

# Superfund Redevelopment Initiative 10-year Anniversary

## Join us for a series of webinars to celebrate!

In July 2009, EPA celebrates the 10th anniversary of the Superfund Redevelopment Initiative (SRI). For the past decade, SRI has helped communities across the country reclaim Superfund sites and explore how reuse and cleanup can go hand in hand, resulting in outcomes that benefit everyone.

To celebrate, SRI is hosting a monthly series of webinars. The series will cover a variety of timely Superfund Redevelopment topics and highlight reuse stories from across the country. You can also read new reuse story each month at <http://www.epa.gov/superfund/programs/recycle/index.html>.

Upcoming sessions will describe a variety of Superfund Redevelopment case studies. EPA Remedial Project Managers and other site stakeholders will present details about their sites and how they moved into successful reuse. These sessions will explore challenges and opportunities of Superfund Redevelopment, allowing some of the most knowledgeable voices in Superfund Redevelopment to share their expertise.

### KICK-OFF SESSION:

**April 29, 2009 2:00-3:30 pm**

**Superfund Redevelopment: Celebrating Success!** This session provides a history and introduction to SRI by tracing SRI's roots to the present time and into the future.

**Presenters:** EPA Superfund Program will share insights on key SRI tools that effectively transition a site into reuse.
