BI-ANNUAL SEIZURE REPORT 2003/2

Summary of individual significant seizures of narcotic drugs and psychotropic substances, as reported by Governments

covering the period

1 July - 31 December 2003

and including an update to the

Bi-annual seizure reports 2002/2 and 2003/1

(this report includes data as received by 18 February 2004)

This report contains data on significant drug seizure cases which have been reported by Governments to United Nations Office on Drugs and Crime (UNODC) for the period 1 July to 31 December 2003. Updated information on seizure cases for the period 1 July 2002 to 30 June 2003 are also included here.

The information is presented per seizure case and contains details, as reported, on the type of drug, place/city and date of seizure, the quantity seized, the origin and destination of traffic, the means of transportation and the number and nationality of traffickers. An analysis of this data is included in regional trafficking trend papers and other statistical documents prepared by UNODC.

It is anticipated that the information presented here will assist the concerned national authorities to determine the manner in which countermeasures may most effectively be applied.

The seizure data are provided to UNODC by States, in accordance with the provisions of article 18.1 (c) of the Single Convention on Narcotic Drugs, 1961, and article 16.3 of the Convention on Psychotropic Substances 1971. The international drug control treaties require States parties to furnish - in addition to information contained in the annual reports on the working of the treaties - reports of cases of illicit drug traffic which are important because of the light thrown on the sources from which drugs are obtained, the quantities involved, the methods employed by illicit traffickers or, in the case of the Convention on Psychotropic Substances, because of new trends.

At present, significant drug seizure cases are being reported by a limited number of countries. All Governments are invited to furnish reports on significant seizure cases to UNODC.

This issue of the Bi-annual Seizure Report also contains a Guidance Note for Reporting of Significant Drug Seizures. This guidance note has been prepared to facilitate and standardize the reporting of significant drug seizures by Governments. However, seizure reports received in any other format will also be taken into account.

UNODC is pleased to advise that the Bi-annual Seizure Report is now available on UNODC's website (www.unodc.org).

Guidance Note for Reporting of Significant Drug Seizures

Note: Significant drug seizures should be reported on a case by case basis.

Description of each seizure case should include details using standardized indicators.
(for further information on seizure indicators, see para 2 below and suggested matrix attached).

Threshold definition of ‘significant’ quantities

The defined thresholds of ‘significant’ quantities per drug, as used in the UNODC database are as follows:

| | |
|---|----------------------|
| Opium, cannabis herb, cannabis resin and cannabis plants: | 1 kilogram and above |
| Heroin, morphine, cocaine: | 100 grams and above |
| Psychotropic substances: | 100 grams and above |
| Seizures referring to trafficking by mail: | All quantities |

1. Style/format of reporting:

There is no particular style/format (such as a questionnaire) for reporting significant drug seizures. It is left to the reporting agency’s preference in order to maintain flexibility of reporting.

However, there are a number of indicators (seizure details) which must be included in the reports submitted (see para 2 below). Further, it would also be useful to receive seizure data listed in tabular form (to provide a better overview) and in a compiled manner (i.e. listing all seizures per month or quarter). For ease of reference, a matrix is attached which outlines a suggested way of reporting.

Seizure reports can be submitted in hard copy and/or electronically by way of email (see addresses, para 4 below).

2. Seizure indicators: (also refer to suggested matrix attached)

- Three mandatory indicators: (information on these three indicators must be available, otherwise the seizure case cannot be included in the database).
 - Date of seizure
 - Drug type

- Quantity seized
- Additional indicators: (additional information is highly useful but not mandatory)
 - Place of seizure
 - Location of seizure/installation and method of concealment/hiding place
 - Trafficking route (origin and destination of the drug/of the traffic)
 - Details of the traffickers involved (nationality, gender and age of the trafficker)
 - Other information

(For a definition of seizure indicators, see matrix attached).

3. Frequency of reporting:

In line with the general flexibility of the reporting style/format, there is no fixed schedule or deadline for reporting significant drug seizures. However, in order to maintain an up-to-date database, it would be appreciated if seizures could be reported, in a compiled list, on a monthly or quarterly basis.

4. Submission of seizure reports:

Seizure reports can be submitted in hard copy and/or electronically. Further, any enquiries regarding significant seizures should be addressed to the same contact given below.

* Indicators underlined are mandatory for reporting!

Explanation of indicators:

Date: Exact date of the seizure, including year, month and day

City: City or province where the seizure was made

Drug type: Exact type of drug
Examples: heroin, cocaine, cannabis herb, cannabis resin, amphetamine, methamphetamine, Ecstasy-type (MDMA, MDA), etc.
 (Information on drug groups, - e.g. stimulants, cannabis, - is not sufficient!)

Quantity: Exact quantity + unit of measurement (kilogram or number of tablets/units etc.)

The defined thresholds of 'significant' quantities per drug, as used in the UNODC database, are as follows:

| | |
|---|----------------------|
| Opium, cannabis herb, cannabis resin and cannabis plants: | 1 kilogram and above |
| Heroin, morphine, cocaine, cannabis liquid, coca leaf: | 100 grams and above |
| Ecstasy, lorazepam, amphetamine, diazepam | 250 tablets |
| Psychotropic substances: | 100 grams and above |
| Seizures referring to trafficking by mail: | All quantities |

(Quantities below the threshold do not have to be reported)

Location of Seizure/ Installation: Area/place where the drug was seized. Examples: building, vehicle, beach, open air, maritime zone, post office, railway station, airport, etc.

Method of Concealment/ Hiding Place: Place where the drug was hidden. Example: baggage, on body, inside clothes, swallowed, food, beverages, cosmetics, gifts, car parts, etc.

Transportation: Method of Transportation (air, road, sea, rail, mail)

Trafficking Route:

Origin: The origin of the drug (place of production)

Obtained: The place where the drug was obtained, where the traffickers collected the drug (origin of the trafficker's journey)

Destination: Intended destination of the drug (destination of the trafficker's journey)

Traffickers: Number of traffickers involved and nationality, gender and age of each trafficker.

Remarks: If any. For example, the agency which made the seizure, (i.e. police, customs, etc.)
