

does not address any matters of a sensitive nature.

Needs and Uses: This decision revised and made adjustments to the deployment schedule that must be followed by wireless carriers that chose to implement E911 service using a handset-based technology. The Commission also deferred the date for initial distribution of Automatic Location Identification (ALI)-capable handsets by seven months; adjusting the timetable for carriers to meet certain interim benchmarks for activating new ALI-capable handsets; deferred the date by which a carrier must achieve full penetration of ALI-capable handsets by one year; modified the manner in which the Commission defined full penetration; eliminated the separate handset phase-in schedule triggered by a request from a Public Safety Answering Point (PSAP), and addressed several other issues regarding implementation of enhanced 911 Phase II.

Synopsis of the Order

1. In this *Hearing Designation Order*, the Commission commences a hearing proceeding before a Commission Administrative Law Judge to determine whether the above-captioned application filed by William F. Crowell for renewal of his license for Amateur Radio Station W6WBJ should be granted. As discussed below, the record before us indicates that Castle has apparently willfully and repeatedly engaged in unlawful Commission-related activities, including, but not limited to, intentionally causing interference; transmitting music and one-way communications; and using slanderous, harassing, and indecent language on amateur frequencies. Based on the information before us, we believe that Crowell's apparent continuing course of misconduct raises a substantial and material question of fact as to whether he possesses the requisite character qualifications to be and remain a Commission licensee. Accordingly, we hereby designate his application for hearing.

2. Pursuant to sections 4(i) and 309(e) of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), and 309(e),
