996

### **Violence on the job**

Number: DVD03

Material: DVD27 minutes

Industry: all industries

Discusses practical measures for identifying risk factors for violence at work, and taking strategic action to keep employees safe.

US National Institute for OSH, 2004

### **Violence on the job (CC)**

Number: DVD04

Material: DVD27 minutes

Industry: all industries

Discusses practical measures for identifying risk

factors for violence at work, and taking strategic action to keep employees safe.

US National Institute for OSH, 2004

## **Youth**

### **Protecting the working teen: Youth rules!**

Number: VT01757

Material: video 15 minutes

Industry: all industries

Provides information to help employers provide a safe and healthful workplace for teenage workers as well as to recognize and eliminate workplace hazards.

IL Onsite S&H Consultation Program, 2003

# Training Materials by Subject 2007
