

## Fortune 500 Green Power Challenge (as of October 8, 2008)

The Fortune 500 list represents some of America's largest companies that are buying green power in the Green Power Partnership. The combined green power purchases of these organizations amounts to more than 7.1 billion kilowatt-hours of green power annually, which is the equivalent amount of electricity needed to power more than 671,000 average American homes each year.

| Annual Green Power Usage (kWh)           | GP % of Total Electricity Use | Organization Type            | Providers  | Green Power Resources                     |
|--|-------------------------------|------------------------------|--|---|
| <b>1. Intel Corporation</b>              |                               |                              |  |   |
