

2002 Fast Facts for Wyoming

Data from the U.S. Census Bureau's 2002 Vehicle Inventory and Use Survey (VIUS) are now available for Wyoming. The VIUS produces state and U.S. level statistics on the physical and operational characteristics of the Nation's truck population.

There were 281.2 thousand private and commercial trucks registered in Wyoming during 2002, down approximately 4 percent from 291.3 thousand trucks in 1997.

The report includes these highlights for Wyoming:

The number of pickups registered in Wyoming during 2002 decreased an estimated 5 percent from 1997.

- Total truck registrations in 2002 included an estimated 59 percent pickups, 21 percent SUVs, and 6 percent minivans.
- Wyoming has approximately one pickup for every 3 people and about one SUV for every 8 people. It also has approximately one pickup for every 2 licensed drivers and about one SUV for every 5 licensed drivers. Estimates are taken from this report and statistics from the U.S. Department of Transportation Highways Statistics 2002.
- In 2002, an estimated 10 percent of all large trucks carried hazardous materials.
- About 73 percent of all trucks were used for personal transportation, while

24 percent were operated for business, including for-hire use.

The report also includes information on fuel efficiency, annual mileage, primary range of operation, permanent equipment, and other physical and operational characteristics.

The U.S. Summary will be issued in late 2004, followed by a microdata CD-ROM.

The Vehicle Inventory and Use Survey is conducted every five years as part of the Economic Census, and data are used by government agencies, businesses, academia, and the general public. Estimates in this report are based on data from the 2002 Vehicle Inventory and Use Survey. They contain sampling and nonsampling errors. To keep the identity of respondents confidential, some estimates may be suppressed. Users who make their own estimates, based on survey estimates, should cite the U.S. Census Bureau as the source of the original estimates only. See www.census.gov/svsd/www/02vehinv.html for measures of sampling variability and other survey information.
