Dear Ms. Morris

I write to you to support the  
Petition for Interpretive Guidance  
of climate Risk Disclosures,  
filed with the Commission on  
Sept. 18, 2007.

I am an investor, I am con-  
cerned about risks that climate  
change poses to my investments,  
and the survival of the planet.

The disclosure on climate risk  
by corporations ~~is~~ I suspect  
that it is failing to disclose  
their risks!

The SEC currently requires  
companies to disclose risks that  
could reasonably affect them  
in sales and revenue.

However, most companies are not  
in compliance & need guidance  
& intervention from the SEC  
to do so.

Sincerely  
Shirley Faircloth.
