Iprodione; Extension of Temporary Tolerances

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has extended temporary tolerances for combined residues of the fungicide iprodione, its isomer and its metabolite in or on certain raw agricultural commodities.

DATES: This temporary tolerance expires April 15, 1997.

FOR FURTHER INFORMATION CONTACT: By mail: Connie B. Welch, Product Manager (PM) 21, Registration Division (7505C), Office of Pesticide Programs, Environmental Protection Agency, 401 M St., SW., Washington, DC 20460. Office location and telephone number: Rm. 227, CM#2, 1921 Jefferson Davis Highway, Arlington, VA, (703) 305-6900; e-mail: Welch.connie@epamail.epa.gov.

SUPPLEMENTARY INFORMATION: EPA issued a notice which was published in the Federal Register of March 8, 1995 (60 FR 12765), announcing the establishment of temporary tolerances for the combined residues of the fungicide iprodione [3-(3,5-dichlorophenyl)-N-(methylethyl)-2,4-dioxo-1-imidazolidinecarboximide], its isomer [3-(1-methylethyl)-N-(3,5-dichlorophenyl)-2,4-dioxo-1-imidazolidinecarboximide], and its metabolite [3-(3,5-dichlorophenyl)-2,4-dioxo-1-imidazolidinecarboximide] in or on the raw agricultural commodities tangerines and tangelos at 3.0 parts per million (ppm). The tolerances were issued in response to pesticide petition (PP) 3G4210, submitted by Rhone-Poulenc Ag Company, P.O. Box 12014, 2 T.W. Alexander Drive, Research Triangle Park, NC 27709-2014.

These temporary tolerances have been extended to permit the continued marketing of the raw agricultural commodities named above when treated in accordance with the provisions of the experimental use permit 264-EUP-94, which is being extended under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) as amended (Pub. L. 95-396, 92 Stat. 819; 7 U.S.C. 136).

The scientific data reported and other relevant material were evaluated, and it was determined that the extension of these temporary tolerances will protect the public health. Therefore, the temporary tolerances have been extended on the condition that the pesticide be used in accordance with the experimental use permit and with the following provisions:

1. The total amount of the active fungicide to be used must not exceed the quantity authorized by the experimental use permit.
2. Rhone Poulenc AG Company, must immediately notify the EPA of any findings from the experimental use that

have a bearing on safety. The company must also keep records of production, distribution, and performance and on request make the records available to any authorized officer or employee of the EPA or the Food and Drug Administration.

This tolerance expires April 15, 1997. Residues not in excess of this amount remaining in or on the raw agricultural commodities after this expiration date will not be considered actionable if the pesticide is legally applied during the term of, and in accordance with, the provisions of the experimental use permit and temporary tolerances. These tolerances may be revoked if the experimental use permit is revoked or if any experience with or scientific data on this pesticide indicate that such revocation is necessary to protect the public health.

The Office of Management and Budget has exempted this notice from the requirements of section 3 of Executive Order 12866.

Pursuant to the requirements of the Regulatory Flexibility Act (Pub. L. 96-354, 94 Stat. 1164, 5 U.S.C. 601-612), the Administrator has determined that regulations establishing new tolerances or raising tolerance levels or establishing exemptions from tolerance requirements do not have a significant economic impact on a substantial number of small entities. A certification statement to this effect was published in the Federal Register of May 4, 1981 (46 FR 24950).

Authority: 21 U.S.C. 346a(j).

Water Pollution Control; Program Modification Application by Utah to Administer the Sludge Management (Biosolids) Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of application and public comment period.

SUMMARY: Pursuant to 40 CFR 123.62, the State of Utah has submitted to EPA an application to revise the existing Utah Pollutant Discharge Elimination System (UPDES) program to include administration and enforcement of the

sludge management (biosolids) program. According to the State's proposal, this program would be administered by the Utah Department of Environmental Quality (DEQ).

The application from Utah is complete and is available for inspection and copying. Public comments are requested.

DATES: Public comments are to be received or postmarked on or before May 17, 1996. If the EPA is under shutdown or furlough status, comments must be postmarked by 30 calendar days from the date of this notice and the deadline will not be extended.

FOR FURTHER INFORMATION CONTACT: Janet LaCombe at (303) 312-6287, State Assistance Program, (8P2-SA); U.S.E.P.A., Region VIII; 999 18th Street, Suite 500; Denver, CO 80202-2466.

SUPPLEMENTARY INFORMATION: Section 405 of the Clean Water Act (CWA), 33 U.S.C. Section 1345, created the sludge management program, allowing EPA to issue permits for the disposal of sewage sludge under conditions required by the CWA. Section 405(c) of the CWA provides that a state may submit an application to EPA for administering its own program for issuing sewage sludge permits within its jurisdiction. EPA is required to approve each such submitted state program unless EPA determines that the program does not meet the requirements of Sections 304(i) and/or 402(b) of the CWA or the EPA regulations implementing those sections.

Utah's application for sludge management program approval contains a letter from the Governor requesting program approval, an Attorney General's Statement, copies of pertinent State statutes and regulations, amendments to the UPDES Program Description, and amendments to the UPDES/EPA Memorandum of Agreement (MOA) executed by the Regional Administrator, Region VIII, EPA, and the Director, Department of Environmental Quality.

The State of Utah has existing environmental self-evaluation laws and rules (See Section 19-7-101 to 19-7-109, Utah Annotated Code; and S.B. 149 to revise Rule 508, Utah Rules of Evidence). These provide evidentiary privilege and limited immunity for certain disclosures made in an environmental self-evaluation. Title 19 provides that no privilege exists for documents or information specifically required by state law, or in any rules, permits, administrative orders, or any other provision or ordinance addressing protection of the environment. Utah has incorporated Federal sludge
