Full Text of Announcement

I. Funding Opportunity Description

Purpose of the Program: The Grants for School-based Student Drug Testing Programs provides funds to LEAs to support development and implementation of drug-testing programs in schools.

Priority: This priority is from the notice of final priority, eligibility and application requirements, and selection criteria for this competition, published elsewhere in this issue of the **Federal Register**.

Absolute Priority: For FY 2006 and any subsequent year in which we make awards based on the list of unfunded applications from this competition, this priority is an absolute priority. Under 34 CFR 75.105(c)(3) we consider only applications that meet this priority. This priority is:

Participation in Evaluation of Mandatory Random Student Drug-Testing Programs

Under this priority, we will support local educational agencies (LEAs) that agree to participate in a national evaluation of the impact of mandatory random student drug testing on high school students' reported substance use. In order to meet this priority an applicant must:

(1) Agree to carry out its drug-testing program in a manner consistent with the randomized control trial evaluation design developed by ED and its national evaluator;

(2) Propose at least two schools with three or more grades 9 through 12 to participate in the national evaluation;

(3) Not have an existing drug-testing program in operation in any of the schools proposed by the applicant for participation in the national evaluation;

(4) Consent to the evaluator's random assignment of one-half of the schools proposed by the applicant for participation in the national evaluation to begin mandatory random student drug-testing implementation in year one of the grant (following the spring 2007 survey of students), and one-half to begin mandatory random student drug testing approximately one year later (after the spring 2008 survey of students has been completed);

(5) Agree that the schools proposed by the applicant for participation in the national evaluation will limit their mandatory random student drug-testing program to students in grades 9 through 12 and, within that group of students, to one or both of the following:

(a) All students who participate in the school's athletic program; and

(b) All students who are engaged in competitive, extra-curricular, school-sponsored activities;

Note: Competitive, extra-curricular, school-sponsored activities mean any activity under the direct control of the school in which students compete against students in another school. If the State maintains a list of sanctioned, competitive, extra-curricular, school-sponsored activities, the applicant may consider those activities to be competitive, extra-curricular, school-sponsored activities for the purposes of this program.

(6) Not promote or begin the implementation of its mandatory random student drug-testing program in any participating schools until it receives notification from the national evaluator about the random assignment of its schools to participate in the first or second wave of implementation, except that an applicant may conduct outreach and generate community support for its drug-testing policy;

(7) Delay the promotion, announcement, and start of the mandatory random student drug-testing program in schools assigned to the second wave of implementation until the spring 2008 student survey has been completed;

(8) Implement its mandatory random student drug-testing program consistently across participating schools and according to uniform LEA policies and procedures during the evaluation period; and

(9) Provide contact information to the national evaluator in order for the evaluator to obtain (a) the prior written consent of either the parent or the student if the student is 18 years of age or older or is an emancipated minor under State law and (b) student assent for student participation in the surveys (if the student does not have the right to consent as stated in this paragraph) and make available space for the administration of the surveys in the schools.

Once a participating school has begun implementing its mandatory random student drug-testing program in accordance with the requirements of this priority, and following the completion of the spring 2008 student survey, the LEA, at its discretion, may announce, promote, implement, and use grant funds for testing—

(a) In schools assigned to the second wave of implementation;

(b) Students in any grade 6 through 12 who, along with their parent or guardian, volunteer to be tested; and

(c) Students in grades 6 through 8 who participate in the school's athletic programs or competitive, extra-curricular, school-sponsored activities.

Eligibility and Application

Requirements: We establish the following eligibility requirements for applications submitted under this program:

(1) LEAs are the only eligible applicants; and

(2) An applicant may not have been the recipient of, or a participant in, a grant in 2005 under ED's School-Based Grants for Student Drug-Testing Programs competition (84.184D).

The following requirements also apply to all applications submitted under this program:

(1) An applicant may not submit more than one application for a grant under the competition.

(2) In its application, an applicant must:

(a) Clearly identify the student population that will be in the drug-testing pool including, to the extent feasible, the number of students in the pool by grade, and demonstrate a significant need for drug testing within the target population;

(b) Propose to test a minimum of 50 percent of the testing pool annually, and use at least a five-panel test (marijuana, amphetamine, cocaine, methamphetamine, and opiates);

(c) Explain how the proposed drug-testing program will be part of an existing, comprehensive drug prevention program in the schools to be served;

(d) Provide a comprehensive plan for referring students who are identified through the testing program as users of illegal drugs or legal medications taken without a prescription to a student assistance program, counseling, or drug treatment if necessary;

(e) Provide a plan to ensure the confidentiality of drug-testing results, including a provision that prohibits the party conducting drug tests from disclosing to school officials any information about a student's use of legal medications for which the student has a prescription;

(f) Provide written assurances of the following:

(i) That results of student drug tests will not be disclosed to law enforcement officials;

(ii) That results of student drug tests will be destroyed when the student graduates or otherwise leaves the LEA or private school involved;

(iii) That all positive drug tests will be subject to confirmation by a method appropriate for the type of test administered and that positive results will be reviewed and verified by a certified medical review officer, a licensed physician who is also an expert in drug and alcohol testing and the Federal regulations governing such testing;

(iv) That legal counsel has reviewed the proposed drug-testing program and advised that the program activities do not appear to violate established constitutional principles or State and Federal requirements related to implementing a mandatory random student drug-testing program;

(v) That all proposed activities will be carried out in accordance with the requirements of the Family Educational Rights and Privacy Act (FERPA) and the Protection of Pupil Rights Amendment (PPRA);

(vi) That the mandatory random student drug-testing program is ready to begin no later than 9 months after receipt of the grant award. We will consider a grantee's failure to achieve readiness to begin its program within 9 months of the grant award as failure to make substantial progress consistent with the requirements of the Education Department General Administrative Regulations (EDGAR) in § 75.253(a)(2)(i). This failure could result in loss of funding for year two of the project period or termination of the grant;

(vii) That mandatory random student drug testing will be conducted for the entire academic year in the schools selected to implement drug testing; and

(viii) That schools randomly assigned to begin drug testing in year one of the grant will not be required to consider students to be in the testing pool at any specific point in time unless they are participating in a covered activity (for example, all students participating at that time in athletics and/or all students participating at that time in competitive, extra-curricular, school-sponsored activities).

(3) Funds awarded under this program may not be used for any of the following purposes:

(a) Student drug tests administered under suspicion of drug use;

(b) Incentives for students to participate in the drug-testing program;

(c) Drug treatment;

(d) Drug prevention curricula or other prevention programs;

(e) Drug tests for students in non-competitive, extra-curricular activities who do not otherwise meet the eligibility criteria;

(f) Drug tests for students in co-curricular activities who do not otherwise meet the eligibility criteria; or

(g) Drug tests for student drivers who park on campus who do not otherwise meet the eligibility criteria.

Program Authority: 20 U.S.C. 7131.

Applicable Regulations: (a) The Education Department General Administrative Regulations (EDGAR) in 34 CFR parts 75, 77, 79, 80, 81, 82, 84, 85, 97, 98, 99, and 299. (b) The notice of final priority, eligibility and application requirements, and selection criteria published elsewhere in this issue of the **Federal Register**.

Note: The regulations in part 79 apply to all applicants except federally recognized Indian tribes.

Additional eligibility requirements are listed in this notice in section I. Funding Opportunity Description.

2. **Cost Sharing or Matching:** This program does not involve cost sharing or matching.

3. **Other:**

(a) **Participation by Private School Children and Teachers.** LEAs receiving an award under the Grants for School-Based Student Drug-Testing Program are required to provide for the equitable participation of private school children and their teachers or other educational personnel. In order to ensure that grant program activities address the needs of private school children, timely and meaningful consultation with appropriate private school officials must occur during the design and development of the program. This consultation must take place before any decision is made that affects the

opportunities of eligible private school children, teachers, and other educational personnel to participate. Administrative direction and control over grant funds must remain with the grantee. Please note that the system is unavailable on Sundays, and between 7 p.m. on Wednesdays and 6 a.m. on Thursdays, Washington, DC time, for maintenance. Any modifications to these hours are posted on the e-Grants Web site.

exception to the electronic submission requirement, and may submit your application in paper format, if you are unable to submit an application through the e-Application system because—

- You do not have access to the Internet; or

- No later than two weeks before the application deadline date (14 calendar days or, if the fourteenth calendar day before the application deadline date falls on a Federal holiday, the next business day following the Federal holiday), you mail or fax a written statement to the Department, explaining which of the two grounds for an exception prevent you from using the Internet to submit your application. If you mail your written statement to the Department, it must be postmarked no later than two weeks before the application deadline date. - (2) A legible mail receipt with the date of mailing stamped by the U.S. Postal Service,

- (3) A dated shipping label, invoice, or receipt from a commercial carrier, or

If you mail your application through the U.S. Postal Service, we do not accept either of the following as proof of mailing:

- (1) A private metered postmark, or
- (2) A mail receipt that is not dated by the U.S. Postal Service.

If your application is postmarked after the application deadline date, we will not consider your application.

Note: The U.S. Postal Service does not uniformly provide a dated postmark. Before relying on this method, you should check with your local post office.

c. Submission of Paper Applications by Hand Delivery.

If you qualify for an exception to the electronic submission requirement, you (or a courier service) may deliver your paper application to the Department by hand. You must deliver the original and two copies of your application by hand, on or before the application deadline date, to the Department at the following address: U.S. Department of Education, Application Control Center, Attention: CFDA Number 84.184D, 550 12th Street, SW., Room 7041, Potomac Center Plaza, Washington, DC 20202-4260.

V. Application Review Information

Selection Criteria: The selection criteria for this competition are from the notice of final priority, eligibility and application requirements, and selection

criteria published elsewhere in this issue of the **Federal Register**, and are listed in the application package.

VI. Award Administration Information

1. *Award Notices:* If your application is successful, we notify your U.S. Representative and U.S. Senators and send you a Grant Award Notification (GAN). We may also notify you informally.

If your application is not evaluated or not selected for funding, we notify you.

2. *Administrative and National Policy Requirements:* We identify administrative and national policy requirements in the application package and reference these and other requirements in the *Applicable Regulations* section of this notice.

We reference the regulations outlining the terms and conditions of an award in the *Applicable Regulations* section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. *Reporting:* At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multi-year award, you must submit an annual performance report that provides the most current performance and expenditure information as specified by the Secretary in 34 CFR 75.118. We also may require more frequent performance reports in accordance with 34 CFR

75.720(c). Note, however, that you will not be expected to collect data on the key GPRA measures for this program because the data will be collected and reported to ED by the national evaluator.

4. *Performance Measure:* We have identified the following key GPRA performance measure for the Grants for School-Based Student Drug-Testing programs: The reduction of the incidence of drug use in the past month and past year. The Secretary has set an overall performance target that calls for the prevalence of drug use by students in the target population to decline by 5 percent annually.

This measure constitutes the Department's indicator of success for this program. The national evaluator will collect all data required to report on GPRA in each year that grants are funded. Grantees will have no requirement to collect and report this information.
