**Subject: Amateur Radio license N2JAI: Warning Notice**

Dear Mr. Aber:

The control operator of the KC2JPP repeater, operating on 449.875 MHz, has requested in writing that you refrain from use of the repeater. The letter was issued as a result of your failure to follow operational rules set forth by the licensee/control operators of the repeater system for its users. You were previously requested verbally to refrain from using the system, but have apparently ignored both verbal and written requests.

You refused delivery of the letter. The Commission requires that repeaters be under the supervision of a control operator and not only expects, but requires, such control operators and licensees to be responsible for the proper operation of the repeater system. Control operators may take whatever steps are appropriate to ensure compliance with the repeater rules, including limiting the repeater use to certain users, converting the repeater to a closed repeater or taking it off the air entirely.

Please be advised that we expect you to abide by the request to stay off the KC2JPP system and any other such request by a repeater licensee, control operator or trustee. If you use the repeater again after receipt of this letter, we will initiate enforcement action against your license, which may include revocation, monetary forfeiture (fine) or a modification proceeding to restrict the frequencies on which you may operate N2JAI. Fines normally range from \$7,500 to \$10,000.

Please call me at 717-338-2502 if you have any questions about this matter.

Sincerely,

W. Riley Hollingsworth  
Special Counsel

Enclosure  
cc: FCC Northeastern Regional Director
