

2009 COMMUNITY LENDING PLAN

I. Introduction

The Community Investment Cash Advance (CICA) regulations require each Federal Home Loan Bank to establish a Community Lending Plan. This plan, to be adopted on an annual basis, shall be approved by the Bank's Board of Directors and address the following areas:

3. How the Bank will establish quantitative community lending performance goals.

V. New Initiatives

The Bank may offer the Special Needs Assistance Program (“SNAP”) as an AHP homeownership set-aside program under which the Bank disburses AHP direct subsidy to (i) rehabilitate a single-family home which is used as the household’s primary residence. SNAP funds will be available to all current members in good standing that have enrolled in SNAP and executed a Special Needs Assistance Program Agreement (a “SNAP Agreement”). The Bank disburses SNAP funds on a homeowner-by-homeowner, first-come, first-served basis during an annual offering cycle beginning January 1 of each year and continuing until the amount of funds allocated to SNAP for that year is exhausted or the following December 31, whichever occurs first. Any unused SNAP funds will be reallocated to the general pool of AHP funds at the end of the calendar year.

- a. Only special needs households are eligible. Please see Attachment A for the definition of “special needs.” The household will qualify if at least one household member meets the special needs definition.
- b. SNAP funds may not exceed \$7,000 per household.
- c. Households must have a family income of 80% or less of the median income for the area at the time the household is accepted for enrollment by the member in the Bank’s homeownership set-aside program. The Bank considers the time of enrollment of a household by the member in the Bank’s homeownership set-aside program to be the date on which the member determines the household is income-qualified to participate in SNAP.
- d. The homeowner must sign a five-year retention agreement that meets the requirements of Section 951.9(a)(7) of the AHP Regulations and the retention requirements included in Attachment F.

- e. Households may not receive any cash back from the rehabilitation.
- f. If households receive financial counseling or maintenance training which is sufficiently documented to the Bank, up to \$500 in training costs may be paid with SNAP funds.

VI. Ongoing Initiatives

The Bank continually assesses the needs of its members, and offers new products and services when market research indicates a need.

1. The HELP (Homebuyer Equity Leverage Partnership) and EDP^{Plus} Small Business Capital Grant initiatives, launched in February 2002, are two more examples of the Bank's responsiveness to the changing needs of its members as identified through member interaction. HELP was developed following research that showed the biggest barrier to homeownership for many prospective first-time buyers in the Ninth District was the challenge to accumulate enough savings for a down payment. EDP^{Plus} was developed to help small businesses address the need for working capital, especially for start-ups and those wanting to expand.
